The purpose of this memorandum is to summarize data in our files concerning Sylvia Odio, a Cuban refugee, and to attach a letter to the "National Enquirer," which has raised a question regarding FBI investigation of Odio.

By letter dated 5-11-67 an editor of the "National Enquirer" made reference to an FBI letter to the Warren Commission dated 9-21-64 wherein the FBI informed the Warren Commission it planned to display photographs of three individuals to determine if such individuals were known to Sylvia Odio. The "National Enquirer" is a well-known sex-type newspaper, is totally unreliable and is known to feature wild sensational stories.

BACKGROUND RE SYLVIA ODIO:

Sylvia Odio is an anti-Cuban refugee who resided in Dallas, Texas, at the time of the assassination. Approximately two weeks after the assassination we learned from an associate of Odio that Odio claimed she received a visit from Leon Oswald and two Mexican companions on 9-26/27-63. Odio claimed these three individuals were bringing to her a message from her father who was being held as a political prisoner in Cuba.

We conducted extensive investigation regarding Odio's claim and found absolutely no corroboration for it. We also determined that on 9-26/27-63 Oswald was en route from New Orleans to Mexico City by bus. We corroborated this through interviews of several individuals who shared the bus with Oswald.

Subsequently we received information which tended to identify three individuals who may have paid a visit to Odio in Dallas in September, 1963. These individuals were Loran Hall, William Seymour and Lawrence Howard. Our inquiries in this matter were continuing as of 9-24-64 when the Warren Commission submitted its Report on the assassination of President Kennedy to the President and subsequently to the Nation. However, we did run out this allegation and showed pictures of Hall, Seymour and Howard to Mrs. Odio but she indicated her memory was hazy and she could not recall meeting these three men. Our investigation in this particular

regard was summarized in a memorandum dated 10-2-64 at Miami, Florida, and was transmitted by letter dated 11-9-64 to Mr. Rankin of the Warren Commission.

During our investigation of Odio's allegations, we determined that she was mentally unstable, had attempted to commit suicide and was hospitalized at one time for mental illness. During her testimony before the Warren Commission on 7-22-64, Odio informed the Commission that she was under the treatment of a psychiatrist. The Warren Commission concluded that Odio had not met an individual named Leon Oswald as claimed.

Although we do not know the purpose of "National Enquirer's" inquiry, we strongly suspect that it will come out with an article attempting to prove that one Leon Oswald was involved in anti-Castro activities because of his alleged contact with Mrs. Odio, a Cuban refugee. It is noted that Perry Raymond Russo, whowas the chief witness when Clay Shaw was indicted by New Orleans Grand Jury for conspiracy in the assassination of President Kennedy, claimed that he met a Leon Oswald in the apartment of David William Ferrie and that this Leon Oswald, whom he identified as Lee Harvey Oswald, along with Clay Shaw and David Ferrie planned the assassination of President Kennedy. "National Enquirer" is actually requesting us to do its research in pinpointing our investigation which is available in National Archives. This request is absurd.

Dear Mr. Hoover:

This letter is in reference to your letter dated September 21, 1964, to Hon. J. Lee Rankin, dealing with your investigation of Loran Hall, William Seymour and Lawrence Howard, who, allegedly, visited Mrs. Sylvia Odio at her Dallas apartment in September 1963.

The last paragraph of your letter, which appears in the Warren Report (CE-3146), is as follows:

"We have obtained photographs of Loran Hall and will attempt to obtain photographs of William Seymour and Lawrence Howard for display to Mrs. Odio. We are continuing our investigation into the claims of Sylvia Odio with particular emphasis on efforts to determine if Hall, Howard and Seymour may be identical with the three individuals who visited her in late September, 1963. The results of our inquiries in this regard will be promptly furnished to you."

Your investigation is almost three years old and nothing has been officially released, or printed, concerning your findings. Could you possibly supply us with your official findings.

Any and all consideration given us in this matter will be greatly appreciated. Thanking you in advance for taking the time out from your busy schedule to answer us, I remain,

SUBJECT: ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY
NOVEMBER 23, 1963,
DALLAS, TEXAS

The Columbia Broadcasting System (CBS) is carrying a one hour, nation-wide television program for four successive nights concerning the assassination. Walter Cronkite is the chief CBS narrator. The first program was carried Sunday evening, June 25, 1967, and dealt with the subject "Did Lee Harvey Oswald shoot President Kennedy?" The programs for the other three nights are as follows:

Monday, June 26, 1967--Was there more than one assassin?
Tuesday, June 27, 1967--Was there a conspiracy?
Wednesday, June 28, 1967--Why are the American people not satisfied with the Warren Commission Report?

The first program which was presented Sunday evening concluded that Lee Harvey Oswald did kill President Kennedy. Practically all of the evidence presented by CBS was evidence that had been reported by the Warren Commission in its Report. The conclusion reached, solidly backed up the Warren Commission. It appears that the primary purpose of the CBS programs is to bring to the attention of the American people the data in the Warren Commission Report recognizing that only a very small percentage of the American people have taken the time to sit down and read the Report.

In its program, CBS highlighted the assassination film which was taken by amateur photographer Abraham Zapruder. This is the film that was purchased from Zapruder by "Life" magazine and graphically portrays the assassination sequence.

In dealing with the Zapruder film, CBS presented interviews with photographic experts who studied [illegible] of the film and arrived at the conclusion three of the blurred frames related to three rifle shots. One of the photographic experts showed a frame of the Zapruder film that had a blur in a horizontal direction and he stated such blur was caused by jerking motion of the camera by Zapruder. He demonstrated this

particular point and in so doing, he jerked the camera vertically. It should be noted that a vertical jerk of a camera would not cause a horizontal blur.

Because of the sweeping motion of Zapruder's camera as the latter followed the Presidential limousine, there are numerous blurred frames in the film. The arbitrary selection of three of these blurred frames to match areas where the shots occurred is not reliable evidence. It should be noted that these blurred frames were considered during the evaluation of the Zapruder film by the FBI Laboratory and representatives of the Warren Commission. The blurred frames were not considered strong enough evidence to support any reliable finding as to correlation with gunshots.

Although CBS did not have access to the actual camera used by Zapruder nor the actual assassination rifle used by Oswald (both of which were, of course, available to the FBI and were tested by the FBI during the investigation) from tests which CBS performed using similar cameras and similar rifles, CBS concluded that Oswald did, in fact, have ample time to fire the assassination shots in the time span shown on the Zapruder film.

SUBJECT: ASSASSINATION OF PRESIDENT

NOVEMBER 22, 1963,

PURPOSE:

James Herbert Martin, former business manager of Marina Oswald, wife of Lee Harvey Oswald, allegedly is making statements that Marina knows much more about the assassination than she has stated; that Marina knew about the assassination before it occurred and that she could have prevented the assassination had she desired. It is recommended that we immediately contact Martin and obtain the full details regarding the statements attributed to him.

BACKGROUND:

Immediately following the assassination of President Kennedy, Marina Oswald and her two children were taken by the Secret Service to the Six Flags Inn, Dallas, Texas, where James Herbert Martin was employed as resident manager. After a few days at the Inn, at the invitation of Martin, Marina and her two children took up residence in the Martin home. Martin subsequently became business manager for Marina. When Marina came to Washington, D. C., to testify before the Warren Commission during the week of 2/3/64, Martin accompanied her. Following the completion of Marina's testimony, Marina and Martin were involved in a [redacted] in a Washington, D. C., hotel. Full details of this were disseminated to the Warren Commission.

During our investigation of the assassination, we interviewed Martin on 2/15/64 concerning his knowledge of Lee Harvey Oswald and the assassination. Martin also testified before the Warren Commission on 2/27/64.

6/20/67 that Martin has been in contact with her in his attempts to obtain employment in the hotel management business at St. Petersburg, Florida. Martin has furnished considerable information to [redacted] concerning his background and his past contacts with Marina Oswald. The background information furnished by [redacted] corresponds with the data we know about Martin. According to [redacted], Martin claims that Marina is not the decent person she claims to be. Martin claims Marina consumes large amounts of vodka and contrary to popular belief, speaks very fluent English. Martin informed [redacted] that Marina claimed she had knowledge of the most important officials of the Soviet Union and when living in Russia she had complete access to all government facilities. Martin states that Marina made statements she knew about the assassination before it occurred, that she was a part of the Communist Party and could have prevented the assassination had she desired.

Martin also claims that he has knowledge of two telephone calls that were made by a man in Atlanta, Georgia, to Lee Harvey Oswald and to Jack Ruby on 11/21/63, the night before the assassination (we have previously received this allegation and have determined through our investigation following the assassination it had no basis in fact).

OBSERVATIONS:

An examination of Martin's testimony before the Warren Commission disclosed that Martin reported no information indicating Marina Oswald possessed information of the assassination before it occurred or that Marina Oswald traveled in high circles in the Soviet Union. Martin was specifically questioned concerning his knowledge of Marina Oswald by Commission Counsel Mr. Norman Redlich. Our background checks of Martin during our investigation of the assassination disclosed he was a philanderer and a scoundrel. One business associate informed us that Martin has always some scheme to get rich quick. It is desirable Martin be contacted immediately by Tampa Office and be pinned down concerning the statements he allegedly has made to [redacted] In so doing, [redacted] identity will not be disclosed since she has requested that her identity must be protected.

ACTION:

Attached is an airtel instructing the Tampa Office to immediately contact James Herbert Martin and obtain all information Martin is alleged to possess concerning the assassination. We are also instructing Tampa to pin Martin down on his allegations involving Marina Oswald as set forth above.

ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS

At 12:55 A.M., June 28, 1967, Mr. Paul Teegarden, Box 107, Rayville, Missouri, (presently in Room 623, Research Hospital, 63rd and Prospect, Kansas City, Missouri), telephonically contacted the Kansas City FBI Office, advising as follows:

He stated that he had read in the newspaper that a homosexual had been arrested regarding the assassination of President Kennedy. Mr. Teegarden also advised that he had read there was interest in proof that Lee Harvey Oswald was in New Orleans in 1961.

Mr. Teegarden advised that he was staying in the Union Hotel, New Orleans, Louisiana, in September of 1961, and remembers seeing a man who looked very much like Oswald, that was staying there also. Mr. Teegarden also stated that the hotel was run by a homosexual with a first name or nickname of "Elmer." The exact location of the Union Hotel was unknown, but it was somewhere close to Canal Street in New Orleans.

ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY, NOVEMBER 22, 1963

A confidential source, who has not been contacted sufficiently to determine the reliability of information furnished, on June 20, 1967, advised a Special Agent of the Tampa Division of the FBI as follows:

Approximately one and one-half years ago, JAMES HERBERT MARTIN had been in St. Petersburg, Florida, attempting to obtain employment in the hotel restaurant management field. At this time, a white male, (First Name Unknown) LINQUIST (phonetic), employed in the management business at the Sheraton Outrigger Motel, U. S. Highway 19 South, St. Petersburg, Florida, would not even consider employing MARTIN because he was the individual who was the Business Manager for MARINA OSWALD immediately following the assassination of President KENNEDY. MARTIN had been the Manager of the Inn of the Six Flags, Dallas, Texas, at the time, and after the assassination, had become a public relations representative for the OSWALD family. LINQUIST refused to employ him or consider him as the motel did not want the adverse publicity which accompanied MARTIN. MARTIN was unable to obtain employment in the hotel restaurant management field, and is believed to have obtained employment with Sears Department Store, St. Petersburg, Florida.

On June 15, 1967, he once again attempted to obtain employment in the hotel management business at St. Petersburg, Florida. On this date he made information available to the source that on November 22, 1963, he had been the Manager of the Inn of Six Flags, Dallas, Texas. The day after the assassination of President KENNEDY, Secret

ENCLOSURE

Service Agents or FBI Agents had contacted him and asked for a suite of rooms to be used on a confidential basis to accommodate MARINA OSWALD, her mother-in-law and LEE OSWALD's brother, as well as representatives of the Secret Service. The arrangements were made and for approximately two weeks the Government Agents held question and answer periods with members of OSWALD's family. The group moved from the motel after one of the Government Agents informed MARTIN that MARINA's location had been determined by another Government Agency and they would have to move her. The Government Agents had already conducted a background investigation on him and propositioned him to allow MARINA OSWALD and her two children to live with him in his home. He was additionally propositioned to being MARINA OSWALD's Business Manager and he accepted on a basis he would perform these duties as long as she resided with him. MARINA OSWALD and her two children took up residence with him and his family and he operated as her business manager in preparing contracts with magazines, newspapers, and other periodicals, and arranged for interviews and press releases. He indicated money came in initially at the rate of $50,000.00 per week from public donors. She resided with him for a period of three months and during the time she was at the house, Government Agents posed as attorneys and developers, who were associates of MARTIN. During press conferences MARINA OSWALD would not answer questions of reporters without an interpreter and generally would answer questions in Russian. She was presented as a considerate mother, who cared for her children and was bereaved by the loss of her husband. After meetings with the press, when she would be alone with MARTIN's family, she would always chastise the stupid Americans. MARINA OSWALD consumed large amounts of vodka and spoke very fluent English. She constantly claimed she had knowledge of the most important officials of the Soviet Union and when living in Russia she had complete access to all Government facilities. She made statements she knew about the assassination before it occurred, that she was a part of the Communist Party and could have prevented the assassination had she desired. Mrs. MARTIN maintained a diary and took down exhaustive notes concerning all such statements and comments by MARINA OSWALD and intended to write a book in the future. MARTIN allegedly knew JACK RUBY, the man who killed LEE HARVEY OSWALD, through motel and restaurant associations in Texas.

MARTIN allegedly has made statements that the prosecuting attorney, GARRISON, in New Orleans, Louisiana, was right in his investigation of "SHAW", in that SHAW was guilty of a conspiracy to kill President KENNEDY, along with 15 other individuals, and the conspiracy was instituted in the city of Atlanta, Georgia. MARTIN allegedly professed knowledge that on the night of November 21, 1963, a man made two telephone calls from Atlanta, Georgia, to Dallas, Texas. One of the calls was made to the residence of LEE OSWALD, followed by a second call to the private, unlisted telephone number of JACK RUBY. In placing the call the man informed the long-distance operator, "Mark this short conversation. It will make history!" Upon completing the call, he stated, "Everything is set". The second call, which was made to RUBY's private, unlisted phone, consisted only of the statement by the caller of "If anything goes wrong, you know what to do". MARTIN determined these calls had been made through an engineer who had a wife who knew the long-distance operator who had made these calls. MARTIN allegedly had furnished this information to the FBI or Secret Service at Dallas, Texas, who had discounted the calls.

MARTIN allegedly has made statements that President LYNDON B. JOHNSON was aware of the many problems that KENNEDY faced in Texas, and of the numerous problems that President KENNEDY had been caused by members of the criminal syndicates. MARTIN professed President KENNEDY had been trying to clean up "a dirty mess in organized crime." MARTIN professed to have a cousin or uncle in a criminal syndicate.

MARTIN professed he had a friend that knew President JOHNSON when he started out in politics. This individual claims that President JOHNSON, early in his political career, stated that he would become President of the United States. The same friend allegedly had stolen a secret ballot box, stolen at the Democratic National Convention, at which President KENNEDY was nominated for the Presidency of the United States. President JOHNSON allegedly knows what was in the box and who has it, and if the contents of same were known, it would greatly embarrass him.

MARTIN professes that since President KENNEDY's death there have been no problems for the criminal syndicate, as President JOHNSON has not been causing any problems for the "Cosa Nostra".

MARTIN indicated that the assassination of President KENNEDY was to have included Governor CONNELLY of Texas, but at the last minute someone had decided that CONNELLY would be spared.

MARTIN professed that a photograph of the Presidential car, which was presented to the Warren Commission, displayed a bullet hole on the right side of the windshield, indicating a shot had entered the car from the front, and that this testimony had been explained away as not being a bullet hole, but only as being a bug on the windshield. He allegedly testified before the Warren Commission and at that time had not yet divulged the true nature of MARINA OSWALD, concerning her proficiency in the English language, her drinking heavily of vodka, and her extensive knowledge of Russian political matters.

As Business Manager for MARINA OSWALD, he was to have obtained 10% of her income; a Dallas attorney by the name of THORNE was to obtain 5%; and LEE OSWALD's brother was to obtain 10%. MARINA OSWALD moved from his residence after three months, after a disagreement with LEE OSWALD's brother, who wanted all of the 25% involved in administering MARINA OSWALD's accounts. Additionally, OSWALD's brother claimed that all contracts and papers which had been completed while MARTIN was her Business Manager, had been completed by MARINA OSWALD when she was under sedation. After she left his home, he filed a suit for $10,500.00, for use of his home during the three month period, by MARINA OSWALD, and he received this money in a settlement out of court. MARINA OSWALD, according to MARTIN, now runs a restaurant in Dallas, Texas.

This reports on the fourth and last television (TV) program in the series by Columbia Broadcasting System (CBS) on the Warren Commission Report. During the program certain of the old criticisms of the Bureau were again mentioned and, in addition, the Bureau was criticized for not accepting the bullet found on Governor Connally's stretcher in the hospital. CBS concluded the Warren Report is the best account of what happened on 11/22/63.

BACKGROUND:

On 6/28/67, CBS newscaster Walter Cronkite presented the fourth and last TV program on the Warren Report, considering two questions: (1) Should America believe the Warren Report and (2) Could America believe the Report?

In repeating criticisms previously directed at the Bureau Cronkite quoted the Warren Report that the FBI took an "unduly restrictive view" of its dissemination responsibilities. In addition, he questioned why the FBI tests of Oswald's rifle were made at a stationary target (rather than moving) and why the FBI did not accept the bullet found shortly after the assassination on Governor Connally's stretcher when it was offered to a Special Agent by the man who found it. CBS also criticized the Warren Commission for taking the word of the FBI on the question of whether or not Oswald was an FBI informant. Commission Attorney Arlen Specter stated he was completely satisfied with the competence of the FBI.

John McCloy, a member of the Commission, described the charge that the Commission tried to cover up a conspiracy as "silly" and unreasonable. He stated the Commission's conclusions were not rushed.

Professor Henry Commager, historian, believed NOT RECORDED further inquiry into the assassination would add nothing. He said there are 199 JUL 10 1967 who have a "conspiracy mentality" and reject the ordinary explanation for the extraordinary one and CBS newsman Eric Sevareid strongly backed Commager, concluding that the idea there was a conspiracy which was being concealed was "idiotic."

Memorandum to Mr. W. C. Sullivan
RE: ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY
62-109060

OBSERVATIONS:

The criticism that we took an "unduly restrictive view" of our dissemination responsibilities is the same one the Warren Commission leveled at us. So far as the rifle tests are concerned, we did as prescribed by the Commission, that is, tested the rifle for rapidity of fire and accuracy at a stationary target at ground level. The criticism that several hours after the assassination we did not accept the bullet found in the hospital on Governor Connally's stretcher is completely unfair. We had no jurisdiction of the case when the bullet was found; the Dallas Police Department did. At that time it was gathering all of the evidence against Oswald. On the question of whether or not Oswald was an FBI informant, we did exactly what the Commission requested of us: furnished numerous affidavits that Oswald was not, gave the Commission the full Oswald file for its examination and in direct testimony by the Director and Mr. Belmont flatly denied Oswald was an informant.

Senators, Representatives, et al.

Gentlemen:

In every desciption of bullett #399 that I have read, it was characterized as virtually intacked, fully jacketed, whole. Yet on the C.B.S. report, the bullet was shown to have a noticable dent on its tail; its rear section was flattenned on one side. This has caused me to again re-appraise my thesis in regards to what happenned that day in November, 1963. I beleive the following are the cogeant points.

1. In turning the corner from Houston Street to Elm Street, the motorcade was forced farther to the right by the sharp corner, thus placing the limosine farther over in the right lane. To establish the position of the car on the street, check the difference in the tops of the heads protruding over the sign in the Zapruder film and the re-enactment. The re-enactment is about two feet farther left than it should be. See pages 100-101-102-103 of the report summarry. The driver, startled by the first shot must have veered left. Notice also the apparrent difference in position on the road in the Zapruder film, the re-enactment, and the original picture on page 113. This picture, taken from the opposite side of the road seems to place the position of the car much farther to the left, closer to the white marker, than either the Zapruder film or the re-enactment, taken from Zapruder's position. The answerto this seeming ingongruity would appear to be, that the car was indeed farther 2 right when the President was hit by the first shot and then veered left.
2. In the two picures on page 113, you can notice a slight growth in the tree. Not much, but even an inch might account for half a frame.
3. In the two pictures on 113, the Lincoln appears wider that the secret service limozine.
4. If you will now turn your attention to the photograph on page 488 of the Life Magazine of Nov. 25, 1966. Note the the large hole on the tree on the right side of that photo, marred only by a single branch. By using a ruler you can establish that there are is 2 inch between the Kennedy Stand-in and the Connally Stand-in. From the top of the Connally head to the begining of the folliage, using the same angle as the car is in, but moving the whole car over about three feet, there are 1½ inches. Looking at the picture frame #312 there appear to be slightly less then 3 feet separating the twox men in the Lincoln. This would give you a maximum of 18 feet on that right side. With the growth of the tree perhaps 19 feet but no more. No... re-measuring, I don't see how there could be more than 18 feet.

5. The frame referred to on 488 of Life is 210. The car was travelling 10.6 inches per frame. 6 feet times 12 inches 216 inches 10.6 inches into 216 inches is slightly over 20 frames. this would have John Connally emerging from under the tree at frame 190. Oswald firing at 191! AT HIS PRIMARY TARGET JOHN CONNALLY! John Kennedy well under the tree and not emerging until frame 193; not possibly a target until 194, which would rule him out as the target for the first shot, certainly the second shot and I would assume, wanting one last shot at his enemy Governor John Connally, the third and final shot from the sixth floor window. The target for all three shots then was John Connally.

6. Why? Three days after Oswald was discharged from the Marine Corps on a dire need discharge, he defected to Russia. John Connally was Secretary of the Navy at that time. The discharge was changed to dishonorable. Oswald coresponded with Connally from Russia, trying to get it reversed. After his return every job application had the phrase discharge--------? I beleive that he held Gov. Conally responsible, like Cain, for his own lousy crop. The job he finally got was for the state. John Conally was Governor of that state. The salary was low. It further infurnated him as it kept him from his wife and family, and when his wife announced that she was leaving him , that was the final blow that pushed him over the edge, from subvert retaliation against THE RIGHT WING forces opposning him such as Walker, into overt action against the symbol of the STATE OF TEXAS AND THE MILITARY AND THE FEDERAL GOVERNMENT--- Governor John Conally.

Finnally, I wonder if deep down inside, his twisted Marxist mind there lurked another reason. As I watched the testimony of witnesses from the School Book Depository I was struck by the fact that three of the witnesses were negroes, and I wondered, just what the percentage of negroes employed at the Building were, and whether Oswald in truth really resented the fact that he had to work with them at their wage level. Such a thing would be a bitter pill for the "Commander" A. Hidell to have to stomach. The line between Marxism, Nazism, Castroism, and Maoism is a fine line. Both racism and the use of Racism is known to all of them. In a mind like Lee Harvey Oswald's it might be difficult to know where one left off and the other began.

7. Now, where did that first bullet go? Since the car was further to the right, the angle from right to left was less than supposed. If it followed a direct line from the point on President Kennedy's back 5 and 3/4 inches down from his collar and 1 and 1/8 inchesright of the midpoint it would appear that it had to enter Governor Conally's Back. But did it? Remember that we started this letter by noting that the bullet #399 had a dent on one side. It is just as plain as day that it had to have hit something to get that dent. And remember that according to the thesis stated here, the right-left trajectory xxx is altered making a straighter line. Imagine , if you will, also that Kennedy is slightly to the left and Connally is slightly to the right of where the re-enactment has them seated. Also note that in frame 193 and presumably in 191 that the President has his hand raised and is facing RIGHT. Even with a back brace it would be impossible for him to do this without turning his shoulders slightly to his right. This places his tie which was presumed to be dead center, slightly to the right

7.(CONT.) [illegible] is a small bone at the [illegible] sternum and the clavicle. It is not much bigger than the tip of your li[illegible] finger. If the first bu[illegible] was travelling in less of a right-left trajectory than thought, and more of a high-low trajectory than thought, it would have hit that cartilidge, and been deflected farther to the left. Not much, mind you, but enough. The thing that had puzzled me throughout all of this was how could a bullet be deflected and still leave a hole that looked like an entrance wound. The answer I believe was in the other Doctor at Parkland who stated that it was a small wound, not clean, not jagged. Somewhere in between. Would it be possible I thought that a bullet could be altered in its direction when it was already half way out of the man's neck? Since the flattening of the bullet was in the rear maybe it was possible. Maybe a twist at that point would not have greatly altered the hole, for the contact came late, after half the bullet had passed or brushed past the point. So the first bullet entered at the back, brushed the right lung, hit on its tail the cartiledge between the sternum and the clavicle on the RIGHT SIDE, was slightly altered in its [illegible] course to the LEFT, nicked the tie on its LEFT side and proceeded on to its eventual destination.

8. Where did it go from there?

It struck the seam of John Connally's coat where the sleeve meets the body of the coat under the left shoulder. It went slightly to the left of the seam and travelled UNDER THE LINING, between the linig and the outer cloth, stuck the BACK of LEFT BREAST POCKET and COLLIDED WITH THE FOLDED HANDKERCHEEF IN THAT POCKET. Note the difference in the protrusion of the handkercheif in the pictures taken earlier in the parade and the profusion of white in frame 223. Also note the differenc in color of the hanlkercheif showing clearly in 223 and the hat that moves in front of it in 224. THEN TELL ME WHY JOHN CONALLY RAISES HIS [illegible] FROM FRAMES [illegible] 230 to 235.

LEFT ARM. Check photo pg. 47 WRS, Comm. exib.#6

9. This then is bullet # one and bullet #399. It stayed in the pocket til it fell out onto the stetcher at Parkland Hospital while the Governor was on his back. As to its being clean it seems to have inhabited nothing but pockets from that point on, pockets and sheets and hankercheifs. I should think it would be clean.

10. Governor Conally was hit by the second bullet at 234. At 230, his face shows concern and consternation. Something had happened on his left side, he had heard a shot, and felt something, but couldn't understand quite what it was. He lifted his hat, held in his right hand to see what it was. His wrist was then in a position to be hit by the second shot which entered his back cleanly exited through a large gaping hole, crashed through his right wrist from the back, shattered it, was splintered and ended up in his left leg, the fragment entering sideways, and creating a larger hole than it would seem possible.

11. Between 191 and 234 there are 43 frames. At .054645 secs. per frame, this would give Oswald 2.349735 seconds between the first and the second shots or 2.35 seconds.

12. I beleive now that the reason Dr. Humes could not probe the Kennedy back would more than a fingers length, was because the passage curved slightly at the end, thus Humes staight probe ended at the clavicle.

Thats about it. As I see it. That's the "conspiracy". The reds think we did it. And we think they did it. And in between is a phantasmagoria that has permeated every single man and woman in the whole world. In truth Lee Harvey Oswald did it, and a fine legacy he left us.

I would hope that all of the above points would meet with your approval, so that we can proceed to cure the world. Its pretty sick right now. To those who say we cannot admit our error, I would answer, nobody's perfect. The only method that man has to advance his knowledge and eventually wisdom is called the scientific method, and it is based on trial and error. Somehow, you can never know when you're right unless you have tasted the sorrows of defeat. And I expect man will never stop trying to get that one step beyond yesterdays foolishness to present laughter.

I have a quotation somewhere by a man called Jacob Reis, whom I don't really know about, but it goes something like this," For one-hundred times the workman laid his chisel against the rock, and struck it with all his might, to split it, and nothing happened. At the one-hundred and first blow the rock was cleft into two perfect halves, and he knew, twas not the last blow that did it, but all that had gone before."

My very best to you all.

Sincerely,

Edmund Cooper Johnston

NOTE:

Thrasher claims to be daughter of Brigadier General C. O. Thrasher for whom Shaw served as Aide-de-Camp, Executive Officer and Assistant Chief of Staff during World War II. She makes much of information appearing in the "Wichita Eagle" concerning Russo's testimony to the effect that as Russo observed the conspiracy Oswald was playing with or wearing an "old general's hat," and relates this old hat to her father.

She claims to have corresponded by letter and telegram with Mr. Garrison, the Governor of Louisiana and Clay Shaw [illegible] and actually visited New Orleans and personally spoke with [illegible].

Note Continued:

Thrasher further relates in her six and one half page letter that she ran across Marine Private Lee Harvey Oswald in July, 1954, and considered him at that time, due to his actions, as insane. She further alleges that according to the "Stars and Stripes," an Army newspaper, Oswald was subsequently tried for subversive activities and murder. He purportedly took pictures of classified objects, sold them to the Communists and murdered his buddy.

It would appear from her letter that Thrasher may be emotionally or mentally unstable.

ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
NOVEMBER 22, 1963

Reference is made to the Tampa Office of the Federal Bureau of Investigation communication captioned as above and dated June 21, 1967.

JAMES HERBERT MARTIN was contacted at his residence 4300 Pompano Drive, S.E., St. Petersburg, Florida on the morning of July 5, 1967 whereupon he was advised of the identities of SA JOHN EDWARD HEGARTY and STEPHEN J. LABADIE as Special Agents of the Federal Bureau of Investigation. He was advised an interview was desired and in view of the fact his children were present, one having a strep throat, he was interviewed in a Bureau vehicle.

Mr. MARTIN was advised his testimony before the Warren Commission on February 27, 1964 had been reviewed and Agents of the FBI desired to know if he had any other information whatsoever concerning the assassination and subsequent events that he had not testified to before such Commission.

Mr. MARTIN related he had no new pertinent information whatsoever since his testimony except he recalled he had testified to some information which he has never seen or heard anything about and such matter he has thought of from time to time. He said he has never heard of the result of information he testified to concerning information told to him by a resident manager of the Dinkler Plaza Hotel in Atlanta, Georgia while in the Gay Nineties, a private club in Dallas where he, MARTIN, had formerly been associated, in December, 1963 or January, 1964. The maintenance man at the Dinkler Plaza reportedly went to the resident manager with a

ENCLOSURE

ENCLOSURE

problem in that the maintenance man's wife was a long distance operator in a telephone company in Atlanta, Georgia, it not being known whether she was an employee of any hotel or not, and she had received a request for a long distance phone call from a male voice who stated, "Remember this or remember these calls as it will go down in history." This female operator then reportedly called LEE OSWALD in Dallas, Texas. She listened to the conversation and heard were words to effect "Everything is set up, proceed as planned." Apparently then there occurred a disconnect but the male was still on the line and he then placed a call, again from Atlanta, to JACK RUBY, in Dallas, whereupon the operator heard him tell allegedly RUBY, "You know what to do if anything goes wrong."

Mr. MARTIN stated the resident manager related these calls were made at night allegedly a day or two, on a Wednesday or Thursday, before the assassination. He stated the reason the maintenance man told the resident manager was because his wife knew listening in on a call was against the law and he was asking for advice as to what should be done. The resident manager reportedly suggested his wife go to the FBI Office in Atlanta.

Mr. MARTIN stated that after testifying to the above before the Warren Commission, upon his return to Dallas, he was called by the FBI and thereafter interviewed in the Dallas FBI Office where he furnished the same information.

Mr. MARTIN thereupon related he had testified about MARINA OSWALD to effect she told his wife and himself various things on occasions all of which had no bearing on the assassination, yet MARINA could speak English when she wanted to because she could hold conversations in broken English when she wanted to do so.

He said FBI agents used to interview MARINA almost daily in the afternoons when she was living at his, MARTIN's, home and when the FBI agents left, she merely gave him an impression that she "put something over on them."

Mr. MARTIN went on to state, that ISAAC DON LEVINE, a writer, wanted to make a factual story about MARINA and he would talk to her and he apparently would find out only the things he wanted to know. According to LEVINE, people in Russia who are not members of the Communist Party, do not have two room apartments which MARINA claimed she had had. Also, some photo had been turned up from somewhere which reportedly showed MARINA on a balcony of the apartment building and this fact did not fit in with a person who was not a member of the Communist Party.

MARINA had stated on occasions to Mr. and Mrs. MARTIN that she moved around a lot from city to city in Russia and such was not supposedly appropriate for a mere person in Russia.

MARINA had said she had had a date with an ambassador from Afghanistan while in Moscow.

ISAAC DON LEVINE, because of all such events and statements, therefore concluded, according to Mr. MARTIN, that MARINA could not have accomplished such things, if true, unless she were somewhat in a political circle and she therefore was not an ordinary everyday Russian person.

Mr. MARTIN continued to relate that MARINA on occasion had mentioned that she had a stepfather who was supposedly like a supply officer in some section of the Russian Army. However, Mr. MARTIN noted that before this statement had been made, MARINA had said she had not known her father or anyone as she had been born out of wedlock. In any case, MARTIN said this was one thing that MARINA definitely did not want the American public to know.

Mr. MARTIN said MARINA related that she was a trained pharmacist and ISAAC DON LEVINE said this was a further indication that MARINA was not a common Russian as they do not train ordinary people in Russia.

Concerning the testimony given about MARINA's association or date with the ambassador from Afghanistan, Mr. MARTIN stated, Chief Justice EARL WARREN stated the Commission was not looking into the morals of MARINA. Because of such statement, Mr. MARTIN related he did not believe the above was recorded in the Commission's record. He added that he has never received a copy nor read his testimony before the Commission.

Mr. MARTIN then went on to relate MARINA could be just as nice to some people and then downright mean to others all depending on how she felt toward the persons. He stated MARINA would have a bottle of beer occasionally and also a glass of vodka but never to excess. He said, "No, she never drank to excess," and remarked on an occasion when she was in Washington, D.C. to testify before the Warren Commission they had gone to some Italian restaurant where she did have one drink and later on a reporter had put in the newspaper that she had apparently been sipping drinks and MARINA disliked this. On the other hand, he said, MARINA was expecting her name to be in the newspapers every day.

Mr. MARTIN continued to talk about how he had actually had everything set up pretty good for MARINA for awhile until her brother-in-law, ROBERT OSWALD, got into the affair which subsequently ended in a civil court suit wherein it was claimed ROBERT and MARINA had never been permitted to be alone to discuss personal affairs and that she could not read English and that she had not known what she was signing when she made their contract. Yet, contrarywise, ROBERT OSWALD had personally taken MARINA every Sunday to his knowledge for two months to LEE OSWALD's grave in a cemetery, and Secret Service Agent interpreter LEE GOPADZE had read the contract to MARINA and ROBERT OSWALD had also read it to her. In any case, Mr. MARTIN related a settlement out of court was made and since such time, in early 1964, neither he nor his wife have had anything to do nor been in contact with MARINA or ROBERT OSWALD.

In answer to specific questions at this time, Mr. MARTIN related MARINA OSWALD never told him nor his wife any information whatsoever that she had any knowledge of an assassination ahead of time, the only thing being that she did know was when she mentioned the General Walker matter which he testified to and then she had mentioned Vice President NIXON's visit on the occasion when she allegedly locked LEE OSWALD in their bathroom, but such was believed fiction as all bathrooms generally in the U.S. lock from the inside, not the outside. He said MARINA never told anyone of any knowledge she might have had of any event ahead of time.

MARINA never told his wife nor himself that she was actually a member of the Communist Party. The only person who arrived at this conclusion to his knowledge was ISAAC DON LEVINE because of his knowledge of Russia, her apartment allegation, her education, as realted above, and MARINA never told LEVINE to his knowledge she was a member of the Communist Party. He recalled LEVINE told him MARINA must have been a Trotskyite.

In response to the question as to whether or not, did MARINA say she ever had access to Russian government secrets or documents, Mr. MARTIN stated she had not stated such, but she had stated she used to attend some parties at her stepfather's and mother's, which was very vague, and whether or not she meant by this she therefore had access to liquor and food which her stepfather supplied or whether she therefore meant she could have access to military parties and meeting Soviet officials, was not understood and nothing further was ever ascertained.

MARTIN related he had known JACK RUBY before the assassination through taking people to his club and through seeing him around in the hotel business, but to his knowledge RUBY never knew MARINA OSWALD.

MARTIN stated he never actually planned to write a story himself but ISAAC DON LEVINE had planned to do so. Of recent date he had given thought to a story in that his wife kept a sort of journal or diary while MARINA OSWALD resided in his home in 1963. He had an idea that his wife could write a story for some

ladies magazine which would be about life in her home when MARINA was there which may appeal to women, but of course, this should not be done as in the settlement suit it had been agreed that the MARTINs would not publish anything.

Concerning the publicity given to the press in the 1963 pertinent period, Mr. MARTIN related it had all been confusing to the public - such as, MARINA never got up early in the morning as was reported but she never got up until after 10:00 a.m. Secondly, she was reported to have read the Bible yet she never opened a Bible during the two and one-half months he knew her. Thirdly, she never did cook all the time and during the same period of time she only cooked twice, and fourthly she never washed or kept herself clean as was publicly reported.

Concerning the recent New Orleans publicity of a conspiracy involved in the assassination, Mr. MARTIN stated he has never personally known New Orleans District Attorney JAMES GARRISON nor CLAY SHAW and he had no knowledge of any conspiracy with the exception that he still had an unknown feeling and unknown final knowledge as to the above referred to phone calls from Atlanta to Dallas. He went on to say that during the first two days he had been contacted by the Secret Service in his hotel in Dallas it had been mentioned by the Secret Service agents they had suspected a plot involving fifteen to twenty people. They mentioned some car had followed them on an occasion and they had contacted the local police to stop the car which they did and they found a man with a rifle but the man was not wearing hunting clothes at all. Nothing further was ever said about any plot and he never heard anything further until he read of the New Orleans allegations.

Concerning a photograph, Mr. MARTIN stated that during the first two days after the assassination, he was in contact with the Secret Service agents, and they

showed him a photograph, about 8" by 10", which he would "swear up and down" showed a bullet hole in the windshield of the assassination car. He said he knew nothing further about this but all the coincidences he has mentioned, and all the more publicity given the matter, has tended to confuse him with the idea, more than LEE OSWALD was involved.

Mr. MARTIN stated he never could recall making any direct statements to anyone that he had specific knowledge of any events that have occurred. He said he has talked with people from time to time when they became interested in his past when it was found out he had been in Dallas at the time of the assassination and had known after such assassination the OSWALD family.

Mr. MARTIN said he had no knowledge as to President KENNEDY's trip to Dallas but a friend of his in the past, a MARY _____, in her fifties, who is married to a man who has a small insurance and hospitalization business in Dallas, who drove a green Lincoln in 1965, and who had worked for the McKinney, Texas newspaper as a reporter many years ago, name and address not recalled, told him some time in 1965 that she had a date one time, many years ago, and she attended with such date, a political campaign meeting in Texas of now President JOHNSON. She had further mentioned that at this political rally, perhaps 20 years ago, it had been planned that Mr. JOHNSON would be president of the U. S. in 1968.

Concerning any connections with any criminal syndicate in the U.S., Mr. MARTIN related that President KENNEDY had been "riding the criminal syndicate pretty hard" and yet since such time that President JOHNSON has been in office it was his considered opinion that he has not done apparently as much. He stated he could definitely state that he has never heard anything that the criminal element had anything whatsoever to do with President JOHNSON. He further stated he has never had any knowledge that

the criminal element had any connection with the President KENNEDY assassination. He stated he has never associated President JOHNSON with any criminal element in Texas nor anywhere else.

When questioned as to had he reported the information to the FBI in the past or to the Warren Commission concerning a political campaign held over 20 years ago, Mr. MARTIN stated he did not hear of such through this woman until perhaps April or May, 1965 and he never reported such to the FBI as it was all old information and unverified so far as he was concerned.

When asked if this woman known as MARY had ever furnished him any information concerning any political chicanery he replied that she had not with the exception that she had merely mentioned there had been some stolen ballot box by some unknown person which was to have occurred in Polk County, Texas some 20 odd years ago when President LYNDON B. JOHNSON first ran for some local political office. He said this incident and remark by this woman had no connection whatsoever with President KENNEDY. He felt it had been mentioned by this female in that she was letting it be known that she had knowledge of when President JOHNSON first got into politics in Texas.

Mr. MARTIN stated nothing whatsoever was stated that this had any connection with the Democratic National Convention nor with President KENNEDY's nomination.

Mr. MARTIN stated he had no factual information whatsoever concerning the attempted killing of Governor CONNELLY of Texas nor as to any information that his life was supposedly spared.

At this time in this interview Mr. MARTIN related if there had been a plot to assassinate President KENNEDY and RUBY had been involved, RUBY was the type of person in Dallas who could get into any place, any where, any hour, and he was well known. Mr. MARTIN then reported that he had no knew facts whatsoever that lots of people have asked him and talked with him about Dallas inasmuch as he had been there at the time and he had had knowledge of the OSWALDs after such event.

When asked if there was anything whatsoever he knew that he had not been asked up to now, it was now the time to furnish any and all facts, Mr. MARTIN responded by stating MARINA OSWALD had remarked on an occasion when in his home that when she first heard of the assassination she had run out to a garage apparently wherever she had been living at such time because she had wanted to see if LEE OSWALD's rifle was there. The rifle supposedly was wrapped in a blanket and MARINA remarked she said "she thought it was there in the blanket." She had never said anything further about the matter and he had no further knowledge of such event.

Mr. MARTIN was thereupon asked about his wife's diary and he stated, "I have seen it - it is yellow - it is hers - I have never read it nor looked through it." Mr. MARTIN stated he was "positive there would be nothing in it that has not been told." He said his wife never kept the diary up as actually a diary chronological event of their conversations and personal knowledge in that it was only notes that his wife made whenever she got around or had some spare time to jot something down. He said he has never read it but he has been told that it was mostly his wife's emotional feelings on a personal basis that she had recorded noting that in the beginning of their associations with the OSWALDs in their home his wife had liked Mrs. OSWALD, but later she was very much disliked.

When questioned concerning any individuals related to him in any criminal connections Mr. MARTIN related he had a cousin by marriage, AL CERVANTES, presently mayor of St. Louis, Missouri, and CERVANTES is a close personal friend of FRANK CASTELLO of New York City. He said AL CERVANTES' sister, VIRGINIA CERVANTES SMITH, married his uncle RICHARD F. X. SMITH whose whereabouts is unknown to him.

In conclusion Mr. MARTIN stated that if in talking with people concerning his past association he has made statements that were not factual he had been in error and in discussing events generally, individuals whom he has conversed with in the past must have misconstrued facts from assumptions and he therefore had no specific information other than what he had testified to before the Warren Commission and furnished as set forth heretofore.

Mr. MARTIN related he still had not obtained hotel employment in the greater St. Petersburg area but continued his efforts and in the meantime, his wife and himself and two sons had a local newspaper route with 500 customers during the summer and up to approximately 1,000 customers during the winter season.

Re Bureau letter to Kansas City dated 7/7/67, enclosing for Kansas City, Dallas and New Orleans a Xerox copy of a letter to C. D. DILLON, Secretary of the Treasury, Washington, D. C., from FRANCES THRASHER.

The Bureau instructed that recipient offices review the THRASHER letter and comment on the allegations by THRASHER concerning OSWALD, together with recommendations for further action.

A thorough review of FRANCES THRASHER's letter has been made. THRASHER states that on or about 7/19/54 OSWALD was a passenger on a MATS flight from Travis AFB, California, to the Tokyo International Airport, Japan, and further states that in the Spring of 1956, OSWALD was observed at Atsugi Marine Base in Japan.

Investigation concerning LEE HARVEY OSWALD during the assassination investigation established that from May or June, 1954, to approximately February, 1965, LEE HARVEY OSWALD resided at 1454 St. Mary Street, New Orleans, Louisiana. He did not join the U. S. Marine Corps until 10/26/56, and was overseas in the Marine Corps from 9/12/57 to 12/22/58.

In view of the above information and analysis, further investigation concerning the allegations by THRASHER do not appear warranted and no investigation is recommended, UACB.

NOVEMBER 22, 1963,
DALLAS, TEXAS

PURPOSE:

The purpose of this memorandum is to report results of interview of James Herbert Martin, former business manager of Marina Oswald, in connection with allegations that Martin has made concerning Marina Oswald.

BACKGROUND:

In memorandum Mr. W. A. Branigan to Mr. W. C. Sullivan dated 6/23/67, it was reported that [redacted] a personnel employment agency in St. Petersburg, Florida, informed the Tampa Office that Martin has been in contact with her in his attempts to obtain employment in the hotel management business in St. Petersburg, Florida. During such contacts, [redacted] alleged that Martin claimed that Marina Oswald is not the decent person she appears to be. Martin informed [redacted] that Marina Oswald consumes large amounts of vodka and contrary to popular belief, speaks very fluent English. Martin also allegedly informed [redacted] that Marina Oswald claimed she had knowledge of the most important officials of the Soviet Union and when living in Russia, she had complete access to all government facilities. Martin also allegedly stated that Marina Oswald made statements to him that she knew about the assassination before it occurred, that she was part of the Communist Party and could have prevented the assassination had she desired.

CURRENT INTERVIEW OF MARTIN 7/5/67:

On 7/5/67 James Herbert Martin was interviewed by two Special Agents of the Tampa Office concerning the allegations of [redacted] Martin informed our Agents that he possessed no additional pertinent information concerning the assassination or Marina Oswald that he had not already furnished to the Warren Commission and the FBI in 2/64. Martin denied ever

telling anyone that Marina Oswald drank to an excess or had access to important officials of the Soviet Union. Martin also denied telling anyone that Marina Oswald claimed to be a member of the Communist Party or claimed to possess information about the assassination before it occurred. At no time did Marina Oswald ever state to Martin that she could have prevented the assassination had she desired.

Martin informed our Agents that it was true that he has made statements that Marina Oswald is not the person the news media have presented her to be. For example, Martin stated that Marina Oswald never got out of bed in the morning until after 10 a.m. although press reports stated she got up early to care for her children. Martin added that though Marina Oswald reportedly reads the Bible, he never saw Marina open a Bible during the two and one-half months he knew her. Martin also stated that Marina Oswald never washed or kept herself clean as was publicly reported. During our interview with Martin, Martin stated that Marina informed him she had a stepfather in the Russian Army who performed duties like that of a supply officer. Martin claimed that Marina informed him she had not known her real father since she had been born out of wedlock. Martin stated this was one thing that Marina definitely did not want the American public to know. (In her testimony before the Warren Commission on 2/5/64, Marina was asked by Commission Counsel Rankin the name of her father. Marina answered "I had a stepfather. I had no father. I never knew him.")

Martin further informed our Agents that if in talking with people concerning his past association with Marina Oswald he has made statements that were not factual, he had been in error. He also added that in discussing events generally, individuals with whom he has conversed in the past must have misconstrued facts from assumptions. Martin stated he possessed no specific information concerning Marina Oswald or the assassination other than that to which he had testified to before the Warren Commission.

In conclusion, Martin stated he has not, to date, obtained hotel employment in the St. Petersburg, Florida, area. He stated he is continuing his efforts in this regard and in the meantime, he, his wife and two sons have a local newspaper route with 500 customers during the summer and up to approximately 1,000 customers during the winter season.

ACTION:

For information. Results of our interview with Martin are being furnished to the Department, Secret Service and the Central Intelligence Agency.

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS

[redacted] stopped by my office to see Leinbaugh. [redacted] said he had just returned to his home in Charlottesville, Virginia, after spending several days in New Orleans, and said he had been able to talk with Jim Garrison for about four hours this past week. [redacted] advised that he found Garrison to be very articulate and persuasive and said he came away from the interview believing, against his better judgment, that Garrison really might have something. [redacted] said that Garrison showed him extracts from various affidavits he had collected and seemed to be supremely confident that he could "make his case."

[redacted] did have one bit of information that apparently has not come to the Bureau's attention previously. He said that Garrison had shown him a small green notebook, approximately 4" x 5", which Garrison described as most significant evidence. Garrison claimed that this was a notebook of Oswald's that had recently been found in a New Orleans house where Oswald had lived in 1963. According to Garrison, a Negro member of a wrecking crew which is demolishing this house found the notebook and eventually it came into Garrison's hands. Garrison claimed this alleged notebook of Oswald's contained pertinent data regarding the assassination and allowed [redacted] to glance briefly at several pages. [redacted] said he saw only jotted notations that were meaningless to him; however, he said he gained the distinct impression that Garrison considered this "new find" to be of great importance.

Bufiles also reflect that Oswald resided in New Orleans with his mother during a period preceding the Spring of 1956, when he and his family moved to Ft. Worth, Texas, shortly before his enlistment in the U. S. Marine Corps in October, 1956. The files of your office contain the addresses where Oswald resided during these early years of his life.

A check of Bureau files disclosed no information identifiable with the notebook described by [redacted]. Each office should check its records in captioned matter and advise Bureau whether any information is available concerning this notebook.

Bureau desires that the New Orleans Office conduct discreet inquiries to determine whether the residence at 757 French Street, New Orleans, or 4905 Magazine Street, New Orleans, is being demolished or has been recently demolished. In the event you determine neither residence is being demolished or has been demolished, you should check the other residences where Oswald resided during the period he lived in New Orleans prior to his move to Ft. Worth, Texas, in the Spring of 1953. Determine if any of these residences have been recently demolished.

This matter should be given your prompt attention and results furnished to the Bureau by airtel.

Re communications set forth pertinent info available to WFO concerning investigation conducted as the result of material furnished by Congressman DON FUQUA, Florida, as received by him from one WILLIAM H. COOPER, aka JOE COOPER.

Re LHM sets forth interview of COOPER, wherein he names certain individuals whom he "felt" were part of a conspiracy involved in the assassination of President KENNEDY; how he felt that the assassination was planned by the group during a cruise of the U.S.S. Shangri-La in August 1963.

Enclosed for Bureau is additional material received by FUQUA recently from COOPER. This was furnished by FUQUA to SAs JAMES F. MORRISSEY and EARL CHARLES BEVELS on 8/7/67 as a result of a telephonic request of FUQUA that date to SA MORRISSEY. He furnished it for review of the Bureau and any indicated investigation which may be suggested. To him, the material did not appear to contain any positive info re COOPER's previously described conspiracy theory; however, he felt the Bureau was in a better position to evaluate that fact.

The material consists of two handwritten letters dated 7/16/67 and 7/30/67, the envelope for one bearing COOPER's address, and 17 items which FUQUA believed were sent with the letter of 7/16/67.

NOTE:

Congressman Don Fuqua has previously made available information to WFO which was furnished to him by William H. Cooper of New Orleans. Cooper has alleged that Oswald was involved in a conspiracy with several individuals to assassinate President Kennedy. Cooper has admitted that he possesses no specific information to back up his theory but felt things just didn't look right. Cooper is continuing his wild speculations and is now using information reported in the press relating to Garrison's investigation of the assassination. In memorandum Branigan to Sullivan 11/8/66 it was recommended and approved that a representative of the Crime Records Division contact Congressman Fuqua and inform him that Cooper was unable to produce any specific basis for his allegations he has made regarding the assassination. This was done 11/15/66 and at that time Congressman Fuqua was informed that FBI intensive investigation of the assassination produced no evidence that anyone else was involved with Lee Harvey Oswald in the assassination of President Kennedy.

On 8/8/67, the residences located at 757 French St. and 4905 Magazine St., New Orleans, La., were personally observed by two SA's of the New Orleans Office. It was determined that neither one of these residences has been demolished or is presently being demolished. It is to be noted, however, that the building immediately next to 4905 Magazine Street, which is described as a duplex-type building with the addresses of 4903 and 4901 is presently being renovated and some interior and exterior work appeared to be in progress.

A review of New Orleans files determined that LEE HARVEY OSWALD resided at 126 Exchange Place, New Orleans, La., during a period preceding the Spring of 1956 when he and his family moved to Ft. Worth, Texas. This address was also observed and no evidence existed that this residence is being demolished or has been recently demolished.

According to New Orleans files, LEE HARVEY OSWALD and his mother resided in Covington, La.; however, these residences were not checked inasmuch as LEE HARVEY OSWALD was an infant at the time he resided in Covington.

"The Dallas Morning News" of 10/31/67, carried an article captioned "Marina Oswald Porter Sues Government for $500,000." This article indicated that MARINA OSWALD, the widow of LEE HARVEY OSWALD, had sued the U. S. Government for $500,000 as compensation for several hundred items which have been confiscated by the government for the National Archives. Among the items listed, most of which were LEE HARVEY OSWALD's personal effects, are a map of Moscow, certain handbills, a U. S. Marine Corps classbook, a Christmas card with a relative's picture on it, hunting knives, shirts, sweaters, and other paraphernalia. The article continued that MARINA OSWALD's suit filed with U. S. District Court Clerk at Dallas values the items at $500,000, and names the U. S. Attorney General as having taken all right, title and interest in the items. It indicated that she claims she is the owner and community administrator of the property.

The above is being furnished the Bureau for its information and Bureau advice is requested as to whether Dallas should open a false claim civil suit case in order that possible recovery of a substantial sum could be effected.

The Bureau does not desire the Dallas Office to open a false claim civil suit case in connection with Marina Oswald's reported suit against the United States Government. NOTE:

News media have reported that Marina Oswald has filed a $500,000 suit against the U. S. Government for compensation for several hundred items which were confiscated by the U. S. Government and are now located in the National Archives. The items in question were all furnished to the Warren Commission in connection with its investigation of the assassination and at the conclusion of its investigation, the Warren Commission took action to have these items turned over to National Archives. The actual mechanics of transferring the material of evidence from the Warren Commission to the National Archives were under the instructions of the Attorney General. Actually, the physical effects of Lee Harvey Oswald have a monetary value of a small amount, certainly not over a few hundred dollars. It is possible a promoter has offered Marina Oswald a tremendous sum for these items for use in a museum or other promotional scheme. Bureau is conducting no investigation regarding this civil action. This reply has been coordinated with Supervisor C. T. Gillespie of the Accounting and Fraud Section.

The 11/17/67 issue of the "Fort Worth Star Telegram", Fort Worth, Texas, carried an article quoting Mrs. MARGUERITE OSWALD as stating on the night of 11/16/67 that she wanted to exhume the body of her son, LEE HARVEY OSWALD, as she believes an examination of his remains would discredit portions of the Warren Report which made reference to two scars on his body. She stated one of these scars is reportedly a slash mark said to have been self-inflicted on OSWALD's left wrist, and the other is supposedly a gun shot wound said to have been the result of OSWALD's accidental discharging a weapon while in the Marines. She stated that an examination of his remains would establish if there really were such scars.

The article continued that she had no idea how to go about getting OSWALD's body exhumed.

The article indicated that OSWALD's body was encased in a heavy concrete vault buried at Rose Hill Burial Park, Fort Worth, Texas. It reflected that Mrs. OSWALD resides in a modest brick home at 4029 Byers, Fort Worth, Texas.

Dear Sir:

I am a student at Rossville High School, Rossville, Kansas. I am writing a term paper on the life of Lee Harvey Oswald. The school library has very little information on this subject. If you could send me any information, I would appreciate it very much.

I realize that a lot of information may be classified information, but please send me as much as possible. I have written to three other places and what they send me will probably be factual information. It would be very nice if I could include in my term paper what you people think his motives could have been. As I said, I realize that a lot of the information I've asked for may be classified information.

My term paper is due December 20. I should have written you sooner, I know. But please send me as much information as possible as quickly as possible. My address is:

With regard to your request for information concerning the life of Lee Harvey Oswald, the FBI at the request of President Johnson conducted a prompt, intensive, objective and thorough investigation of the assassination of President Kennedy. ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
NOVEMBER 22, 1963,
DALLAS, TEXAS

Current news media are featuring an account of a press conference conducted with New Orleans District Attorney James Garrison on December 26, 1967.

Garrison is reported to have stated that the Federal Bureau of Investigation put out a message on November 17, 1963, to several of its offices advising that on November 22, 1963, an attempt would be made to assassinate President Kennedy at Dallas, Texas. I thought that you would want to know that this latest charge by District Attorney Garrison is a lie. The Federal Bureau of Investigation received no information from any source that an assassination attempt would be made in Dallas, Texas, on November 22, 1963.

Garrison is also alleged to have told the press conference that "the indications are very strong that Oswald was informing the Federal Bureau of Investigation that an assassination was contemplated." On May 14, 1964, I testified before the Warren Commission and at that time I emphatically denied that Oswald had ever been engaged by the Bureau or acted as an informant in any capacity. In addition, our entire file on Lee Harvey Oswald which was maintained at Federal Bureau of Investigation headquarters covering Oswald's activities as reported to us prior to the assassination was furnished to the Warren Commission for its review in connection with its investigation of the assassination of President Kennedy.

ASSASSINATION OF PRESIDENT

NOVEMBER 22, 1963,
DALLAS, TEXAS

News media for December 27, 1967, carried accounts of a press conference conducted by New Orleans District Attorney James C. Garrison on December 26, 1967. Set forth below is a concise summary and analysis of numerous allegations made by Garrison during his press conference.

Garrison alleged that Lee Harvey Oswald was "working for the Central Intelligence Agency in November, 1963" when he informed the FBI of a plot to kill President Kennedy in Dallas.

In his testimony before the Warren Commission on May 14, 1964, Mr. John A. McCone, then Director of the Central Intelligence Agency, stated he had personally handled the inquiry within his Agency relating to Lee Harvey Oswald and had reached the conclusion that Oswald was not an agent, employee or informant of the Central Intelligence Agency. Mr. McCone added that the Central Intelligence Agency never contacted Oswald, interviewed him, talked with him or received or solicited any reports or information from him, or communicated with him directly or in any other manner. Mr. McCone further stated that the Central Intelligence Agency never furnished Oswald with any funds or money or compensated him directly or indirectly in any fashion. Mr. McCone added that Lee Harvey Oswald was never associated or connected directly or indirectly in any way whatsoever with the Central Intelligence Agency.

SEE NOTE PAGE FIVE

ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY

Garrison alleged that President Lyndon B. Johnson and other high officials of the United States Government have concealed from the public the truth of the assassination. Garrison described President Johnson as "the man who profited most by the assassination" and alleged that President Johnson decided that "vital evidence" could not be seen by the public for 75 years. Garrison also alleged that President Johnson "got away with this decision." Current regulations of the National Archives provide that reports of investigative agencies are not to be made available to any member of the public, regardless of his credentials or purpose, for a period of 75 years without the approval of the agency which prepared the report. The guidelines for determining which documents of the Warren Commission records should be made available to the public were proposed by Mr. Nicholas deB. Katzenbach when he was Attorney General of the United States. These guidelines were approved by Mr. McGeorge Bundy on April 19, 1965, when Mr. Bundy was serving as Special Assistant to the President.

Garrison alleged that the assassination of President Kennedy was carried out by "an infinitely larger number than you would dream" and that in Dealy Plaza (the assassination site in Dallas) alone, there could have been as many as 15 individuals involved in the assassination. During the past several months Garrison has changed his story frequently as to the number of individuals involved in the assassination. In his various press releases, Garrison has claimed that Dallas police officials, Secret Service, Central Intelligence Agency and Federal Bureau of Investigation personnel, Lee Harvey Oswald, Clay Shaw, David William Ferrie, numerous anti-Castro Cuban refugees and others were involved in the conspiracy plot to assassinate President Kennedy.

Garrison alleged that before the gun went on November 22, 1963, Government officials and investigators knew that a lone gunman did not kill President Kennedy. Garrison claimed that "Washington has fooled not only the people of this country but also the world, to stay in power."

Garrison's statement is, of course, completely false. On the evening of November 22, 1963, Lee Harvey Oswald was in the custody of the Dallas Police Department and was charged with the murder of Dallas policeman J. D. Tippit and was also being held as a suspect in the assassination of President Kennedy. Investigation was proceeding on that date to determine if Lee Harvey Oswald acted alone in his crimes or whether he had accomplices. After intensive investigation, it was the conclusion of the Warren Commission that Lee Harvey Oswald was the lone assassin. This conclusion was based on overwhelming evidence.

Garrison alleged that Loran Hall of California had inside knowledge of the assassination the day it happened.

The name of Loran Eugene Hall came up in the FBI investigation of the assassination in connection with an allegation made by Mrs. Sylvia Odio, Dallas, Texas. Odio alleged on December 18, 1963, that she received a visit from "Leon Oswald" and two Mexican companions on September 26 or 27, 1963, and that these three individuals brought her a message from her father who was being held as a political prisoner in Cuba. Odio stated that she believed "Leon Oswald" was identical with Lee Harvey Oswald.

The FBI conducted extensive investigation regarding Odio's allegation and found absolutely no corroboration for it. It was determined that Lee Harvey Oswald was on a bus en route to Mexico City on the dates Odio claimed she was visited by "Leon Oswald" and two companions.

During our inquiries concerning Odio's allegation, we determined that Odio was regarded by numerous close associates as being mentally unstable. We were also informed that Odio had been hospitalized at one time for mental illness and that she had also attempted suicide in the past. Odio testified before

the Warren Commission on July 22, 1964, at which time she informed the Commission that she was then under the treatment of a psychiatrist. The Warren Commission concluded in its Report that Odio had not met Lee Harvey Oswald.

During the course of our investigation of the assassination, we received information that Loran Eugene Hall had been in Dallas, Texas, in September or October, 1963, and reportedly was soliciting contributions from anti-Castro Cuban refugees. We contacted Loran Eugene Hall on September 16, 1964, at which time Hall was residing at Kernville, California. Hall informed us that he never met Lee Harvey Oswald. He did state that he and two companions were in Dallas, Texas, in September, 1963, and had contacted various Cuban refugees in an effort to solicit funds for work against the Castro regime in Cuba. Hall recalled that he had met Sylvia Odio at that time and was accompanied by Lawrence Howard and William Seymour.

Interviews of Howard and Seymour and other investigation failed to corroborate Hall's statements. Our inquiries disclosed that Hall had a history of mental instability and a reputation for telling falsehoods. Results of our inquiries in this particular matter were disseminated to the Warren Commission.

William W. Turner, who has written several articles for "Ramparts" magazine attacking the conclusions of the Warren Commission, appeared at Garrison's press conference and urged that certain Warren Commission documents, now withheld from the public, be released for Garrison's perusal. Turner claimed that more than 200 documents have been classified by the Warren Commission and many are pertinent to Garrison's probe.

William W. Turner was a Special Agent of the Federal Bureau of Investigation from February 5, 1951, to July 19, 1961. He was dismissed, effective the latter date.

1

et

The Civil Service Commission Board of Appeals and Review sustained his dismissal on the grounds that he had demonstrated he lacked the truthfulness, accuracy and responsibility required of an FBI Agent, and that he had shown a poor attitude toward the FBI and its Director. Turner then instituted a civil action for reinstatement in the U. S. District Court for the District of Columbia. He lost, and the Supreme Court, in due course, denied certiorari.

After the failure of his efforts in the courts, Turner resorted to the radio and the public press in a continuing campaign to vilify the FBI and its Director. Turner's appearance at Garrison's press conference appears to be a part of Turner's campaign. It also serves the purposes of Garrison.

white ceiling illuminated by 8,000 fluorescent tubes, a marble-tiled mezzanine the size of a football field.

On February 13, 1964, in this improbably exotic setting, where James Bond might have struggled with SMERSH, an overweight Winnipeg salesman named Richard Giesbrecht was caught up in the maelstrom that had begun in Dallas three months before and continues to this day. Giesbrecht believes he was a witness to nothing less than a meeting of two men who had conspired to kill President John F. Kennedy, and swears that a third man, a burly, suitably ominous figure with a smashed nose and flushed cheeks, played a bizarre cat-and-mouse game with him all over the mezzanine to frighten him into silence.

"Too big" for FBI

Ever since, Giesbrecht, a palpably sincere and rational 35-year-old Mennonite with four children, has swung between fear and frustration. Fear that the disclosure of his identity — his name is revealed here publicly for the first time — would lead to harassment by cranks, or worse. (He is aware that 20 or so people tenuously linked to investigations of an alleged conspiracy have died since November, 1963.) Frustration because he believes that the FBI deliberately squelched his story. Giesbrecht talked to an agent named Merryl Nelson whom he contacted through the U.S. consulate in Winnipeg. He says that Nelson remarked, "This looks like the break we've been waiting for" — only to tell him a few months later to forget the whole thing. "It's too big," Nelson is supposed to have said. "We can't protect you in Canada."

Then, last February 23, visiting a hospitalized friend, Giesbrecht saw a newspaper photograph of David W. Ferrie, a New Orleans man who had been found dead, ostensibly of a hemorrhage caused by a fractured blood vessel — although he had left behind two suicide notes. There was

sion to arrest him," he said. "Apparently we waited too long." Then the flamboyant D.A. added three lines that reverberated around the world: "My staff and I solved the assassination weeks ago. I wouldn't say this if we didn't have the evidence beyond the shadow of a doubt. We know the key individuals, the cities involved and how it was done."

The DA calls

All that was last February. Throughout the spring and summer, Garrison had neither put up nor shut up, although he professed himself ready to reveal his findings at the trial this fall of Clay Shaw, a prominent New Orleans businessman arrested on March 1 on charges of conspiring to assassinate John F. Kennedy. (Most of the U.S. press attempted to discredit Garrison's case against Shaw, but a panel of three judges and a grand jury ruled that there was sufficient evidence to hold him for trial.) Garrison believes that Shaw, Ferrie, Lee Harvey Oswald, Jack Ruby and others — most of them hair-trigger anti-Castroites — conspired to kill Kennedy because of his plan for a *détente* with Cuba, and because Kennedy was cracking down on CIA-supported anti-Castro activity in Dallas, Miami and New Orleans. There is the chilling suggestion that, some time in the early fall of 1963, in New Orleans, a sizeable group of Right-wing extremists, deranged adventurers and Cuban exiles [illegible] switched targets — from Castro to Kennedy.

With the help of the Winnipeg *Free Press*, which has printed an account of his story without using his name, Giesbrecht finally got in touch with an authority who wanted to use his testimony, and who did not, as he puts it, "just tell me to shut up and go away": Jim Garrison. One of Garrison's assistants [illegible] Giesbrecht in Miami and explained some interest in what he had to say. There were [illegible] calls from the D.A.'s office to check details. In late September Giesbrecht

Upon Jon Kennedy's assassination?

agreed tentatively to testify at Clay Shaw's trial, although Mrs. Giesbrecht was afraid to see her husband get mixed up in the case.

What spurred Giesbrecht to agree to testify was a call he had got in early summer from Garrison himself. "He told me that my evidence would be a great help to him, and that the pieces locked perfectly into place, although he didn't explain how. He confirmed that Ferrie had been in Winnipeg at the time and he said that no people from Winnipeg were involved. Maybe these men were making connections to Minneapolis or Chicago. They just happened to be here when I ran into them."

On that day, February 13, 1964, Giesbrecht had set up an appointment with a client who worked at nearby Bristol Aircraft. He arrived at the airport early, shortly after 2 p.m., to have his first look inside the new terminal. He sauntered around, went into the Horizon Room, had one drink, a Moscow Mule, walked out to have a look at Gerald Gladstone's sculpture, *Solar Cone*, in a fountain courtyard near the lounge, called his client found he had more time to kill, returned to the lounge, sat at the same table half-way along a wall of windows and ordered a Seven-Up. Two men had taken the adjacent table. His back to them, Giesbrecht planned his sales approach and did some figuring on his weekly calendar pad. At some point, probably at about 2.45 p.m., he became aware that his neighbors were discussing the assassination in a way that seemed to implicate them.

He started to listen, then to take notes. It seemed to him that one of the men had a "Latin" accent; the other, the one he later concluded was Ferrie, an "American" accent. The voices were rather high-pitched, precise-sounding. He sensed that both men were homosexuals.

Oswald a pawn

"I got the impression that a man named Isaacs was to have been the assassin or one of them, but that he had taken on Oswald to do the dirty work," Giesbrecht says. "In the opinion of these men Oswald was a psycho. One of them said, 'How did Isaacs get mixed up with a psycho like that?' The man I think of as Ferrie wondered how much Oswald had passed on to his wife or, for that matter, anyone else. *Being* mixed up with Oswald had been a foolish thing. Ferrie said that Isaacs could be seen on some film of Kennedy getting off a plane shortly before the assassination. These men assured each other that when a man named Hochman or Hoffman got to Isaacs all loose ends would be tied up. He would also make sure that a certain car was destroyed. Ferrie said there was more money now at their disposal than ever. They discussed a meeting to be held at the Townhouse Motor Hotel in Kansas City, Missouri, on March 18. There had been no meeting since early November of 1963."

During all this time Giesbrecht was hunched over his calendar pad, straining to pick up the low voices over the piped-in music, the muffled shriek of engines through the twin-paned windows and the conversation of about a dozen other people in the big dim room. He was aware of some girls at a corner table who laughed a lot.

"Auntie" flies in

There was more. The meeting would be registered under the name of a textile firm. Ferrie mentioned an "aunt" who would be flying in from California. A name that sounded like Romeniuk came up several times. Ferrie asked about paper or merchandise coming out of Nevada. Latin Accent said it was too risky and that a house or shop had been closed down at a place called Mercury. He said that "a good shipment" had reached Caracas from Newport. There was some speculation that investigation of Kennedy's death would not end if the Warren Commission found Oswald guilty.

Giesbrecht managed to get a fast look at the man he later said was Ferrie. "I told the FBI that he had the oddest hair and eyebrows I'd ever seen," he says. "The eyebrows were wide and sort of streaky. The hair was very shiny and it started quite far back on his head." (According to press reports, Ferrie wore a bright red wig and false eyebrows to conceal burns he had suffered years before. Giesbrecht says he didn't notice the color of his hair.) It seemed to him that the man resembled Stan Laurel "when he gets that look as if he's going to cry." Giesbrecht didn't really see the second man's face: they were sitting back to back. He noticed that his chin and neck were badly pock-marked and that he wore a hearing aid in his right ear. Both men were in their middle or late 40's; both wore light tweed suits and loafers.

Perhaps Giesbrecht was doing too much craning around in his chair. At any rate, two things happened almost simultaneously. The first was that he became aware he was being stared at by a man sitting alone across a corner of the lounge, in front of a metal drapery separating the lounge and the dining room. The second was that the conversation behind him changed, became innocuous. He can remember Ferrie saying that he had flown an airplane like one on the apron outside the window — a small executive plane, Giesbrecht thinks it was, with two propellers.

"I felt a wee bit jittery or disturbed," he says. "I felt uneasy, uncomfortable. I put on my overcoat. The conversation had stopped. This third man was just staring at me. He was sort of an ugly man. He had a nose that seemed flat, a fighter's nose. It was a pig's nose. He was very fair, with very flushed cheeks. He was in his early thirties, a big man, odd-looking. I had to walk by him to get out."

Giesbrecht, feeling uneasy, hurried past Gladstone's *Solar Cone* into the

There was an RCMP detachment, Room 24. To get there Giesbrecht started to walk toward a covered bridge joining the terminal and the administration units. He stopped. On the middle of three steps at the near end of the bridge was the man who had been staring at him in the Horizon Room. He was staring at Giesbrecht again.

"I felt uneasy," Giesbrecht says. He turned around, went back into the newsstand and asked where the nearest phone was. He walked into the mezzanine again, turned left and walked 100 feet or so, turned left again past a Walter Yarwood metal sculpture that crouches over a fountain in another courtyard, to a bank of 10 telephones mounted on a brick tile wall. Giesbrecht picked up the sixth phone, called the Winnipeg RCMP number, got on to a corporal, introduced himself and glanced to his right.

Telephone Message

"The same man, the third man, was just about a yard away. He was right on me. So I just hung up and walked away. I don't remember how much I said to the RCMP. As I hung up the phone I felt too uneasy to look at his face, but I noticed that he had markings on his fingers. I think they were tattoos. I walked into a large flight room, at gates two and three, where there were a lot of people. I stayed in there for a while and then I went out again and down the stairs at the north end of the mezzanine and into the parking lot. I drove away from the airport and then I did a sort of foolish thing. I never bothered about my client, and not only that, when I got about a mile away from the airport I took the notes and tore them up and burned them. Ask me why and I don't know. I rewrote the notes as best I could that night at home and hid them in a dresser drawer."

Giesbrecht doesn't have any pat explanations about what he overheard, but he says he believes that a conspiracy killed Kennedy. He says he is glad to be able to help Garrison, especially since he found his earlier dealings with the FBI upsetting. "I've had three years of feeling like a little child that wants to convey something and nobody's listening," he says. "It bugs a person. It does. They're happy to hear what you have to say but then it's 'Shut up, because it's too big.' If it's something that's too big for the authorities, then the United States is in a pretty bad way, isn't it?"

SUBJECT: ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY NOVEMBER 22, 1963, DALLAS, TEXAS

Purpose of this memorandum is to report that check of Bureau records revealed no communication was sent from the Bureau to any field office during the 30-day period from October 22, 1963, to November 22, 1963, advising of a threat against President Kennedy or of an attempted assassination of President Kennedy at Dallas, Texas. We are also reporting that a thorough check of Western Union records in Dallas was made during our investigation of the assassination and it was determined at that time that during the period June through November 22, 1963, no telegram was found from Lee Harvey Oswald to anyone. This establishes that Garrison's current claim that a telegram was sent by Oswald to the FBI in November, 1963, is completely false.

BACKGROUND:

Memorandum Mr. W. A. Branigan to Mr. W. C. Sullivan dated December 27, 1967, reported New Orleans District Attorney James C. Garrison alleged in a press conference on December 26, 1967, that Lee Harvey Oswald had informed the FBI on November 17, 1963, that there would be an assassination attempt of President Kennedy on November 22, 1963, in Dallas, Texas. According to news media December 27, 1967, Garrison alleged that there was a teletype message sent through FBI channels on November 17, 1963, alleging there would be an assassination attempt on President Kennedy in Dallas, Texas, on November 22, 1963.

Station WVUE-TV, New Orleans, reported later in the day on December 27, 1967, that it had learned Garrison was basing his claim on a telegram that Lee Harvey Oswald had sent to the FBI before the slaying. Garrison was quoted as saying he has contacted Western Union officials in Dallas who took the telegram from Oswald and kept a copy of it. He was also quoted as saying that if he could get a copy of the telegram "it would break the

case wide open" because it would prove Oswald worked for the FBI. Garrison was also quoted as saying that the Western Union agent would not reveal the file copy because he feared for his life.

DATA REFUTING GARRISON:

We have made a careful check of our records and found no record that Lee Harvey Oswald ever sent a telegram or any other communication to the FBI. In addition, a check of our records for the 30-day period prior to the assassination (October 22, 1963, to November 22, 1963) disclosed no Bureau communication to Dallas or any other field office reporting a threat against President Kennedy or that there would be an attempted assassination of President Kennedy in Dallas, Texas. In addition, Special Agent in Charge J. Gordon Shanklin of the Dallas Office advised that a check of Dallas records disclosed that the Dallas Office never received or sent a telegram or any other communication regarding a threat to President Kennedy at any time.

Our records do disclose that during this 30-day period prior to the assassination several communications were received from various offices reporting a threat to President Kennedy. Such information was immediately disseminated to Secret Service locally and to Secret Service Headquarters, Washington, D. C. In one instance, the Atlanta Office reported by teletype October 20, 1963, that a right-wing organization held a rally at Indianapolis, Indiana, at which time two individuals informed a Bureau source that the right-wing people would have to get guns and kill President Kennedy. The Atlanta Office reported that Secret Service desired to interview the Bureau source in order to evaluate his information and thereafter to interview the two individuals who made the threat. By airtel dated November 1, 1963, the Bureau instructed the Miami Office to interview the Bureau source [redacted] and inform him of the desire of Secret Service to interview him. This is the only Bureau communication found during the 30-day period that dealt in any manner with a threat against President Kennedy. No Bureau communication to any field office was located which reported a possible threat to President Kennedy during his trip to Dallas in November, 1963.

WESTERN UNION RECORD CHECK:

During our investigation of the assassination, we received information that C. A. Hamblen, night manager for Western Union, Dallas, Texas, had claimed that an individual he believed to be Lee Harvey Oswald had visited the Western Union office in Dallas. Hamblen claimed this individual had visited Western Union on at least two occasions and once received a Western Union money order and on the other occasion sent a telegram to Washington, D. C. Hamblen claimed a fellow employee, Mrs. McClure, could verify his information. Hamblen was subsequently interviewed by a member of the legal staff of the Warren Commission under oath. Hamblen informed the Warren Commission representative he could not state for certain whether the individual in question was Lee Harvey Oswald or not. He furnished conflicting information to the Warren Commission representative and was unable to produce any evidence that Oswald had ever received or sent a telegram or money order through the Western Union office in Dallas. Mrs. McClure denied ever seeing Lee Harvey Oswald in the Western Union office.

A thorough check was made of Western Union records in Dallas for the period June through November, 1963, for money orders payable to Lee Harvey Oswald or his known aliases, O. H. Lee and Alek James Hidell, and for telegrams sent by Oswald or his known aliases. No indication of any such money order or telegram was found in any of these records. This fact was established by the Warren Commission through interviews under oath of: (1) Mr. W. W. Semingsen, an official of the Western Union office who had under his jurisdiction the operations of Western Union offices in eight states, including Texas, New Mexico, Colorado, Kansas, Missouri, Arkansas, Oklahoma and Louisiana; and (2) Mr. Laurance R. Wilcox, District Manager for Western Union in the city of Dallas, including the immediate surrounding towns. Both of these Western Union officials were positive and conclusive in their statements that Oswald never sent a telegram from Dallas, Texas, to anyone.

In addition, the complete testimony of all Western Union personnel interviewed by the Warren Commission under oath concerning such allegation is set out in the back up material to the Warren Commission Report which is also available to the public.

Western Union officials placed absolutely no credence in Mr. Hamblen's allegation that Oswald was ever in Western Union offices in Dallas and his immediate superiors have concluded that the whole thing was a "figment of Mr. Hamblen's imagination."

Dear Mrs. Stegall:

In my letter to you of December 28, 1967, I reported that news media for December 27, 1967, were featuring an account of a press conference conducted by New Orleans District Attorney James C. Garrison on December 26, 1967. During his press conference, Garrison allegedly stated that the indications are very strong that Lee Harvey Oswald was informing the Federal Bureau of Investigation that an assassination was contemplated. I informed you that Garrison's allegation was completely false and that I had testified before the Warren Commission on May 14, 1964, at which time I emphatically denied that Oswald had ever been engaged by this Bureau or acted as an informant in any capacity.

For your information, Station WDSU-TV, New Orleans, reported later in the day on December 27, 1967, that it had learned Garrison was basing his claim that Oswald had informed the Federal Bureau of Investigation of an assassination plot on President Kennedy on a telegram that Lee Harvey Oswald allegedly had sent to the Federal Bureau of Investigation from Dallas, Texas, before the slaying. SUBMATIC OF EVIDENCE
ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
NOVEMBER 22, 1963, DALLAS, TEXAS

Reference is made to your letter dated December 1, 1967, captioned, "John J. King v. Nicholas deB. Katzenbach (U.S.D.C. Colo., Civil Action No. 6183), John J. King v. United States of America (U.S.D.C. Colo., Civil Action No. 67-C-518), Marina N. Oswald Porter, et al. v. United States (U.S.D.C. N.D. This letter will also confirm the conversation between Mr. William A. Gensburg and Special Agent Kenneth E. Raupach of this Bureau on January 3, 1968, concerning the suit filed by John J. King. Mr. Gensburg advised he was interested in the location of the 6.5 millimeter Mannlicher-Carcano Rifle and the .38 Smith and Wesson Revolver used by Lee Harvey Oswald to kill Dallas Police officer J. D. Tippit subsequent to the assassination. He was advised that a chronology concerning the location of these weapons was previously furnished to Assistant Attorney General Fred M. Vinson, Jr., by letter dated November 25, 1965. Mr. Gensburg also said he had been in contact with the Assistant United States Attorney in Dallas who advised that receipts were in possession of our Dallas Office concerning the transfer of these weapons from the Dallas Police Department and requested copies of these receipts to assist him in preparing his defense.

Enclosed are four Xerox copies of the receipts pertinent to this matter which were furnished by our Dallas Office. In addition, Xerox copies of these receipts have been furnished to Assistant United States Attorney B. H. Timmins, Jr., Dallas, Texas, who is handling certain phases of the civil suit filed by John J. King.

NOTE:

By letter dated 12/1/67, Assistant Attorney General Edwin L. Weisl, Jr., advised that John J. King and Marina N. Oswald Porter had filed civil complaints against United States under Public Law 89-318 for just compensation for evidence acquired during the assassination investigation. King's suit concerns the assassination rifle and the .38 caliber revolver used by Lee Harvey Oswald to kill Police Officer J. D. Tippit. It is noted John J. King previously purchased the right to ownership of these weapons from Marina Oswald Porter. Porter's suit concerns other evidence that was taken.

Mr. William A. Gershuny has a primary interest in the suit filed by King. He desired to know the location of the assassination rifle and .38 revolver subsequent to the assassination. He was referred to a chronology concerning location of these weapons previously furnished to the Department 11/23/65. He also requested copies of receipts concerning these weapons which were furnished by Dallas and are being furnished per his request.

Department letter 12/1/67 indicated that in connection with Porter's suit, they needed to know how exhibits came into custody, who obtained them originally, time custody was initially obtained by Federal officers, and location at the time of original custody. Department letter 1/4/68 indicated due to the voluminous research involved concerning Porter's suit, it was asked that nothing further be done in regard to this matter.

Memorandum

TO : FILE (89-43) DATE: 11/23/63

FROM : SAC SHANKLIN

SUBJECT: ASSASSINATION OF
PRESIDENT KENNEDY, 11/22/63
DPO

Mr. BELMONT from Bureau called at 11:10 AM and said they had been thinking as to how Chief CURRY happened to make the statement that OSWALD had been interviewed by FBI prior to the shooting. It seems to Bureau he could have had this information by running across a copy of OSWALD's letter to Soviet Embassy dated 11/9/63. If in searching OSWALD's room and his home, the police told the press they came up with a lot of Communist literature or with a copy of his letter to the Soviet Embassy, and if Chief was so advised, that was the basis of his allegation against the Agent that we were harrassing the wife.

BELMONT wanted to know if our Agents have gone over everything that came out of OSWALD's home and room, both in the possession of the Police, and have we gone in there and taken a thorough look for ourselves in the home and in the room.

This thing from the standpoint of our report is broadening way out. We will have to cover his background, his passport, citizenship and all that sort of thing. We are going to have to come out with his contact with Soviet Embassy and his trip to Mexico. This is very important and what they are trying to do is come up with anything indicating he is tied in with anybody. If in his room or home, there was any information showing that he had written to anybody or discussed this with anybody, or had been thinking about it, or was tied in with some organization. As this thing is broadening out into his contacts and motive, it is imperative that we know what was in his home & room and analyze it.

BELMONT was advised that re CURRY's statements to effect we had interviewed OSWALD's wife and any surveillance, that we did interview the woman that OSWALD's wife lived with, and that CURRY denied saying he had said we were surveilling.

BELMONT said the issue is that we should be sure that we have thoroughly gone over anything the police took from Oswald's home and room and we should get in both places besides and see if there is anything in there. Get into the home through the landlady or the wife. As OSWALD is dead he can't be prosecuted. This is the question of cleaning up the situation. If this mother goes to Soviet Embassy, we would want to protect the Agent that his story is accurate, BELMONT was advised the wife is very hostile, and that the Secret Service has her somewhere - we don't know her present whereabouts definitely.

BELMONT advised that MILLER just called and that MILLER is coming back. MILLER said that local police and WADE want to turnover all the evidence they have in this matter to FBI. The Director called him on it, and MILLER says he believes it should be done, so it will all be in one place, with the understanding that if the State Board of Inquiry handles this, we will of course cooperate with them and make the evidence available as we have already said we would do. On that basis, we should accept all of the evidence the police have. BELMONT suggested I might contact MILLER as apparently they have approached MILLER. This doesn't include evidence against RUBY, because they are going to prosecute him. Contact MILLER and contact PD and tell them Bureau called and you understand they have made this offer through MILLER and we will accept it, and follow through from there. There may be some additional evidence that will have to go into this report.

BELMONT instructed to get in touch with MILLER and find out about this, and take over the evidence on the bases they offered it. This is definitely understood that the local police want to turn it over.

ADDENDUM: At approximately 12:00 noon District Attorney WADE called and confirmed the fact that he desired to have the evidence turned over to the FBI by the Police Dept. He stated he was so advising Chief CURRY. He said he did not want it to come through his hands, but that we should take it direct from the Police Department.

Chief of Police JESSE CURRY was called and he stated that he desired the FBI to take custody of the evidence in the OSWALD case. I agreed that this would be done, and Agents were sent to the Police Department to do so.

DL 89-43

I talked to the Bureau to Inspector ROBERT WICK, and pointed out to him that it would be made known immediately that we had the evidence, and I recommended that upon inquiry, we just state that the local authorities have turned over the evidence in the OSWALD case and make no further comment. He agreed. Later on during the evening, I talked to Assistant Director DE LOACH, and he stated this was the only statement to be made.

CIVIL SUITS

p2

This will confirm the conversation between Mr. William A. Geoghan and Special Agent Kenneth E. Raupach on January 8, 1968, concerning the civil actions filed against the United States by Mr. John J. King and Marian E. Carlin Porter pursuant to Public Law 89-318 which vested title to the Union Commission exhibits in the United States and permitted claims for just compensation to be filed against the United States.

Mr. Geoghan advised that in preparing for the defense for these civil actions, he desired to know what action caused the transfer of evidence, which was obtained by the Dallas Police Department, to this Bureau.

Files of this Bureau indicate former Assistant Attorney General Herbert J. Miller, Jr., was in contact with Dallas District Attorney Henry Wade and Dallas Chief of Police Jesse Curry, who requested the FBI to take possession of all of the evidence concerning the assassination in the possession of the Dallas Police Department. As a result of this request, on November 23, 1963, evidence in possession of the Dallas Police Department was acquired by our Dallas Office for temporary retention awaiting the decision as to its final disposition. Evidence obtained was inventoried and appropriate receipts were obtained.

By letter dated 12/1/67, AAG Edwin L. Weisl, Jr., advised that John J. King and Marina N. Oswald Porter had filed civil complaints against United States under Public Law 88-318 for just compensation for evidence acquired during the assassination investigation. King's suit concerns the assassination rifle and the .38 caliber revolver used by Lee Harvey Oswald to kill Police Officer J. D. Tippit. It is noted that King previously purchased the right to ownership of these weapons from Marina Oswald Porter. Porter's suit concerns other evidence that was taken.

The President, by Executive Order 11130, dated 11/29/63, created the President's Commission to investigate the assassination. Mr. William A. Gershuny, who is handling the defense for the Department, is aware that the President ordered the Bureau to conduct an investigation of the assassination following the incident. Gershuny indicated it was pertinent to his defense to determine how the evidence which had been acquired by the Dallas Police Department came into our possession prior to the creation of the Warren Commission.

On 11/26/63, Deputy Attorney General Nicholas deB. Katzenbach called the Director and advised that Assistant Attorney General Herbert J. Miller said the Dallas Police were anxious to get rid of all the evidence they had. Mr. Katzenbach asked if it would be accepted, and the Director said there was no objection to accepting. (62-109060, Serial 183.) All evidence including the guns are now in the possession of the National Archives.

Re Bureau telephone call to Minneapolis 1/15/68.

Reference is made to an article appearing in "National Enquirer" issue dated 1/28/68, wherein information attributed to RICHARD GIESBRECHT is set forth. GIESBRECHT has claimed that he had information of pertinence to the KENNEDY assassination and that he made this information available to SA MERLE E. NELSON, Grand Forks, North Dakota, Resident Agency. The "National Enquirer" article quotes GIESBRECHT as alleging that SA NELSON suggested to GIESBRECHT that he not make any of his information public, that to do so could jeopardize GIESBRECHT and his family and that the matter was "too big." GIESBRECHT also has quoted NELSON as stating that the information he furnished "could be the break I'm looking for."

SA NELSON interviewed RICHARD GIESBRECHT on 2/27/64, the results of which were set out in the Minneapolis report of SA EWALD I. CARLSON dated 3/6/64. As stated in Minneapolis radiogram to the Director dated 3/31/64, as well as Minneapolis teletype to the Bureau dated 3/20/67, GIESBRECHT is and has undoubtedly been trying to seek publicity for himself without due care.

Referenced letter enclosed a copy of a [illegible] language letter written by Marina Oswald addressed to Mr. Rankin, General Counsel of the Commission and a translation of that letter prepared by the Federal Bureau of Investigation, and requested that we review the original letter to ascertain whether the original Russian is susceptible of a translation which would constitute a present gift or transfer as opposed to an expression of intent.

The translation previously prepared by the Bureau in this matter is an accurate translation of the original Russian-language letter.

The Russian word which Mrs. Oswald used to express the "wish" that the rifle become the property of the United States Government is the word "Khochu" which is translated as "it is my wish" or "I want." Because of the meaning of this word, it is the belief of the translator that the thought the writer thereby intended to express was that she wanted to give the rifle to the United States Government.

The copies of the above-mentioned letters which were enclosed are being returned herewith.

Mr. J. Lee Rankin, General Counsel

Dear Mr. Rankin:

I inform you by this letter that Mr. McKenzie will no longer represent me after the trial (sic) has ended; all he has to do is to transfer money from one bank to another. Therefore, I request you to address me personally in the future should my services be needed by the Commission.

I do not think that I need an attorney; moreover, I cannot afford expensive lawyers, particularly when I testify before the Commission; no lawyer is necessary when one tells the truth.

I would like to request from you a copy of my testimony before the Commission. Mr. McKenzie told me that he has already requested it from you. Please send it to my address and in my name, together with a bill for expences in connection with this. After the conclusion of the work of the Commission, I would ask you to send me all my personal belongings and those of my husband (photographs, documents, diary, clothes, etc.).

As to the rifle belonging to my husband (however, I do not know to what extent my wishes in this case would be of importance to the Commission), it is my wish that the rifle become the property of the United States Government, but not be exhibited for public view during my lifetime.

Respectfully,

Mrs. Marina Oswald

Kerry Wendell Thornley today was charged with committing perjury before the Orleans Parish Grand Jury during his testimony on February 8, 1968. The perjury charges were based on his sworn testimony before the Grand Jury to the effect that he did not think he had met Lee Oswald in New Orleans in 1963. Evidence indicates that he did.

When the Warren Commission hearings were held in 1964 Thornley testified that Oswald was a "Communist" when they were in the Marines together in California, prior to Oswald's 1959 departure for Russia. Thornley was the Commission's star witness concerning Oswald's early "left wing" orientation.[1] Inasmuch as Oswald really was never at any time a

---

1. Since this portrait of Oswald as a demented Marxist was not forthcoming from the other Marines, the testimony of most of them was presented simply in the form of brief affidavits. Thornley's image-creating testimony lasted for 33 pages, at the end of which little doubt was left about Lee Oswald's commitment to Communism and his qualifications as an assassin.

   To see how starkly Thornley's florid portrait of Oswald contrasts with the recollection of the other Marines, see Addendum at the end of this press release.

"Communist" -- or even inclined in that direction -- and inasmuch as he was sent to Russia as an employee of the United States Government, it was necessary to have a major witness testify in great detail to create an early image as a Marxist so that there would not be too much public curiosity about the real reasons for Oswald's abrupt departure from the Marine Corps to sail to Russia.[2] Thornley's Warren Commission testimony concerned his observations of this "Marxist" personality during their service together at El Toro Marine Base in California in 1959. He testified that he had not seen Oswald since. Thornley's own long residence in New Orleans, after his discharge, from 1961 through 1963 was not examined in any depth.

---

2. The Report of the Warren Commission infers that Oswald somehow must have learned Russian on his own, ostensibly in preparation for his forthcoming defection. Actually, Oswald was taught Russian by the United States government, as is indicated by Lieutenant Colonel Folsom's testimony during which he happened to refer to one of Oswald's grades in a U.S. Armed Forces Russian examination (Volume VIII, p. 307). The formal designation for this Russian examination was "Department of the Army, Adjutant General's Office, PRT-157. Oswald took the Russian examination on February 25, 1959, while stationed at El Toro Marine Base in California.

Nor was there any hint in Thornley's Warren Commission testimony that [redacted] had any connection in New Orleans with individuals or organizations engaged in anti-Castro activity. Least of all was there any hint that he was connected here with persons who were connected with Lee Oswald -- persons who played active roles in creating the picture of Oswald as still being a "Communist" in 1963 shortly before the assassination. Nor was there any indication of his having met, following his discharge from the Marines, one of the men presently under a charge related to the assassination.

Like a number of young men who have been identified as CIA employees, Thornley had a post office box in the federal building across from Banister's office. Such post office boxes are customarily used by federal employees with clandestine assignments as "message drops" as well as an acceptable excuse for regular visits into a federal building. Another of the young men having such a post office box was Lee Harvey Oswald. What this means is simply that Kerry Thornley and Lee Oswald were both part of the covert federal operation operating in New Orleans. The only difference between Oswald and the other young CIA employees was that, having performed a flamboyant Russian assignment for his country, he had a beautiful potential as a decoy in the assassination -- a potential which, as it happened, his employers did not waste. Thornley actually lived across Lafayette Square

from the Old Post Office Building and from the Newman Building, from which Oswald later was sacked prior to his moving into the French Quarter. At the time of the assassination Thornley was living on Dauphine Street a block and a half downtown from Esplanade. Shortly after the assassination he departed abruptly for the Washington, D.C. area, where he remained until after his testimony before the Warren Commission.

By a curious stroke of luck Thornley, during his New Orleans residence, wrote a book based on Lee Oswald. He completed it about the time of the assassination. As luck would have it, the man he wrote about ended up being charged with assassinating the President. Apparently no one else had written a book about Oswald prior to the assassination and, in due course, it found its way to a publisher.

The Central Intelligence Agency elements which accomplished the execution of President Kennedy included, in addition to the ambush squad of professional assassins used in Dallas, individuals working on custodial assignments and on image-creating assignments. The techniques used in creating a Communist image for Oswald were: persuading him by means of a pretext to engage in certain activities (such as handing out "Fair Play for Cuba" pamphlets), having other employees play his part in more inculpatory tableaux (such as appearing at the Mexican Consul here and inquiring as to whether

he could "bri[illegible] rifle into Mexico" or [illegible]sibly receiving money being paid to him in the courtyard of the Cuban Consul in Mexico City) and testifying, after the assassination, that Oswald was indeed a deranged Communist.

Like all large bureaucratic federal agencies, however, the Central Intelligence Agency is capable of goofing. In spite of the carefully contrived insulation and the countless red herrings it planted along the way, it goofed with regard to Thornley -- apparently because by mid-December things appeared to be well under control. A few weeks after the assassination Thornley abruptly cleared out of his Dauphine Street apartment, leaving a note for his landlord that he had to go to a town just outside of Washington, D.C. Thornley remained on ice in Arlington, Virginia until it came time for him to testify that Oswald had been a Communist way back in their Marine days. Ordinarily, the connections to our one government agency specializing in assassination are more carefully concealed. However, by December 13, 1964, the Warren Commission had been selected, with the reassuring presence of Allen Dulles, the former head of the CIA, and the situation must have appeared to be well under control.

When Spring of 1964 arrived and the time came for his word picture of Oswald, Thornley testified not only that he had been a "Marxist" but that he "had a persecution complex", "was emotionally unstable" and "wanted a place in history".

inasmuch as the defendant had already safely been executed -- the standard role of the decoy in professional assassinations -- those words now became part of the official picture of Lee Oswald and his years as a CIA employee were buried with him.

In such a fashion, with key witnesses produced to attest to the needed fictions at crucial points, did the Warren Commission turn day into night, up into down -- and achieve a harmonious continuity of the tableau produced by the architects of President Kennedy's assassination. That is why the concealment of the involvement of elements of the CIA was so successful -- because the seven distinguished men on the Warren Commission literally adopted the scenario developed by the assassins.[3] Their giving official status to the fraudulent fairy tale made it extremely difficult

---

3. With one notable exception: one of the main objectives of the assassination, in addition to removing a President who had reached a detente with Castro and was working toward new understandings with Russia, was to establish an excuse, acceptable to an apathetic public, to invade Cuba. Prior to the President's assassination careful scenes had been set up to connect Oswald with Cuba so as to create the inference that the assassination was a plot directed from Cuba, hence justifying invasion. The Warren Commission readily accepted the false picture of Oswald as a "Communist" but compromised the original plan by making him a "lone" assassin, as the result of which some of the men who initiated the assassination are unhappy still at not achieving their entire objective. That it made this "liberal compromise" does not alter the fact that the Warren Commission adopted the basic fiction created by the planners of the assassination to make the world believe that a "lonely Marxist" had killed President Kennedy.

to learn what really did happen to John Kennedy -- especially when the new President issued an executive order concealing much of the crucial evidence for 75 years.

With regard to Thornley, the total absence of any details in his Warren Commission testimony concerning his relationships in New Orleans with relevant individuals reveals his 33-page picture of "Oswald at El Toro" to be synthetic and representative of the fictional nature of the entire fraudulent "investigation". When the time comes that it is desired to determine when we ceased to live in a free society, it will be found that the change occurred on November 22, 1963 -- the day the credibility gap began.

JIM GARRISON

following are some examples of the evidence of the Marine associates of Oswald as to his ra[illegible] "Communist" orientation:

Nelson Delgado: "He would discuss his ideas, but not anything against our Government or -- nothing Socialist, mind you" (Volume VIII, p. 246).

Donald Camarata: "I have no recollection...of any remarks on his part concerning Communism, Russia or Cuba" (Volume VIII, p. 317).

Peter Connor: "I never heard Oswald make any anti-American or pro-Communist statements. He claimed to be named after Robert E. Lee whom he characterized as the greatest man in history" (Volume VIII, p. 317).

Allen D. Graf: "Oswald never gave to me any indication of favoring Communism or opposing capitalism" (Volume VIII, p. 318).

John R. Heindel: "Although I generally regarded Oswald as an intelligent person, I did not observe him to be particularly interested in politics or international affairs" (Volume VIII, p. 318).

Henry J. Roussel, Jr.: "I recall no serious political remarks on the part of Oswald" (Volume VIII, p. 321).

Mack Osborne: "I do not recall any remarks on his part concerning Communism, Russia or Cuba" (Volume VIII, p. 322).

Richard D. Call: "I do not recall Oswald's making serious remarks with regard to the Soviet Union or Cuba" (Volume VIII, p. 323).

It is thought provoking that the only one of Oswald's former Marine comrades who testified that he was a "Marxist" -- one of the star witnesses for the Warren Commission -- is also the only one who was in personal association with Oswald in New Orleans in 1963 just before he returned to Dallas before the assassination. It is equally thought provoking that this former Marine comrade, whose testimony is so curiously different from all of the others, was also in the company, in 1963, of one of the men now charged in connection with the assassination of President Kennedy. And it is particularly thought provoking that this man's associates and pattern of activity in 1963 plainly mark him as an employee, like Lee Oswald, of the Central Intelligence Agency.

In the deposition, however, she acknowledged she met John J. King, a Denver gun collector, about an hour in Dallas several months ago to discuss the suit she then intended to file.

But she added she and King did not sign any agreement leading her to bring the $500,000 suit.

King is similarly seeking $2 million compensation from the government for the rifle used to kill the president and a pistol used to kill Dallas policeman J. D. Tippit. He had purchased both from Mrs. Porter.

RE: RICHARD CLAXTON GREGORY, also known as Dick Gregory

On January 10, 1968, a confidential source who has furnished reliable information in the past, made available a projected itinerary for a speaking tour by RICHARD CLAXTON GREGORY, a Negro comedian-entertainer and civil rights activist who has been arrested on various occasions as a result of his civil rights activities. One talk appearing on this itinerary was shown as scheduled for April 9, 1968, at Olympic College, Bremerton, Washington. The itinerary also listed a talk to be made at Central Washington State College, Ellensburg, Washington, the same date.

On April 11, 1968, Dr. JAMES DURWARD PARK, President, Olympic College, said that in January, 1968, an effort was made to obtain the services of GREGORY as a speaker at the college, but no agreement with respect to financial arrangements could be made and no firm commitment was ever made. GREGORY did not and is not in the future scheduled to appear at Olympic College.

On April 11, 1968, Sgt. TOM PRATT, Ellensburg, Washington, Police Department, said he had attended an affair at Central Washington State College (CWSC) in Ellensburg on the evening of April 10, 1968, at which GREGORY appeared as a symposium speaker.

PRATT estimated the audience at the affair, sponsored by the Student Government Association, at about 750-900, of which some 50 were Negroes. Of the latter, more than half appeared to be persons from out of town, or, at least, non-students. There were no demonstrations or disorder of any kind; however, in the text of his speech, GREGORY at one point addressed himself to "any FBI or CIA Agents in the audience" with the admonition to "mark in their book that one policeman's life will be taken for every black person's life lost." He stressed that politicians are responsible for much of the current disorder, remarking "they promise much but do not fulfill their promises."

105-A2555[illegible]

GREGORY derided the Civil Rights Bill as too slow, and insisted Negroes want all their rights and privileges now. He stressed that on the same day he had heard of the death of MARTIN LUTHER KING, JR. he also received notice of the affirmation by the Washington State Supreme Court of a 90-day jail sentence which had been imposed upon him by the State of Washington in the past as a result of his involvement there in Indian "fishing rights" demonstrations. He said he would "do his 90 days" quietly, but that the 90 days would probably be something the people of Washington would never forget, hinting that his friends might engage in civil disobedience during his jail term. He inferred this coming summer might be a most difficult time for any persons wishing to visit Washington as tourists.

GREGORY alluded to the assassination of KING as probably "the work of Government Agents," and placed the deaths of President JOHN F. KENNEDY and of MALCOLM X in this same category.

PRATT said GREGORY had stayed in Ellensburg at a local motel and was accompanied by a light skinned Negro woman who registered separately as RUBY BURROWS, 1255 New Hampshire Avenue N.W., Washington, D. C. He neither made nor received any telephone calls.

RICHARD CLAXTON GREGORY

An article covering the talk of GREGORY at CWSC appeared in the April 11, 1968, issue of the Yakima Herald Republic, a daily newspaper of gneral circulation published in Yakima, Washington, as follows:

Gregory blisters politicians

ELLENSBURG — Negro comedian Dick Gregory was deadly serious in his address to a Central Washington State College audience here last night.

America has got to stop worrying about the methods of Dr. Martin Luther King, Stokely Carmichael and Rap Brown, and start talking about their common purpose, he said.

That purpose is the realization of the principles of the U.S. Constitution for black America, he said. "It's not the white racist who allows injustice to exist in this country, it's the politician who swears in his oath of office to uphold the Constitution and then doesn't."

Gregory said he will return to Washington State this summer to serve a 90-day jail sentence for violating state fishing laws while staging an Indian fish-in on the Nisqually River last year. That protest was in support of the Indian's right to fish off the reservations without restrictions.

"For the first time, maybe my Indian brothers will get the kind of attention they deserve," he said. "I'm going to do them 90 days with pride. It will be 90 days the state will never forget."

GREGORY spoke on April 11, 1968, at Western Washington State College (WWSC), Bellingham, Washington, and the following article covering this appeared in the April 12, 1968, issue of the Bellingham Herald, a daily newspaper of general circulation published in Bellingham, Washington:

Gregory Tells College Students They Have Job to Do on Rights

By HUNTLY GORDON
Of The Bellingham Herald

"You young kids got a job to do," Negro comedian Dick Gregory told an audience of about 1,200 Western Washington State College students Thursday afternoon.

Gregory, a civil rights leader and announced presidential candidate, appeared at Carver Gymnasium on the 44th day of a 47-day fast.

His fast, a demonstration against the war in Vietnam, may "continue 'til election day in November", he told an audience from which he elicited occasional applause from small pickets of listeners.

WRONG EMPHASIS

"I spend 90 per cent of my time on college campuses," he said, and hoped they could find the answer to the problem of why men don't put emphasis on how fast man can eradicate man's inhumanity to man rather than how fast he can travel from point to point.

Referring to the State Supreme Court's refusal to strike down a 90-day jail sentence, he said that he would be returning to the state soon to serve the sentence, but warned about the consequences.

"You don't have a Ku Klux Klan in white sheets up here. Your clan wears black sheets and calls itself the Supreme Court," and added, "When I get through with this state this summer, Whitey will be dead or as American as anybody."

Speaking of the Civil Rights bill passed Wednesday, Gregory said: "We don't want a rights bill, what we want is the rights guaranteed in the Constitution."

INSTALLMENT PLAN

Noting that provisions of the bill don't go into effect until 1970, he added: "We don't want our rights on the installment plan."

Repeatedly insisting that the white man "is playing games with us" and "that we're tired of games," he launched into a discussion of non-violence.

"What is non-violence?" he asked. "To some it's turn both cheeks, then swing. To others, its not hitting first. To others it's not getting hurt," he said.

In referring to the late Martin Luther King Jr., he said that non-violence is a method — and only a method — but the purpose is equal rights. Change in method doesn't mean a change in purpose.

UP TO HISTORY

"History will decide which method is best," he said.

Turning to the American Indian, he said that the highest rate of suicide in the nation and the tuberculosis rate is among Indians.

"As long as he's peaceful, no one gives a damn," he added. "I hope we'll live long enough to be as afraid of injustice as we are of communism," he declared.

He told the students: "Don't let them (older people) tell you that you're weak. You made the number one man quit. You've got a thing going."

Referring to the civil rights movement, he said that it no longer needs northern white liberals, it needs white radicals.

"Before you come South, take a nigger home and bug your mom and daddy. We're tired of your picking on our redneck cracker," he said.

In other parts of his speech, he said it is "more honorable to goto jail than to go to Canada," to oppose the draft low; that Negroes should have "qualified, gone to Mexico and dropped the baton" in the Olympics, rather than refused to participate early; and that "money wont' buy the Negro's trust."

Saying that a statesman doesn't have to solicit votes, so he wouldn't discuss his presidential candidacy, he said he opposes Sen. Robert F. Kennedy because "he's lied to the world" when he said he hadn't entered the race because he thought it would split the Democratic party.

And of Sen. Eugene McCarthy, Gregory said he still likes him and "he hasn't lied to us yet."

He closed by inviting students down to Tacoma while he's serving his sentence for "the action."

Gregory was on campus to keynote the Associated Students nominating convention Thursday night.

With reference to GREGORY's talk at WWSC, GEORGE STEERS, Security Officer, WWSC, who attended the affair, offered the following supplementary remarks on April 11, 1968:

GREGORY said nothing in the course of his talk about disrupting the Democratic National Convention as he has in the past threatened to do. He talked a good bit about the Indians in the State of Washington and how they have suffered. He referred derisively to President JOHNSON on several occasions, and described him as the "slickest politician since Caesar;" said he originally had a rather high opinion of ROBERT F. KENNEDY, but this was before he became "a politician." He now holds him in low esteem.

GREGORY stated he had met JAMES GARRISON, the New Orleans Prosecuting Attorney, and remarked that they both know something the general public doesn't know--that LEE HARVEY OSWALD was sent to Russia by the FBI to see if the U-2 airplane made contrails at 27,000 feet.

GREGORY read from a paper he held in his had an article pertaining to the shooting of MARTIN LUTHER KING, JR., this being to the effect that on a direct line of fire from the window from which the fatal shot was fired to where KING was standing was a tree, but this had been split and bent over, and "only the United States Government would be that thorough and have the foresight to move a tree from the line of fire." GREGORY said the Government also was involved in the shooting of MEDGAR EVANS.

With reference to the 90-day jail sentence imposed on GREGORY by the State of Washington for his actions in connection with the Indian fishing rights matter in that state, subject said he did not intend to appeal the Washington State Supreme Court affirmation of the sentence, but expects to start serving it on May 20, 1968.

At a press conference following his talk, STEERS said GREGORY was asked whether he is still planning on disrupting the Democratic National Convention, and he replied "No, I don't have to now; you saw what happened in Chicago."

STEERS said there were no disturbances, demonstrations, or disorder of any kind incidental to subject's appearance in Bellingham. He said following his appearance

GREGORY was to be taken to Vancouver, B. C., Canada, airport where he had reservations on a flight to Seattle, Washington.

A source in Seattle, Washington, on April 11, 1968, advised that subject had reservations at the Hilton Inn at Seattle-Tacoma International Airport for the night of April 11-12, 1968; and RUBY BURROWS also had a separate reservation there for the same night.

A second source in Seattle advised that subject arrived in Seattle at 11:13 PM aboard United Air Lines (UAL) Flight #223 on the night of April 11, 1968, and departed Seattle on the morning of April 12, 1968, at 6:20 AM aboard UAL Flight #222 en route Salt Lake City via Portland, Oregon, and Boise, Idaho.

The "Bellingham Herald", issue of April 12, 1968, carried an item pertinent to GREGORY's imminent incarceration and this is reproduced below.

Group Plans Support Sit-in For Gregory

OLYMPIA (AP) — A group supporting Negro comedian Dick Gregory for President plans a sit-in outside the Thurston County jail while he serves his 90-day jail sentence for illegal fishing, Gregory's attorney said Thursday night.

Jack Tanner of Tacoma told the Capital City Press Club the demonstration would be staged by the Peace and Freedom Party, which has nominated Gregory for President in the California primary.

Gregory announced at Central Washington State College in Ellensburg Wednesday night that he would serve his sentence "with pride." The comic's appeal on a conviction arising out of demonstrations on behalf of Indian fishing rights was turned down last week by the State Supreme Court.

Tanner said Gregory did not plan to surrender until after he had asked the supreme court for a rehearing, which he has until May 4 to do. However, Gregory, who was in Seattle overnight Wednesday, said he would be prepared to start his sentence May 20. He plans to ask for an extension of the May 4 date.

A characterization of the Peace and Freedom Party is in the appendix.

APPENDIX

THE PEACE AND FREEDOM PARTY OF WASHINGTON

The records of the Secretary of State, Olympia, Washington, indicate that the Peace and Freedom Party (PFP) of Washington is a duly constituted minority political party in statutory conformity with the laws of the State of Washington. As a result of a nominating convention held in Seattle, Washington, on September 20, 1966, 276 registered voters qualified as delegates.

A press release issued by the PFP from its office, 512 Wellington Avenue, Seattle, Washington, on September 26, 1966, states the Party's platform is based on opposition to U.S. intervention in the war in Vietnam and declared "that the war in immoral, brutal, and illegal," and asked that American troops be withdrawn. It expressed concern about the grave effects of this war at home; and that preoccupation of the government and the American people with the war in Vietnam is causing the civil rights movement, which the Party supports, to meet with increasing resistance.

On August 24, 1967, a source advised that many communists attended the nominating convention of the PFP upon the urging and insistance of Communist Party leaders and qualified as delegates.

This same source also advised that at the PFP Political Issues Conference held in Seattle on May 7, 1967, Communist Party leaders participated and submitted postion papers. A larger number of Communist Party members than at the nominating convention participated and many were elected to Congressional District Committees and representation on the PFP State Committee.

The above source advised on August 24, 1967, that at a meeting of the PFP held in Seattle on August 21, 1967, delegates were selected to attend a conference in Chicago, Illinois.

LEE HARVEY OSWALD

On April 27, 1968, SA T-1 telephonically contacted the San Antonio FBI Office to say that he had information relative to assassins. He did not wish to talk over the telephone and requested an Agent contact him in the lobby of the Gunter Hotel, 205 East Houston Street, San Antonio, Texas.

Upon personal contact, SA T-1 described himself as a rancher specializing in Hereford cattle and as a partner in important developing oil property in Hemphill County, southeast of Canadian, Texas.

SA T-1 and his wife stayed about four months prior to the death of President Kennedy in Dallas, Texas, at the Statler-Hilton Hotel. Learning of the arrival of the President at that time in Dallas, SA T-1 and his wife left town because of expected crowds.

At some time prior to departure from the Statler-Hilton, another guest using the name John Foster engaged SA T-1 in talk from time to time. Foster, who bore a physical resemblance to Ray, principal suspect in the murder of Martin Luther King, showed SA T-1 a deposit slip for $7,500, explaining to SA T-1 that this was a fee for arranging matters regarding four persons holding cotton land rights benefiting from Billy Sol Estes operations around Pecos, Texas. The money, $7,500, had been deposited to Foster's account at the bank across the street from the Statler-Hilton.

SA T-1 described John Foster as similar to the description of Ray in this case, but could not be more specific, except to say that Foster had a mannerism of clicking his heels together European or Continental style when being introduced to someone.

Foster told SA T-1 of owning a souped-up P-38 plane with which he could beat Government officials to the Capitol, Washington, D. C., from Dallas.

ENCLOSURE

Foster reportedly attempted to interest another guest of the Statler-Hilton of this period, Michael Stack, and similarly described as to age and appearance as Foster, in a deal whereby with above plane they would transport gold internationally, presumably through Mexico. Foster proposed to pay off Stack for his complicity in gold, according to SA T-1.

During this same period, about four months prior to the death of President Kennedy, Foster and Stack were to be seen in Dallas, as was Jack Ruby. Ruby also about this same time met SA T-1 at the Shamrock Hotel in Houston and then tried to interest SA T-1 in buying an expensive diamond ring.

SA T-1 speculated that the assassination of Kennedy occurring while the above three were frequenting the Statler-Hilton at Dallas might have arisen over complicity between a man like Foster, with his fast plane, and Ruby.

SA T-1 went on to speculate that the Memphis murder of Martin Luther King, having equally high national significance, may have been done through conspiracy involving such as John Foster, described above.

SA T-1 stated that the above vein of thought arose upon seeing present with his wife and family at the Gunter Hotel one Joseph R. Cavagnaro, Sales Manager in Dallas currently of the Statler-Hilton. Cavagnaro, according to SA T-1, was to be seen frequently drinking coffee with John Foster and Michael Stack and would accordingly be able to identify them.

SA T-1 recommended that an Agent make personal contact with Cavagnaro, and not disclose SA T-1's identity, but ask Cavagnaro to identify Foster and Stack, the two having frequented the Statler-Hilton the four months prior to the death of John Kennedy in Dallas.

Foster was suspected by SA T-1 of having been possibly implicated in the death of a Government man, an expected witness in the forthcoming Billy Sol Estes prosecutions, based on his seeming willingness to enter dangerous and shady ventures, his fast airplane, and his strange or foreign mannerisms.

Joseph R. Cavagnaro, Sales Manager, Statler-Hilton Hotel, Dallas, Texas, in response to a written note left for him at the Gunter Hotel desk, contacted the San Antonio FBI Office telephonically on April 27, 1968. Mr. Cavagnaro said he was in San Antonio with his wife and children to see Hemisfair. He stated that he did not recognize by name or description either of the persons above named, John Foster or Michael Stack. Mr. Cavagnaro advised that across the street from the Statler-Hilton is the Mercantile Bank of Dallas. None of the circumstances as related by SA T-1 bore resemblance to anything which Mr. Cavagnaro could recall. The identity of SA T-1 was not disclosed to Mr. Cavagnaro, since the former had requested such anonymity.

It is to be noted that James Earl Ray could not be identical with John Foster described by source above inasmuch as Ray was in jail in Missouri in 1963.

Mr. Frank A. Penhack, Jr., General Manager and Editor--
SAN ANTONIO LIGHT newspaper
P.O. Box 161
San Antonio, Texas--

Dear Mr. Penhack, Jr.

Enclosed is an item that is self explanatory. If you care to print it, then do so--- for this item for your Letters to the Editor you owe me nothing--- however, I did prepare it in the form of LETTERS TO THE EDITOR to not place you in the position of liable for the validity of same--- it is just a letter and you care to publish it--- that is all. I have reasons to believe that this letter will interest you very much--- I was provided this information recently from certain very lovely people in San Antonio--- except-- I have at no time had reasons to enquire if your paper was, that of a communist publisher or if it was affiliated with communist--- if so, please excuse me, but do not publish this item in all fairness to me---- I am not a communist and I want nothing to do with communist in any manner--- my story of experience with the communists is along one--- I will relate it later for the press---

Now, may I tell you more concerning myself--- It is my desire to live and write in San Antonio because of the commuting [illegible] to and from there to Mexico for the office here. I have selected a home there if I decide to live there. I am desirious of becoming associated with a news paper that is not too large to do the job nor too small to be interested in my program--- I have prepared "Excerpts" from the book which I have written concerning the Kennedy story, the Billy Sol Estes truth and the eye witness story of the government agent who was shot in Texas in the cotton patch--- the duel contracts by which several government businesses were built--- and many other equally as interesting facts--- I was working in the San Antonio area on mortage loans because I represented private capital out of Zurich for loans in the US. and Mexico--- I ran smack into the Billy Sol Estes farce----- and what a farce--- the person who bought the assets was equally as big a farce--- this will blow the new society in San Antonio wide open and restore it to the sound families who have kept it safe and progressive all these years--- this is my program---

I want a letter to prepare at least 3[illegible] 3,000,000 copies (editions) of my first section of EXCERPTS to be sold simutaniously on the streets of the US. for a fee of $2.50 per edition--- "EXTRA SPECIAL EDITION"---- I am to recieve $1.00 dollar not to me-- to publisher to receive $0.50 cents per edition and the other $0.50 ea is to defray all cost of publication--- such as att. fees for preparing the contract between us--- the paper, ink... photographs to be taken under my instructions--- and the airfreight per edition to each city as well as the pay to the news stands or paper boys--- and all other expenses connected with the distribution of the editions--- this should cost only apx. $0. 37 per edition--- but, then, things cost more every day--- this is to be ready for publication in not later than thirty days after we inter into a contract--- then--- there is to follow the second section of the Excerpts--- $2.50 per edition--- I recieve $1.25 per edition--- you $0.75 and the $0.50 for the

publication as was the first--- and then we'll do a third that is to be the same as the second--- $2.00--- this is a condensed form of the book that I cannot possibly have ready for press before the late autumn and then, it will not have my desired effect to prevent the election of either Mr. Kennedy or Mr. [illegible] and, also, there are those in Mexico ready to take office as soon as the Hex. Presidt resigns--- he will--- and, hon--- and then Mr. Laurio Ortega will act as pres. in the unexpired term--- the story is a dirty filthy--- If you like--- ask your attorney about printing this under contract for me--- by leaving the name of your paper since I have not the time to establish my paper--- or sell me yours and then I will sell it back to you after publications if you fear LIABLE damages--- but the printing will be as per this outlined---

I must know of your interest not later than April 24th---

If interested, please advise your attorney to prepare the contract as per this outline and visit me here--- I want the contract in the original and two copies--- please--- The first section for the first edition is ready now--- you must have it re-typed due to the fact that this is a Spanish typewriter and I cannot work correctly---

Also, if interested, I now have a real hot article ready for publication in the paper as a special item--- it should be printed before the May 3rd. primaries for the election of a candidate for the Governor of Texas--- I am at the present for Mr. Wagnor Carr--- I will support Mr. John Connally as president alone --- no Kennedy support--- or with Mr. H. Humphreys---

In any event, will you be kind enough to acknowledge this letter and advise me of your interest due to the fact that there is always a possibility that the letters which we write "just may at any time be confiscated."...I am advised that not any of my letters are censored but that is the guess of any one--- Also, do you have a good publicity department--- or that is, one person who you can assign to me for my personal campaign for publicity which will, in effect, provide publicity for you too--- I need him to promote a campaign for me---- I want to walk out of here in glory--- If so--- please bring him with you when you visit me--- I will later reimburse you for his expenses--- I have no funds here with me---

If you plan to visit me on the date of April 24th---bring the contracts then---, I realize this is a quick decesion but I have felt that time was when I was nearest free--- time never waits---

Thank you kindly for this courtesy of reading all this---

I remain,

Yours truly,

(Mrs. Lewis R.) Annie R. Patterson.

Post script;;; Sir, please excuse me again--- but if this paper is not owned by the white race, then please do no print any part of this--- I do not want to become involved with the racial problem--- I am from Virginia and is Jefferson by ancestorial birth--- I am not an internationist--- I forgot to enquire of my friends if the paper is white owned--- I realize how rude and discourtious this must come to you at this time--- but, be as it may--- I will not work with one other than the white race, ---this knowledge will save your time and mine---

Letters to the Editor, Dept. , San Antonio Light

Dear Sir:

I am the white American lady who was framed by the Hotel Alameda in this city on May 3rd--- but incarcerated on May 9th and accused of a crime I did not commit and have been incarcerated since that time. I was freed, thank God, rather to have been thrown in a cistern after having been murdered as others when I learned the plot to supposedly invade Cuba , was in deed, a plot to murder the President of the United States of America, Mr. John Connally, Gov. of Texas and a third party in Dallas by the name of Mr. Robert H Story. I was able to learn all names and other related data which I sent to M my good friend, the late Mr. Adeli Stevenson in Feb. March and April of 1963 which he parleyed to the proper sources in the United States- the F.B.I. CIA and State as well as other departments. I was then advised by Mr. Stevenson to stay with it which I did until that time I was framed and arrested.

During the times that I was able to obtain certain data from Mr. Lee Harvey Oswald in person here in Mexico which colaborated all that I had seen and heard in San Antonio on the first Friday night in January 1963 when I saw the Mr. Lee Ha. Oswald in the company with the Mr. Harry Gongalez at the Granada Hotel--- Mr Oswald was identified to me as one who was to shoot Kennedy but I was only amused at the idea in view of the fact that I had heard earlier in the day that it was to be an invasion of Cuba--- Hence all the gov. surplus guns to be or was hidden in San Antonio area---However, I again saw Lee H. Oswald, his wife and child in the office of Arturo C. Gonzalez of Del Rio , Texas on the following Sunday when another person had I had reasons to visit the office on an entirely different reason--- never the less, one man--- a strange looking man who looked like a negro or like one Egyptian who playd in the picture Solomans Mines was sitting in the car--- the car carried a Dade Florida County lisence tag with the number of------ The other person was frightend by the actions of Mr. Gonzalez and suggested that we copy the lisence number"because that man did not turn grey white when we went to that door for nothing"--- and then to practically hide us in the rear of the building---I later saw th this "other man" here in Mexico--- I saw one of the Cubans stalked to death--- they returned for me and only God protected my life. I records which I consider to be reliable will relate the story of who paid to have Kennedy killed, how much-- to whom and where and how they trained for the job-- Mr. Oswald was forced int it by his wife and he then had refused to kill any one--- he was fo forced to "set it up by the instructions of the former Dallas Police chief"--- All of this and more is of record with the agents in the United States--- I later have sent all since I was sentenced to Mr Hoover but until after I was sentenced I remained silent for fear of receiving life for nothing--- I am so thankful that I have only been sentenced to five years which will expire on May 9th current year--- Time was per my records, it will relate that the very attorney who is prosecuting me for the Hotel Alameda where the conferences were held, Felepe Gonzalez Jr., was supposedly recipient of the money--- paid off money--- and he worked with Arturo C Gonzalez od Del Rio to set up the plans--- several Cubans were forced into it with a threat to the lives of their family still in Cuba but it was

not the Cuban exi[illegible] as such who participated [illegible] the force nor was it the country of Mexico, as such--- who killed Kennedy--- True, as per [illegible] records and pictures which I sent to the United States--I was a Mexican Military Artillery Officer who trined the men and it was to have been he who was to have fired the first shot into the head of Kennedy--- See my report to the Chief Justice of Mexico after I was sentenced and could afford to talk--- Now I ask you, in what other supposedly free count., would such data have been kept secret and in that other country would it have been denied the press--- I ask you, can it be because the President of Mexico is a friend of LBJ--- and will the President of Mexico resign after the publicatn of my story? See the 95 page testimony which I prepared for PRI the leading political party in Mexico in January in which I related all the Mexican part in it--- but not the part of the US, on foreign soil---

I will relate how all data sent to Mr Russel Long, Senator and member of the Warren Commission was parlayed to Mr. Jim Garrison for political self agrandizement--- but which I thought to be sincere so I wrote much other data to Mr. Garrison which he re-quoted and began to appear on TV. for fees with my story and work--- I soon realized that he was truly or in my openion mentally ill because I actually believe that he really thinks that he has dug all of that information out of his travels--- places that I named to him, and the names of people--- I wrote to him in the beginning asking for help, only to have my work stolen and used by him while I supposedly, rotten in prison--- I really had a laugh about how I sent him on a wild goose chase to Geneva, Switzerland a couple of weeks ago--- he thinks the letters and pictures are hidden there at a fake address that I purposefully wrote and mailed a letter--- So far as I know there is no such address--- and he knows it to by now. The letters are the seven famous letters from Mr. Kennedy to Mr. Kruschev and a letter from Mr Kruschev to Kennedy--- in addition to the Micro film tape(sound---Atomic) of the supposed Kissel, Build up, settlement of Cuba in which the Kennedy sold the US. out for the Asian war--- Russia to get Nicaragua and the Us. Cuba--- after teh first part of the missel showdown filed to materialize. ## in several ways--- The knowledge that the letter from Mr. Kruschev to Mr. Kennedy was to be published and it's contents caused, in my openion, the high blood pressure of Mr Lopez Metoes, fromer Pres. of Mexico who is presently in a Coma--- and it so excited the late Catholic Pope that he sent me word that he would put a curse on me if they were published--- It relates, in part, how a loan was laundered through Mexico for the benifit of Yugoslavia under pressure from the Catholic Pope on Kennedy and how Mr. Metoes kept near $8,660,000.00 dollars for himself--- and how the Pope was pressuring Mr. Teto for his commissions but that Mr Teto had referd him to Mr. Kruschev--- to which Mr. Kruschev said to Mr. Kennedy--- to the effect that if the Pope pressured them more that he(Mr. Krus would expose certain pictures of the Pope and his school day sweet heart and the bank account already in her name and the pictures taken of them indiscreetly--- also.--- the film showed the pictus of Robert Kennedy, a Mexican diplomat, two Russian representives and two Catholic representives from the Vatician who set up the Asian war---

have served twenty one months additional time because I was denied good conduct release because I refused to stand at attention to the playing of the Mexican National Anthem--- this I intend to pursue later after release through the Vetrens Foreign Wars---

as well as any and all sources of help available to me from within the United States--- I have had it up hill all the way from the American Embassy---- the first consulman, Pier L. Williams was the person who visited the plotters on various occassions in the hotel and he tried to have me declared insane here in the prison and court so as to disqualify testimony when I threatened to testify to it. I know the plans for the seating--- the dumies were used for the target practice--- It was believed to have been aborted by Mr. Stevenson and Mr. Kennedy who did not want the information to reach his wife due to her health at the time. However, the Mexican Executive from whom I CONFISCATED the letters and tape--- said that Mr. Netoes had told his boss that if the plans for the assassination of Mr---..... failed this time that he(Netoes) was going to have the job done---- there were many reason why Mr. Netoes wanted Kennedy killed--- Mr. Netoes was not in it directly, but he knew of the plot and could have prevented it---he had chosen to have done so---- In my opening it was the letter from me to Mrs. Jacqueline Kennedy that was the crux of a legal battle in that I related much to her--- in addition to the fact that Mr. Kennedy and brothers had their names on the International Communist list; that I knew the truth of the Bay of Pigs farce--- Mr. Stevenson had first told me but, then, the Mexican Executive related the facts in more deatils but exact in some manner as did Mr. Stevenson and that he(the Mex. exec) was the person who bought the food for Mr. Castro and the eight Russian guards who were smuggled into Mexico just prior to the Bay of Pigs farce--- the Cuban killed here was one who had been in prison in Cuba---Mr. Kennedy was selling out the U.S. and Cuba to Russia--- Red China legrend of the Asian war and the essence of if and back diplomatic relations with Russia---hence the fact of why Mr. Khrushchev was deposed--- Russia was not in accord with the entire farce of the war but in part--- Russia, the Vatician and Kennedy set it up--- The Vatician wanted the Catholic Relegion as the national relegion supported by Russia in Asia---

These facts are only a small part of the data--- and why--- actually why the air power was withheld from poor Cuba which the world has never known the truth. Read my chapter on "CUBAN CARGO IN THE OPEN SEA"---a story of how the Cubans who applied to a certain agency of the US. for liberty to come to the US. were betrayed and listed with the Cuban government and later slaughtered and dumped into the ocean--- through an open bottomed boat--- the Cuban who was killed here was one of those to tell me--- there is much to this story--- perhaps it will enebale us to pass a law forbidding Communist to hold Goverment offices even to oppose the one can vote--- I know how they were to have gotten out of Dallas--- the trip return into Mexico and where they hid out--- am I afraid to relate this story for fear of loosing my life--- NO--- it is of record and if I am harmed, it will be published anyway--- I stand fearless before God--- I am a Christian Scientist in relegion.

I will leave this prison on May 9th--- It is my desire to charter a plane to take me home--- or if the plans --- airlines will contact me, I will be very grateful--- I have cargo to take and it may not be safe in regular route--- although no records are in Mexico I still want to protect much of my work here in the field of literature.

RE: Purchase of the publishing company and building.

Dear Mr. Penrack;

Since writing to you last week in which I inclosed a letter to the editor for publication; and, at what time I offered you --- your paper an opportunity to publish certain Excerpts from the book that I have written concerning the truth of the Kennedy assassination and other pertinent facts as per the program outlines in the letter, I have become interested in discussing the possibilities of purchasing your paper if it is available.

I have heard nothing to the effect that the paper might be purchased but I have an idea that I desire to purchase a publishing company of my own in view of the fact that I have much newspaper work of my own that is most interesting and will find a ready market. This idea was brought home to me in a rather strange manner this week-end--- it was called to my attention that a certain newspaper could be bought in a certain city which was most interesting. However, the city is definitely not one of my choice and a city inwhich I would dislike to live. I like all that San Antonio is and I will enjoy residing there by establishing a residence there. If there is a possibility that you might be interested in [illegible] disposing this matter will you kindly advise me at your very earliest convenience due to the fact that it is now my thought to withhold my work from publication until I have had an opportunity to determine my interest in purchasing a publishing company.

I believe I mentioned in my letter to you that I represent investment funds from a source in Zurich for investments in the U.S. and Mexico. I, also, explained to you that I was not guilty of the so-called alleged fraud and misuse of a credit card of which even the credit manager of the hotel testified in my behalf--- I was dismissed from the hotel and his testimony barred from the court records because they claimed he was a friend of mine--- I had never even seen the man before I did business with him--- I was just plain framed--- I know too much-- it was only the mercy of a loving God that I was not murdered the first night in prison, which, in my my opinion, was their plans. I assure you that this ownership is to be my sole responsibility and that it will be operated by the white race---- in fact, it is my thought to continue to employee the present staff---- I have had a limited experience in newspapering--- in my younger days---

Remember time is of the essence due to the fact that I must put my work before the public at an opportune time or loose much value in human interest; therefore, I must begin to plan for the purchase by contacting my attorney in San Antonio or Austin and arrange appointments prior to my release from here in [illegible]---- I anticipate going directly to San Antonio. This will be a cash purchase. It can be settled in the U.S. or Mexico--- or Zurich---

Yours truly,
(Mrs.) Annie R. Patterson

Mr. James T. Devine, official in the office of the Deputy Attorney General of the Department contacted supervisor Robert E. Lenihan on 8/15/68 and advised that the Department had received a letter from Paul L. Hoch, Berkeley, California, wherein Hoch expressed an interest in seeing the pamphlet "Crime Against Cuba" by Corliss Lamont, which had been given to Special Agent John L. Quigley, New Orleans Office, by Oswald on August 10, 1963. Oswald was in jail at the time for disturbing the peace and had asked to see an FBI Agent. He was interviewed by Special Agent Quigley at which time he furnished a self-serving statement concerning his role in the Fair Play for Cuba Committee and furnished Special Agent Quigley a copy of Lamont's pamphlet.

Mr. Devine informed Special Agent Lenihan that he was aware that numerous copies of Lamont's pamphlet had been obtained by the Dallas Police Department during its search of Oswald's effects immediately following the assassination of President Kennedy on November 22, 1963. These pamphlets are now in National Archives along with other Warren Commission data and are available for public review.

Mr. Devine asked to see a copy of the "Crime Against Cuba" pamphlet that Oswald furnished to Special Agent Quigley in order that he could compare it with the copies of the pamphlet available in the National Archives. Accordingly, the New Orleans Office was instructed to make a Xerox copy of this pamphlet, the original of which is maintained as an exhibit in the New Orleans file concerning Oswald. This Xerox copy was exhibited to Mr. Devine by supervisor Lenihan on August 19, 1968. It was noted by Mr. Devine and supervisor Lenihan that this particular copy of the pamphlet is identical in all respects to the copies of the pamphlet maintained in National Archives.

A check of Bureau files revealed that Hoch contacted a Bureau representative in Washington on June 21, 1966, and identified himself as a student at the University of California, Berkeley, California. He asked a number of questions concerning the FBI's investigation of the assassination but was referred to the data furnished by the FBI to the Warren Commission. Our files also disclose Hoch wrote a letter to the Bureau February 4, 1965, asking for access to the original FBI report of the assassination. A reply was sent to Hoch informing him data in FBI files are confidential and are available for official use only.

THE CRIME AGAINST CUBA

by Corliss Lamont

I

Walter Lippmann, dean of American columnists, has referred to the Kennedy Administration's support of the anti-Castro military venture in Cuba as an appalling and colossal mistake. But the abortive April invasion was worse than that. It was an outright crime against the Cuban people; and it was also a crime against the American people, against the United Nations and against world peace.

President Eisenhower must share the responsibility with President Kennedy for this enterprise in international immorality. As columnist William V. Shannon said in the *New York Post* of April 9, 1961: "Back in late 1959, the Eisenhower Administration decided to apply to Cuba 'the Guatemala treatment.' That is, the National Security Council gave C.I.A. Director Dulles the go-ahead to organize the Cuban exiles, train a military force and plan an invasion of Cuba."*

* In 1954 Eisenhower's team of the brothers Allen W. and John Foster Dulles, Secretary of State, engineered the downfall of the progressive Guatemalan Government headed by President Arbenz. This was accomplished through covert U. S. military and other aid to the anti-government forces.

On January 3, 1961, Eisenhower, partly in furtherance of this plan, severed diplomatic relations with Premier Fidel Castro's government.

In his 1960 election campaign, President Kennedy, on October 20, issued a special statement about Cuba, claiming that the Russians had established "a new satellite" there, and suggesting that the United States Government should help to strengthen the "democratic anti-Castro forces in exile, and in Cuba itself, who offer eventual hope of overthrowing Castro."

This statement by Kennedy aroused considerable misgivings among liberals and progressives, including myself, who had come out in support of his candidacy. But most of us felt that his tough attitude towards the Castro regime was political eyewash designed to catch right-wing votes. Subsequent events made it clear that we were guilty of wishful thinking.

II

In the early, pre-dawn hours of April 17, 1961, some 1,500 Cuban exiles and refugees—recruited, organized, subsidized and armed by the Central Intelligence Agency, a subdivision of the American Government—invaded Cuba. This army came in boats supplied by the C.I.A., with guns and tanks supplied by the C.I.A., and with fighting planes supplied by the C.I.A. The aim was to secure a beachhead in Cuba, to trigger a mass rebellion against Castro, and to set up a Provisional Government which would then get official American recognition and aid. The U. S. Joint Chiefs of Staff approved the military aspects of the blueprint for invasion, which was given the code name of Operation Pluto by the C.I.A.-Pentagon strategists.

The April 28th issue of *Time*, a magazine distinctly hostile to Castro, stated: "The invaders—all Cubans—were trained by the U. S., supplied by the U. S., and dispatched by the U. S. to carry out a plan written by U. S. military experts. President Kennedy knew D-day in advance and approved." To handle the anti-Castro forces, there were "six main training bases in Guatemala" and "two staging bases at Puerto Cabezas, Nicaragua, and tiny Swan Island off the Honduran coast.

"In recent weeks, the equivalent of fifty freight carloads of aerial bombs, rockets, ammunition and firearms was airlifted into Puerto Cabezas by unmarked U. S. C-54s and C-47s, in such quantities that on some days last month planes required momentary stacking. During Easter week, twenty-seven U. S. C-124 Globemasters roared in three or four at a time to off-load full cargoes of rations, blankets, ammunition and medical supplies at the U. S.-built airstrip at Retalhuleu, at

Guatemala City and at Guatemala's San José airbase."

The U. S. Navy, at least, rendered direct aid to the expedition against Cuba. One of the Cuban invaders who later escaped to Miami writes in his diary, published in the *New York Herald Tribune* of May 5: "April 14—The flotilla is steaming toward our date with destiny. Two destroyers—I think they are North American—flank us." This information was confirmed from other rebel sources.

U. S. News and World Report (May 15) gave further details: "U. S. destroyers escorted the ships to within six miles of shore. A U. S. aircraft carrier was in escort, as well, but remained about thirty miles offshore. . . . The B-26s of the anti-Castro forces flew from bases 600 miles away. They were escorted by U. S. Navy jets which peeled off about five miles from the beach, and left the B-26s on their own."

As history will permanently record, the Cuban Army and civilian militia smashed and smothered the invasion within three days, capturing more than 1,000 prisoners. Castro's tiny air force drove off or downed the enemy bombers, and sank most of the ships that had brought the invaders to the shores of Cuba. The entire Cuban people rallied to the support of the Government, and no sign of an uprising could be detected. Thus the

long-heralded invasion to "liberate" Cuba ended in complete fiasco, with the Kennedy Administration that had backed this madcap venture discredited throughout the entire world.

The extent to which the U. S. Government was in charge of the invasion is further shown by the fact that just before it began, the C.I.A. hustled off José Miró Cardona, President of the Cuban Revolutionary Council, and the other leaders of this principal anti-Castro organization, to an isolated and abandoned airbase in Florida where they were held incommunicado. The C.I.A. then issued news releases in the Council's name, but without its knowledge.

According to *The New York Times* of April 26, these Cuban leaders "were kept from using the phone or from communicating with anyone on the outside. . . . Enraged, several of the Council members announced that they were leaving even if it meant being shot by the armed guards." Finally, Adolf A. Berle, Jr., President Kennedy's coordinator of Latin-American policies, and Arthur M. Schlesinger, Jr., another close adviser to the President, flew to Miami to calm down the Revolutionary Council. Apparently the C.I.A. thought that the Council leaders could not be trusted to be discreet.

Earlier the C.I.A. had also kidnapped seventeen anti-Castro volunteers, because it consid-

ered them too Left politically, and held them in a remote jungle camp in Guatemala for eleven weeks before and during the invasion (*New York Times*, May 7). This episode reinforces our general knowledge that the C.I.A., in lining up recruits for and organizing the Cuban expedition, was partial to right-wing elements, including former supporters of Batista. And the two "kidnapping" incidents together prove up to the hilt that the assault on Cuba was master-minded by the C.I.A., and that the Cubans involved, whether leaders or rank-and-file, were essentially captives of U. S. imperialism.

On the very day of the invasion, Dr. Raul Roa, Cuba's Foreign Minister, charged before the Political Committee of the United Nations that his country had been invaded "by a mercenary force which came from Guatemala and Florida and which was organized, financed and armed by the Government of the United States of America." Ambassador Adlai E. Stevenson categorically denied these accusations and declared: "The United States has committed no aggression against Cuba. • • • I wish to make clear also that we would be opposed to the use of our territory for mounting an offensive against any foreign government."

Thus, as in the incident of the U-2 spy plane flight over the Soviet Union on May 1, 1960, the

U. S. Government was caught red-handed in the Big Lie. Everyone who heard Mr. Stevenson speak in the U. N. knew that he was telling a diplomatic falsehood; and it was one that turned out to be most undiplomatic. For only a week later the White House gave out an official release on the Cuban affair, saying that "President Kennedy has stated from the beginning that as President he bears sole responsibility for the events of past days."

The participation by the United States in a military assault on a country with which it was officially at peace was a dishonorable action totally opposed to the best in our traditions as a democracy. It constituted a cynical violation not only of America's ideals of international peace, but also of our laws, our Constitution and at least six international treaties, including our solemn agreements under the United Nations and the Organization of American States.

One of the neutrality laws violated went into effect on June 25, 1948, under Title 18, Section 960 of the U. S. Code, Annotated: "Whoever, within the United States, knowingly begins or sets on foot or furnishes the money for, or takes part in, any military or naval expedition or enterprise to be carried on from thence against the territory or dominion of any foreign prince or state, or of any colony, district or people with

whom the United States is at peace, shall be fined not more than $3,000, or imprisoned not more than three years, or both." Sections 956 and 959 of Title 18 are also most relevant.

With President Kennedy's assent, the C.I.A. took such complete command of the Cuban invasion that it became in reality a U. S. act of war, if not *de jure*, at least *de facto*. However, under the Constitution (Article I, Section 8, Item 11) Congress alone has the right to declare war. Thus in the Cuban situation the Kennedy Administration—the Executive Branch of our Government—usurped the power of the Legislative Branch and went ahead on its own to involve the United States in military hostilities that conceivably could have led to a world-wide nuclear conflict.

The aggression against Cuba also was contrary to the United Nations Charter, Chapter I, Article 2, Sections 3 and 4. Section 3 states: "All Members shall settle their international disputes by peaceful means in such a manner that international peace and security, and justice, are not endangered." Section 4 requires: "All Members shall refrain in their international relations from the threat or use of force against the territorial integrity or political independence of any state, or in any other manner inconsistent with the Purposes of the United Nations."

Likewise the Cuban venture violated Article 15 of the Charter of the Organization of American States, signed at Bogotá in 1948 by both the United States and Cuba: "No state or group of states has the right to intervene, directly or indirectly, for any reason whatsoever, in the internal or external affairs of any other state. The foregoing principle prohibits not only armed force but also any other form of interference or attempted threat, against the personality of the state or against its political, economic and cultural elements."

The American Government's disregard of the U.N., O.A.S. and other international obligations of the United States is in itself a violation of our Constitution, under Article VI, Section 2: "This Constitution and the laws of the United States which shall be made in pursuance thereof and *all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land*, and the judges in every State shall be bound thereby, anything in the Constitution or laws of any state to the contrary notwithstanding." [Italics mine.—C.L.]

It was ironic that just two weeks after the landing in Cuba President Kennedy, signing a resolution that proclaimed May 1 as Law Day throughout the United States, said in part: "Law is the strongest link between man and freedom,

and by strengthening the rule of law we strengthen freedom and justice in our own country and contribute by example to the goal of justice under law for all mankind."

III

The official reasons that the U. S. Government gave for its disregard of legal commitments, domestic and international, in the Cuban situation were that Premier Castro had created a Communist dictatorship in Cuba; that international communism had set up a base of operations in that country and was thereby violating the Monroe Doctrine; that Cuba—only ninety miles from American shores—had become a Soviet satellite; and that all this gravely threatened the national security of the United States.

An objective examination of the facts demonstrates that these charges against the Cuban Government are specious and mere pretexts for foreign intervention by means of force and violence. Nobody in his right mind can believe that the Castro regime, governing a little country with a total population of about 6,500,000—less than that of New York City—aims at military aggression against the United States. And Castro has repeatedly declared that he will work out the problem of the U. S. Naval Base at Guantanamo Bay through peaceful negotiations.

Since, therefore, Cuba does not represent any real menace to the security of the U.S.A., the American enemies of the Castro Administration are compelled to manufacture excuses for the most drastic action, including military invasion, against the Castro regime. These excuses must sound sufficiently plausible to delude the American people and world opinion. This explains the tremendous efforts—on the part of newspapers, magazines, radio, TV and the American Government itself—to whip up hysteria in the United States over the subject of Cuba. In this age, *nations as well as individuals can be victims of a frame-up.*

The revolutionary Government of Cuba came into power in January of 1959 as the result of an indigenous, non-Communist movement led by Fidel Castro to overthrow the reactionary and bloody dictatorship of Fulgencio Batista. The small Cuban Communist Party had long looked upon Castro as a well-meaning but blundering adventurer, and gave support to his 26th of July Movement only as it was nearing its final triumph. Throughout the Castro regime's brief existence of two-and-a-half years it has remained independent, while going steadily to the Left and experimenting with a socialist economy especially adapted to Cuban conditions and the Cuban people.

In this leftward trend Premier Castro's Administration was stimulated to a considerable degree by the hostile actions of the American Government and American business interests. Furthermore, when the Eisenhower Administration treated the Castro regime as a pariah and finally ruled out all American-Cuban trade, except in food and drugs, the Cuban leaders decided—with the very survival of their nation at stake—to fill in the void, especially in the absolutely essential trade in oil and sugar, by large-scale commercial agreements with Soviet Russia and Communist China. It was at this point that American Government officials, and most organs of public opinion in the United States, started to label the Castro government as "Communist" and to talk wildly of "the Communist bridgehead in Cuba" and "Soviet domination."

But it is important to remember that in our era former colonial or semi-colonial peoples throughout the world, from Indonesia in the Far East to Ghana and Guinea in Africa to Cuba in the Caribbean, have been winning national independence and at the same time setting up dynamically led republics that institute socialist programs in order to bring about rapid economic, social and cultural progress. It is essential to understand that when such regimes put into effect radical measures, as well as establishing

close diplomatic and economic relations with the Communist bloc, this does not mean that they necessarily are Communist-controlled or are becoming Communist.

As Mr. Bella Doumboya, the representative of Guinea at the recently concluded session of the United Nations, said in a speech on Cuba before this body on April 17: "States engaged in the decolonization of their structure always discover, and are appalled by the fact that their economy is not adapted to the needs of their national life owing to foreign exploitation. Single crop economies are an essential characteristic of underdeveloped countries. A revolutionary government, in order to foster comprehensive economic development, is bound to alter the colonial shape of the productive system if it wishes to foster national output and the industrialization of the country.

"Contrary to accusations of Communist infiltration which circulate everywhere as soon as an under-developed country engages in bold reforms, it should be known that the acts which succeed the assumption of power are the ineluctable consequences of a life of dependence and frustration and derive mainly from the paramount claim of people hitherto subjected to a feudal regime. In countries where the national economy is under the control of foreign interests,

misery and wretchedness is the lot of the indigenous population, all of whose labor power is occupied in the production of raw materials required for the continued expansion of the trusts.

"In the field of production, in order to facilitate new crops in line with the needs of the people, and to put an end to the exploitation of the peasantry, in order to call a halt to the inevitably catastrophic repercussions of this general situation on national output—in a word, in order to remedy the irrational utilization of land and bring to an end social injustice and misery, fledgling governments must always engage in historic acts which sometimes become the cause of ill repute for them."

Every word of Mr. Doumboya's address applies to what the Castro regime has been trying to do. If the American people and the American Government persist in misunderstanding the situation in Cuba and in other nations that have recently emerged into freedom, the effects on United States foreign policy and international peace will continue to be disastrous. For to ascribe home-grown movements toward national independence and socialism to some sort of Communist conspiracy directed from Moscow or Peiping not only vastly exaggerates the power of the Communist bloc, but also leads to provocative claims of Communist intervention or aggression when it does not exist.

As for international communism having achieved a base in Cuba, this is pure nonsense, notwithstanding the constant propaganda to the contrary in the U.S.A. In the pre-invasion months a rumor was frequently printed that the Soviet Government had already constructed missile bases in Cuba. Of course this was wholly false; and in any case the Soviet Union has no need for such bases, since through its advanced technology it could from its own territory extensively bombard the United States with inter-continental missiles. As Premier Khrushchev declared in his conciliatory message to President Kennedy of April 22, "Our Government does not seek any advantages or privileges in Cuba. We do not have any bases in Cuba, and we do not intend to establish any. And this is well known to you, to your generals and admirals."

On the other hand, the United States has its big Guantanamo base, and maintains scores of other military bases fairly close to Soviet Russia and China, often in countries bordering upon them. As James Reston wrote in *The New York Times* of April 23: "Turkey, for example, has been getting from the United States far more power than Castro ever dreamed of getting from the Russians. The United States power, including

even rockets with nuclear warheads, has been situated in Turkey for a long time, but the Russians, while annoyed by this fact, have not felt obliged to use their power to invade Turkey."

A flagrant attempt to inflame American public opinion against Castro is shown in the many reports published about the Cuban Air Force utilizing Soviet MIG jets against the invaders. *Time* even stated that some of them were flown by Czech pilots. That these stories were untrue is indicated by the United States Navy itself. A dispatch from the U. S. base at Guantanamo in *The New York Times* of April 20 states: "The sensitive radar on Navy ships here has picked up no trace of high-speed Cuban or Communist aircraft. Officials, therefore, are confident that there have been no MIG fighters in this area of Cuba at least. Nor has the Navy sighted any foreign submarines." This paragraph was omitted in a later edition of the *Times*.

During May, Senator Wayne Morse (D.) of Oregon, Chairman of a special Senate subcommittee on Latin American Affairs, reported that this body had heard "not a bit of evidence" that there was a single MIG plane in Cuba. According to Senator Morse, the Cuban planes that proved so effective in thwarting the rebel landing were of U. S. manufacture and had been sold to the old Batista government.

Castro's own comment on the make-up of his air force during the invasion crisis was, "Would that we had had a few MIGs in those days!" In any event the Castro regime has a right to purchase for its own self-defense MIG planes, or any other kind, from a foreign government.

Much of the American propaganda barrage against Castro has centered around Cuba's admitted lack of civil liberties and political democracy. This propaganda, in the first place, naturally fails to mention that the Cuban Revolutionary Government has rapidly developed full racial democracy, complete equality between the whites and the Negroes, who make up one-third of the population. Economic, social and political discrimination against colored people, a pervasive evil under the Batista and earlier tyrannies, has disappeared. As Joseph Newman reported in the *New York Herald Tribune* (March 23): "Castro and Guevara are literally adored by the large number of poor and humiliated Cubans, especially the Negroes. They see these two leaders as saintly and honorable men, dedicated to removing injustices and discrimination."

In two and one-half years the Castro regime has made far more progress towards unqualified civil rights than the United States, particularly in the South, during the entire 100 years since the Civil War began. Actually, many of the

Americans who cry out against "the Castro dictatorship" hate and fear racial democracy, and are scared stiff that it might spread from Cuba to the continents of North and South America.

In the second place, our American propagandists do not point out that the Cuban Government has a democratic mandate in the sense that it is supported by the overwhelming majority of the people. This support stems from the fact that the Government has brought to the workers and peasants—the massive legion of the underprivileged—a higher standard of living, release from economic exploitation, vastly increased educational and cultural opportunities, the promise of continued progress, and a feeling of dignity and freedom at no longer being in bondage to U. S. imperialism. Had the C.I.A., the American State Department and President Kennedy known these things, they would not have made the miscalculation that the recent invasion would set off a popular uprising.

U. S. propaganda, in the third place, leaves out of the picture any reference to the relentless political and international pressures that have driven the Castro regime to certain dictatorial actions and policies. The outstanding foreign factor here has been the hostility of the United States, including its far-reaching economic embargo and culminating in April's military assault.

That aggression was hardly the sort of episode that could be expected to encourage democracy in Cuba, or in any other country confronted by similar circumstances. And the Cuban Government was certainly justified in putting into effect throughout the island far-reaching measures on behalf of public safety. It is well to recall that the National Emergency proclaimed by President Truman in 1950 during the Korean War is still in effect in the United States and has been utilized constantly for the curtailment of civil liberties.

There is, in truth, a large element of both inconsistency and hypocrisy in the American Government's call for "free elections" and political democracy in Cuba. It never made any such demands on Batista when he was in the saddle; nor on a number of other Latin American dictatorships that have been classified as part of "the free world"; nor on various other dictatorships allied to the U. S., such as those of Pakistan, Thailand, Saudi Arabia, Franco's Spain ,Salazar's Portugal, and Chiang Kai-shek's Taiwan.

The real reason for the bitter opposition of the United States to the Castro regime is that it has put through radical social and economic reforms, nationalized the huge American property holdings in Cuba, freed the country from U. S. imperialist exploitation, established racial

democracy and instituted a planned socialist economy that is successfully functioning. Above all, the Eisenhower and Kennedy Administrations have been afraid that revolutionary Cuba would serve as an example for other Latin American peoples to follow, and that it would inspire dangerous ideas even among the population of the United States.

In any case, so far as democracy is concerned, history has demonstrated that a basic law or principle of drastic economic and social change is that when a progressively oriented revolution takes place in *any* country, the new regime coming into power may feel obliged to put into effect draconian legislation and procedures in order to ensure its survival and the success of its program. This holds especially when the nation in question—like Cuba—has had little or no functioning democracy in the past, is throwing off a reactionary bureaucracy or tyranny, or is threatened by internal counter-revolution and military incursions from abroad.

The principle I have just enunciated clearly applies to the non-Communist Castro government and its efforts to build an indigenous form of socialism geared to the welfare of the Cuban people as a whole; it applies to the various revolutions towards socialism that have occurred elsewhere in the twentieth century; and it applies

to our own American Revolution of 1776 against colonialism, when we were very hard on the Tories, some 100,000 of whom fled the country and suffered the confiscation of their property. In the chaotic and difficult conditions that faced the new American Republic subsequent to victory in 1781, we were quite weak on democracy and civil liberties, even after the adoption of the Bill of Rights in 1791.

It would be well for Professor of History Schlesinger to remind President Kennedy that no presidential elections were held in the United States until 1789, more than seven years after the end of the Revolution; that even then George Washington was unopposed for President, as he was again in 1792; that the theory of our Founding Fathers, as written into the Constitution, made no place for political parties; and that two distinct parties did not come into existence until a good twelve years after the close of the Revolutionary War.

The eminent philosopher, William Ernest Hocking, Professor Emeritus of Philosophy at Harvard, in his book *Strength of Men and Nations*, stresses a consideration that is most pertinent to the Cuban situation: "In the world-wide effort to meet the needs of under-developed regions, it must be realized that a degree of dictatorship is inescapable for the first steps. . . .

A people uneducated and uninformed, devoid of the habit of thinking out their own destiny, must proceed toward self-government under responsible guidance." And in such circumstances the people in general may well want "no gentle looseness of rein but a strict and determined command," just as midshipmen prefer a captain who "keeps a taut ship."

This discussion brings us back to the statement by Mr. Doumboya of Guinea that "fledgling governments must always engage in historic acts which sometimes become the cause of ill repute for them." As to such acts on the part of the Castro regime, as well as its obvious errors and excesses, the words of Lord Macaulay in his *Essay on Milton* (1823) are remarkably relevant:

"We deplore the outrages that accompany revolutions. But • • • the final and permanent fruits of liberty are wisdom, moderation and mercy. Its immediate effects are often atrocious crimes, conflicting errors, skepticism on points the most clear, dogmatism on points the most mysterious. It is just at this crisis that its enemies love to exhibit it. They pull down the scaffolding from the half-finished edifice; they point to the flying dust, the falling bricks, the comfortless rooms, the frightful irregularity of the whole appearance; and then ask in scorn where the promised splendor and comfort are to be found. If such miserable sophisms were to prevail, there would never be a good house or a good government in the world."

IV

I said at the start of this essay that the U. S.-backed invasion of Cuba was a crime against the American people. This is true not only because it greatly increased international tensions and the danger of a horrible nuclear war, but also because it set at naught long recognized democratic principles and Constitutional safeguards in the United States.

In relation to Cuba, President Kennedy and his close associates acted as a tight little group of conspiratorial bureaucrats in violation of parliamentary procedures and the fundamental principle of the Constitutional separation of powers among the three branches of the U. S. Government. Prior to the invasion, Congress was not given the slightest opportunity to debate the Cuban issue; nor was it submitted to the Senate Committee on Foreign Relations, of which J. William Fulbright (D.) of Arkansas is Chairman, nor to that Committee's subcommittee on Latin American Affairs. However, Senator Fulbright, knowing about Operation Pluto in advance, almost alone among Administration leaders opposed it in a memorandum to the President.

Of course the American people as a whole had no chance to express their opinion on the question of Kennedy's plunging them into the Cuban maelstrom. As Senator Morse put it in a speech on the Senate floor: "There is grave doubt as to the legality of the course of action our executive followed last week in regard to Cuba. . . . Freedom is worth too much as a human system of government for us to surrender any of our freedom to *a police state system in the field of foreign policy*, dictated by denying to the people the knowledge of the facts of their own foreign policy." [Italics mine.—C. L.]

Kennedy's Cuban adventure constituted an Executive action running directly counter to the pronouncement in the Declaration of Independence about governments "deriving their just powers from *the consent of the governed*." [Italics mine—C. L.] As Mr. David Wise, White House correspondent of the *New York Herald Tribune*, wrote on May 2: "If a major foreign policy action —carrying with it the risk of war—must be prepared in secret, then should it be undertaken at all? And a corollary question being asked is how far down the road a democracy can go in emulating the tactics of its enemies before it wakes up one morning and finds it is no longer very different from its foes?"

After the invasion as well as before it, the

Kennedy Administration pursued its policy of undemocracy, endeavoring to stifle a free and full debate on the crime against Cuba in Congress and in American organs of public opinion. The President arranged interviews with the highest ranking Republican leaders such as ex-President Eisenhower, former Vice President Nixon, ex-President Hoover, Governor Rockefeller and Senator Barry Goldwater. The aim was to secure Republican acquiescence in the Cuban assault and a bipartisan blackout on the whole business. In fact, during the first weeks after the invasion it was only Senator Morse who spoke out in the halls of Congress against Kennedy's reversion to "the law of the jungle," as he called it. In the press there was plenty of criticism about how inefficiently the Cuban attack was handled, but precious little about its unethical and hypocritical character.

In a talk April 20 before the American Society of Newspaper Editors, President Kennedy compounded his mistakes of the past by indicating that there would be new ones in the future. "Let the record show," he declared, "that our restraint is not inexhaustible. Should it ever appear that the inter-American doctrine of non-interference merely conceals or excuses a policy of non-action; if the nations of this hemisphere should fail to meet their commitments against

outside Communist penetration, then I want it clearly understood that this Government will not hesitate in meeting its primary obligations, which are the security of our nation. Should that time ever come, we do not intend to be lectured on intervention by those whose character was stamped for all time on the bloody streets of Budapest."

These fighting words seemed to contradict the President's pledge of April 12 that "there will not under any conditions be an intervention in Cuba by United States armed forces"; and they were everywhere interpreted as not only a threat to the Latin American allies of the United States, but also as a warning that Kennedy might set in motion unilateral military intervention to encompass the destruction of the Castro Government. It is no wonder that *The Nation* condemned this speech as "one of the most belligerent and reckless . . . ever made by an American President."

Developing further his undemocratic techniques, President Kennedy, in an address to the American Newspaper Publishers Association on April 27, urged the press to censor itself on behalf of national security. Angry at newspaper exposures of the C.I.A.'s cloak-and-dagger plot against Cuba, Kennedy asserted: "Every newspaper now asks itself, with respect to every

story: 'Is it news?' All I suggest is that you add the question: 'Is it in the interest of national security?' And I hope that every group in America —unions and businessmen and public officials at every level—will ask the same question of their endeavors, and subject their actions to the same exacting test." To buttress his position, the President referred approvingly to the fact that in these "times of clear and present danger the courts have held that even the privileged rights of the First Amendment must yield to the public's need for national security."

In this manner President Kennedy expressed himself as favoring the current tendency in Supreme Court decisions to weaken civil liberties by making sweeping exceptions to freedom of speech as guaranteed in the Bill of Rights. I must add that the goal of every tyrant down the ages has been precisely to pressure and frighten the individual into *self-censorship*, so that he will not dare to speak up and protest publicly on controversial issues. When this happens a spirit of conformity and fear engulfs the nation, as in the United States at the height of McCarthyism. And if America's organs of public opinion now adopt the President's recommendations, this country will indeed be in a bad way.

In criticizing the President's speech, the *New York Post* (April 30) stated in an editorial: "Mr.

Kennedy said 'no war ever posed a greater threat to our security' than the present crisis and that 'the danger has never been more clear and its presence has never been more imminent.' Such language usually foreshadows the suspension of civil liberties. That, of course, is not now the case; Mr. Kennedy explicitly asserted that he has no desire to establish the 'wartime discipline' under which the Communists continuously operate. Yet the surface impact and logic of his words is to encourage those who would create such a climate here." The *Post* was right.

President Kennedy's suggestion about newspapers censoring themselves aroused other strong comments in the press. Under the heading, "When the Government Lies, Must the Press Fib?" *I. F. Stone's Weekly* (May 8) stated: "The national interest in a free society is supposed to lie in the fullest dissemination of the facts so that popular judgment may be truly informed. It is the mark of a closed or closing society to assume that the rulers decide how much the vulgar herd shall be told."

In an editorial of similar purport entitled "The Right Not To Be Lied To," *The New York Times* (May 11) said: "A dictatorship can get along without an informed public opinion. A democracy cannot. Not only is it unethical to deceive one's own people as part of a system of deceiving

an adversary government; it is also foolish." *The Christian Century*, a non-denominational and liberal religious weekly, assailed Mr. Kennedy's proposals to the press and claimed that they "carried an overtone of panic."

To summarize this part of my analysis, the Kennedy Administration has dealt a heavy blow to civil liberties through its intimate involvement in the invasion of Cuba, its brink-of-war policy towards the Castro regime and the President's two unfortunate speeches of April 20 and 27. At the same time our Government has given new heart and hope to every right-wing chauvinist in the U. S. A., and to every frenetic, anti-freedom group in the land, from the American Legion to the John Birch Society.

Plainly, the attack on Cuba was not only contrary to American ideals of fair play and the abolition of war, but also to our basic self-interest as a people and a nation. For the Cuban debacle seriously set back President Kennedy's genuine endeavors towards international peace; and lost the United States an enormous amount of prestige in every corner and continent of the earth, including Canada and Latin America, and among our allies as well as among our acknowledged foes.

Joseph Barry well summed up the matter in the *New York Post* of April 23: "Whoever wins

in Cuba, we have lost. The Cuban catastrophe has become an American tragedy. In its first 100 days the Kennedy Administration has virtually drained its initial favorable balance in the world's books. . . .

"Everywhere our principle of self-determination has been compromised by Kennedy's defense of intervention, however limited, in Cuba's destiny, and the promise—which to the world is a threat—to intervene heavily should its destiny not be the one we prefer. . . . The neutrals of the world, from Nehru to Tito, have been shocked. The new nations of Africa are fearful of what some already refer to as 'American neocolonialism.' From Delhi is heard the dismaying doubt that 'the New Frontier may after all be just the old familiar brink.'"

In a letter to *The New York Times* printed on May 13, Cyrus Eaton, well-known Cleveland industrialist, pointed out the international implications of the American Government's failure to obtain dependable factual information concerning Cuba: "If our intelligence on Cuba, only ninety miles away, could be so erroneous and misleading, how much better is it likely to be on Czechoslovakia, East Germany, Hungary, Poland, Rumania, Bulgaria and the Soviet Union?

"From first-hand observation in Eastern Europe, I know that our diplomatic personnel deliberately maintain the most limited contact with government officials and practically none with the common man. . . . By seeking out the most extreme anti-Communist elements wherever it operates, the C.I.A. has largely cut itself off from reliable and useful intelligence."

Meanwhile, the Soviet Government had taken a firm and consistent stand on the Cuban situation. Premier Khrushchev in his note of April 22 presented to President Kennedy a series of reasoned arguments opposing the American attitude: "You simply claim," Mr. Khrushchev said, "some right of yours to employ military force when you find it necessary, and to suppress other peoples each time you decide that their expression of will constitutes 'communism.' But what right have you, what right has anyone in general, to deprive a people of the possibility of choosing their social and political system of their own free will?" Khrushchev concluded his message by urging once more that the Soviet Union and the United States work through to peaceful coexistence, with stable agreements on disarmament and other international problems.

In the United Nations on April 26, Valerian A. Zorin, head of the Soviet delegation, repeated his Government's pledge to come to the aid of Cuba in case it was subject to military intervention;

and asserted that this promise "was given seriously, more seriously than the British pledge of help to Poland that helped to draw the Western allies into World War II" (*New York Times*, April 27).

As for open U. S. military intervention in the future to get rid of Castro, Senator Morse was correct when he asserted on April 24: "I say to the Senators today that it is my judgment that if the United States seeks to settle its differences with Cuba through the use of military might, either direct or indirect, we shall be at least half a century recovering, if we ever recover, the prestige, the understanding and the confidence of one Latin American neighbor after another. . . . Cuba is not a dagger pointed at the heart of the United States, but is instead a thorn in our flesh."

However, Cuba need not even have become "a thorn in our flesh" had the Eisenhower Administration offered economic cooperation and assistance to the Castro regime when it took over early in 1959. America should have been glad at that time that here was a non-Communist revolution in the Western Hemisphere with far-reaching social goals and with intelligent idealists leading it. Here was a chance for the American Revolution to catch up with and participate in the great social revolution that has been sweeping the world during the twentieth century, a chance for the United States to befriend a struggling new regime and give guidance to a democratic reconstruction of the Cuban economy and political system.

Instead of grasping this unique opportunity, the American Government followed its usual policy of hostility towards a new order dedicated to radical social and economic reform, and did everything possible to weaken and undermine it. For the United States this was an extension of the attitude Walter Lippmann describes when he says: "We have used money and arms in a long losing attempt to stabilize native governments which, in the name of anti-Communism, are opposed to all important social change."

But it is not too late to retrieve the situation in regard to Cuba. Despite the American-supported invasion, only a week after it had been repulsed Premier Castro and President Dorticós said in a statement about Cuba and the United States: "We are willing to hold whatever discussions may be necessary to find a solution for the tension existing between the two countries and to arrive at a formula of peaceful coexistence, diplomatic relations and even friendly relations, if the Government of the United States so desires."

The U. S. State Department brusquely, fool-

ishly and childishly dismissed this conciliatory gesture with the rejoinder, "Communism in this hemisphere is not negotiable."

V

However, there is no necessity for this being the final word if the Kennedy Administration will reconsider the whole matter in a spirit of reason and in the light of what is to the greatest advantage of the American people and lasting peace. In my opinion, President Kennedy should take the following steps:

1. Issue an unqualified pledge that the United States Government will not at any time in the future undertake military intervention against Cuba, either directly or indirectly.

2. Cease all further support to those Cuban exiles and refugees, on American soil or anywhere else, who are planning another invasion attempt to overthrow the Castro regime.

3. Announce that henceforth the United States Government will respect in full all international treaty obligations regarding Cuba.

4. Arrange the speedy resignation from the Central Intelligence Agency of those top officials who had primary responsibility for the C.I.A.'s ignominious role in the Cuban fiasco. Also replace Adolf A. Berle, Jr., the Administration's coordinator of Latin American policies, who has displayed an abysmal ignorance concerning Cuba.

5. Accept the Cuban Government's proposal for the re-establishment of diplomatic relations between the United States and Cuba.

6. Agree to negotiate the chief political and other problems that exist today between the two countries, including the questions of normal trade relations and of proper financial compensation for the American property nationalized by the Castro regime. [Congressman Frank Kowalski (D.) of Connecticut made proposals along these lines in a speech in the House of Representatives on April 27.]

7. Agree to submit disputes on which agreement cannot at present be reached to the United Nations or the World Court.

8. Lift the ban against American citizens going to Cuba, re-establishing in this sector the precious right to travel.

9. Send to Cuba a special fact-finding commission of distinguished Americans to make a complete, impartial study of the situation there so that the U. S. Government will have reliable information on the developments that have taken place under the Castro regime.

SUBJECT: MAIL ORDERS FOR GUNS;
COLUMBIA BROADCASTING SYSTEM, Dallas, Texas -
Interception by Post Office Department.

Inspector Henry Montague of the Post Office Department called me at 10:55 this morning. He advised that on Monday, 8/26/68, the Post Office Department received a call from Klein's Sporting Goods, Chicago, Illinois, to the effect that an order had been received for a carbine, enclosing a money order for $50. The return address was given as Box 2173, Dallas, Texas, and the name given on the return address and by the purchaser was "A. J. Hidel" (a name used by Lee Harvey Oswald).

The Postal Service investigated this matter and found that Box 2173 in Dallas had been rented on 7/18/68 by one Hughes Rudd, Statler Hilton Hotel, Dallas, Texas. The hotel records were checked and it was ascertained that Rudd was a Columbia Broadcasting System (CBS) newsman, connected with Walter Cronkite. There were two letters in the box, and one package from a firm in New Jersey whose return address was "Service Armament Company." The package was addressed to "A. J. Hiden."

The Postal Inspectors kept a surveillance on Box 2173 and eventually picked up an individual who attempted to obtain mail from this box. This individual identified himself as a representative of local TV station WFAA, Dallas, Texas, which is part of the CBS chain. This CBS employee, upon being questioned claimed he was picking up mail for one Eddie Barker, who is a local news commentator for CBS. Barker was questioned the following morning by the Postal Inspectors and he claimed that various orders for guns represented simply a series of tests to determine if the U.S. Government was enforcing the recent legislation passed by the Congress. Barker claimed he had picked up two packages from the Railway Express Agency recently.

Mr. Tolson

The Postal Service has issued orders to the Post Office in Dallas that any future mail coming to Post Office Box 2173 must be held and the addressee must be able to identify himself as "A. J. Hidel." He will not be given any mail or packages unless he can identify himself accordingly. He will then be asked certain questions as to the mail and/or packages.

Inspector Montague told me that Klein's Sporting Goods in Chicago had also referred this same information to our Chicago Office. The Inspector in Charge of Postal Service matters in Fort Worth, Texas, has additional details concerning this matter.

The General Investigative Division should discuss the above-mentioned facts with the Department to determine if there is any violation within FBI jurisdiction.

ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS

On November 8, 1968, Supervisor Glenn Harter of the San Francisco Office called. He advised that [redacted] while in the New Orleans area, had taken some movie film of Lee Harvey Oswald passing out leaflets for the Fair Play for Cuba Committee. The informant's father, who resides in New Orleans, was contacted by two male individuals who represented themselves as being with the International World Trade Center and who said they were interested in contacting the informant in order to obtain the film he had for District Attorney James Garrison. According to Harter, the informant was inclined to make this film available to Garrison, but was first checking with the Bureau.

Harter was instructed to advise the informant that it was solely his decision whether he made the film available to Garrison or not and that the Bureau could not counsel him. Harter stated that if the informant complied with the request, he would furnish a copy of the film he had to Garrison and would retain the original film.

It was pointed out to Harter that the informant had originally taken this film in behalf of television station WSDU in New Orleans and that the informant might want to consider whether the station had any proprietary right in the film. It will be noted that the prints from the film have appeared in the Warren Commission Report and, therefore, the pictures are in the public realm.

REQUEST FOR TESTIMONY OF LABORATORY EXAMINERS AT TRIAL OF CLAY L. SHAW IN STATE COURT, NEW ORLEANS, LOUISIANA

Assistant District Attorney Arthur Marshall, Jr., Upper Marlboro, Maryland, advised SA Robert A. Frazier on January 21, 1969, that District Attorney James C. Garrison, New Orleans, Louisiana, had requested the State of Maryland to issue a subpoena for the appearance of SA Frazier at the trial of Clay L. Shaw in New Orleans on January 27, 1969. Mr. Marshall indicated a subpoena would be served on SA Frazier at his residence on January 21, 1969. He further advised that if SA Frazier did not agree to appear in New Orleans voluntarily, a hearing would be held on January 24, 1969, in Upper Marlboro, Maryland. He further advised that the District Attorney's Office in New Orleans had forwarded a check for SA Frazier's expenses in the amount of $238.60.

At 4:30 p.m. Assistant District Attorney William R. Alford, Jr New Orleans, Louisiana, called SA Frazier. He indicated he was willing to defray all of SA Frazier's expenses to New Orleans and desired to permit SA Frazier to remain in Washington rather than being required to appear in New Orleans at the beginning of the trial and remain for the duration of the trial. He stated he would prefer these arrangements also in connection with the testimony of SA Lyndal Shaneyfelt, FBI Laboratory.

SA Frazier advised Mr. Alford that he would be informed later as to the Bureau's desires in this matter.

Mr. Alford was informed the matter of SAs Frazier's and Shaneyfelt's testimony would be taken under advisement when the subpoenas were issued.

As of 9:30 p.m., January 21, 1969, neither Shaneyfelt nor Frazier had received a subpoena. When they do the Attorney General will be advised, pursuant to the Director's approval of Branigan's memo to Mr. Sullivan dated 1-17-69.

CHARLES ARBALLO
MISCELLANEOUS - INFORMATION CONCERNING

This recommends that a letter from Charles Arballo (copy attached) not be acknowledged.

Charles Arballo of Norwalk, California, has sent a handwritten letter addressed to the Director, in which he asks two questions: (1) Why hasn't anything "been done to stop the Mofia from its enormous, illegal...business," and (2) "Why was Oswald allowed to stay in Dallas when the FBI should have known he was a communist" and "Why Didn't the FBI lock him up during the Presidents arrival in Dallas." Bureau files contain no information identifiable with Charles Arballo.

Arballo's questions do not indicate a serious interest in the Mafia or in the Lee Harvey Oswald case. Arballo's letter indicates hostility and ill will toward the FBI.

ACTION: It is recommended Arballo's letter not be answered and that any future correspondence in the same vein from him not be answered.

For record, Mr. James T. Devine, Justice Department, telephonically advised Section Chief W. A. Branigan on 8/14/69 that the Department had received another inquiry from Paul L. Hoch, Berkeley, California, concerning the Corliss Lamont pamphlet "The Crime Against Cuba," and specifically the copy of this pamphlet which was obtained by Special Agent John Quigley at the time Quigley interviewed Lee Harvey Oswald in New Orleans in August, 1963.

Bureau files reveal that Mr. Devine had handled a similar inquiry from Hoch a year ago, in August, 1968, at which time Supervisor R. E. Lenihan, at Mr. Devine's request, exhibited to Mr. Devine a Xerox reproduction of the copy of the pamphlet which Special Agent Quigley had obtained. (This Xerox is located in 105-82555-5608.) The copy of the pamphlet itself was then, and still is, in the files of the New Orleans Office. Mr. Devine noted in 1968 that the copy of the pamphlet obtained by Special Agent Quigley was identical in all respects to the copies of the pamphlet maintained in the National Archives. The above information is recorded in memorandum R. E. Lenihan to W. A. Branigan, 8/19/68, captioned as above and is located in 105-82555-5607.

In his telephone call to Mr. Branigan on 8/14/69 Mr. Devine requested a Xerox of the copy of the pamphlet maintained at National Archives. This is Commission Exhibit 3120, printed in Volume XXVI, page 774 of the Hearings of the Warren Commission. He also requested to see again the Xerox of the pamphlet obtained by Special Agent Quigley.

ST-110 REC-71

Supervisor T. N. Goble obtained a Xerox of Commission Exhibit 3120 from the Archives and furnished this to Mr. Devine on 8/15/69. Supervisor Goble displayed to Mr. Devine the Xerox of the copy of the pamphlet which Special Agent Quigley had obtained. Mr. Devine observed that the Xeroxes showed that the copies of the pamphlet were identical in all respects. He stated he would reply again to Hoch. He said no further action was necessary on the part of the Bureau in this matter.

RE: LEE HARVEY OSWALD, Also Known As

Supervisor Goble noted when obtaining a Xerox of Commission Exhibit 3120 at National Archives, that there were a number of copies of the pamphlet there. Mr. Mike Simmons, National Archives, who is immediately responsible for the assassination material now on file at the National Archives, advised there are 21 copies of this pamphlet, all obtained from Lee Harvey Oswald's personal property. On 12 of these copies, including the one which is Commission Exhibit 3120, there appear the words, on page 39 "FPCC; 544 Camp St., New Orleans, La." On nine of these copies no such words appear. It appears the words were placed on the copies with a rubber stamp.

As long ago as February, 1965, Paul Hoch had exhibited an interest in the assassination of President Kennedy. In 1966 he identified himself as a student at the University of California at Berkeley. Mr. Simmons, National Archives, advised Special Agent Goble that Archives had received a number of inquiries from Hoch about the assassination.

By memoranda August 19, 1968, and August 18, 1969, in the captioned case, we recorded information received from the Department concerning a request by Paul L. Hoch, Berkeley, California, to see a pamphlet entitled "The Crime Against Cuba," which was obtained by Special Agent John Quigley when the latter interviewed Oswald in New Orleans in August, 1963.

On October 1, 1969, Mr. Steve Lockman of the Office of Legal Counsel in the Department called. He advised that Paul Hoch was again applying to see copies of certain pages of the original document furnished to Special Agent Quigley. Mr. Lockman inquired as to whether there would be any objection to furnishing Hoch with a copy of the material he was requesting. I told Mr. Lockman that I personally could see no objection to this but that if he wanted the Bureau's decision in this regard, he should write a letter stating his request and this would then be considered and he would be furnished with a written reply. Mr. Lockman stated he would write such a letter.

Extensive investigation conducted in the United States and Mexico after the assassination of President Kennedy failed to disclose that Oswald traveled to Mexico prior to September 26, 1963. ReBulet 9/12/69 to Assistant Attorney General, Internal Security Division, copies of which were forwarded to this office.

Enclosed herewith are two Xerox reproductions of the Mexico City file copies of [redacted] memorandum dated 12/10/65, and the memoranda from this office to the Ambassador dated 12/27/65 and 2/23/66.

Background

[redacted] calls her, is a well known figure in Mexican political, social and literary circles. She was a playwright and well known to many officials of the Embassy including the then Ambassador FULTON FREEMAN, the then Deputy Chief of Mission CLARENCE A. BOONSTRA, and many others. All of those officials expressed to me on various occasions the opinion that [redacted] is a very interesting person and a scintillating conversationalist, but that she has a vivid imagination and frequently appears to be unable to distinguish between truth and fiction. Although interesting, they all considered her as highly unreliable as a source of information except for [redacted] who apparently placed consistent credence in what [redacted] said.

When [redacted] visited this office in November 1964, she claimed that she had seen LEE HARVEY OSWALD at a party given at the home of RUBEN DURAN on September 30, October 1, or October 2, 1963, as reported in Mexico City letterhead memorandum of 12/11/64. As previously reported, [redacted] claimed that her daughter, [redacted] who accompanied her at that party met for the [redacted] young man later identified by her as [redacted] Identification of this individual, who [redacted]

merely been introduced at the party as [redacted] was made on the basis of correspondence received by her da[redacted] from [redacted] after the party. [redacted] was insistent that her daughter had not met that young man prior to the party. When it was pointed out to her that the letter from [redacted] was dated 9/1/63 and postmarked 9/2/63, she merely commented that probably the communists have facilities for falsifying postmarks.

When [redacted] was interviewed, he was unable to fix the date of the party but he believed it was probably early in September and neither he nor the two acquaintances of his who accompanied him to the party could recall any Americans having been present.

On 12/10/65 while talking to former Foreign Service Officer [redacted] claimed that the party where she had met OSWALD was held at the home of RUBEN DURAN "in September 1963, shortly after her return from abroad" as reported in [redacted] memorandum of 12/10/65.

In her conversation with [redacted] on 12/25/65 as reported in his memorandum of that date, [redacted] claimed that she believed the party was about September 2 or 3, 1963, "a few days before the visit of Soviet astronaut GAGARIN".*

Inasmuch as the Bureau is in possession of all of [redacted] memoranda concerning [redacted] story except his memorandum of 12/10/65 (his memoranda are dated the date of his conversations and not the date typed), copies of that memorandum are enclosed herewith for the completion of the Bureau's files. The Bureau will note that all the pertinent information contained therein is set forth in Mexico City cablegram of 12/17/65.

Observations

The following is submitted in response to the Bureau's request regarding my observations of [redacted] statements in his memorandum furnished to the Secretary of State:

* Mexico City newspapers show that Soviet astronaut GAGARIN was in Mexico from February 8 to 23, 1963.

(1) With regard to paragraph 3 in which he refers to his meeting with me and [redacted] then head of CIA, Mexico:

I first met [redacted] one of the officers assigned to the Political Section of the Embassy on 12/17/65, the day after I took over as Legal Attache, when [redacted] told me he had received a memorandum which he believed I should see. It was [redacted] memorandum dated 12/10/65. As originally prepared that memorandum was designated for the Ambassador, the Deputy Chief of Mission, [redacted] and the Central Biographic Department. He subsequently furnished this office a copy although that dissemination does not show on the Embassy file copy of his memorandum. In view of the nature of the information, [redacted] was asked to join [redacted] and me in a conference. Since the investigation of the OSWALD case had been handled by a previous Legal Attache, I remained non-committal about the allegations made by [redacted] but pointed out the Bureau's interest in that case. It was also pointed out to [redacted] that the information in his memorandum was incomplete in many respects, including the fact that [redacted] did not pinpoint the date of the alleged party but described it only as "in September 1963 shortly after her return from Europe". He stated that [redacted] was extremely reluctant to discuss the matter and doubted that she would discuss it with anyone else. He therefore volunteered to raise the subject again with her to obtain more details. He was thanked at that time for his cooperation.

(2) Regarding paragraph 5 in which [redacted] stated "he got no reaction from [redacted] regarding his memorandum of 12/25/65":

In view of the expressed interest of the Ambassador and the Deputy Chief of Mission who had received copies of [redacted] memoranda of 12/10 and 12/25/65 in the factualness of [redacted] story, they were advised by memoranda from this office dated 12/27/65 and 2/23/66, copies of which are enclosed, that in view of the fact that [redacted] allegations had previously been checked out without substantiation, no further action was being taken concerning her recent repetition of those allegations. Those memoranda were based on Buairtel 12/22/65 and Bulet 2/15/66. Both

memoranda were sent on a circulation basis to [redacted] superior, the Counselor for Political Affairs, who also had received a copy of [redacted] memoranda. It can only be concluded that the Counselor for Political Affairs did not route this office's memorandum of 2/23/66 to [redacted] or that [redacted] does not recall it.

(3) Regarding paragraph 6 concerning [redacted] interview with me relative to [redacted] again having changed the date of the alleged party to the end of September:

I never interviewed [redacted] alone. The first time I saw him was in the presence of [redacted] When he visited my office I called the Agent to whom the case had been assigned to come in and sit in on the interview. I did not tell him that [redacted] had given the late September date "accurately" when she had come to the Embassy and made her first report. I did tell him that her newly revised date was the same time that she had given when she came to the Embassy in November 1964 to tell her story. The investigation conducted at that time, as reflected in Mexico City letterhead memorandum of 12/11/64, showed that the late September date was not accurate. Neither did I tell him that someone else who was at the party had stated that there were no Americans there. Frankly, although I had reviewed the file after this matter first came up in December 1965, I did not memorize all of the details and I did not recall this fact which I did not become aware of until my current review in connection with [redacted] recent allegations. Neither did I tell him that I considered the case "closed". I would not have considered it to be of concern to him whether the case was closed or not. I did tell him in response to his inquiry, that it would not be necessary for him to pursue this matter any further with [redacted] since we had heard her story before and it had been checked out without being substantiated and I therefore considered her story to be a closed issue.

(4) Regarding paragraph 9 in which [redacted] referred to Mr. ALLEN WHITE's alleged statement that the Federal Security Police' interrogation of the DURANs was unsatisfactory and comment, "This transcript may be the source of Mr. FERRIS' belief that [redacted] story had been checked out and found to be untrue":

FOUNDATION

This statement is uninformed speculation. I know nothing about Mr. WHITE's evaluation of the interrogation of the DURANs which so far as I know, had nothing to do with the story about the alleged party subsequently related by [redacted] My "belief" was based on the investigation conducted by this office as reported in Mexico City letter and letterhead memorandum of 12/11/64, and the Bureau's concurring evaluation as set forth in Bureau airtel 12/22/65 and Bulet of 2/15/66.

(5) With regard to paragraph 10 in which [redacted] commented that "whereas the FBI has discounted [redacted] allegations, the CIA is still considerably disturbed by them":

I am aware of no foundations for this observation that CIA is "still considerably disturbed" by [redacted] story. [redacted] gave absolutely no indication of such reactions to me, but on the contrary indicated that he was well aware of [redacted] unreliability.

With regard to [redacted] claim that CIA may not have pressed further investigation for several reasons including "considering the sensitive overlap and subtle competition between two intelligence collection agencies, it had to yield to the FBI's jurisdiction":

This can only be described as a product of [redacted] imagination. During the period in question, relations between this office and CIA in Mexico were maintained on a friendly, mutually cooperative basis with respect for the authority and responsibilities of the two parent agencies. The principal function of CIA in Mexico in connection with the investigation of the OSWALD case was in checking out allegations concerning possible Cuban aspects through their established sources and confidential converage. The remaining points covered by [redacted] under items 2, 3 and 4, paragraph 10, are extraneous to [redacted] story and appear to have been included gratuitously in his memorandum to the Secretary of State.

(6) With regard to [redacted] terminal comment in paragraph 13 that the records should show that a representative of a major American publication has at least some knowledge of [redacted] story:

NOT

This office has no information indicating such to be a fact or that either [redacted] had given the story to such an individual or that [redacted] herself, in spite of her repeated protestations that she should not be revealed as the source of this information, had passed the story on to such an individual.

Comments

The significance is not known as to why the State Department disseminated [redacted] memorandum under the subject [redacted] instead of under the LEE HARVEY OSWALD investigation as [redacted] captioned his memorandum.

It appears that [redacted] has undergone a change in attitude since his departure from Mexico which is difficult to understand. This may possibly be a reaction to his separation from Foreign Service. According to Embassy sources, [redacted] is believed to have been "selected out", a phrase used when an officer is "retired" after having been in one grade for the maximum period of time and is not considered qualified for promotion to a higher grade. This involuntary separation from the Foreign Service may account for his present attitude which otherwise is difficult to comprehend.

During the time after I took over as Legal Attache on 12/16/65 until his departure from Mexico in 1967, I and other personnel of this office had very limited contact with [redacted] He was one of various officers assigned to the Political Section and although he was ostensibly friendly, his assignment had little in common with the work of this office and therefore our relations, both official and personal, were closer with other officers in the Political Section. The only official contact I had with him was in connection with instant matter. Although at that time he exhibited somewhat of a "detective complex" in desiring to probe into the story recounted by [redacted] he at no time demonstrated a desire to take over the OSWALD investigation from the authorized authorities.

[redacted] current attitude as set out in his letter and memorandum to the Secretary of State dated 7/25/69 is obvious from his statement, "Since I was the Embassy officer in Mexico

who acquired this intelligence information, I feel a responsibility for seeing it through to its final evaluation." It appears, therefore, that [redacted] has now decided that he and not the FBI or the Department of Justice is the one to decide how the story given by [redacted] is to be evaluated. The concept that every person who passes on to another government agency information relating to matters within the jurisdiction of that agency has the responsibility and authority to review and evaluate the action taken by that agency is, of course, untenable.

Memo Kleindienst-Sullivan
WHR:MRL
10/6/69

The enclosed file relates to a request by Mr. Paul L. Hoch under the Public Information Act, 5 U.S.C. § 552, for access to records contained in the files of the Federal Bureau of Investigation. Being sought are copies of certain pages (1, 38, 39, 40) of the original and record copies of a pamphlet entitled, "The Crime Against Cuba." The original pamphlet was obtained by Special Agent John Lester Quigley from Lee Harvey Oswald in New Orleans on August 10, 1963.

A chronology of the correspondence between Mr. Hoch and the Department is helpful to an understanding of the problem.

On July 10, 1969, R. Richards Rolapp, Special Assistant to the Deputy Attorney General, advised Mr. Hoch by letter that the original and record copies were identical and were contained in the Department's files. He pointed out that copies of the pamphlet were contained in the Warren Commission files and indicated that Mr. Hoch should therefore direct his future requests to the National Archives.

On July 25, 1969, Mr. Hoch responded to Mr. Rolapp's letter. He stated that Mr. Rolapp's letter was in effect a denial of his request and that under 28 C.F.R. § 16.7(b) he was entitled to "a simple statement of reasons for the denial."

REC-66/05-82555-3618

Mr. Rolapp answered this communication on August 19, 1969. He enclosed a xerox copy of the pamphlet, stating that, with the exception of several notations on the cover, it was "identical in all respects" to the pamphlet obtained by Special Agent Quigley from Oswald.

ENCLOSURE

OCT 3 1969

Mr. Hoch now appeals Mr. Rolapp's action, which he terms "in effect a denial," to the Attorney General pursuant to 28 C.F.R. § 16.7(c). The appeal has been referred to this Office for comment. I have tentatively concluded that the Deputy's denial of the request is supportable under the Public Information Act. It seems plausible to argue that the pamphlets in question are contained in "investigatory files compiled for law enforcement purposes." See 5 U.S.C. § 552(b)(7). However, the fact that they may lawfully be withheld does not compel the Department to follow that course. The exemptions in the Act do no more than exempt the agencies from the otherwise applicable compulsory disclosure requirements; they do not require that records falling within an exemption be withheld.

A denial of a request under the Public Information Act carries with it the possibility of a law suit against the agency. In addition, an adverse judicial interpretation may result once the case goes to court. For these reasons, we believe that requests for arguably exempt official records should be granted unless there is compelling reason for non-disclosure.

If you find that there are no compelling considerations dictating denial of the request, my recommendation to the Attorney General will be to grant the request. This will involve the xeroxing of four pages in both the original and record copies of the pamphlet. If, however, you believe that disclosure would be injurious to the public interest, I will advise the Attorney General of that fact, and we will proceed accordingly.

Please return the enclosed file to this Office. We will need it in preparing any necessary correspondence.

Reference is made to your communication dated October 3, 1969, captioned as above.

This Bureau interposes no objection to your furnishing to Mr. Paul L. Hoch a Xerox copy of the entire Corliss Lamont pamphlet "The Crime Against Cuba," which was obtained by Special Agent John Lester Quigley from Lee Harvey Oswald when Special Agent Quigley interviewed Oswald in New Orleans on August 10, 1963. The pamphlet itself is in the files of our New Orleans Office, which is preparing a Xerox copy. This will be furnished to you as soon as it is received from New Orleans.

It is noted that you refer in your letter of October 3, 1969, to the "original and record copies" of the pamphlet. The pamphlet obtained by Special Agent Quigley from Oswald, which, as noted above, is presently in the files of our New Orleans Office, is both the original and record copy of the pamphlet.

SUBJECT: REQUEST UNDER THE PUBLIC INFORMATION ACT FOR RECORDS CONTAINED IN THE FILES OF THE FEDERAL BUREAU OF INVESTIGATION

This recommends (1) advising Justice Department, in reply to its letter 10/3/69, that we interpose no objection to its furnishing to Paul L. Hoch a Xerox copy of the entire Corliss Lamont pamphlet "The Crime Against Cuba," which is in our New Orleans files, and (2) furnishing the Department with a Xerox copy of this pamphlet upon receipt from our New Orleans Office.

Hoch is from Berkeley, California, and as long ago as 2/65 demonstrated an interest in the assassination of President Kennedy. In 6/66 he identified himself to a Bureau representative as a student at the University of California, Berkeley.

The document, which is the subject of Hoch's current inquiry (9/16/69 letter) to the Attorney General, is a 40-page pamphlet entitled "The Crime Against Cuba" by Corliss Lamont, and was obtained by Special Agent John Quigley at the time Quigley interviewed Oswald in the New Orleans jail in 8/63. Special Agent Quigley placed this pamphlet in the New Orleans file on Oswald, and it is still there. Oswald possessed a number of copies of this same pamphlet, and 21 of them, recovered from his possessions after the assassination, are in the Archives with the Warren Commission material. The copy which Special Agent Quigley obtained is identical in all respects with Commission Exhibit 3120, available to the public. The Department sent Hoch a Xerox copy of Exhibit 3120 on 8/19/69 and advised him it was identical in all respects to the pamphlet obtained by Quigley.

In his letter to the Attorney General, Hoch has requested access to the pamphlet which Quigley obtained from Oswald and has expressed a particular interest in pages 1, 38, 39, and 40. In its letter, the Department requests our opinion as to whether or not it should furnish Hoch Xerox copies of the four pages.

RE: REQUEST UNDER THE PUBLIC INFORMATION ACT FOR RECORDS CONTAINED IN THE FILES OF THE FEDERAL BUREAU OF INVESTIGATION

OBSERVATIONS:

Hoch writes in the last paragraph of his letter to the Attorney General of "some sort of special and hidden relationship between" Oswald and the FBI. There was no such relationship, and the Warren Commission thoroughly explored this. The Department has already told Hoch that the pamphlet Quigley obtained is identical with Commission Exhibit 3120 and has sent Hoch a Xerox of this exhibit. There exists no reason for not sending Hoch a Xerox of the entire pamphlet which Quigley obtained. Whether or not this will satisfy Hoch is doubtful, but we have nothing to hide.

ACTION:

Attached for approval is letter to Department advising that we have no objection to its giving Hoch a Xerox of the pamphlet which Quigley obtained. New Orleans has been telephonically instructed to submit a Xerox copy of the pamphlet, and this will be furnished to the Department when it is received at the Bureau. Department's file in this matter being returned to it with letter.

OK but I dislike the humoring of a character like Hoch who is obviously a "smear artist."

SUBJECT: ASSASSINATION OF PRESIDENT KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS

This recommends Cincinnati be instructed to return a color slide to Miss Brookey which she furnished us in November, 1963, as well as correspondence to her from two students regarding the slides, and orally inform her we can offer her no advice as to whether she makes the slide available to the students.

On November 25, 1963, Miss Barbara Brookey, erroneously reported by Cincinnati as Brooke, Columbus, Ohio, furnished an Agent of our Cincinnati Office two color slides of photographs taken by her at the White House on the morning of April 13, 1963, showing pickets present. She had reexamined the photographs and noted one of the three pickets bore strong resemblance to Lee Harvey Oswald. She indicated the slides need not be returned if they were determined to be of interest to the FBI. In accordance with Cincinnati's request, the Mechanical Section made enlargements and returned the slides, negatives, and copies to Cincinnati on December 10, 1963, with copies to Dallas and WFO.

WFO, on November 27, 1963, ascertained there was no picketing at the White House on April 13, 1963, on behalf of the Cubans and no further action was taken with regard to these slides. Investigation disclosed Oswald was in Dallas on April 12, 1963, and made application for unemployment compensation. Due to his unemployment and limited finances, it is highly unlikely Oswald was in Washington, D. C., mid-morning of the following day. No information was developed that Oswald was in Washington on April 13, 1963. A review of copies of Brookey's photographs recently resubmitted by Cincinnati, which are of poor quality, discloses an individual believed to be an Iranian student.

CLASSIFYING

Miss Brookey, by letter dated September 24, 1963, furnished originals of letters she has received from one Gary Richard Schoener, allegedly a student at the University of Minnesota, and Don Olson, allegedly a graduate of Michigan State University, currently residing in Toledo, Ohio, inquiring about her initial interview with the Bureau and indicating their

desire to examine the slides. Olson attached a "To Whom It May Concern" memorandum, suggesting she authorize either of the two to act as her agent in recovering the slides. Miss Brookey, in her letter, indicates she does not know either of these two men and inquires if it would be wise to give her consent for their obtaining the slides. She set out several other questions regarding the handling of the matter and asked for the Bureau's advice regarding the slides.

We have ascertained that our Cincinnati Office has only one slide at this time, the second presumably having been lost in the handling of the file during the past six years. They do have copies of blown-up reproductions of the two slides.

While information concerning the slides was set forth in a report which was furnished to the Warren Commission, the slides themselves were never furnished to it and it never indicated any interest in them.

Bureau files contain no information which can be identified with either Schoener or Olson.

RECOMMENDATION:

1. If you approve, attached is airtel to Cincinnati, instructing Cincinnati to personally contact Miss Brookey and return to her the enclosures to her letter (correspondence from the students Schoener and Olson) in accordance with her request; also to return the remaining slide and a set of photographs made from the slides and inform her that with handling of the file over the years, one slide has been lost; and tell her we cannot advise her as to her disposition of the slide or copies made from her slides.

2. That the Laboratory conduct an examination of Miss Brookey's photographs in comparison with photographs of Oswald to attempt to positively determine whether the individual depicted is or is not Oswald.

3. SAC Morgan has conducted an exhaustive search of the files of the Cincinnati Office and has advised he is unable to locate the missing slide. Due to the lapse of time and change of personnel, SAC Morgan is unable to fix responsibility as to the loss of the slide. However, attached airtel to Cincinnati instructs SAC Morgan to obtain explanations from pertinent personnel as to the incorrect reporting of Miss Brookey's name.

Reference is made to Bureau phone call 9/29/69, regarding slides of photographs taken of the White House, showing picketing in progress, by Miss Barbara Brookey on the morning of 4/13/63.

You are instructed to promptly contact Miss Brookey and return the enclosed correspondence which she furnished to the Bureau as enclosures to her letter dated 9/24/69. You should also return the remaining slide and a set of photographs made from her slides to Miss Brookey and explain to her that in the handling of the file over the past six years, one of the two slides has been lost.

You should also inform Miss Brookey that we can offer her no advice as to whether or not she should accede to the requests from the students Gary Richard Schoener and Don Olson for permission to examine the slide. This is a decision for her to make.

Enclosed for Cincinnati is a Xerox copy of the correspondence from Schoener and Olson, as well as a copy of Miss Brookey's letter to the Bureau.

arrest record reveals that this man was fingerprinted on 3/26/63 by the State Bureau, Sacramento, on a charge of [redacted]
Birth date for this man is 8/20/1888.

Your attention is directed to the fact that the letter from Joseph McKinney to Congressman Moss was postmarked at San Luis Obispo, California.

Bureau Liaison has advised Secret Service that investigation is being conducted concerning this matter and that we will furnish Secret Service the results of the investigation. Therefore, submit results of investigation in LHM form suitable for dissemination to Secret Service. In view of the interest of Congressman Moss, this matter should be handled without any delay, and results must be immediately furnished to the Bureau.

NOTE:

Congressman Moss received a handwritten letter from McKinney alleging that MacLean and Oswald plotted to murder President Kennedy. The Congressman referred the letter to Secret Service, which has referred it to us. We should positively determine who McKinney and MacLean are.

[redacted] Liaison Agent Rachner is advising Secret Service that we are conducting investigation in this matter and the Secret Service will be advised of the results.

SUBJECT: LEE HARVEY OSWALD

ReBuairtel 10/2/69.

The only remaining copies of [redacted] memoranda dated 12/10/65, 12/25/65 and 7/13/66 which are in file in the Embassy Records Section contain no handwritten notations. They are merely carbon copies and the originals of the memoranda are no longer available.

It is apparent from the copies furnished the Bureau by the State Department that [redacted] made available to the State Department reproductions of the Political Section copies of his memoranda of 12/10/65 and 7/13/66. The copy of his memorandum of 12/25/65 which he furnished to the State Department, as reproduced and made available to the Bureau by the State Department, does not indicate to whom the copy from which the reproduction was made, was designated. It is noted, however, that [redacted] made two copies of that memorandum for the Political Section where he was assigned and it would therefore appear probable that this was a reproduction of one of those copies which he may have made for his own use.

It is noted that in his memorandum furnished the Secretary of State under date of 7/25/69, [redacted] stated that he had not furnished a copy of memorandum dated 12/10/65, "to Washington". The file copies of these memoranda do not indicate he furnished copies of his other two memoranda to the State Department at the time they were written, which is logical, since they were all intra-Embassy memoranda. It would appear, therefore, that [redacted] may have taken either the Political Section copies of his memoranda of 12/10 and 12/25/65, or reproductions of those copies with him for his own personal use when he left Mexico and utilized them to make the reproductions he furnished the State Department subsequently.

ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
NOVEMBER 22, 1963
DALLAS, TEXAS
MISCELLANEOUS - INFORMATION CONCERNING

Previous memoranda have advised of interest of Paul L. Hoch, Berkeley, California, in assassination of President Kennedy. National Archives advises Hoch has made numerous requests for copies of Warren Commission material available to general public, including excerpts from FBI reports. Hoch continues to ask for material.

Paul Lawrence Hoch resides at 2537 Regent Street, Apartment 202, Berkeley, California. He is graduate student in physics, University of California, Berkeley, and received a Bachelor of Arts Degree from Harvard in 1964. He is naturalized citizen of United States, born in England. As long ago as 2/4/65, he expressed an interest in the assassination. On 6/21/66, he asked a number of questions about our investigation of the assassination and was referred to data furnished to the Warren Commission. Most recently, on 9/16/69, he wrote the Attorney General concerning a phase of the assassination investigation.

San Francisco has advised that Hoch possessed a copy of an excerpt from an FBI report on the assassination dealing with a review of Government agency records in Washington, D. C. On 11/4/69, Mr. Mike Simmons, National Archives, advised that this FBI report was available to the general public as part of Warren Commission records, and National Archives furnished the excerpt to Hoch on 4/8/69. Mr. Simmons pointed out that Hoch has made numerous requests for copies of Warren Commission material. The objective of Hoch's inquiry into the assassination of President Kennedy is not known.

SUBJECT: REQUEST UNDER THE FREEDOM OF INFORMATION ACT FOR RECORDS POSSIBLY CONTAINED IN THE FILES OF THE FEDERAL BUREAU OF INVESTIGATION

This recommends advising Deputy Attorney General that compelling reasons exist for denying Paul Hoch's request for access to several serials in the Fair Play for Cuba Committee (FPCC) file of our New Orleans Office. Hoch's request is based upon his belief these serials pertain to Lee Harvey Oswald; in fact, they do not. Moreover, they were obtained in 1961 through an extremely sensitive, anonymous source of our New York Office directed against the offices of the FPCC.

Paul Hoch is the Berkeley, California, graduate student, who, as long ago as 2/4/65, expressed an interest in the assassination of President Kennedy. He has directed numerous inquiries to the National Archives. In a letter to the Attorney General dated 9/19/69, he wrote of "some sort of hidden relationship between" Oswald and the FBI. On a memorandum dated 10/6/69 concerning Hoch, the Director noted, "I dislike the humoring of a character like Hoch who is obviously a 'smear' artist."

HOCH'S REQUEST: Hoch, in a letter to the Department, has requested access under the Freedom of Information Act to four serials from a file of our New Orleans Office, and the Deputy Attorney General has sought our assistance in handling the request. Hoch's request is based upon FBI Exhibit D-25, available to the public in the National Archives. This is one of the handbills Oswald was passing out in New Orleans in 8/63 and is entitled "Hands Off Cuba." Hoch has noted that Exhibit D-25 is marked 97-74-1A5. Hoch wants to see the first pages of serials 1A1 through 1A4 of the file because he erroneously believes these are related to 1A5.

SENT DIRECTOR FOR APPROVAL 12-16-69

51 JAN 9 1970

Memorandum to Mr. W. C. Sullivan
RE: REQUEST UNDER THE FREEDOM OF INFORMATION ACT FOR RECORDS POSSIBLY CONTAINED IN THE FILES OF THE FEDERAL BUREAU OF INVESTIGATION
105-82555

REASONS TO DENY REQUEST: The item which is the basis of Hoch's request, the handbill, should have been serial 1A4 of the file, although it bore the markings 1A5 when furnished to the Bureau. New Orleans explains this as attributable to a clerical error in marking. This error has no relation to the substance of this matter. There are three serials before the handbill serial; namely, 1A1, 1A2, and 1A3, and two serials following it, 1A5 and 1A6. There are no other 1A serials in the file. The first three serials were obtained by the New Orleans Office from the New York Office in 1961. The New York Office obtained them from [redacted] who is an anonymous source developed [redacted] to cover the New York Office of the FPCC. None of these items concerned Lee Harvey Oswald. They were of pertinence only to our investigation of the FPCC. Therefore, there was no reason to give them to the Warren Commission. They were obtained in 1961 when Oswald was in the Soviet Union. For these reasons, they should not be made available to Hoch, and his request should be denied since it involves items contained in investigatory files compiled for law enforcement purposes which are exempted from the compulsory disclosure requirements of the Freedom of Information Act.

Serial 1A5 is a pamphlet entitled "The Crime Against Cuba" by Corliss Lamont. Although this specific copy of the pamphlet was not furnished to the Warren Commission, a number of other copies were, and National Archives advises 21 copies on file there. A copy of the pamphlet was previously sent to the Department for furnishing to Hoch.

Serial 1A6 is material completely unrelated to Oswald and which was obtained by the New Orleans Office in 1964 in connection with its investigation of the FPCC. There was no reason to give this material to the Warren Commission.

OBSERVATIONS: Serials 1A1, 1A2, and 1A3 are not pertinent to Lee Harvey Oswald. They were obtained from an extremely sensitive source of the New York Office. For these reasons, Hoch's request should be denied. His interest in the Oswald case gives him no right to rummage through our files.

ACTION: Attached for approval is letter to Deputy Attorney General setting forth this position and the reasons for it and enclosing copies of the serials in question.

DATE: December 31, 1969

SUBJECT: Request under the Freedom of Information Act for Records Possibly Contained in the Files of the Federal Bureau of Investigation.

The ~~enclosed file~~ attached relates to a request by Mr. Paul L. Hoch under the Freedom of Information Act, 5 U.S.C. § 552, for access to records possibly contained in the files of the Federal Bureau of Investigation. Specifically, Mr. Hoch seeks to obtain copies of the first page of each of four items alleged to be in the Bureau's "1A exhibit envelope pertaining to Lee Harvey Oswald." This Office would appreciate your assistance in the handling of the request.

The initial question of course is whether there are items fitting Mr. Hoch's description. He assumes that such items do exist for the reason that there is a handbill headed "Hands off Cuba" bearing the notation "1A5", which he claims refers to the fifth item in the "1A" envelope. He reasons that if there is an item "1A5", there must also be items "1A1" through "1A4". We understand that this may or may not be the case.

Assuming that the requested records exist, a determination must be made as to whether they shall be made available. The Freedom of Information Act requires the disclosure of official records not falling within the Act's exemptions. Where a record is covered by one of the exemptions, the agency is exempted from the Act's disclosure requirement and it may lawfully refuse to make the record available. In such a case, however, the agency remains free to disclose the document in the exercise of its discretion. Nothing in the Act requires that a record falling within an exemption be withheld.

Since a denial of a request for official records creates the possibility of a law suit against the agency which may result in a judicial interpretation adversely affecting the Government as a whole, we believe that requests for arguably exempt records should be granted unless there is a compelling reason for non-disclosure. Accordingly, we shall make the records available (assuming they exist) if you find no compelling considerations dictating that the records be withheld. Should this be your conclusion, please furnish us with the copies sought by Mr. Hoch in order that they may be transmitted to him. If, on the other hand, you find that disclosure would be contrary to the public interest, we will deny the request as involving items contained in "investigatory files compiled for law enforcement purposes" which are exempted from the Act's compulsory disclosure requirements by 5 U.S.C. § 552(b)(7).

REQUEST UNDER THE FREEDOM OF INFORMATION ACT FOR RECORDS POSSIBLY CONTAINED IN THE FILES OF THE FEDERAL BUREAU OF INVESTIGATION

Reference is made to your communication dated December 11, 1969, captioned as above.

We have made a careful review of the records requested by Mr. Hoch and have concluded that disclosure of them to Mr. Hoch would be contrary to the public interest. Several compelling reasons, as set forth below, lead to this conclusion.

Mr. Hoch's request for the first pages of FBI serials 1A1 through 1A4 of the New Orleans file, 97-74, is based upon the fact that he has observed that FBI Exhibit D-25, the handbill entitled "Hands Off Cuba," is marked with the notation 97-74-1A5. An examination of the New Orleans file, 97-74, reveals that the handbill should have been marked serial 1A4 of the file and not serial 1A5, although when furnished to this Bureau by New Orleans, it bore the marking 1A5.

None of these three items pertains to Lee Harvey Oswald. All three of them were received in 1961 when Oswald was living in the Soviet Union. Because none of them pertained to Oswald, there was no reason to furnish them to the Warren Commission, and they were not so furnished. The three items were received in connection with our investigation of the Fair Play for Cuba Committee and were filed in the New Orleans Fair Play for Cuba Committee file, 97-74. For these compelling reasons, and especially in view of the sensitive source through whom the items were originally obtained by the New York Office, it is our position that theitems should not be furnished to Mr. Hoch.

There are enclosed for your assistance in this matter one copy of each of the serials 1A1, 1A2, and 1A3. There are also enclosed for your information one copy of serials 1A4 and 1A5. Serial 1A4 is the "Hands Off Cuba" handbill, and the original of this is now located in the National Archives, where Mr. Hoch apparently examined it. Serial 1A5 is a copy of the pamphlet entitled "The Crime Against Cuba" by Corliss Lamont. Mr. Hoch has made prior inquiries about another copy of this same pamphlet, and my letters to the Assistant Attorney General, Office of Legal Counsel, dated October 7, 1969, and October 9, 1969, concerned these inquiries. This specific copy, which is serial 1A5, was not furnished to the Warren Commission, although a number of other copies of the same pamphlet were so furnished and are located in the National Archives.

The Deputy Attorney General

Serial 1A6, which is the only other 1A serial in the file, consists of negatives and photographs pertaining to one [redacted] These were received by New Orleans in 1964 from the records of the Immigration and Naturalization Service and do not pertain to Lee Harvey Oswald. They were obtained in connection with our investigation of the Fair Play for Cuba Committee.

As I stated at the outset of this letter, I think compelling reasons exist for invoking the exemption provided in the Freedom of Information Act and for denying Mr. Hoch's request since the items involved are contained in investigatory files compiled for law enforcement purposes. I hope the above will be of assistance to you in handling the request of Mr. Hoch.

I am returning to you the original of Mr. Hoch's letter dated December 1, 1969, addressed to Mr. R. Richards Rolapp, together with the two attachments to that letter, Form DJ-118, and the $3 money order from Mr. Hoch.

Re Los Angeles letter dated 12/16/69.

Enclosed for Dallas and Philadelphia are two Xerox copies of referenced Los Angeles letter. Attention is directed to Paragraph 2, Page 2, of this communication relating to comments made by the subject pertaining to the assassination of President John F. Kennedy. In this respect a search of Bureau files pertaining to the assassination of President Kennedy (62-109060) and Lee Harvey Oswald (105-82555) contain no references to the subject.

Dallas and Philadelphia should promptly search their indices concerning the subject in relationship to the assassination of President Kennedy and Lee Harvey Oswald. Any information located or if the search is negative should be furnished to the Bureau and Los Angeles.

Los Angeles immediately upon receipt of this information should incorporate it along with the allegation made by the subject that during November, 1963, he met President Kennedy and warned him he should not go to Dallas and to beware of Lee Harvey Oswald into a letterhead memorandum (LHM) suitable for dissemination. It should also contain a synopsized characterization of the subject and his criminal background.

Since the subject claims he intends to testify to this information at his forthcoming state trial, the LHM should be disseminated to the United States Attorney's Office and United States Secret Service at Los Angeles. Los Angeles follow this matter through established sources and keep the Bureau currently advised. Los Angeles' reply is to be directed to the attention of the General Investigative Division. Handle promptly.

NOTE:

Subject in this case was a fugitive [redacted] in Los Angeles, California, during August, 1963. At a recent hearing held in Superior Court, Los Angeles County, California, on the subject's motions to suppress evidence, subject subpoenaed 17 sheriffs who worked in the Los Angeles County Jail. At subject's hearing, while on the stand, the subject claimed that during November, 1963, he, along with other members of a prominent Philadelphia, Pennsylvania, family, attended a luncheon to honor President John F. Kennedy. While there, an FBI employee gave him a small note that had sticky substance on the back with instructions to give it to the President. After the luncheon, the subject claimed he shook hands with President Kennedy and stuck this alleged note on the sleeve of the President's coat and it contained words to the effect that President Kennedy should not go to Dallas and to beware of Lee Harvey Oswald. Guerin claimed that as a result of the FBI mishandling this case and the President's subsequent assassination, the FBI has been out to silence him. Guerin claimed that at his trial he would prove these allegations by photographs and other documentary evidence. Bufiles contain no references to the subject in the assassination file or in the Lee Harvey Oswald file and Dallas and Philadelphia should check for any references and furnish Los Angeles for appropriate handling.

RE: LEE HARVEY OSWALD

The article indicated that Similas took a photograph at the time the shots were fired at President Kennedy as the President's car passed showing two figures beside the gun barrel at the window, referring to the window in the Texas School Book Depository Building from which the shots were fired. In Similas' statement to the RCMP he claimed that the information attributed to him was not actually correct and that he had not drawn the conclusions about the photographs taken by him but another reporter did. This reporter was also interviewed and he told a different story than Similas maintaining that Similas made the conclusions concerning the photography. The author of the article, Ken Armstrong, also advised that Similas verified and authenticated the article before it was published and he had no way of knowing whether the statements made by Similas had any basis.

[redacted] reported that Similas may have deliberately falsified his article to further his occupation and to make the article saleable. In addition [redacted] reported that Similas' story contained too many inconsistencies and "outright lies" to be taken seriously.

Bureau files reveal that according to Similas, he attended the American Bottlers' Carbonated Beverages Convention held at the Trade Mart, Dallas, Texas, November 17 through 22, 1963, and he was located approximately 250 to 300 yards West of the Texas Schoolbook Depository Building at the time the shots were fired at President Kennedy. Later Similas took a bus from Dallas to Chicago obtaining air transportation at Chicago and arrived in Toronto, Canada about 10 p.m., November 23, 1963.

No further action is being taken by the Bureau in connection with this matter. However, this is furnished for your information and in the event you receive any additional inquiries the Bureau is to be advised. You may notify [redacted] and [redacted] of this inquiry as Similas is known to both agencies. [redacted]

NOTE:

Information from the [redacted] was obtained by Buffalo Office Supervisor [redacted] on 1/9/70.

On 1/9/70 [redacted] advised the Foreign Liaison Section, Domestic Intelligence Division, that Calladine is currently being prosecuted by Canadian authorities. [redacted] Calladine's communication, therefore, is not being acknowledged.

On January 5, 1970, [redacted] Louisville, Kentucky, telephone [redacted] advised [redacted] L. WALSH as follows: (It is noted that [redacted] is a chairman of the Law Enforcement Committee of the Portland Neighborhood Area Council, one of the poverty councils sponsored by the Louisville - Jefferson County Community Action Committee. In the past she has contacted SA WALSH and furnished information which she felt indicated subversiveness on the part of some individuals. During one of these contacts, she mentioned that she has in the past, written State officials of Kentucky, including the Attorney General, as well as Federal officials, including former Senator ROBERT KENNEDY regarding matters that she thought might be of interest to such officials.)

[redacted] known as BOBBY JOE SORRELL, but born MARION HARRISON LAFFERTY, is currently visiting [redacted] in Louisville, Kentucky, and most confidentially mentioned to her that in the fall of 1963, shortly before former President JOHN F. KENNEDY was assassinated, SORRELL had been in a house in Muncie, Indiana, the basement of which was filled with short-wave radio-type equipment and SORREL saw a man in this house whom he felt from pictures he later saw was LEE HARVEY OSWALD.

[redacted] confidentially commented regarding [redacted] that he had done considerable "bumming" around the United States, that his wife has mental problems, and that they currently reside with their six children at 1650 Butternut Street, Abilene, Texas.

Enclosed for the Bureau is one copy, for Indianapolis 2 copies, and for Dallas 6 copies of an FD 302 recording the results of the interview of [redacted] which was conducted without [redacted] being present.

It should be noted that BOBBY JOE SORRELL impressed SA WALSH, who conducted the interview with him, as wanting to be truthful, but it appeared he could possibly be imagining or exaggerating his information. He was specifically asked if he has ever suffered from any mental problems. He took no offense at the question and claims he has never had such problems.

Unless the Bureau, Dallas, or Indianapolis Offices possess information which would tend to corroborate SORRELL's information it is not believed any further action is required regarding SORRELL's information.

Date 1/9/70

MARION HARRISON LAFFERTY, commonly known as BOBBY JOE SORRELL, 1650 Butternut Street, Abilene, Texas, was interviewed in the Office of the Federal Bureau of Investigation, Louisville, Kentucky. He advised the following:

He was born March 11, 1926 in Grafton, Virginia. However, his father died before he was a year old and he was raised by his grandparents, EUGENE and MINNIE SORRELL, Nolan, West Virginia. Since approximately one year of age, he has used the surname of SORRELL and when still a very small child became known as BOBBY JOE as a result of his supposedly having bit the tail off of a dog and from this incident the name BOBBY was given him and thereafter enlarged to BOBBY JOE.

In the late summer of 1963, he took his wife and his children to Muncie, Indiana seeking employment. He was unacquainted in Muncie, Indiana, but was successful in locating an old house near the Riggins Milk Dairy on the Airport Road, in which the owner, RIGGINS, allowed SORRELL and his family to reside temporarily rent free. He was successful in finding work as a mechanic at Bill Williams' Sunoco Service Station, exact address not recalled, but located on the Airport Road in Muncie, Indiana.

One Biday afternoon, specific date not recalled, SORRELL was in a neighborhood bar, name not recalled, located near the Riggins Milk Dairy and he became engaged in conversation with a white male named, "DICK" last name not learned, both are ex-United States Marines, and SORRELL mentioned his need to make some money to support his family. DICK stated money could be made by going to Mexico and when SORRELL asked for specifics, DICK took SORRELL in DICK's car, a dark blue Falcon, year not recalled, across "to the other end of town", believed

by SORRELL to be the west end of town. DICK parked the car on a street, name not recalled, located next to the parking area of a large food supermarket, name not recalled. DICK and SORRELL then went in an old frame one story house having a green top and some of the sideboards colored white and some green. SORRELL described the house as a "run down" house. A white male who appeared to be in his sixties, referred to by DICK as "POPS", recognized DICK and let DICK and SORRELL in. The white male was dark headed, about 5'11", 150 pounds, and had a weather-beaten face with a mustache. DICK asked the white male if he, DICK, could make a contact with "California". The man stated this could be done, but the equipment was busy at the moment. DICK had a pint bottle of whiskey and the three of them had a drink and about ten minutes later, three white males came from the basement of the house into the room where DICK, SORRELL and the white male known as "POPS" were located.

DICK apparently knew two of these three white males, as he told SORRELL one was a jewelry store owner and the other a tavern owner. Names were not mentioned. SORRELL presumes these three males had been using the equipment in the basement. Several months later, after President JOHN F. KENNEDY was assassinated and SORRELL saw photographs of LEE HARVEY OSWALD, he felt that the third white male he had seen in this house might have been OSWALD.

After the above three males came from the basement of the house, DICK and SORRELL went to the basement which SORRELL said was "loaded" with radio-type equipment. DICK, using one piece of the equipment, was heard by SORRELL to ask for "JAYBIRD" and when a voice responded from the equipment, DICK asked to the effect "when can I see you about that assignment." The voice replied that someone would contact DICK around 3:00 PM, Sunday.

After the above, DICK and SORRELL terminated their visit at the house.

About 2:30 PM the following Sunday, DICK picked SORRELL up and drove him to the Veterans of Foreign Wars Post at Anderson, Indiana, to make the referred to contact. No contact was made until about 5:00 or 6:00 PM that day when a well-dressed white male appearing to be about 35 years of age came into the Post, approached the table where DICK and SORRELL were drinking beer and asked if they were from "Muncie". When they replied in the affirmative, the male, who gave no name, instructed they go outside and talk to him in his automobile. They complied with the instruction, and the automobile, according to SORRELL, was a "black Cadillac", no further discription recalled. The unknown male stated that work was available in a town in Mexico. The work consisted of SORRELL and DICK for 9 weeks training people the same type training SORRELL and DICK received attending boot camp in the United States Marine Corps.

The man stated that after DICK and SORRELL completed their assignment they would be returned to the United States and $25,000 would be deposited to their benefit in whatever bank they desired. SORRELL asked if any money would be given to him before he went to Mexico and when the male replied in the negative, SORRELL told the male that ended the matter so far as he was concerned and he, SORRELL, left the automobile. He was shortly joined by DICK, who tried to convince SORRELL to go along with the proposition, but SORRELL was adamant and DICK droye SORRELL back to Muncie, Indiana and SORRELL has not seen or had any further contact with DICK or the Cadillac owner.

The following weekend SORRELL took his family and left Muncie, Indiana as he had received word from his former employer in Colorado City, Texas that employment was open to him there.

Around 1967 SORRELL and his family were again in the Muncie, Indiana area, the occasion being to visit SORRELL's and SORRELL's wife's relatives. On one day about 2:00 PM in the afternoon, SORRELL, having his family with him, was driving through Muncie, Indiana and SORRELL desired to see if the individual referred to as "POPS" still lived and was operating his radio equipment. SORRELL was able to find the house, but is unable at this time to give directions as to how to locate the house not being that familiar with Muncie. SORRELL on that occasion stopped at the house and was greeted by the same white male referred to as "POPS" and was allowed in the house when SORRELL recalled to "POPS" that he had been there several years before in the company of "DICK". SORRELL asked "POPS" if he could utilize the radio equipment to make a call and when he received an affirmative reply, he indicated that he first wanted to find DICK to be with him during the call. "POPS" stated he had not seen DICK in a long time and would not know how he could be located. SORRELL then left the house.

Knowledge of the above information has worried SORRELL since he came in possession of it and he has never disclosed it to anyone until recently advising his sister in Louisville, Kentucky of it. His reason for not disclosing it is fear that if it becomes known that he has disclosed it, he will be murdered.

The following descriptive data was obtained during the interview:

Bufiles contain no information identifiable with Marion Harrison Lafferty and no information identifiable with Bobby Joe Sorrell.

Louisville immediately prepare LHM reporting results of interview with Lafferty. Bureau notes that on page one of FD-302, paragraph four, the first sentence is actually two sentences. Correct this when preparing LHM.

Indianapolis review files on Lafferty, also on the name Sorrell, and advise Dallas and Bureau.

Dallas review files on Oswald and on the assassination for any information that Oswald was in Muncie, Indiana, in the late Summer of 1963, or at any time.

In view of the observations of Louisville that it appears that Lafferty could possibly be imagining or exaggerating his information, the Bureau desires no investigation of the allegation that Oswald was in Muncie, Indiana, in 1963, unless Dallas finds information tending to substantiate the allegations made by Lafferty. Note that Lafferty has waited more than six years before making his allegation; also that he stated that he felt that the third white male he had seen in the house in Muncie "might have been Oswald." The Bureau notes that Lafferty indicated he has forgotten much of the detail pertinent to his allegation.

NOTE:

Our investigation revealed that Oswald was living in New Orleans in the late Summer of 1963, having moved to New Orleans in April, 1963. In late September, he left New Orleans and visited in Mexico City, and then moved to the Dallas area. There is no information that he was in Muncie, Indiana, during this period. The allegations by Lafferty do not warrant any active investigation unless there is some corroboration for the story concerning Muncie, Indiana.

Date January 23, 1970

On January 14, 1970, Mr. JAMES WILLIAM GALLAHER, 139 Fourth Avenue, Fairbanks, Alaska, advised that in 1963 he had been in a hotel in Baton Rouge, Louisiana, and had overheard three men talking about shooting someone with a rifle. He stated after the assassination of President JOHN F. KENNEDY he identified two of the persons as LEE HARVEY OSWALD and CLAY SHAW. According to Mr. GALLAHER he furnished this information to the FBI and also to the District Attorney's Office, New Orleans, Louisiana, but was never called as a witness in the CLAY SHAW trial on the charge of conspiracy to assassinate President KENNEDY.

Mr. GALLAHER further stated that since divulging this information, he felt someone was out to do him bodily harm. He advised he was going to set forth complete information in the form of a notarized statement, which he wanted to be on file with the FBI.

On January 21, 1970, the following statement was received by mail at the FBI Resident Agency, Fairbanks, Alaska:

"Fairbanks, Alaska

"Around Armistice day 1963, I was Boatswain on the S/S Point Montara, Pacific Coast Transport Co, loading wheat for India, at Baton Rouge Louisiana. The vessel had just been re-commissioned & shore riff-raff were making repairs around Crew Quarters & so on. 3 different nights I slept ashore at the Heidelberg Hotel.

"The nearest Coffee Shop & Restaurant was across the street at the Capitol House Hotel.

"One of the evenings, I overheard a conversation between 3 men standing in the lobby.

"I only heard one man speak (who I later recognized as Clay Shaw) say: If we cannot elect to office the man we want, we will vote him out of office with a rifle.) The 2nd man I saw clearly was Lee Harvey Oswald, & the third man's back was to me. I could not see his face.

"At the time local elections were going on & I said to myself, these guys must play rough.

"After leaving New Orleans, our ship developed Boiler Trouble & we pulled into Hamilton, Bermuda.

"I recalled the conversation in Baton Rouge, & made a report of same, after learning of the Presidents death, to the Vice Consul there. He had a French name.

"Later, in the newspaper I recognized Oswalds picture in the paper, & later saw Shaw's from the newspapers.

"In Sept of 1963, I made a report in San Francisco to the F. B. I & the officer ~~was~~ colored. The only trouble was I had been drinking.

"In Jan 1969, when Shaw's trial started, I made one last attempt & called Jim Garrisons Office in New Orleans, & had quite a few conversations with Mr. Chambra, Asst. D.A. I told him my story & was told I would be a witness pending the arrival of a report from the F. B. I. in Washington confirming my statement to the FBI, earlier. I was booked on an evening flight for New Orleans, via Braniff or Delta, I've forgotten which.

"Chambra called & said my testimony wasnt needed 2 hrs before flight time, previously he told me that Shaw, Ruby, & Oswald had been identified & seen in Baton Rouge by 2 other witnesses, unknown to me.

"In March 1969 I came to Alaska & from April 1st to Dec 9, I worked for Ramstad Const. Co out of Anchorage on the North Slope Oil Fields.

"During the past 5 years I have been drugged or doped twice & prior to the trial in New Orleans, I believe that on two & possibly three occasions someone was trying to knock me off.

"As far as I'm concerned, the incident is closed, but if anything happens to me, maybe you should take another look at the testimony I've given - I remain

For the information of Anchorage and in the event James William Gallaher further contacts Anchorage on this matter, the allegations made by him have previously been received by the Bureau. These allegations in slightly different form were first made by Gallaher in December, 1963, to the American Vice Consul in Bermuda. In essence, Gallaher advised, at that time, that on either 11/10, 11, or 12/63, he overheard four men conversing in the Capitol House Hotel, Baton Rouge, Louisiana, andone said, "If we can't put a man in by ballot, we'll get rid of this one with a 30-30." When he first made this allegation, Gallaher made no comment that one of the four men was Lee Harvey Oswald. In the investigation of the assassination of President Kennedy, investigation was conducted at the hotel in Baton Rouge. Persons who worked there were interviewed and photographs of Oswald were shown to them. None could identify the individual making the comment or furnish any information about the remark. All persons interviewed advised they had never seen Oswald at the hotel. Gallaher's allegation and the investigation conducted based upon it were furnished to the Warren Commission.

Gallaher furnished the allegation with some variations to the Seattle Office in February, 1967. He was intoxicated and confused when he first appeared at the Office to make the allegation, and he was recontacted the next day and furnished the information.

Gallaher is a seaman and is now working in Alaska. On 1/14/70, he restated his allegation to the Anchorage Office, and on 1/21/70, the Resident Agency in Fairbanks, Alaska, received a notarized statement made by him, which sets out the allegation. Gallaher indicates he has furnished this allegation to the District Attorney's Office in New Orleans. As noted above, the story has changed as Gallaher has related it on various occasions since December, 1963. We investigated it thoroughly and results were set out in the Dallas report of Robert P. Gemberling dated 5/15/64 in the assassination case. It is noted Lee Harvey Oswald was determined to be in Texas in the period 11/8-12/63.

There follows a report of interview on January 5, 1970, with Marion Harrison Lafferty, also known as Bobby Joe Sorrell. Lafferty was interviewed as a result of [redacted] Louisville, Kentucky, bringing him to the Federal Bureau of Investigation, Louisville Office, after he confidentially mentioned to her the information contained in the following report of interview. It is noted Lafferty expressed fear for his personal safety should the information he furnished become known to unauthorized individuals.

ENCLOSURE

Date 1/9/70

MARION HARRISON LAFFERTY, commonly known as BOBBY JOE SORRELL, 1650 Butternut Street, Abilene, Texas, was interviewed in the Office of the Federal Bureau of Investigation, Louisville, Kentucky. He advised the following:

He was born March 11, 1926, in Grafton, Virginia. However, his father died before he was a year old, and he was raised by his grandparents, EUGENE and MINNIE SORRELL, Nolan, West Virginia. Since approximately one year of age, he has used the surname of SORRELL and when a very small child became known as BOBBY JOE as a result of his supposedly having bitten the tail off a dog and from this incident the name BOBBY was given him and thereafter enlarged to BOBBY JOE.

In the late summer of 1963, he took his wife and his children to Muncie, Indiana, seeking employment. He was unacquainted in Muncie, Indiana, but was successful in locating an old house near the Riggins Milk Dairy on the Airport Road, in which the owner, RIGGINS, allowed SORRELL and his family to reside temporarily rent free. He was successful in finding work as a mechanic at Bill Williams' Sunoco Service Station, exact address not recalled, but located on the Airport Road in Muncie, Indiana.

One Friday afternoon, specific date not recalled, SORRELL was in a neighborhood bar, name not recalled, located near the Riggins Milk Dairy, and he became engaged in conversation with a white male named "DICK" last name not learned. Both are ex-United States Marines, and SORRELL mentioned his need to make some money to support his family. DICK stated money could be made by going to Mexico; and when SORRELL asked for specifics, DICK took SORRELL in DICK's car, a dark blue Falcon, year not recalled, across "to the other end of town", believed

by SORRELL to be the west end of town. DICK parked the car on a street, name not recalled, located next to the parking area of a large food supermarket, name not recalled. DICK and SORRELL then went in an old frame one story house having a green top and some of the sideboards colored white and some green. SORRELL described the house as a "run down" house. A white male who appeared to be in his sixties, referred to by DICK as "POPS", recognized DICK and let DICK and SORRELL in. The white male was dark headed, about 5'11", 150 pounds, and had a weather-beaten face with a mustache. DICK asked the white male if he, DICK, could make a contact with "California". The man stated this could be done, but the equipment was busy at the moment. DICK had a pint bottle of whiskey and the three of them had a drink and about ten minutes later, three white males came from the basement of the house into the room where DICK, SORRELL and the white male known as "POPS" were located.

DICK apparently knew two of these three white males, as he told SORRELL one was a jewelry store owner and the other a tavern owner. Names were not mentioned. SORRELL presumes these three males had been using the equipment in the basement. Several months later, after President JOHN F. KENNEDY was assassinated and SORRELL saw photographs of LEE HARVEY OSWALD, he felt that the third white male he had seen in this house might have been OSWALD.

After the above three males came from the basement of the house, DICK and SORRELL went to the basement which SORRELL said was "loaded" with radio-type equipment. DICK, using one piece of the equipment, was heard by SORRELL to ask for "JAYBIRD" and when a voice responded from the equipment, DICK asked to the effect "when can I see you about that assignment." The voice replied that someone would contact DICK around 3:00 PM, Sunday.

LS 105-620

After the above, DICK and SORRELL terminated their visit at the house.

About 2:30 PM the following Sunday, DICK picked SORRELL up and drove him to the Veterans of Foreign Wars Post at Anderson, Indiana, to make the referred to contact. No contact was made until about 5:00 or 6:00 PM that day when a well-dressed white male appearing to be about 35 years of age came into the Post, approached the table where DICK and SORRELL were drinking beer and asked if they were from "Muncie". When they replied in the affirmative, the male, who gave no name, instructed they go outside and talk to him in his automobile. They complied with the instruction, and the automobile, according to SORRELL, was a "black Cadillac", no further description recalled. The unknown male stated that work was available in a town in Mexico. The work consisted of SORRELL and DICK for 9 weeks training people the same type training SORRELL and DICK received attending boot camp in the United States Marine Corps.

The man stated that after DICK and SORRELL completed their assignment they would be returned to the United States and $25,000 would be deposited to their benefit in whatever bank they desired. SORRELL asked if any money would be given to him before he went to Mexico and when the male replied in the negative, SORRELL told the male that ended the matter so far as he was concerned and he, SORRELL, left the automobile. He was shortly joined by DICK, who tried to convince SORRELL to go along with the proposition, but SORRELL was adamant and DICK drove SORRELL back to Muncie, Indiana and SORRELL has not seen or had any further contact with DICK or the Cadillac owner.

LS 105-620

The following weekend SORRELL took his family and left Muncie, Indiana as he had received word from his former employer in Colorado City, Texas that employment was open to him there.

Around 1967 SORRELL and his family were again in the Muncie, Indiana area, the occesion being to visit SORRELL's and SORRELL's wife's relatives. On one day about 2:00 PM in the afternoon, SORRELL, having his family with him, was driving through Muncie, Indiana and SORRELL desired to see if the individual referred to as "POPS" still lived and was operating his radio equipment. SORRELL was able to find the house, but is unable at this time to give directions as to how to locate the house not being that familiar with Muncie. SORRELL on that occasion stopped at the house and was greeted by the same white male referred to as "POPS" and was allowed in the house when SORRELL recalled to "POPS" that he had been there several years before in the company of "DICK". SORRELL asked "POPS" if he could utilize the radio equipment to make a call and when he received an affirmative reply, he indicated that he first wanted to find DICK to be with him during the call. "POPS" stated he had not seen DICK in a long time and would not know how he could be located. SORRELL then left the house.

Knowledge of the above information has worried SORRELL since he came in possession of it and he has never disclosed it to anyone until recently advising his sister in Louisville, Kentucky of it. His reason for not disclosing it is fear that if it becomes known that he has disclosed it, he will be murdered.

Dear Mr. Rolapp:

I have received Mr. Kleindienst's letter of January 9, replying to my request for access to certain items in the FBI's 97-74 files.

I am enclosing a copy of my letter of January 5 to the National Archives, which is a request for disclosure of certain pages in an FBI report to the Warren Commission which are presently withheld at the request of the FBI. Mr. Eckhoff of the Archives replied that "your question concerning the withholding of pages 705 and 706 of Commission Document 75 should be addressed to the FBI." Since you have handled my previous requests, I am asking that you direct my questions to the appropriate spokesman for the FBI.

Mr. Mark G. Eckhoff
Director, Legislative, Judicial, and

Washington, D.C. 20408

Dear Mr. Eckhoff:

The Archives has previously advised me that there is no material in the name files of the Warren Commission for Carlos Quiroga, except possibly CE 1414 and CE 3119, both of which are Secret Service reports. (See my letter of March 4, 1968, and the reply dated March 21.) Quiroga is the anti-Castro Cuban who visited Oswald's home in New Orleans, indicating interest in the Fair Play for Cuba Committee (WR 408), and it has seemed most unlikely to me that he would not have been interviewed by the FBI. I now believe that CD 75, pages 705-707, which are withheld, do reflect an FBI interview of Quiroga. This conclusion is based on a comparison of index references for these pages with material from other sources. (See attached page.)

Quiroga did ask the Secret Service not to reveal his name, and when his friend Carlos Bringuier testified about Quiroga's contact with Oswald, his name was not put in the record (10:39-42). Quiroga's meeting with Oswald was widely publicized in connection with the recent "investigation" in New Orleans, with his name used; also, in his just-published book, "Red Friday," Carlos Bringuier no longer conceals Quiroga's identity. Thus it would appear that the probable reason for withholding an interview of Quiroga at the Archives, to protect the confidentiality he requested, is no longer applicable.

I am, therefore, asking that you make these two pages available under section 2c of the Attorney General's letter of April 13, 1965, which provides that "all unclassified material which has been disclosed ... in substance in the ... published documents [of the Commission] should be made available to the public on a regular basis." The determination of what has been so disclosed is apparently to be made by the Archives, not by the agency of origin.

Should this request be denied, I wish to ask that the FBI reconsider its position that these pages should be withheld, and that you transmit this request to the FBI on my behalf.

I hope that you can tell me at this time whether the pages in question are in fact a report of an interview with Quiroga, with his name given; an interview with an unnamed individual; an interview with some other named person (e.g., Carlos Bringuier); or not an interview report at all.

Also, please tell me under which of the Guidelines 3A, 3B, and 3C (which together apply to all the withheld pages of CD 75) these specific pages are withheld. If CD 75 has a table of contents and/or a synopsis, please send me a copy. In case I have not done so explicitly before, I wish to request a list of the pages which become available as a result of the review scheduled for this year.

Sincerely yours,

Paul L. Hoch

NOTES ON CD 75, PAGES 705-706

On the basis of this hypothetical reconstruction, I suspect that these pages reflect an interview with Carlos Quiroga.

Source material: (underlining added)

From "Red Friday," by Carlos Bringuier, pages 32,35. Essentially the same material appears in Bringuier's testimony, 10439-42.

"On August 16th, Lee Harvey Oswald carried on another demonstration, this time in front of the Old (sic) International Trade Mart ... One of the leaflets he was handing out was brought to the Thompson Cafeteria where several Cubans were eating their lunches and one of them, Carlos Quiroga, brought it to the store for me to see ..."

(Referring to Oswald's conversation with Quiroga:)

"... Oswald said that he was studying languages at Tulane University, which later proved to be a lie. Oswald accused us, the anti-Castro Cubans, of being criminals and also showed special animosity against the Somoza regime in Nicaragua. He defended Castro's oppression of the Cuban people.... Oswald gave Quiroga ... an application to become a member of Fair Play for Cuba Committee ...."

From CE 3119, p. 20 (Secret Service interview):

"Carlos [Quiroga] said he had been willing to join the Fair Play for Cuba group provided it was done with the backing of the FBI or the local police force. He said he had made this known to Lt. Martello, NOPD, who apparently forgot about it."

"He stated he was furnishing the following information in confidence for the reason his father is in prison in Cuba ...."

The only other index references to these two pages are "Hidell, (FNU)", "Ruby, Jack Leon," and "Rubenstein, Jack." Of course, the FBI frequently asked witnesses who had known Oswald if they knew Ruby or anyone by the name of Hidell (which may also have been on the literature Quiroga saw).

Mr. Hoch requests disclosure of pages 705 and 706 of Commission Document 75, which he believes report an FBI interview with Mr. Carlos Quiroga. These are pages 705 and 706 of the report of this Bureau dated December 2, 1963. This report concerns Lee Harvey Oswald and was made at Dallas by Special Agent Warren C. DeBrueys. Pages 705 and 706 do, in fact, report an interview with Mr. Quiroga. I am enclosing copies of the two pages in question for your information. You will note that Mr. Quiroga's identity is concealed by a "T" symbol.

These two pages are presently included in that material of the Warren Commission still withheld from the public. They were withheld from the public because of Mr. Quiroga's specific statement, made at the time he was interviewed on November 27, 1963, that he was furnishing this information on a strictly confidential basis, inasmuch as his father was imprisoned in Cuba and his mother was still living there.

Our New Orleans Office is being instructed to locate and interview Mr. Quiroga to determine whether or not he still desires that the interview be kept on a strictly confidential basis. You will be immediately advised of the results of the recontact of Mr. Quiroga.

For your information, the two pages in question were withheld from the public under Guideline 3(C) of the guidelines established in 1965 to govern the public disclosure of Warren Commission records.

SUBJECT: PAUL L. HOCH
REQUEST FOR INFORMATION IN FBI REPORT

This recommends advising Justice Department we are instructing our New Orleans Office to recontact Mr. Carlos Quiroga to determine if he desires that information he furnished on 11/27/63 concerning Lee Harvey Oswald continue to be kept strictly confidential. Results of 11/27/63 interview with Quiroga were furnished Warren Commission; however, were withheld from public because of Quiroga's request, based upon the fact that his father was imprisoned in Cuba, and his mother was still living there.

This issue arises because one Paul L. Hoch, in letter to Department, has requested to see the material withheld. Deputy Attorney General has referred matter to us. Hoch is the Berkeley, California, graduate student who has been making inquiries about the assassination of President Kennedy over the past five years. He is the man who wrote the Attorney General on 9/19/69 alleging "some sort of hidden relationship between" Oswald and the FBI. The Director has noted, "I dislike the humoring of a character like Hoch who is obviously a 'smear' artist."

Mr. Carlos Quiroga was one of the anti-Castro Cubans living in New Orleans who came in contact with Oswald in the Summer of 1963, when Oswald was distributing Fair Play for Cuba Committee handbills there. Following the assassination, on 11/27/63 Mr. Quiroga was interviewed for what he knew of Oswald. He told us that about mid-August, 1963, he met Oswald in an effort to determine Oswald's pro-Cuban activities and later offered to furnish the New Orleans Police Department with information about Oswald, but received no encouragement from the Police. He requested the interview with us be kept confidential because of the situation of his parents in Cuba.

The results of our interview with Quiroga were given to the Warren Commission, but because of his specific request, the report of the interview was included among the Warren Commission material withheld from the public. Before we can tell the Department whether or not this material can now be made available to the public, we must go back to Mr. Quiroga and determine if he still desires the interview to be kept confidential.

Re memorandum of Director, FBI, to The Deputy Attorney General dated 2/9/70 captioned "PAUL L. HOCH; REQUEST FOR INFORMATION IN FBI REPORT," with copies to New Orleans and Dallas.

On 2/12/70 CARLOS QUIROGA, 3134 Derby Place, New Orleans, La., was contacted, at which time he advised as follows:

QUIROGA stated he recalled being interviewed by SA JOHN T. REYNOLDS of this office in November, 1963, after the assassination of President KENNEDY, at which time he furnished his information on a strictly confidential basis since his father was at that time imprisoned in Cuba and his mother still lived there. He informed that this information related to his obtaining an FPCC handbill he had acquired and subsequently contacting OSWALD at OSWALD's residence, 4907 Magazine Street, and the conversation which transpired between him and OSWALD.

QUIROGA advised that he no longer desires this information he furnished or his identity to be kept confidential. He stated he now has no objection to his identity or the information he furnished being disclosed to anyone because his parents are no longer residing in Cuba.

Reference is made to my letter dated February 9, 1970, captioned as above.

Mr. Carlos Quiroga was recontacted on February 12, 1970. He recalled the interview conducted in November, 1963, after the assassination of President Kennedy, when he requested that it be kept confidential because his parents were then in Cuba. He advised that his parents no longer reside in Cuba and stated that he no longer desired that the information which he previously furnished be maintained on a confidential basis. He said he no longer desired that his identity be kept confidential. Mr. Quiroga advised he has no objection to his identity or the information he furnished being disclosed to anyone.

As I noted in referenced letter, the results of the interview with Mr. Quiroga were reported on pages 705 and 706 of Commission Document 75. Your attention is directed to my letter to the Attorney General dated August 10, 1965, entitled "Public Disclosure of Warren Commission Records," and specifically to the memorandum of the same date and caption, page 11, where reference is made to pages 705 and 706 of Commission Document 75. One copy of the letter and one copy of the memorandum were furnished to the Office of the Deputy Attorney General at the time. You will note that in the August 10, 1965, letter to the Attorney General, we set out our basic position concerning the public disclosure of material emanating from this Bureau in connection with investigations of events relating to the assassination of President Kennedy. It is our view that the final decision as to the public disclosure of such material rests with the Department of Justice.

In your communication to us concerning this matter dated February 3, 1970, you attached the original of Mr. Hoch's letter to Mr. R. Richards Rolapp plus its enclosures. These are being returned to you for your convenience in replying to Mr. Hoch.

SUBJECT: PAUL L. ~~HOCH~~
REQUEST FOR INFORMATION IN
FBI REPORT
LEE HARVEY OSWALD

This recommends advising Justice Department that Mr. Carlos Quiroga has no objection at this time to the disclosure to anyone of his identity or of the information he furnished on 11/27/63 concerning Lee Harvey Oswald. Results of 11/27/63 interview with Quiroga were furnished Warren Commission but withheld from public at Quiroga's request, since his parents were then in Cuba.

The matter of whether the Quiroga information could be released to the public has arisen because subject, in letter to Department, requested to see the material withheld, and Department referred matter to us. Subject is the individual from Berkeley, California, who has been making inquiries about the assassination of President Kennedy over the past five years.

With the Director's approval, we advised the Deputy Attorney General on 2/9/70 that we would contact Mr. Quiroga to determine if he still desired that his identity and the information furnished by him be kept in confidence. Mr. Quiroga advised on 2/12/70 that his parents are no longer in Cuba and he has no objection now to the release to anyone of the information he furnished concerning Lee Harvey Oswald. He further advised he has no objection to revealing his identity to the public.

Concerning public disclosure of Warren Commission records, it has been our position since 1965 that the final decision as to public disclosure rests with the Department of Justice. Thus the final decision as to whether or not to release to Mr. Hoch the Quiroga information rests with the Department.

ACTION: Attached for approval is letter to the Deputy Attorney General advising him of the results of the recontact of Mr. Quiroga and noting that the final decision as to whether or not to release the information rests with the Department.

REQUEST FOR INFORMATION IN FBI REPORT UNDER PUBLIC INFORMATION SECTION OF ADMINISTRATIVE PROCEDURE ACT

This recommends advising the Justice Department that we have no objection to the release of information requested by Paul L. Hoch which is a part of Page 329 of Warren Commission Document 7 which is an FBI investigative report.

This issue arises because one Paul L. Hoch in a letter to the Department has requested some material that was withheld. Deputy Attorney General has referred the matter to us. Hoch is the Berkeley, California, graduate student who has been making inquiries about the assassination of President Kennedy over the past five years. He has directed numerous inquiries to the National Archives. In a letter to the Attorney General dated 9/19/69, he wrote of "some sort of hidden relationship between" Oswald and the FBI. On a memorandum dated 10/6/69, concerning Hoch, the Director noted, " I dislike the humoring of a character like Hoch who is obviously a 'smear' artist."

The material requested by Hoch consists of results of Laboratory examination of seven magazines obtained from Mr. Adrian T. Alba, Crescent City Garage, New Orleans, Louisiana. These are five copies of "The American Rifleman," one copy of "Guns and Hunting," and one copy of "Field and Stream," that Oswald had access to prior to the

assassination. A coupon in one of the magazines for the Klein's store in Chicago had been torn from the magazine and the examination established that the coupon torn from this magazine was not the one used by Oswald in ordering the rifle. The examination of these magazines for indented writing was also negative.

The results of examination covered on Pages 328 and 329 of this investigative report were withheld from public disclosure because of other evidence submitted for examination along with the magazines and there appears to be no overwhelming reason why the paragraph on Page 329 covering the negative examination of these magazines could not be released to Hoch, however, the other portions of Pages 328 and 329 should continue to be withheld. The Department has previously stated that the denial of request for official records creates the possibility of a law suit against the agency which may result in a judicial interpretation adversely affecting the Government as a whole, and they believe that requests for arguably exempt records should be granted unless there is a compelling reason for non-disclosure. This is the only reason we are recommending disclosure since a suit on the basis of the content of this paragraph may be difficult to defend. Under similar circumstances, the Bureau has previously released information that has been found to no longer have compelling reasons for non-disclosure.

There is attached for approval a letter to the Deputy Attorney General advising him that we have no objection to the release of this one paragraph and further pointing out to him that if the Department decides to release this material to Hoch, the National Archives should be advised that this paragraph of Page 329 of Commission Document 7 may be released for public disclosure. There is also attached to this memorandum a copy of the letter from Mr. Paul L. Hoch and a copy of Page 329 of Commission Document 7 showing the portion to be disclosed and the portion not to be disclosed.

RECOMMENDATION: That the attached letter be forwarded to the Deputy Attorney General.

Dear Mr. Kleindienst:

Thank you very much for your letter of March 25, 1970, and for making pages 705 and 706 of Warren Commission Document 75 available to me.

I would like to obtain a copy of the results of an FBI Laboratory examination which I believe to be presented on page 329 of Commission Document (CD) 7. From the index to that CD, it appears that this page relates to seven magazines which are FBI Item D-15. (The circumstances under which these magazines were obtained by the FBI from Adrian Alba in New Orleans are set forth on pages 198 through 204 of CD 7. Page 455 of CD 75 reflects a request for various laboratory studies of these magazines, and the results are presented on page 456, but only in part.)

Pages 328 and 329 of CD 7 are presently withheld at the National Archives at the request of the FBI. It is noted that "The Worker" is indexed to page 328. I expect that page 329 is withheld because it includes some material on the Worker carrying over from the previous page, and not because of the material relating to the seven magazines. If this is in fact the case, I believe page 329 should not be entirely withheld, and I would appreciate its disclosure. (A masked copy would be acceptable, of course.)

PAUL L. HOCH - REQUEST FOR INFORMATION UNDER PUBLIC INFORMATION SECTION OF ADMINISTRATIVE PROCEDURE ACT

Reference is made to your communication dated April 15, 1970, captioned as above. Mr. Paul L. Hoch has requested access to a copy of the results of an FBI Laboratory examination which he believes is presented on Page 329 of Warren Commission Document 7. This page is presently included in that material of the Warren Commission still withheld from the public.

While the entire Page 329 of Warren Commission Document 7 should not be released to Hoch, there appears to be no overwhelming reason why the last paragraph of this Laboratory report should not be released since this appears to be the only portion in which Hoch is interested at this time. It is our view that the final decision as to the public disclosure of this material rests with the Department of Justice.

If the Department of Justice determines that this last paragraph of Page 329 of Warren Commission Document 7 can be released to Hoch, the National Archives should be advised so that this material for public disclosure will be authorized.

The letter from Mr. Paul L. Hoch that you furnished is attached. You are also being furnished a copy of Page 329 of Warren Commission Document 7 showing the paragraph to be released and also showing the portion that is not to be released.

FREEDOM OF INFORMATION ACT:
PAUL L. HOCH

Paul L. Hoch is the Berkeley, California, man who has been making inquiries about the assassination of President Kennedy for at least the last five years. On a memorandum dated 10/6/69 concerning Hoch, the Director noted, "I dislike the humoring of a character like Hoch who is obviously a 'smear' artist."

Deputy Attorney General has referred Hoch's current three requests for our comments and recommendations. First request deals with location and identification of enclosures to one of our letters to the Warren Commission. Archives has the letter and some of the enclosures are identified in Warren Commission Report. We have no objection to Department advising Archives of identity of all enclosures to facilitate location of them, and this is essentially Hoch's request. Second request deals with documents kept from public because they contain personal information about mental condition of a man, an innocent person, which could embarrass him. Our position remains unchanged, that these records still fall within one of the Guidelines originally established to protect the innocent. The third request deals with material in the New Orleans file on the Fair Play for Cuba Committee (FPCC). We recommend not giving this material to Hoch because substance is already publicly available at Archives and items are contained in investigatory files compiled for law enforcement purposes. We are enclosing for review by the Department pertinent serials from the New Orleans file so Department can see for itself that these are from our "raw" files.

ACTION: Attached for approval is letter to the Deputy Attorney General, commenting on information Hoch is seeking and setting forth our position.

FREEDOM OF INFORMATION ACT:
PAUL L. HOCH

Reference is made to your letter dated June 19, 1970, and to our letter dated June 25, 1970, both captioned as above.

Mr. Hoch makes three requests (Forms DJ-118) for access to information relating to the assassination of President Kennedy. His letter is returned herewith.

1. He requests all enclosures which were sent with our letter dated September 21, 1964, addressed to Mr. J. Lee Rankin of the Warren Commission, concerning Sylvia Odio. This is Commission Exhibit No. 3146. Mr. Hoch quotes a letter from Mr. Mark Eckhoff of the National Archives that "We have been unable to locate the enclosures mentioned in Commission Exhibit 3146." Mr. Hoch states he does not wish copies at this time of the enclosures but requests that copies be provided to the National Archives.

The files of this Bureau reveal that our letter dated September 21, 1964, and its 44 enclosures were delivered to the Warren Commission. As noted above, the Commission identified the letter as Commission Exhibit No. 3146. The Commission published it on pages 834 and 835 of Volume XXVI of the "Hearings Before the President's Commission on the Assassination of President Kennedy." Several of the 44 enclosures were also printed by the Warren Commission in Volume XXVI. For instance, Commission Exhibit No. 3147 appears on pages 835-838 of this Volume. Commission Exhibit No. 3148 was printed on pages 838 and 839 of this Volume. Both of these items were enclosures to our letter of September 21, 1964.

For your assistance, I am enclosing one copy of Commission Exhibit No. 3146. I am also enclosing one copy of each of the items originally transmitted with it to the Warren Commission. There are 22 different items. Two copies

of each were originally furnished to the Warren Commission, amounting to the total of 44 enclosures. We have no objection to your furnishing these items to the National Archives if you deem it advisable for the completion of the files of that Agency.

So far as public disclosure of these items is concerned, we note that we are unable to determine from our files whether or not these items were ever reviewed under the Guidelines approved on April 19, 1965, by Mr. McGeorge Bundy, the then Special Assistant to the President, since we do not know the Commission Document number assigned to each of these items. Upon viewing these items, the National Archives may be able to determine these numbers and also whether or not the items were reviewed from the standpoint of whether they could be placed in the public domain. Should you determine it advisable to furnish these items to the National Archives, we believe this matter should be called to the attention of appropriate personnel there. You will note that none of the items is classified.

2. Mr. Hoch requests "all FBI reports relating to Thomas Vallee (or Valle) and his arrest in Chicago on November 2, 1963, which were provided to the Warren Commission." He explains that Mr. Eckhoff of the National Archives advised by letter of March 5, 1969, that "Documents containing the name of Thomas Vallee are withheld from research at the request of the Federal Bureau of Investigation." Mr. Hoch states that he has five pages relating to Vallee: "CD 149, page 19*; CD 460, pages 1-2*; and CD 462, pages 1-2."

The results of the FBI investigation concerning Thomas Vallee are located in six reports which were furnished to the Warren Commission and which are now on file at the National Archives. These reports, all captioned "Lee Harvey Oswald," are:

(a) December 2, 1963, Chicago report of Special Agent Leo E. Pedrotty. This is Commission Document (CD) 47, which Mr. Hoch mentioned in his letter, speculating that it contains material relative to Vallee. The report totals 80 pages. Pages 1 (Synopsis), 1A, 10, 11, 12, 13, and 14 are the only pages which contain material relative to Vallee. Enclosed is one copy of each of these pages. All of them have been

The Deputy Attorney General

The Deputy Attorney General

You have requested our comments on whether the material Mr. Hoch has requested should be made available to him. So far as is known by this Bureau, the reasons for withholding from the public the material relevant to Vallee, that is, the reasons under Guideline 3C, are still valid. We have no information indicating otherwise. This being the case, it would appear the material on Vallee should not be made available to Mr. Hoch.

Page two of CD 149, which Mr. Hoch specifically mentions, should not be made available to him because it does not pertain to Vallee and because it falls within Guideline 3B, as noted above.

3. Mr. Hoch requests "all material in the New Orleans file 97-74...which relates in any way to" Oswald or his associates in the New Orleans Chapter of the Fair Play for Cuba Committee (FPCC).

Our letter to you dated December 16, 1969, classified "Secret," entitled "Request Under the Freedom of Information Act for Records Possibly Contained in the Files of the Federal Bureau of Investigation," discussed the 1A Section of New Orleans file 97-74, and we concluded that disclosure to Mr. Hoch of the records in this Section would be contrary to the public interest. Mr. Hoch now requests all material in the New Orleans file relating to the FPCC from April, 1963, to November 22, 1963, or to Oswald. We have made a careful review of these records requested by Mr. Hoch and have concluded that the substance of the material in these items is already available to the public. We think also that disclosure of them to Mr. Hoch would be contrary to the public interest. We believe compelling reasons exist for invoking the exemption provided in the Freedom of Information Act and for denying Mr. Hoch's request for these records since the items involved are contained in investigatory files compiled for law enforcement purposes.

The New Orleans file 97-74 contains eight items concerning Oswald in the period in question, and one copy of each is enclosed for your information as follows:

(a) Memorandum of Special Agent Stephen M. Callender to Special Agent in Charge, New Orleans, dated August 9, 1963;

(b) Complaint Form dated August 16, 1963, submitted by Special Agent Norriman D. Diven;

(g) New Orleans report dated October 25, 1963, concerning FPCC made by Special Agent Warren C. DeBrueys. Mr. Hoch states in his letter that he already has this report;

(h) Undated letter addressed to Mr. Lee signed "Lee H. Oswald."

You will observe that these items contain administrative notations placed thereon by personnel of our New Orleans Office. Furnishing these items to Mr. Hoch can serve no purpose and can only provoke further inquiry from him.

You will note that the New Orleans report of October 25, 1963, covers information developed in the investigation of Oswald based upon his activities for the FPCC in August, 1963, and following. This report was furnished to the Warren Commission (CD 1114) and is presently available to the public in the National Archives. The memoranda, the Complaint Form, the letter to Bureau Headquarters, and the characterizations were items leading to the report or incorporated in it. The last item, Oswald's undated letter to Lee, is also available to the public, published in full by the Warren Commission in Volume XX, pages 518-521, of the Hearings material.

In summary, of these eight items, two are already available to the public, one being the report which was prepared to cover all information developed in the investigation of Oswald, including the information in the six items which are not available to the public. It is the recommendation of this Bureau that Mr. Hoch's request for these items be denied.

Lee Harvey Oswald's Property Valued at $7,464

By EARL GOLZ

A court-appointed special master here has valued Lee Harvey Oswald's personal property at $7,464, or about $40,000 less than sought by his former wife, Mrs. Marina Oswald Porter.

The final report by William B. West III, a former U.S. attorney here, is not binding on either Mrs. Porter or the United States government, which unsuccessfully had sought to limit the value to $3,000.

Either the former wife of the accused assassin of President John F. Kennedy or U.S. Atty. Gen. John Mitchell can ask for a jury trial to determine exactly how much compensation would be due Mrs. Porter for the 111 items placed permanently in the U.S. Archives at Washington, D.C.

The parties also can waive a jury trial and go before U.S. Dist. Judge Joe E. Estes for a determination, or they can settle the case out of court.

Judge Estes ordered the U.S. government, as defendant, to pay West $2,125 for his efforts. West was appointed a special master by Judge Estes on Sept. 16, 1968, to appraise the property at fair market value as of Nov. 1, 1963.

The highest appraisal given by West for a single item was $1,000 for "sheets of English writing, both sides of which appear" to be Oswald's diary.

A $1,000 appraisal was given Oswald's Hagop typewriter discussion outlining the political, domestic and labor life of the Russian as well as other guides to the Russian political system. Five photographs accompanied the discussion.

Also drawing a $1,000 rating were several pages of Oswald's Diet list handwriting on Holland-American Line stationery. A petite notebook with Russian script was worth an estimated $1,750, West said.

West estimated that Oswald's wallet containing various identification cards, a Dallas public library card and other papers was worth $500.

Other items and West's values included Oswald's undesirable discharge papers from the U.S. Marine Corps, $75; a passport in the name of Oswald, $100, and a bus transfer, bracelet inscribed "Lee," a key, ring, narrow black belt and a property receipt, all at $50.

Not included in the items were a Mannlicher-Carcano rifle with a telescopic sight which the Warren Commission claimed was used to shoot President Kennedy from a sixth floor window of the Texas Book Depository building.

A federal jury in Denver, Colo., on Feb. 21, 1968, had ruled that Denver oilman John J. King deserved nothing as "just compensation" for his efforts to obtain the rifle from the government. King had said he spent $11,000 in direct efforts to acquire the rifle and the Mannlicher pistol used by Oswald to kill Dallas policeman J. D. Tippit on Nov. 22, 1963. Ten thousand dollars of the $11,000 went to Mrs. Porter, King had said.

King had demanded $1 million from the government for the rifle and pistol. The jury awarded him $100 for the pistol.

The following information was volunteered by SA John J. Heidtke, New Agents Class 16, who has been assigned to Butte as first office, following a lecture during which questions were asked concerning captioned case. SA Heidtke stated that in 1966 when he was working in law enforcement in Covina, California, he had occasion to contact Mr. Dan Cotterman of the magazine "Gun World."

Incidental to this contact, Mr. Cotterman related the following: During the Summer of 1963, he received a letter from a man whose last name he recalls as Oswald. The writer inquired about the most effective ammunition for hunting with a 6.5 millimeter Mannlicher-Carcano rifle. Cotterman recalls that he replied to the letter, giving the requested information. Subsequent to the assassination of President Kennedy, Cotterman looked for the incoming letter, since he believed it was from subject, but was unable to locate it.

SA Heidtke stated he was in Cotterman's office and noted the desk was piled high with papers. He said he could understand why Cotterman could not find the letter. SA Heidtke furnished this for information.

Bufiles reveal that in January, 1965, Cotterman corresponded with the Bureau about an article dealing with guns which appeared in the FBI Law Enforcement Bulletin, and we replied to his letter thanking him for his interest.

SA Heidtke furnished this information to SA T. N. Goble of the Soviet Section. In the interest of thoroughness, we should talk to Cotterman. LEE HARVEY OSWALD

On September 2, 1970, Harry Daniel Cotterman, 615 North Hillside Street, La Habra, California, advised that he was an associate editor of "Gun World" magazine in the summer of 1963 and one of his tasks was to review incoming mail from readers, answer it, and select the more interesting letters for publication in the "Letters to the Editor" section. Cotterman stated he recalls receiving a letter from someone with the surname Oswald in the summer of 1963, which letter inquired about the adaptability of a Japanese made scope, make unrecalled, to a 6.5 Mannlicher-Carcano rifle. The letter also inquired about the effectiveness of this rifle for deer hunting. He stated the name Oswald stuck in his mind because, as a child, his father would refer to him as "Oswald" when he became angry and that the name "Oswald" was something of a family joke as a result. He stated that the assasssination of President Kennedy by Lee Harvey Oswald immediately refreshed his memory concerning the above letter and he searched for it without success, indicating that the magazine maintains a file of all letters published but not necessarily of all incoming letters. He stated he probably should have come forward with the above information but, lacking the letter, he felt that he would be regarded as just another misguided citizen contributing to an already overwhelming number of stories about Oswald. He stated he recalls that in answering the letter, he wrote that the Japanese scope would be unsuitable for the above rifle.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Enclosed for each recipient is one copy of a letter from the Deputy Attorney General dated 10/2/70, captioned "Freedom of Information Act," with its four enclosures.

Weisberg makes two basic requests in his 9/28/70 letter and form and his 9/15/70 letter. (1) "All information about and FBI Reports of interviews with Ronnie Caire, questioned for Warren Commission."

Bufiles contain only one reference to Ronnie Caire. His name appeared in the enclosure to New Orleans' airtel, dated 7/20/67, submitted to the Bureau under the "Assassination" caption, New Orleans file 89-69. Two copies of this airtel and the enclosures were furnished to Dallas, Dallas file 89-43. Recipients will note that the LHM submitted with this airtel contains a transcript of an interview between New Orleans' District Attorney Jim Garrison and Carlos Quiroga, conducted on 1/21/67. The reference to Ronnie Caire appears on page 10 of this transcript and is a comment by Quiroga that Sergio Arcacha Smith worked for Ronnie Caire at one time.

New Orleans is directed to review its files for all information about Ronnie Caire.

Recipients note that Weisberg states in his 9/15/70 letter, paragraph two, that Oswald had Caire's office address masked in his address book. A review of the information which was in Oswald's address book fails to indicate what Weisberg is referring to. Dallas is instructed to furnish its observations on this point.

For information of recipients, a review of Dallas reports in the Oswald case reveals that a Raymond J. Caire, owner of Caire's Shell Service Station was interviewed on 11/27/63. This interview is reported on page 115 of Dallas Report of SA DeBrueys dated 12/2/63. Further, in the same report on page 580 there is set out the results of an interview with one David Diaz, a student at Louisiana State University in New Orleans. Diaz furnished information concerning a group of 16 persons who visited Mexico City, 8/20-26/63. Included in this group was one Anabol Cairo, a student at Louisiana State University. Bufiles contain no information that either of these two people is related to Ronnie Caire.

(2) In paragraph five of his 9/15/70 letter, Weisberg writes that the FBI discovered a fingerprint on a leaflet which Oswald had distributed. Weisberg asks if the fingerprint was that of anyone connected with the Assassination investigation. New Orleans is directed to review its files for information regarding this Weisberg request.

Recipients handle promptly so results may be furnished to the Deputy Attorney General.

NOTE:

The request received by the Department for information from FBI files is from Harold Weisberg. Weisberg is the man who has written several books critical of the Warren Commission, the FBI, Secret Service, police agencies and other branches of the Government relating to the Assassination investigation. His writings have contained inaccuracies, falsehoods, and deliberate slanting of facts to fit his purpose. He was one of ten employees fired by the State Department during 1947 because of suspicion of being a communist or having communistic sympathies. Later, he was allowed to resign without prejudice but he was not restored to his former position. Check of Dallas and New Orleans files is necessary to be certain we can give the Department complete information on Weisberg's questions. Weisberg's inquiry concerned Ronnie Caire and Bufiles contain only one reference to this individual, a reference which had no direct connection with the assassination.

Dear Mr. Weisberg:

I have your letter of September 15 in which you request certain information regarding the investigation of the assassination of President Kennedy.

Washington, D.C.

Dear Mr. Meindienst,

Because of your recent request to Mr. Fensterwald, I assure you that the subject of this letter is not in litigation and I would prefer that it not reach that stage. I wrote you because, under the law, you are the person I am required to address.

Ronnie Caire, then of New Orleans, was an associate of Sergio Arcacha Smith and others who figured in the investigation of the assassination of President Kennedy. Lee Harvey Oswald also applied to him for a job. Caire's office address marked in his addressbook. Caire and Arcacha were on the letterhead of a fund-raising organization that used an address Oswald also used. Arcacha of the New Orleans head of an organization established, directed and financed by the CIA.

Caire's office address was then the Cigoli Building, at the corner of Camp and Canal Streets, New Orleans. His home address was 615 Dumaine Street. The address his organization ("The Crusade to Free Cuba"), Oswald and Arcacha all used is 544 Camp Street, which is identical with a side entrance used by the FBI to mask this address, 531 Lafayette Street.

Caire claims to have been interrogated for 10 hours. The National Archives says it has no single FBI report or even reference to him. I request copies of all relevant data. I presume it should not have been denied the Warren Commission and would prefer to believe it is misfiled somewhere.

Caire's home address is less than two short blocks from Dealey Plaza and Beaston, where Oswald picketed the carrier Wecht in the early summer of 1963, another intriguing coincidence, in view of the foregoing. In the course of the investigation, which was not for law-enforcement purposes, the FBI obtained a copy of the leaflet Oswald then distributed, identified a fingerprint on it as not Oswald's, and, if it ever told the Warren Commission whose fingerprint it was, I have been able to find no record of it. I therefore ask if this fingerprint was that of anyone in any way connected with the assassination investigation. I would like to know whose it is, for there are also those who should have been connected with the investigation and appear not to have been.

Should you desire that I submit forms, of course, I will. However, I do hope those unessential formalities can be dispensed with unless there is disagreement between us.

Sincerely,

Dear Mr. Rolapp,

In accordance with your letter of 9/23, I enclose herewith the completed DJ-118 for me? Ronnie Caire and my check.

Your letter says "it is necessary for you to submit" the DJ-118 form. Is this really the case? Or is it that you can require it and so elect? I do not for a moment doubt you can do this. What I am asking is merely does the Department make this requirement universal? As with such writing as the current Whitehead book, with the Oversteets and with others who write what is pleasing to officials?

Using this form makes me feel it will be necessary to go to court. That, I assure you, I would like to avoid. Hence my initial suggestion that we dispense with unnecessary formalities.

May I use this occasion to remind you of a number of unanswered letters, not included in what are so frothily described as responses by Mr. Hoffman and Mr. Ruckelhaus in their letters to Mr. Fensterwald? I would appreciate getting responsive answers.

For your information, I have accepted Mr. Ruckelhaus' suggestion and written Judge Curran about what I believe to be perjury by your Mr. Heinrich. I did not tell him the Department's official spokesman described his order as "bullshit", although, if I had, I would have been doing no more than accommodating Mr. Ruckelhaus.

I do thank you for the promptness of your reply and for your thoughtfulness in enclosing the form.

Sincerely,

FREEDOM OF INFORMATION ACT

Reference is made to our letter dated October 9, 1970, and to your letter dated October 2, 1970, which relate to a request from Mr. Harold Weisberg for information concerning the investigation of the assassination of President Kennedy.

Mr. Weisberg's formal request (DJ-113) asks for "all information about and FBI reports of interviews with Ronnie Caire, questioned for Warren Commission. Further details in letter of 9/15/70." In the September 15, 1970, letter, after furnishing some information about Ronnie Caire, he makes a second request. He writes that the FBI discovered a fingerprint on a leaflet which, he asserts, Lee Harvey Oswald distributed. He asks for information as to whose fingerprint this was and indicates he is aware that the FBI determined that it was not the fingerprint of Oswald.

Concerning the first request, the files of this Bureau and the files of our Dallas and New Orleans Offices contain no information that Ronnie Caire was interviewed by the FBI concerning the assassination of President Kennedy or concerning Oswald. (Files were also reviewed for the variations of the name, that is, Bonny Caire and Robert James Caire.)

EX-103 REC-48 105-82555-5647

The files of our New Orleans Office reveal that on November 17, 1961, an individual, who identified himself as Ronnie Caire, Ronnie Caire Advertising Agency, 704 Cigali Building, New Orleans, Louisiana, telephonically contacted that office and advised that he had been approached by Sergio Arcacha, a representative of the Cuban Revolutionary Front, Room 6, 544 Camp Street, New Orleans, Louisiana, to conduct an advertising campaign for this organization for the purpose of building public support and raising money.

According to the caller, his purpose in contacting the FBI was to determine if this organization was legitimate and recognized by the United States Government. The caller was advised that the FBI could not comment regarding this organization or the individual mentioned.

Shortly after receipt of this inquiry, on December 2, 1961, a New Orleans newspaper, the "Times-Picayune," reported that a two-month "crusade to free Cuba" had begun in the New Orleans area. The objective of the "crusade" was to raise money to educate the people of New Orleans to the danger represented by a communist-oriented Cuba. Sergio Arcacha was listed as one of the organizers and a Robert J. Caire was listed as the Public Relations Chairman.

The files of this Bureau reveal further that the Ronny Caire Advertising Agency, Inc., was registered with the Registration Section of the Department of Justice in 1962. This agency was located at 704 Cigali Building, New Orleans 12, Louisiana. Officers were listed as Robert James Caire, President and Treasurer, and Mrs. Robert James Caire, Vice President and Secretary, according to the registration information. This agency represented the New Orleans Chapter of the Cuban Democratic Revolutionary Front, 544 Camp Street, New Orleans, Louisiana, for publicity and fund raising.

The only other reference to a Ronnie Caire located in the files of this Bureau appears on page ten of the enclosure to a memorandum prepared at New Orleans, Louisiana, on July 20, 1967, entitled "Assassination of President John Fitzgerald Kennedy, November 22, 1963, Dallas, Texas." This memorandum was disseminated to the Criminal Division, Civil Division and Internal Security Division of the Department of Justice on July 27, 1967. The enclosure in which the reference appears is a transcript received from one Carlos Bringuier of an interview between New Orleans District Attorney James Garrison and Carlos Quiroga. The reference to Ronnie Caire was made by Garrison who asked Quiroga when Sergio Arcacha worked for Ronnie Caire, to which, Quiroga replied that it was in 1962, after Arcacha went to Miami. No other mention is made of Ronnie Caire.

The Deputy Attorney General

In his letter of September 15, 1970, Mr. Weisberg stated that Oswald had Ronnie Caire's office address "masked" in his address book. The files of this Bureau contain no information relating to this statement.

With regard to Mr. Weisberg's request for information concerning Ronnie Caire, it is the recommendation of this Bureau that the request be denied because the information concerning Ronnie Caire is contained in investigatory files compiled for law enforcement purposes.

Regarding the second request made by Mr. Weisberg, which concerned the fingerprint on the leaflet, Weisberg appears to be referring to the incident reported by a member of the New Orleans Harbor Police, Mr. Girod Ray. This incident was investigated by this Bureau and the results were furnished to the Warren Commission. Your attention is directed to page 803 of Volume XXII of the "Hearings Before the President's Commission on the Assassination of President Kennedy." In June, 1963, Patrolman Ray was on duty on the New Orleans riverfront near where the aircraft carrier U.S.S. "Wasp" was berthed. A Naval officer aboard the ship requested Patrolman Ray to approach a man, who was in the vicinity of the aircraft carrier, distributing leaflets concerning Cuba. Patrolman Ray talked with the man and asked him to stop distribution of the leaflets. The patrolman obtained several of the leaflets from the man. Subsequently, Patrolman Ray believed the unknown man was Lee Harvey Oswald. He based his identification on observations of Oswald on television and of photographs of Oswald which appeared in the press.

The two leaflets which Patrolman Ray obtained from the man were examined by the FBI for latent fingerprints. One such fingerprint was developed on each leaflet. In view of the belief of Patrolman Ray that the man who distributed the leaflets was Lee Harvey Oswald, these two latent fingerprints were compared with the fingerprints of Oswald. It was determined that these two latent fingerprints were not identical with the fingerprints of Oswald. The two fingerprints were not compared with the fingerprints of any other individual.

The Deputy Attorney General

It is the recommendation of this Bureau that Mr. Weisberg's second request be denied since information concerning these fingerprints is contained in investigatory files compiled for law enforcement purposes. This request might also be denied on the grounds that it was not contained in the formal request (DJ-118) submitted by Mr. Weisberg.

NOTE:

The request received by the Department for information from FBI files is from Harold Weisberg. Weisberg is the man who has written several books critical of the Warren Commission, the FBI, Secret Service, police agencies and other branches of the Government relating to the Assassination investigation. His writings have contained inaccuracies, falsehoods, and deliberate slanting of facts to fit his purpose. He was one of ten employees fired by the State Department during 1947 because of suspicion of being a communist or having communistic sympathies. Later, he was allowed to resign without prejudice but he was not restored to his former position. Dallas and New Orleans files have been reviewed on the questions raised by Weisberg and above is result. Bufiles were also reviewed. In view of Weisberg's character, he should not be given the information he requests, and there is legal ground for our position.

ReBuairtel to Dallas and New Orleans 10/9/70.

New Orleans files reveal the following information relating to ROBERT JAMES CAIRE who is probably identical to the RONNIE CAIRE mentioned in reBuairtel:

On 11/17/61, an individual who identified himself as RONNIE CAIRE, Ronnie Caire Advertising Agency, 704 Cigali Building, New Orleans, Louisiana, telephonically advised that he had been approached by SERGIO ARCACHA, a representative of the Cuban Revolutionary Front, Room 6, 544 Camp Street, New Orleans, La., to conduct an advertising campaign for the Cuban Revolutionary Front for the purpose of building public support and raising money. He informed that the purpose of contacting the FBI was to determine whether this group was legitimate and recognized by the U. S. Government.

He was informed that this office could not make any statement regarding the organization or the individual mentioned;

however, it was suggested that he might want to contact the local office of the State Department, as well as the office of the U. S. Attorney in New Orleans, to determine whether he would be required to register.

There appeared in the New Orleans Times Picayune newspaper dated 12/2/61 an article which announced that a two-month "crusade to free Cuba" was begun in the New Orleans area. The aim was to raise money to educate New Orleanians of the danger that Communist-orientated Cuba presents to the United States. This article lists SERGIO ARCACHA as one of the organizers of this crusade and the article further lists one ROBERT J. CAIRE as public relations chairman for the crusade.

Bulet to New Orleans dated 11/2/62, captioned, "RONNY CAIRE ADVERTISING AGENCY, INC.; REGISTRATION ACT - CUBA," enclosed a photostat of an abstract prepared from a registration statement filed by the Ronny Caire Advertising Agency, Inc., with the Registration Section of the Department.

The enclosed photostat of the abstract reveals that the Ronny Caire Advertising Agency, Inc. is located at 704 Cigali Building, New Orleans 12, Louisiana. The officers are listed as ROBERT JAMES CAIRE, president and treasurer, and Mrs. ROBERT JAMES CAIRE, vice president and secretary. The abstract indicates that this firm is representing the New Orleans chapter of the Cuban Democratic Revolutionary Front, 544 Camp Street, New Orleans, Louisiana, to publicize and raise funds.

New Orleans files do not reveal that ROBERT JAMES CAIRE was ever contacted or interviewed in captioned matter.

New Orleans files reveal no additional information regarding RAYMOND J. CAIRE not already known to the Bureau.

In regard to the fingerprint on a leaflet OSWALD had distributed, which is mentioned in referenced communication, the following observations are being set forth:

In paragraph five of WEISBERG's letter to Deputy Attorney General KLEINDIENST dated 9/15/70, WEISBERG indicates that OSWALD picketed the carrier "Wasp" and indicated that during this picketing OSWALD distributed leaflets. The FBI obtained a copy of the leaflet and identified a fingerprint on it as not being OSWALD's.

Investigation relating to this incident was conducted and the results set forth in New Orleans LHM 7/22/64.

This investigation revealed that a member of the New Orleans Harbor Police had observed an unknown individual distributing leaflets about Cuba on the New Orleans river front near where the carrier "USS Wasp" was berthed during June 1963. This patrolman was requested by a naval officer aboard the ship to contact the unknown individual and request him to stop distributing the leaflets. The harbor patrolman obtained a couple of the leaflets from this individual and felt sure that this person was LEE HARVEY OSWALD and he based this identification on the fact that he had observed OSWALD on television and his photographs in the newspapers.

These two leaflets were submitted to the Latent Fingerprint Section of the Identification Division by New Orleans airtel 7/28/64. By airtel to New Orleans dated 7/31/64 the Bureau advised that one latent fingerprint had been developed on each of the leaflets submitted; however, the two latent fingerprints were not identical with the fingerprints of LEE HARVEY OSWALD.

Re Bureau airtel to Dallas and New Orleans dated 10/9/70.

A complete review of Dallas files in connection with captioned matter and the related assassination investigation reveals no information concerning RONNIE CAIRE or RAYMOND J. CAIRE not already known to the Bureau as indicated in the referenced airtel.

For the information of the Bureau, Cover Pages I - JJ of the report of SA ROBERT P. GEMBERLING dated 4/15/64, bearing above caption, contain the results of investigation in Ruasia by CIA concerning notations which appear in OSWALD's address book.

Pages 672 - 701 of the report of SA ROBERT P. GEMBERLING dated 12/23/63 bearing above caption, contain the names, addresses, and/or telephone numbers from the address book of LEE HARVEY OSWALD.

At the request of [redacted], Fairbanks, Alaska, where he is awaiting prosecution on the charge of cutting with the intent to wound, he was interviewed on 10/23/70 at which time he furnished the following information:

He recently returned to Alaska after being a patient at the Memorial Hospital, La Porte County, Indiana, where he was a mental patient, which had been brought on by excessive drinking. Dr. NORMAN BEATTY is in charge at the hospital.

In 1966 or 1967 a man named HAROLD HOPPWOOD was committed to the hospital and placed under maximum security.

Around February, 1969 HOPPWOOD showed him five black and white photographs which he kept in a secret compartment in his wallet. The photographs were all the same three men and three women standing in front of oil well towers. He, [redacted] recognized one man as LEE HARVEY OSWALD, the second man as JACK RUBY, and the third man he recognized as the nightclub owner later indicted in New Orleans, Louisiana by District Attorney GARRISON on the charge of conspiracy to assault President JOHN F. KENNEDY. HOPPWOOD identified one woman as Mrs. OSWALD and the second woman as Mrs. RUBY. HOPPWOOD did not identify the third woman.

AN 44-48

HOPPWOOD said after leaving the Federal Penitentiary at Atlanta, Georgia, he went to Louisiana where, in 1963, he became involved in the assassination of President KENNEDY and personally took these photographs. HOPPWOOD stated he was not personally involved in the assassination but was an intermediary in negotiating pay-offs for someone else. HOPPWOOD stated OSWALD was to have been paid money for killing President KENNEDY and RUBY in turn, was to be paid for killing OSWALD. He claimed the reason for taking the pictures was so none of the individuals could turn on one another.

The reason HOPPWOOD confided in him was that HOPPWOOD wanted him, after leaving the hospital, to extort $40,000.00 for the photographs from the United States Government or the third man in the picture. He does not believe HOPPWOOD showed these pictures to anyone else at the hospital.

He considers HOPPWOOD a crook who is a very nervous individual as well as a dangerous person. HOPPWOOD also mentioned he has buried money from a couple of bank jobs.

He does not believe HOPPWOOD would voluntarily display these pictures to anyone if questioned concerning the matter. He suggested hospital personnel, Mr. RAYMOND LOWERY, Chief of Security, or Dr. THEODORE A. HILL, Superintendent, be contacted concerning this matter. He believed if the pictures could be obtained, the numbers appearing on the oil well towers in the background could identify the location in Louisiana where the pictures were taken. He believed the photographs could prove there was a conspiracy to assassinate President KENNEDY.

V Hoppwood

HOPPWOOD has a brother, Dr. DAVID or PHILLIP HOPPWOOD, who resides in Lafayette, Indiana and employed by the State Department of Health and Welfare, Indianapolis, Indiana.

It appears that the writer of the letter to Colonel Glenn may have been trying to capitalize on Colonel Glenn's name and fame. Newark should check its files for any information on the writer of this letter other than that indicated above. Furnish results to the Bureau promptly. Based on the information available to the Bureau at this time, the Bureau does not think an effort should be made to contact [redacted] concerning his letter; however, information in Newark files may be such as to necessitate an interview.

NOTE:

In the letter to Colonel Glenn, which he referred to the Bureau, the writer refers to meeting Colonel Glenn in 1961. He refers to a conversation at that time and states he told Colonel Glenn about Lee Harvey Oswald in an attempt to prevent the assassination of President Kennedy. He states that he also discussed the matter with Commander Shepard, Commander Schirra, Vice President Johnson and several others. He asks Colonel Glenn to confirm the conversation. Colonel Glenn replied to [redacted] that he did not recall the 1961 conversation. In 1961, Oswald was in the USSR.

The files of the NKO reflect, in addition to that information already in the possession of the Bureau, that during the evening of 11/6/69, [redacted] telephoned the NKO and advised that he wanted protection from "people" who were after him because of what he knew. He said that he had told 1,500 people before it happened that ROBERT KENNEDY was going to be assassinated by SIRHAN SIRHAN. He also stated that he had told many people about the "Pueblo" incident before it ever occurred. He continued that he had also told over 1,500 people that President JOHN F. KENNEDY was going to be assassinated before the event actually happened.

When asked how he knew these things, [redacted] responded that he had both heard and seen them, but he would not be more specific. He said that the police and judges (unnamed) were involved and that "they" were after him, meaning all those involved in his allegations. [redacted]

He stated in conclusion that as an illustration of his persecution, he had been beaten while confined to the Bergen Pines Mental Hospital, in 1968. [redacted] gave his address as [redacted] Hasbrouck Heights, N.J.

In view of the foregoing, Newark concurs with the Bureau's observation that no contact be had with [redacted] concerning his letter to Colonel JOHN GLENN. No further investigation in this matter is being conducted by Newark.

come to his attention some time following the assassination. [redacted] said he does not know whether his son knew OSWALD but is inclined to believe that his son's story is the figment of his imagination.

With regard to the murder of ROBERT KENNEDY, [redacted] said he has no information to substantiate his son's claim of having previous knowledge of this incident. He again feels that his son's story is a figment of his imagination.

[redacted] advised he has no information concerning his son's claim of having knowledge about the "Pueblo" incident before it occurred.

[redacted] advised his son is now writing a book about the above incidents. [redacted] has not seen the book and has only heard about the manuscript from typists in his office.

[redacted] stated that in 1968, his son was arrested by the Hasbrouck Heights, NJPD and subsequently, brought to the Bergen Pines Mental Hospital for observation. [redacted] A court order was subsequently obtained by [redacted] releasing his son from Bergen Pines.

[redacted] brought his son to the Fair Oaks Institution in Summit, NJ, for examination by psychiatrists. Subject was released after ten days of observation. [redacted] claimed that he did not know the diagnosis given by the psychiatrists.

[redacted] advised his son was arrested again in 1969 by the Hasbrouck Heights, NJPD on a complaint filed by the Town Prosecutor. Subject was alleged to have threatened the local Magistrate and the Hasbrouck Heights PD. Subject was again brought to the Bergen Pines Hospital, but he was released on a court order obtained by his father.

[redacted] advised he placed his son in the Carrier Clinic, a private institution, for thirty days observation. Again, [redacted] advised he did not know the diagnosis made by psychiatrists.

It is to be noted it is believed [redacted] does not wish to reveal diagnosis made by psychiatrists concerning his son's mental condition.

[redacted] related he has instituted a suit against the Police Department of Hasbrouck Heights, and the town of Hasbrouck Heights for the unlawful arrest of his son and placement against his will in Bergen Pines Hospital. He claims this suit is still pending.

[redacted] acknowledged that an FBI interview of his son would provide nothing further of value to the FBI.

In view of the foregoing, Newark believes that an interview with the subject is not warranted, and no further investigation in this matter is being conducted by Newark.

He said that the house was sold through the Skirven Realty in Baltimore, and that the former owner, [redacted] had submitted a change of address to the Lansdowne Post Office. He advised that [redacted]'s full name was [redacted]

[redacted] said that his employee, [redacted] could not make any estimate of the validity of the inscription on the poster and had no way to assume that it might not be genuine. [redacted] advised that it was his opinion that he should make this poster available to the FBI in the eventuality that it could be determined, if in fact, the inscription was genuine. [redacted] said that he does not know [redacted] personally and cannot offer any information which might further indicate any connection of [redacted] to OSWALD.

Indices of the Baltimore regarding [redacted] and [redacted] are negative.

Dear Mr. Kleindienst:

By this letter and the attached Form DJ-118, I am requesting access to the items denoted as Qe37, Qe38, and Q39 in Warren Commission Document 7, the report of FBI SA Gemberling dated December 10, 1963 at Dallas. On page 328 of that report (attached for your convenience), the requested items are described as follows:

Qe37 One photograph of envelope bearing postmark "NEW ORLEANS LA 8 JUN 1963 1 30 PM", bearing handwritten address "The Worker 23 W. 26th St. New York 10, N. Y." and handwritten return address "P. O. Box 30061 New Orleans, La."

Qe38 Photographs of two-page handwritten letter to "The 'Worker' 23 W. 26th St.," signed "Lee H. Oswald"

Q39 Post Office change of address card, POD Form 3573; postmarked at New Orleans, La., bearing address "The Worker 26 W. 23th St. New York 10, N Y"

In connection with the first two of these items, I am aware that what was claimed to be the originals of some of Lee Harvey Oswald's correspondence with the Worker was turned over to the Government by that organization shortly after the assassination and is in the files of the Warren Commission. However, this request is for the specific photographs that are referred to in CD 7.

My letter of April 9 to you explicitly requested an acknowledgement within a reasonable time; I have so far received none. I also noted in that letter that there has been no response at all to my letter of March 8, which was directed to Mr. Rolapp. In addition, there has been no response to my requests of December 9. (That letter was acknowledged by Mr. Rolapp on December 14, by means of a pre-addressed return postcard which I provided.) Please check your file and tell me if these letters are there. If they have been mislaid, I will of course replace them. My requests are not frivolous and I feel that a delay of over four months is not consistent with the spirit of the Freedom of Information Act.

Sincerely yours,

Paul L. Hoch

FREEDOM OF INFORMATION REQUEST:
PAUL L. HOCH

Your communication of May 14, 1971, forwarded a copy of a request submitted by Mr. Paul L. Hoch dated May 10, 1971, and its enclosures.

Mr. Hoch requests copies of certain items mentioned in Warren Commission Document number 7 as having been examined by the FBI Laboratory as possible samples of the handwriting, handprinting or signatures of Lee Harvey Oswald. The items specified by Mr. Hoch were a photograph of an envelope addressed to "The Worker 23 W. 26th St. New York 10, N. Y." postmarked at New Orleans, June 8, 1963; photographs of a two-page handwritten letter to "The Worker" signed Lee H. Oswald; and Post Office change of address card bearing the address "The Worker 26 W. 23th St. New York 10, N. Y."

The envelope mentioned above is referred to only in the listing appearing on page 328 of Warren Commission Document number 7. However, the two-page letter is summarized on page 3 of Commission Exhibit number 826. The change of address card is mentioned on page 4 of Commission Exhibit number 826. This Commission Exhibit is published in Volume XVII of the hearings before the President's Commission on the Assassination of President Kennedy. Although the change of address card is in the National Archives as FBI exhibit D-21, the photographs of the other two items are not identified as material included in the exhibits in this case.

You will note that the photographs relate to the investigative period prior to Oswald's departure from New Orleans and several months before the assassination of President John F. Kennedy.

This memorandum relates to Paul L. Hoch's appeal from the Deputy Attorney General's May 7, 1971, denial of his December 9, 1970, request for various documents relating to the Kennedy assassination. In order to dispose of Mr. Hoch's appeal we need certain further information not included in your January 4, 1971, memorandum to the Deputy Attorney General on the subject of his initial request. We would also welcome any comments you might wish to make on the disposition of this appeal.

1. The Deputy Attorney General denied Mr. Hoch access to three pages of Warren Commission documents still listed as unavailable to the public.

A. In connection with his appeal from the denial of his request for CD 75, pages 400 and 426, Mr. Hoch claims that the Warren Commission published versions of those pages (CE No. 1141, pages 22 H 126 and 22 H 139) from which material had been deleted. He requests release of the material deleted, if any. In order to dispose of his appeal from the denial of these two pages, we need to know whether material was deleted and, if so, what it was.

B. To dispose of his appeal from the denial of his request for CD 653, page 2, none of which page we understand has been released, we need a copy of that page. Mr. Hoch apparently believes that the page relates to confidential material obtained from banks, telephone companies, schools, etc.

2. In pressing his request for all records of interviews with Carlos Quiroga on appeal, Mr. Hoch specifically asks about a record of a possible contact initiated by Quiroga with the FBI on August 16, 1963, concerning a hand-out of communist literature by Oswald on that day (page 4 of Hoch's appeal). As we read your January 4 memorandum, it does not state that such a record does not exist. In order to dispose of Mr. Hoch's appeal on this point we need to know whether such a record exists, and if it does, we need a copy.

3. Your January 4 memorandum stated that the FBI has no record of any interview with Edward S. Butler other than CD 231, page 18. Mr. Hoch persists in his belief that such a record exists, and supplies some additional information about it on page 5 of his letter. If that information warrants a further search of your records, please inform us of the results of that search and supply us with a copy of the records found, if any, within the scope of this request.

FREEDOM OF INFORMATION ACT -
APPEAL OF PAUL L. KOCH

Reference is made to the letter of Thomas E. Kauper, Acting Assistant Attorney General, Office of Legal Counsel, dated July 19, 1971.

Referenced letter contained an inquiry as to whether any material had been deleted from pages 400 and 426 of the Warren Commission Document 75 which have been published as pages 400 and 426 of Commission Exhibit 1141. No material has deleted from these pages prior to their publication by the Commission.

Enclosed are two copies each of the aforementioned pages as they appear in our files. The markings (asterisks, underlinings and marginal notations) which appear on the pages herewith are administrative markings which were added to these pages at FBI headquarters subsequent to the preparation of the originals.

It may be noted that pages 400 and 426 of Commission Document 75 were not recommended for release in our October 1, 1970, memorandum entitled "Five-Year Review of Warren Commission Files," which was enclosed with our letter bearing the same title and date, because these pages contain the identity of sources of information the disclosure of which could limit the use of them or similar sources in the future to the detriment of the administration and enforcement of laws of the United States. Accordingly, it was felt that these pages should not be released in accordance with the guidelines 3 (A) and 3 (D) approved by the Honorable McGeorge Bundy, then Special Assistant to the President, on April 19, 1965. However, inasmuch as these pages have in fact been released by the Commission, this position regarding the aforementioned pages is no longer pertinent.

Item 1. B. in the referenced letter requested a copy of page 2 of Commission Document 688. A copy of page 2 of Commission Document 688, the report of SA Dennis T. Callahan regarding Lee Harvey Oswald, dated March 18, 1964, at Chicago, Illinois, is enclosed.

Release of this page has not been recommended in the past and is not now recommended because guideline 3 (2) mentioned above, specifically relates to pages such as this. This page contains information from confidential records of Local Union, Chicago, Illinois, which is to be produced only upon issuance of subpoena duces tecum.

Item 2 in the referenced letter states that Mr. Koch in his appeal specifically asks about a record of a possible contact initiated by Carlos Quiroga with the FBI on August 13, 1963, concerning a handbill of communist literature by Oswald on that day. Inquiry was made as to whether such a record exists. Files of our headquarters contain no indication that any such record exists or that any such contact took place. However, in order to pursue this point further, we have requested our New Orleans Office to advise whether it has any record of any such contact. The results of that inquiry will be furnished to you when received.

Item 3 in the referenced letter notes that our letter of January 4, 1971, to the Deputy Attorney General stated that the FBI has no record of any interview with Edward S. Butler other than that appearing on page 13 of Commission Document 201. A further search has been made of our records for a document containing the results of any other interview with Edward Bennett Butler relating to Oswald, the assassination, or related matters. That review confirms our previous statement that there are no other reports of such interviews of Mr. Butler. There is no information to support Mr. Koch's speculation that the December 13, 1963, interview of Mr. Butler was a "supplemental interview." As indicated in our January 4, 1971, letter, details concerning Mr. Butler's contact with Oswald on August 22, 1963, at station WDSU in New Orleans, Louisiana, are available in Commission Document 247, pages 328-330, and in the supplemental volumes of the Commission hearings. It is noted that in Commission Document 201,

Assistant Attorney General
Office of Legal Counsel

which Mr. Hoch has, Mr. Butler is reported as saying that the August 21, 1963, contact with Oswald was the only one he had.

It remains our view, as previously stated, that the final decision as to public disclosure of material such as that discussed herein rests with the Department of Justice. Our views with regard to possible handling of requests from Mr. Hoch were set out in our letters to the Deputy Attorney General dated July 1, 1970, and January 4, 1971. Except for the fact that the release of pages 400 and 426 of Commission Document 75 is no longer at issue, these views still pertain.

NOTE:

Paul L. Hoch, Berkeley, California, "graduate student" has been making inquiries about the assassination of President Kennedy over the past five years. On 9/19/69 he wrote to the Attorney General alleging "some sort of relationship" between Lee Harvey Oswald and the FBI. The Director has noted "I dislike the humoring of a character like Hoch who is obviously a 'smear' artist." Under the Freedom of Information Act, Hoch has requested, among many others, the documents mentioned above. Referenced letter states that Hoch is appealing the Deputy Attorney General's 5/7/71 denial of Hoch's 12/9/70 request for various documents. Referenced letter requested certain additional information and copies of documents in order to dispose of Mr. Hoch's appeal. Regardless of the fact that Seat of Government files contain no information to substantiate supposition that there may have been an interview of Carlos Quiroga on 8/16/63, in view of Hoch's persistence it is deemed advisable to ask New Orleans to check its files on this point so we may nail it down securely. Inquiry being made of New Orleans by separate airtel. Department also asked for any comments we might wish to make on the disposition of this appeal. This letter refers Department to our previous position that ultimate decision as to public disclosure rests with the Department of Justice and refers to prior letters in which we comment on Hoch's inquiries regarding Quiroga and Butler. By New Orleans airtel to Dallas dated 11/30/63 bearing second caption above, the New Orleans Office forwarded 25 copies of numerous inserts and FD-302s, one of which was an insert containing the interview with CARLOS QUIROGA set forth in the above referenced New Orleans teletype. This insert was included in the report of SA WARREN C. DE BRUEYS dated 12/2/63 at Dallas under the third captioned case.

The basis for Dallas documenting QUIROGA as a source who had furnished reliable information in the past was apparently the fact that New Orleans in its airtel had not indicated QUIROGA was known to be anything other than reliable and the fact that SA WARREN C. DE BRUEYS, the author of the report was then assigned to the New Orleans Division and on special assignment at Dallas.

SUBJECT: LEE HARVEY OSWALD
IS - R - CUBA

On April 20, 1972, Acting Attorney General forwarded to Bureau for preparation of reply, a request by Bernard Fensterwald, Washington, D.C., attorney, under Freedom of Information Act, for three photos of an unidentified white male mentioned in Warren Commission Document 566, which has been made public.

Three photos with backgrounds cropped out had been displayed to one Pedro Gutierrez Valencia in Mexico. Gutierrez had alleged he had seen Lee Harvey Oswald and a Cuban leaving Cuban Embassy in Mexico, on October 1, 1963. Gutierrez could not identify man in photos. [redacted]

[redacted] the man in dark shirt with background cropped out was shown during investigation to Oswald's mother, Marguerite, who mistakenly thought photo was of Jack Ruby, who had killed her son. Photo shown to her is Commission Exhibit 237 and is available to public. One of photos shown Gutierrez may be identical with Exhibit.

Fensterwald, no friend of Bureau, is head of "Committee to Investigate Assassinations," a group apparently believing that murders of the Kennedy brothers and Martin Luther King, Jr. were conspiracies. While we owe Fensterwald nothing, he has made his request under Freedom of Information Act, and we must make certain we do not give him any legal advantage and still comply with law.

In July, 1971, a civil action by the Committee to Investigate Assassinations seeking disclosure of the FBI file on the assassination of Robert F. Kennedy was dismissed in U. S. District Court for the District of Columbia. In August, 1971, Dallas office of FBI was instructed that under no circumstances should Agents discuss any Bureau work with members of the Committee to Investigate Assassinations.

ACTION:

Dear Mr. Kleindienst:

Warren Commission Document No. 566, an FBI Report, dated Feb. 24, 1964, was declassified and made available to the public on Jan. 24, 1971. Pages 3 and 4 thereof make reference to three photographs of an unidentified individual, described as a "possible ... suspect," which were shown to a Mexican national in the course of the FBI's investigation of Lee Harvey Oswald in Mexico.

As an American citizen desiring to resolve certain unanswered questions about the assassination of President Kennedy, I should like to obtain copies of these three referenced photographs, which were shown to a Mexican citizen, for my own examination and use. I shall be happy to pay the costs of reproduction.

Pursuant to the requirements of the Freedom of Information Act, 5 U.S.C. §552, I enclose a completed copy of Form D.J. 118 and the fee of $3.00 per departmental regulation 28 C.F.R. 16.

LEE HARVEY OSWALD

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

A confidential source abroad has advised as follows:

On February 17, 1964, a second confidential source abroad, who has furnished reliable information in the past, advised that the records of the Identification Division of the Metropolitan Police of the Federal District, Mexico, D. F., revealed that one PEDRO GUTIERREZ VALENCIA had a driver's license issued to him in 1938 and again in 1942.

According to this source, the records of this police agency further revealed that an individual by this same name was fingerprinted in 1957 in connection with a request to carry a firearm.

[redacted]

This second confidential source abroad further advised on February 20, 1964, that the fingerprint records of the Metropolitan Police of the Federal District disclosed that fingerprints of GUTIERREZ VALENCIA were taken on June 1, 1938, in connection with the issuance of a driver's license; were taken on February 27, 1942, in connection with the renewal of a driver's license; were taken again on August 16, 1951, in connection with the issuance of a police good conduct certificate in connection with the issuance of a chauffeur's license to GUTIERREZ, and fingerprints of this individual were taken on October 25, 1957, in connection with a police good conduct certificate issued to GUTIERREZ in connection with a permit allowing him to carry and possess a sporting firearm.

The above source stated that the right thumb print of GUTIERREZ VALENCIA which had appeared on his letter to President JOHNSON, as indicated above, was positively identified by a fingerprint expert of the afore-mentioned Mexico City police agency with the various fingerprint cards on file with that agency, as described above.

This second source also stated that the police files at Mexico City do not contain any information of a derogatory nature concerning GUTIERREZ.

On February 20, 1964, a third confidential source abroad, who has furnished reliable information in the past, reported that the following investigation was conducted at Mexico, D. F., concerning the credit investigator, PEDRO GUTIERREZ VALENCIA, a resident of Calle Florida #9, Colonia Napoles, Mexico, D. F.:

It was noted by the source that the building at the above address is a four-story apartment building, the ground floor of which is occupied by various small commercial establishments and a restaurant known as the "Valencia." The caretaker of the building, Mrs. GUADALUPE ALVAREZ, and Mrs. MERCEDES OROCIO, who resides with ALVAREZ, advised the source that PEDRO GUTIERREZ resides in Apartment #12 at that address with his wife and that GUTIERREZ has no sons or daughters

neighbor with him. These individuals described GUTIERREZ and his wife as honorable individuals of good conduct and reputation.

Mrs. ALVAREZ and Mrs. OROZCO stated they have known GUTIERREZ and his wife as neighbors in the building for a period of 12 years.

These two neighbors further stated, according to the above source, that GUTIERREZ is a man who is truthful in that he says and worthy of trust. They described him as a person of moderate financial means who is employed as an investigator for a Mexico City commercial establishment, and these neighbors said that GUTIERREZ always pays his rent very promptly.

These neighbors further informed this third confidential source that GUTIERREZ has never been known to drink excessively, that he has never caused any scandal in the neighborhood, and that they have never known him to have had any problems with law enforcement authorities in the community.

These two neighbors stated they have never had any bill collectors or other persons call at the building to collect debts from GUTIERREZ and that, in general, they regard him as a good neighbor.

This third source also reported that he had learned from persons in the "Valencia" area that GUTIERREZ resided at the [illegible] apartments building at Calle Florida #9, that PEDRO GUTIERREZ is generally regarded in the neighborhood as a person of good reputation and wholesome habits.

On January 20, 1961, PEDRO GUTIERREZ VALENCIA, a Mexico City department store credit investigator who resides at Calle Florida #9, Colonia Napoles, Mexico, D. F., advised as follows:

He examined three photographs of an unidentified possible white male American suspect, which depicted this

individual in the following poses:

1. Attired in a white shirt and tan trousers, holding what appears to be a courier-type pouch under his left arm and examining a wallet-type folder which it appears may contain one or two documents resembling passports.

2. Attired in the same dress described above and holding the wallet-type folder in his left hand and inserting this folder into the courier-type pouch held in his right hand.

3. Attired in a dark shirt with white collar buttons and apparently walking along with the thumb of his left hand hooked into the top of his left-hand trouser pocket.

[redacted] stated on February 20, 1964, that he has never, to his knowledge, seen the individual depicted in these three photographs and that this individual is definitely not identical with either the American or the Cuban he claims to have seen on October 1, 1963, exiting the premises of the Cuban Embassy at Mexico, D. F. [redacted] has previously stated that he believes the American observed by him with the Cuban on October 1, 1963, as mentioned above, was LEE HARVEY OSWALD and he based his identification on newspaper photographs of OSWALD observed by him in Mexico City newspapers almost two months after the occurrence described above.

[redacted], on February 20, 1964, also examined 20 photographs of possible white male Americans who had been in Mexico City during September and October 1963, any one of which could have been the American seen by him at the Cuban Embassy. He studied these photographs carefully and stated that, in his opinion, none of these photographs is identical with the American previously identified by him as OSWALD who he claims was observed by him on October 1, 1963, at the Cu-

Embassy in Mexico, D. F.

GUTIERREZ was again shown a photograph of LEE HARVEY OSWALD which had appeared in "Life" magazine and which depicts OSWALD passing out pro-Cuban literature on a street in New Orleans, Louisiana. It is to be noted that this is a profile photograph of OSWALD showing his right arm extended and depicts his torso from the waist up.

GUTIERREZ, on February 20, 1964, stated that the "Life" magazine photograph of OSWALD does not appear familiar to him and that he cannot say that this photograph in any way resembles the American seen by him in the company of a Cuban exiting the premises of the Cuban Embassy in Mexico, D. F., on October 1, 1963. GUTIERREZ was told that this photograph is a photograph of LEE HARVEY OSWALD and he thereupon stated that during his brief encounter with the American and the Cuban on October 1, 1963, he at no time observed the profile view of either the American or the Cuban. He explained that when the Cuban bumped into him in the patio of the Cuban Embassy (the details of which he has previously reported), he had only a brief opportunity to observe these persons from a front view and thereafter he walked behind these individuals and could only observe their backs.

GUTIERREZ agreed that a mistaken identification from newspaper photographs of OSWALD which he saw almost two months later would be very possible. He pointed out, however, that he does not believe he is mistaken in his identification of OSWALD because the image of the American he observed during the occurrence at the Cuban Embassy in Mexico City on October 1, 1963, became firmly fixed in his mind because of the importance he attached to his observance that the Cuban and the American were arguing heatedly and that the Cuban passed some United States currency to the American after these individuals had exited the Cuban Embassy premises and were walking along the sidewalk toward the Cuban's vehicle.

GUTIERREZ stated he is certain that the Cuban's vehicle, described by him as a beige colored late model Dina Renault, was the property of the Cuban because he saw the

FREEDOM OF INFORMATION REQUEST -
BERNARD FENSTERWALD

Your communication of April 20, 1972, asked for preparation of a reply to a request by Bernard Fensterwald for copies of certain photographs mentioned in Warren Commission Document 566.

The photographs mentioned were displayed to one Pedro Gutierrez Valencia in Mexico. The photographs were not identified by Pedro Gutierrez Valencia, and were not introduced into the Commission record in connection with the allegation by Gutierrez that he had seen Lee Harvey Oswald and a Cuban leaving the Cuban Embassy in Mexico on October 1, 1963.

We have asked our Legal Attache in Mexico to forward to Bureau headquarters the photographs shown to Gutierrez and attempt to determine if they can be made public.

There is a possibility that one of the photographs shown to Gutierrez is Commission Exhibit 237 and is available to the public.

You will be informed of developments.

Memorandum

TO : Mr. Bishop

DATE: 4-28-72

FROM : M. A. Jones

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA
REQUEST FOR ACCESS TO FBI RECORDS -
CONGRESSMAN RICHARD H. ICHORD (D-MO.)

Reference memorandum of 4-10-72 from Mr. Branigan to Mr. Miller wherein it was recommended and approved that contact be made with Congressman Richard Ichord (D-Mo.) or appropriate members of his staff to determine his need for three specific documents relating to Bureau sources and operations which the Congressman had requested from Archives along with a number of other documents from the President's Commission on the Assassination of President John F. Kennedy.

This matter was first discussed by Inspector Bowers with Donald Sanders, Chief Counsel of the House Committee on Internal Security which Congressman Ichord is Chairman, on 4-12-72. Sanders, a former Special Agent with whom we enjoy an excellent relationship, advised he was aware of Congressman Ichord's request for certain Warren Commission documents from the Archives, although he had not handled this matter. He stated the request had been handled by William Hecht, a new Assistant in the Congressman's office. Sanders said he understands the request was made for an individual whose name he believed to be Fensterwald. Sanders was asked if this might be Benard Fensterwald, former Chief Counsel of the Senate Subcommittee on Administrative Practices and Procedures when it was Chaired by Senator Edward Long (D-Mo.) and who is now head of an organization he founded known as the National Committee to Investigate Assassinations. Sanders stated he was not sure but added this would appear to be a reasonable assumption. Sanders was briefly advised of Fensterwald's [redacted] background and the fact that his National Committee to Investigate Assassinations includes other [redacted] individuals such as Jim Garrison, New Orleans District Attorney; William Turner, former FBI Agent; and Fred J. Cook, [redacted] writer and severe critic of the FBI. Sanders expressed concern that Congressman Ichord might have inadvertently become involved with such a crowd.

M. A. Jones to Bishop Memo
RE: LEE HARVEY OSWALD

On 4-13-72 Bowers called at the office of Congressman Ichord to speak with his Assistant, William Hecht, concerning this matter. Moments after Bowers arrived in the office Benard Fensterwald entered and conversation with the receptionist indicated he had an appointment with Hecht and also hoped to see the Congressman. Fensterwald did not recognize Bowers although they had several contacts while Fensterwald was employed by the Senate Subcommittee.

The matter of the Congressman's request for the Warren Commission documents was discussed with Hecht on 4-13-72 and he implied the Congressman wanted these documents in connection with his position as Chairman of the House Committee on Internal Security. He asked if it might be possible for him to review the classified documents and furnish the Congressman a summary to relieve the Congressman of the time-consuming task of having to personally review lengthy documents. Hecht was advised that under the circumstances it was felt the matter should be discussed personally with Congressman Ichord. Hecht stated that while the Congressman was then in the office he had a full schedule for the afternoon and indicated he would set an appointment for Bowers to discuss this matter with the Congressman in the near future.

Since that time, Hecht has been contacted on several occasions concerning the need for an appointment to resolve this matter with the Congressman, and Hecht has indicated he has been unable to arrange for an appointment. On 4-26-72 Sanders advised he had discussed this matter briefly with Congressman Ichord and told him of Bowers' desire to see him as soon as possible to get the matter resolved. Sanders stated the Congressman remarked that he also has pending a request from CIA for an appointment on the same matter and indicated he would discuss the matter with Hecht to arrange appointments in the near future. No further word has been heard from Hecht regarding an appointment.

Our relations with Congressman Ichord are excellent. It seems apparent he has been brought into this matter by his Assistant, Hecht, and that the documents really are wanted for Fensterwald who has publicly stated that the purpose of his National Committee to Investigate Assassinations is "to embarrass or force the Government to make investigations they have been putting off since November 22, 1963." Undoubtedly, Congressman Ichord is not aware of Fensterwald's [redacted] background or of the identities of others affiliated with him in the National Committee to Investigate Assassinations. He will be briefed in confidence concerning these individuals when an appointment is arranged with him regarding this matter.

Request For Access To FBI Records -
Congressman Richard H. Ichord
(Democrat - Missouri)

Reference memorandum of 4-10-72 from Mr. Branigan to Mr. Miller and my memorandum to you of 4-28-72 concerning efforts to contact Congressman Richard H. Ichord (D-Missouri) with respect to three FBI documents which the Congressman had requested from Archives relating to the assassination of former President John F. Kennedy.

By appointment, Inspector Bowers called on Congressman Ichord on 5-8-72. The Congressman stated he is concerned with allegedly unrevealed involvement on the part of the KGB with Oswald prior to the assassination of President Kennedy and that was the reason for his having requested the various documents from Archives. The Congressman was asked if he was seeking this information on his own volition or if, in fact, he had requested it for Bernard Fensterwald, head of the National Committee to Investigate Assassinations, it being pointed out to the Congressman that Fensterwald had been seen in his office by Bowers during an earlier visit there to discuss this matter.

The Congressman said that he had requested the information for Fensterwald and stated he knows little of Fensterwald but he had been led to believe that the information was desired in connection with legitimate research for a book being prepared by Fensterwald or some people working with him. At this point the Congressman was briefed for his confidential information on Fensterwald's background, and he was furnished the identities of those associated with Fensterwald on the National Committee to Investigate Assassinations; namely, Fred J. Cook, [redacted] writer; William Turner, former FBI Agent; and Jim Garrison, New Orleans District Attorney. The Congressman was told that Fensterwald has stated that one of the primary purposes for organizing the Committee to Investigate Assassinations was to embarrass the Government.

Memorandum to Mr. [illegible]
Re: Lee Harvey Oswald
Internal Security - Russia - Cuba
Request For Access To FBI Records
Congressman Richard H. Ichord
(Democrat - Missouri)

The Congressman remarked that he had no knowledge that Fensterwald was involved with such characters and was not aware of Fensterwald's background. He stated he certainly does not want to become embroiled with such individuals but that unfortunately the situation has progressed to the point whereby Fensterwald will probably allege that "my mouth has been sealed" by Government officials who want to hide the truth about the Kennedy assassination. He stated he feels the best course of action for him to take at this time is simply advise Fensterwald that he has seen the documents in question, both those originating with the FBI and the CIA, and that they contain no information pertinent to Fensterwald's inquiry.

During conversation with Congressman Ichord it was apparent that he is aware of the general nature of the three FBI documents in question. He stated, in fact, that he understands these documents concern an interview with [redacted] investigation to locate a safety deposit box allegedly rented by Oswald; and certain investigations in Mexico. The Congressman was advised that two of the documents in question contain no particularly substantive information and relate primarily to Bureau sources and operations and that the third document deals with the interview of [redacted] and could not be released by us without first clearing it with other sources.

The Congressman expressed his appreciation for our advice in this matter and particularly for the information concerning Fensterwald. He stated he is scheduled to talk with CIA representatives later this week concerning their documents, and he in all probability will treat them the same as FBI documents and merely tell Fensterwald that he has seen the documents in question and they contain no information pertinent to his inquiry.

RECOMMENDATION:

That this be referred to the Domestic Intelligence Division.

These documents included certain items originating with the Federal Bureau of Investigation which, under Department of Justice guidelines, have not been released for public examination.

You requested our comments.

The communication from this Bureau dated April 5, 1972, informed you that we were conducting research regarding these documents.

On May 8, 1972, a representative of this Bureau discussed Congressman Ichord's request with the Congressman. It was determined that the request was actually on behalf of Bernard Fensterwald, Esquire, head of a private group called the "Committee to Investigate Assassinations." The Congressman stated that he intended to tell Fensterwald that he has seen the documents in question, both those originating with the Central Intelligence Agency and with the Federal Bureau of Investigation, and they contain no information pertinent to Fensterwald's inquiry. Accordingly, no further action need be taken in this regard.

Dear Mr. Rankin:

Reference is made to your letter of April 7, 1964, requesting this Bureau to conduct further investigation for the purpose of locating a safe-deposit box which Lee Harvey Oswald may have rented in his name, in the name of a member of his immediate family or in any assumed name in Irving, Fort Worth, Dallas, Houston or Laredo, Texas.

Our letter of April 30, 1964, transmitted to the Commission results of our investigation in this particular inquiry. We also indicated that we were conducting further investigation concerning a $25,000 charge which was made on January 7, 1964, against the account at the First National Bank of Grand Prairie, Grand Prairie, Texas, entitled "The Oswald Trust Fund." This account was opened on December 5, 1963, by James H. Martin and Marina N. Oswald.

Enclosed are two copies of a memorandum dated May 4, 1964, at Dallas, Texas, which sets out results of our additional inquiries regarding the aforementioned $25,000 charge against the account entitled "The Oswald Trust Fund."

This concludes our investigation in this particular matter.

The following investigation was conducted concerning a $25,000.00 charge, on January 7, 1964, against Account No. 15 081, captioned "The OSWALD Trust Fund," at the First National Bank in Grand Prairie, Grand Prairie, Texas:

On May 1, 1964, the records of the First National Bank in Grand Prairie, Grand Prairie, Texas, revealed that on January 7, 1964, a charge of $25,000.00 was made to the account styled, "The OSWALD Trust Fund," opened December 5, 1963, by JAMES H. MARTIN and MARINA N. OSWALD, Account No. 15 081.

This $25,000.00 was used to purchase Cashier's Check No. 47773, in the amount of $25,000.00 on January 7, 1964, at the First National Bank in Grand Prairie, Payee "The OSWALD Trust," signed by N. D. BLACK, JR., Cashier.

Cashier's Check No. 47773 was marked "Void" and was replaced by Cashier's Check No. 47806, dated January 14, 1964, amount $25,000.00, Payee First National Bank of Fort Worth, signed N. D. BLACK, JR., Cashier, on the First National Bank in Grand Prairie.

Cashier's Check No. 47806 was endorsed, "Credit To The Account of The Within Named Payee In Accordance With Payee's Instructions. Absence of Endorsement Guaranteed. First National Bank of Fort Worth, Texas, Trust No. 42-1295."

It is noted in the upper left-hand corner of the face of Cashier's Check No. 47806 are the words, "The OSWALD Trust," which have been scratched through.

Re: LEE HARVEY OSWALD

On May 1, 1964, the records of the First National Bank of Fort Worth, Fort Worth, Texas, revealed that on January 20, 1964, Trust Account No. 42-1295 was opened at the First National Bank of Fort Worth, in the name of JAMES H. MARTIN and JOHN M. THORNE, as Co-Trustees for MARINA OSWALD and children.

The Trust Account was opened with an initial deposit of $25,000.00 with the deposit being Cashier's Check No. 47806, in the amount of $25,000.00, dated January 14, 1964, Payee First National Bank of Fort Worth, and drawn on the First National Bank in Grand Prairie, Grand Prairie, Texas.

According to the records, there was one additional deposit of $1,940.00, on March 25, 1964, being a Cashier's Check, but the records do not reveal any additional information regarding this Cashier's Check. However, the records reveal the deposit of $1,940.00 was forwarded by WILLIAM F. GOODLING, Principal, West York Area, Joint School System, 1800 Bannister Street, York, Pennsylvania.

The trust is handled by First National Bank's Trust Committee and all but approximately $100.00 of the $25,000.00 has been invested in various stocks and bonds at the discretion of the Bank's Trust Committee.

The cash balance in the trust is approximately $2,040.00.

The records contain a complete list of all the stocks and bonds in which the funds have been invested, and there have been no other withdrawals from this trust fund.

This information can be made available only upon the issuance of a subpoena duces tecum.

The following investigation was conducted at Houston, Texas, for the purpose of determining whether Lee Harvey Oswald or a member of his immediate family may have rented a safe-deposit box in a Houston bank subsequent to Oswald's return from Russia in June, 1962.

In making inquiries at the banks listed below, checks of appropriate records were made concerning any persons having the surname of Oswald and any persons using the name A. Hidell, Alek James Hidell, or C. H. Lee. In each case, the person having access to appropriate bank records made checks of such records against the above names. In addition, a photograph of Oswald was displayed to bank employees who control access to the safe-deposit area and who observe persons entering and leaving the area. The identities of the banks contacted at Houston, Texas, were obtained from the 1964 edition of the "Texas Banking Red Book" published by the Banker Digest, Empire Bank Building, Dallas, Texas.

The banking institutions at Houston, Texas, at which investigation was conducted are set forth below, along with the identities of the bank employees who were interviewed and the dates on which such interviews were conducted. As a result of these interviews the respective employees of each bank reported that no record could be located indicating that Oswald or any member of his immediately family using his own name or any of the names set out above in this memorandum had ever rented a safe-deposit box in Houston. These bank employees also reported after viewing a photograph of Oswald that they could not recall having seen him in the banks where they are employed.

LEE HARVEY OSWALD

The following investigation was conducted at all known banks at Dallas, Fort Worth, Irving, and other suburban towns in the metropolitan Dallas - Fort Worth, Texas, area, for the purpose of determining whether LEE HARVEY OSWALD or a member of his immediate family may have rented a safe-deposit box in any of such banks subsequent to OSWALD's return from Russia in June, 1962.

The investigation consisted of a check of the records of each of the listed banks on the dates indicated for any record of a checking, savings, or loan account or a safe-deposit box rental in the names LEE HARVEY OSWALD, A. HIDELL, A. J. HIDELL, ALEX J. HIDELL, ALEK JAMES HIDELL, H. O. LEE, HARVEY OSWALD LEE, O. H. LEE, ALIKSEI OSWALD, L. H. OSWALD, LEE OSWALD, LEE H. OSWALD, LESLIE OSWALD, MARINA OSWALD, MARGUERITE OSWALD, ROBERT EDWARD LEE OSWALD and JOHN EDWARD PIC. A photograph of LEE HARVEY OSWALD was exhibited to each of these individuals, except where otherwise noted, for the purpose of determining if OSWALD may have made use of the bank's safe-deposit box facilities under any other name. A photograph of LEE HARVEY OSWALD was not exhibited to a bank official who had nothing to do with the actual rental of a safe-deposit box and whose location in a bank was not within the proximity of the safe-deposit box section. In each such instance, a statement is included noting that a photograph was not exhibited to the bank official contacted.

REQUEST FOR ACCESS TO FBI RECORDS -
CONGRESSMAN RICHARD H. ICHORD
(DEMOCRAT - MISSOURI)

This memorandum recommends that Inspector D. W. Bowers attempt to determine from Congressman Ichord or members of his staff the Congressman's need for certain FBI documents furnished to the President's Commission on the Assassination of President John F. Kennedy which have not been made available to the public under Departmental guidelines.

On March 16, 1972, Congressman Richard H. Ichord (Democrat - Missouri), Chairman of the House Committee on Internal Security, requested of Archives copies of eleven Warren Commission documents, five of which originated with the FBI. Two of these had been made available by Department for research and copies were furnished Ichord by Archives. Both related to travel of Oswald in Mexico between September 26 and October 3, 1963.

The Archivist referred the request for the three other documents to the Acting Attorney General, March 21, 1972, and the request was relayed to the Bureau under date of March 30. The Acting Attorney General was informed by letter of April 5, 1972, that Bureau was conducting research on these documents, which have been withheld from public scrutiny under Departmental guidelines.

Memorandum to Mr. E. S. Miller
Re: Lee Harvey Oswald

The second document (#880) furnished to the President's Commission the results of extensive search of bank records regarding checking accounts, savings accounts or safe deposit boxes in the name of Oswald, his wife or close relatives, and lists all of the Bureau's contacts at those banking institutions who furnished information. It also refers to an investigation regarding a $25,000 removal from Marina Oswald's trust fund. Results of this investigation are contained in Commission Document #908, which had not been requested by the Congressman.

The third document (#910) furnished to the Commission the names of those Special Agents of the FBI who conducted key inquiries or received substantive information in Mexico with respect to Oswald's activities there, with a brief outline of the nature of the inquiries conducted by each Agent. This was classified "Confidential" to protect our operations in Mexico.

Bureau files disclose cordial relations with Congressman Ichord, who was thanked by letters of October 29, and November 23, 1971, for his comments in Congress in support of the Bureau. Since the documents requested by him are not of substantive significance regarding the assassination of President J. F. Kennedy, and two deal with Bureau sources and operations, it may be that he will not need them.

RECOMMENDATION:

(1) That Inspector D. W. Bowers attempt to determine from Congressman Ichord or members of his staff the need for these documents which are not of substantive significance concerning the assassination of President Kennedy, and particularly the two which relate to Bureau sources and operations.

(2) If the Congressman insists on having the results of the interview with [redacted], we will contact [redacted] and seek to remove objections to release of information to the Congressman.

CONTINUED - OVER

(3) That we then furnish Acting Attorney General results of our activities under (1) and (2) above.

This is response to Acting Director's request for facts regarding the "allegation that the FBI had prior knowledge of the plot against President Kennedy but did nothing about it."

The Acting Director's specific questions and facts pertaining thereto are set out below.

1. Did we have a thick file on Oswald?

No. At the time of the assassination 11/22/63, Bureau file 105-82555 on "Lee Harvey Oswald, Internal Security - Russia" contained 69 items, of which 50 had been recorded as numbered serials. A letter to the Warren Commission dated 5/4/64 describing each of those items is attached.

The file on Oswald was opened 10/31/59 on receipt of press reports that Oswald, at a press conference in Moscow, USSR, that date, said he had applied to renounce his U. S. citizenship and become a Soviet citizen for "purely political reasons." Instructions were issued to interview Oswald on his return from Russia. He returned to Forth Worth, Texas, 6/14/62 and was interviewed 6/26/62. A follow-up interview was held 8/16/62. He denied making any "deals" with Soviet intelligence, declined to tell why he went to USSR and agreed to notify the FBI of any contacts with him by the Soviets. Through sources we learned he was a subscriber to "The Worker," east coast communist newspaper, and in 8/63 on a radio program said he was a "Marxist." In 8/63 Oswald was arrested in New Orleans in connection with distribution of material supporting the Fair Play for Cuba Committee (FPCC). At his request he was again interviewed and said he did not consider the FPCC to be communist or communist controlled. There was an unconfirmed report received 11/19/63 that he had contacted the Soviet Embassy in Mexico. No information was developed that he represented a threat to the personal safety of the President.

EX-109 REC-37 5677 JUN 9 1972

2. Do we now?

Yes. The Oswald file now consists of 210 sections with 5673 serials. In addition, Bureau file 62-109060 on "Assassination of President John F. Kennedy" has 176 sections containing 7054 serials.

3. Did we inform S.S.?

No. At the time of the assassination no information had been developed that Oswald represented a threat to the personal safety of the President and it was not our policy to furnish Secret Service general security-type investigative reports such as those which had been prepared on Oswald. (An agreement dated 2/3/65 between the FBI and Secret Service formalized the exchange of information between Secret Service and the FBI regarding the former's responsibilities for protection of the President. The agreement elaborated on our previously existing basic policy of disseminating to Secret Service information regarding threats to the President by specifying the types of persons, including returned defectors such as Oswald, in whom Secret Service is now interested.)

OBSERVATIONS:

Neither the Warren Commission nor extensive investigation by the FBI of the assassination support the allegation that there was a "plot" to assassinate the President. There is no evidence to negate the conclusion that Lee Harvey Oswald alone was responsible for the assassination.

ACTION:

None. For information.

ANSWER TO QUESTION ONE:

THE MEXICO CITY FILE DOES NOT REVEAL THAT THESE PHOTOS WERE EVER ENTERED IN ONE A SECTION, AND THERE IS NO REFERENCE TO THEM EXCEPT IN BUCAB NINE THREE ZERO AND IN MEXICO CITY CABLE NUMBER THREE SEVEN SEVEN DATED FEBRUARY ONE FOUR, NINETEEN SIXTY FOUR. THIS LATTER CABLE REFLECTS THE PHOTOS OF THE UNSUB WERE SHOWN TO PEDRO GUTIERREZ VALENCIA AMONG SIXTEEN MISCELLANEOUS PHOTOS AS MENTIONED ON PAGE NINE OF MEXICO CITY

LHM DATED FEBRUARY SEVEN, NINETEEN SIXTY FOUR.

ANSWER TO QUESTION TWO:

IT CAN ONLY BE ASSUMED AT THIS TIME THAT THE PHOTOS OF UNSUB SHOWN TOGETHER WITH THE MISCELLANEOUS PHOTOS WERE ALL RETURNED TO CIA, MEXICO CITY. THE COVER PAGE OF THE LHM DATED FEBRUARY SEVEN, NINETEEN SIXTY FOUR, REFLECTS THAT TWENTY TWO PHOTOS OF CUBAN EMBASSY EMPLOYEES WERE RETURNED TO CIA.

ANSWER TO QUESTION THREE:

THE PHOTOS FORWARDED TO CIA BY LEGAT MEMORANDUM DATED MAY FIFTEEN LAST ARE THE SAME AS FURNISHED TO THE BUREAU BY AIRTEL MAY TWENTY SIX LAST. THESE TWO CROPPED PHOTOS ARE THE ONLY ONES IN MEXICO CITY FILE THAT COULD POSSIBLY PERTAIN TO THE REQUESTED UNSUB PHOTOS AND THE UNCROPPED VERSIONS ARE NOT CONTAINED IN MEXICO CITY FILE.

AS FOR THE ORIGIN OF THESE TWO CROPPED PHOTOS, THE FILE INDICATES THEY WERE RECEIVED FROM CIA, MEXICO, ON NOVEMBER TWO THREE, NINETEEN SIXTY THREE, AND ARE PROBABLY PART OF THE SERIES OF PHOTOS TAKEN ON OCTOBER ONE, NINETEEN SIXTY THREE, AND

OCTOBER FOUR, NINETEEN SIXTY THREE, WHICH WERE BELIEVED POSSIBLY OF OSWALD BECAUSE OSWALD HAD CONTACTED THE RUSSIAN EMBASSY, MEXICO CITY, ON OCTOBER ONE, NINETEEN SIXTY THREE. THESE PHOTOS WERE FLOWN FROM MEXICO TO DALLAS BY SA ELDON RUDD ON NOVEMBER TWENTY THREE, NINETEEN SIXTY THREE, AND ARE DESCRIBED IN MEMO OF SA RUDD TO SAC, DALLAS, DATED NOVEMBER TWENTY THREE, NINETEEN SIXTY THREE.

MEXICO CITY FILE DOES NOT EXPLAIN WHY THE TWO PHOTOS OF UNSUB FURNISHED BY AIRTEL MAY TWENTY SIX LAST WERE COPIED AND RETAINED IN FILE, WHILE THE OTHERS OF THE QUOTE SERIES UNQUOTE WERE NOT COPIED AND RETAINED. LIKEWISE, THE FILE DOES NOT SPECIFY THAT TWO PHOTOS SUBMITTED WERE THOSE SHOWN TO GUTIERREZ OR WHETHER OTHER PHOTOS OF THE SERIES WERE SHOWN, THROUGH MEXICO CITY CABLE THREE SEVEN SEVEN SUPPORTS SHOWING OF SOME OF THE SERIES, VERY PROBABLY THOSE FURNISHED THE BUREAU SINCE THEY WERE THE ONLY ONES RETAINED IN THE ONE A SECTION WHEN PHOTOS WERE SHOWN TO GUTIERREZ ON JANUARY TWENTY NINE, NINETEEN SIXTY FOUR.

It is noted that the photo designated Odum Exhibit No. 1 on page 691 of Volume XX on the "Hearings Before the President's Commission on the Assassination of President Kennedy" is apparently of the same individual. These photos are further described in the report of same Commission, page 364.

In furnishing the enclosed photos to Legat, Mexico, on 11/23/63, CIA Station, Mexico, advised that the photographs are classified "SECRET" and should be kept in the Bureau's possession at all times and not turned over to police authorities. NOTE:

During investigation of assassination of President Kennedy, CIA, Mexico, made available to Legat certain photos of unknown male taken outside the United States sometime between 7/1/63 and 11/23/63. Three of these photos, with background cropped out, were displayed to Gutierrez Valencia in Mexico during investigation of his allegation that he had seen Oswald on the premises of the Cuban Embassy in Mexico. Gutierrez Valencia stated the photos were not of the man he saw at the Embassy. The man in the photos had not been identified at the time of the Warren Commission report, and appears to have no pertinence whatsoever to the investigation. The photos shown Gutierrez Valencia were never made a part of the commission record.

DEPARTMENT OF JUSTICE, Defendant	

COMPLAINT

[Pursuant to Public Law 89-487; 5 U.S.C. §552]

1. Plaintiff brings this action under Public Law 89-487, 5 U.S.C. §552, commonly referred to as the Freedom of Information Act.

2. Plaintiff is an attorney, practicing law in the District of Columbia.

3. Defendant is the U.S. Department of Justice.

4. Plaintiff seeks access to and the right to copy three photographs in the possession of the FBI, a subordinate component of defendant Department of Justice.

5. The photographs sought are of a single individual.

6. The photographs were described in detail in an FBI Report, dated February 24, 1964, which was submitted to the President's Commission on the Assassination of President Kennedy, generally known as the Warren Commission. The Report became Warren Commission Document No. 566. The first five pages of Document No. 566 are reproduced as exhibit 1 to this [illegible]

the relevant parts, identifying the photographs and the co

tained on pp. 3-4 and are as follows:

On February 20, 1964, [redacted] VALENCIA, a Mexico City Department store credit investigator who resides at Calle Alcalde 19, Colonia Hipolito, Mexico, D.F., related as follows:

He examined three photographs of an unidentified possible white male American suspect, which depicted this individual in the following poses:

1. Attired in a white shirt and tan trousers, holding what appears to be a courier-type pouch under his left arm and extending a wallet-type folder which it appears may contain one or two documents resembling passports.

2. Attired in the same dress described above and holding the wallet-type folder in his left hand and inserting this folder into the courier-type pouch held in his right hand.

3. Attired in a dark shirt with white collar buttons and apparently walking along with the thumb of his left hand hooked into the top of his left-hand trouser pocket.

[redacted] stated on February 20, 1964, that he has never, to his knowledge, seen the individual depicted in these three photographs and that this individual is definitely not identical with either the American or the Cuban he claims to have seen on October 1, 1963, exiting the premises of the Cuban Embassy at Mexico, D.F. [redacted] has previously stated that he believed the American observed by him with the Cuban on October 1, 1963, as mentioned above, was left handed [redacted] and he based his identification on newspaper photographs of [redacted] observed by him in Mexico City newspapers almost two months after the occurrence described above.

8. On March 24, 1967, plaintiff wrote defendant asking [illegible] to and copies of the three photographs. His request

[illegible] accompanied by a completed Form D.J. 116 and a fee [illegible] per Department of Justice Regulation 28 C.F.R. 16. (See Exhibit 2

9. As plaintiff never received an acknowledgment of or reply to his letter of March 23, he renewed his request in a letter of April 11th (See Exhibit 3).

10. As plaintiff has gone forty days without so much as an acknowledgment, he believes that he has fulfilled any reasonable requirement for exhaustion of administrative remedies and that he is being denied access to records which should be made available to him promptly under the terms of the Freedom of Information Act.

11. Under the terms of this Act (P.L. 89-487, 5 U.S.C. §552), plaintiff files this complaint further, he alleges that, pursuant to this law, the records must be made available to him, and the Court shall determine the matter de novo, and the burden is on the defendant to sustain its refusal.

WHEREFORE, plaintiff prays this Honorable Court for the following relief; that defendant be ordered to produce and make available copies (or for copying) the three photographs described in paragraph 6, supra, and such other relief as this Court may deem just and equitable.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

A confidential source abroad has advised as follows:

On February 17, 1964, a second confidential source abroad, who has furnished reliable information in the past, advised that the records of the Identification Division of the Metropolitan Police of the Federal District, Mexico, D. F., revealed that one PEDRO GUTIERREZ VALENCIA had a driver's license issued to him in 1938 and again in 1942.

According to this source, the records of this police agency further revealed that an individual by this same name was fingerprinted in 1957 in connection with a request to carry a firearm.

On February 20, 1964, this second confidential source abroad advised that he had had the thumb print of PEDRO GUTIERREZ VALENCIA, which had been affixed to this individual's letter dated December 2, 1963, directed to President LYNDON JOHNSON, searched against the fingerprint files of the Identification Division of the Metropolitan Police of the Federal District, Mexico, D. F. This source stated that a fingerprint expert of that police agency had identified the thumb print of GUTIERREZ as being a print of the right thumb of this individual, whose fingerprints are on file at the afore-mentioned police Identification Division.

This second confidential source abroad further advised on February 20, 1964, that the fingerprint records of the Metropolitan Police of the Federal District disclosed that fingerprints of GUTIERREZ VALENCIA were taken on June 1, 1938, in connection with the issuance of a driver's license were taken on February 27, 1942, in connection with the renewal of a driver's license; were taken again on August 16, 1951, in connection with the issuance of a police good conduct certificate in connection with the issuance of a chauffeur's license to GUTIERREZ, and fingerprints of this individual were taken on October 25, 1957, in connection with a police good conduct certificate issued to GUTIERREZ in connection with a permit allowing him to carry and possess a sporting firearm.

The above source stated that the right thumb print of GUTIERREZ VALENCIA which had appeared on his letter to President JOHNSON, as indicated above, was positively identifi by a fingerprint expert of the afore-mentioned Mexico City polic agency with the various fingerprint cards on file with that agency, as described above.

This second source also stated that the police files at Mexico City do not contain any information of a derogatory nature concerning GUTIERREZ.

On February 20, 1964, a third confidential source abroad, who has furnished reliable information in the past, reported that the following investigation was conducted at Mexico, D. F., concerning the credit investigator, PEDRO GUTIERREZ VALENCIA, a resident of Calle Florida #9, Colonia Napoles, Mexico, D. F.:

It was noted by the source that the building at the above address is a four-story apartment building, the ground floor of which is occupied by various small commercial establishments and a restaurant known as the "Valencia." The caretaker of the building, Mrs. GUADALUPE ALVAREZ, and Mrs. MERCEDES OROCIO, who resides with ALVAREZ, advised the source that PEDRO GUTIERREZ resides in Apartment #12 at that address with his wife and that GUTIERREZ has no sons or daughters

residing with him. These individuals described GUTIERREZ and his wife as honorable individuals of good conduct and reputation.

Mrs. ALVAREZ and Mrs. OROCIO stated they have known GUTIERREZ and his wife as neighbors in the building for a period of 12 years.

These two neighbors further stated, according to the above source, that GUTIERREZ is a man who is truthful in what he says and worthy of trust. They described him as a person of moderate financial means who is employed as an investigator for a Mexico City commercial establishment, and these neighbors said that GUTIERREZ always pays his rent very promptly.

These neighbors further informed this third confidential source abroad that GUTIERREZ has never been known to drink excessively; that he has never caused any scandal in the neighborhood, and that they have never known him to have had any problems with law enforcement authorities in the community.

These two neighbors also stated they have never had any bill collectors or other persons to call at the building to collect debts from GUTIERREZ and that, in general, they regard him as a good neighbor.

This third source also reported that he had learned from persons in the "Valencia" restaurant, located on the ground floor of the apartment building at Calle Florida #9, that PEDRO GUTIERREZ is generally regarded in the neighborhood as a person of good reputation and wholesome habits.

On February 20, 1964, PEDRO GUTIERREZ VALENCIA, a Mexico City department store credit investigator who resides at Calle Florida #9, Colonia Napoles, Mexico, D. F., advised as follows:

He examined three photographs of an unidentified possible white male American suspect, which depicted this

individual in the following poses:

1. Attired in a white shirt and tan trousers, holding what appears to be a courier-type pouch under his left arm and examining a wallet-type folder which it appears may contain one or two documents resembling passports.

2. Attired in the same dress described above and holding the wallet-type folder in his left hand and inserting this folder into the courier-type pouch held in his right hand.

3. Attired in a dark shirt with white collar buttons and apparently walking along with the thumb of his left hand hooked into the top of his left-hand trouser pocket.

GUTIERREZ stated on February 20, 1964, that he has never, to his knowledge, seen the individual depicted in these three photographs and that this individual is definitely not identical with either the American or the Cuban he claims to have seen on October 1, 1963, exiting the premises of the Cuban Embassy at Mexico, D. F. GUTIERREZ has previously stated that he believes the American observed by him with the Cuban on October 1, 1963, as mentioned above, was LEE HARVEY OSWALD and he based his identification on newspaper photographs of OSWALD observed by him in Mexico City newspapers almost two months after the occurrence described above.

GUTIERREZ, on February 20, 1964, also examined 20 photographs of possible white male Americans who had been in Mexico City during September and October 1963, any one of which could have been the American seen by him at the Cuban Embassy. He studied these photographs carefully and stated that, in his opinion, none of these photographs is identical with the American previously identified by him as OSWALD who he claims was observed by him on October 1, 1963, at the Cuban

Embassy in Mexico, D. F.

GUTIERREZ was again shown a photograph of LEE HARVEY OSWALD which had appeared in "Life" magazine and which depicts OSWALD passing out pro-Cuban literature on a street in New Orleans, Louisiana. It is to be noted that this is a profile photograph of OSWALD showing his right arm extended and depicts his torso from the waist up.

GUTIERREZ, on February 20, 1964, stated that the "Life" magazine photograph of OSWALD does not appear familiar to him and that he cannot say that this photograph in any way resembles the American seen by him in the company of a Cuban exiting the premises of the Cuban Embassy in Mexico, D. F., on October 1, 1963. GUTIERREZ was told that this photograph is a photograph of LEE HARVEY OSWALD and he thereupon stated that during his brief encounter with the American and the Cuban on October 1, 1963, he at no time observed the profile view of either the American or the Cuban. He explained that when the Cuban bumped into him in the patio of the Cuban Embassy (the details of which he has previously reported), he had only a brief opportunity to observe these persons from a front view and thereafter he walked behind these individuals and could only observe their backs.

GUTIERREZ agreed that a mistaken identification from newspaper photographs of OSWALD which he saw almost two months later would be very possible. He pointed out, however, that he does not believe he is mistaken in his identification of OSWALD because the image of the American he observed during the occurrence at the Cuban Embassy in Mexico City on October 1, 1963, became firmly fixed in his mind because of the importance he attached to his observance that the Cuban and the American were arguing heatedly and that the Cuban passed some United States currency to the American after these individuals had exited the Cuban Embassy premises and were walking along the sidewalk toward the Cuban's vehicle.

GUTIERREZ stated he is certain that the Cuban's vehicle, described by him as a beige colored late model Dina Renault, was the property of the Cuban because he saw the

Dear Mr. Kleindienst:

Warren Commission Document No. 566, an FBI Report, dated Feb. 24, 1964, was declassified and made available to the public on Jan. 24, 1971. Pages 3 and 4 thereof make reference to three photographs of an unidentified individual, described as a "possible ... suspect," which were shown to a Mexican national in the course of the FBI's investigation of Lee Harvey Oswald in Mexico.

As an American citizen desiring to resolve certain unanswered questions about the assassination of President Kennedy, I should like to obtain copies of these three referenced photographs, which were shown to a Mexican citizen, for my own examination and use. I shall be happy to pay the costs of reproduction.

Pursuant to the requirements of the Freedom of Information Act, 5 U.S.C. §552, I enclose a completed copy of Form D.J. 118 and the fee of $3.00 per departmental regulation 28 C.F.R. 16.

Dear Mr. Attorney General:

On March 22nd I sent a letter and Form D.J. 118, seeking access to and copies of three photographs referred to on pages 3 and 4 of Warren Commission Document No. 566. [Please see attached copy of my letter and form of March 22, 1972.]

As no answer, or even an acknowledgment, has been received from the Department of Justice, it is reasonable to conclude that Departmental officials have decided not to make the photographs available under the Freedom of Information Act. Accordingly, please consider this letter as an appeal to you personally as required under Justice Department regulations for exhaustion of administrative remedies.

As I was recently questioned rather thoroughly by Chairman Moorehead of the House Information Subcommittee as to delays under the FOI Act, I am taking the liberty of sending a copy of this letter to him, as well as the General Counsel of the Central Intelligence Agency who indicated to me that, if I wished to see the pictures in question and obtain copies of them, I should apply to the Department of Justice.

Hoping for a prompt reply from you, I remain,

Respectfully yours,

Ed,

This involves a suit instituted by Bernard Fensterwald seeking the right to copy three photographs from the Kennedy assassination file. Previous requests by Fensterwald submitted under the Freedom of Information Act were denied.

Since Lish Whitson had prepared the earlier correspondence in this matter, I assume you would want to have someone in your division handle this as well. I will be happy to work with him and prepare the litigation report requested by the Department.

Acting Director, FBI

BERNARD FENSTERWALD, JR. v. DEPARTMENT OF JUSTICE, USDC D.C., CIV. NO. 861-72

Reference is made to your communication captioned as above dated May 18, 1972, your reference 145-12-1727. You enclosed a copy of the complaint in the above entitled matter filed pursuant to the Freedom of Information Act and requested no later than June 9, 1972, a litigation report.

We are unable to prepare a litigation report in the form requested because this Bureau has had no communication written or oral with the plaintiff regarding his request for access to and the right to copy three photographs which were displayed in February, 1964, to one Pedro Gutierrez Valencia in Mexico City.

For your information, the Central Intelligence Agency (CIA) loaned certain photographs and, by cropping out the background of each, prepared them in February, 1964, for display by the FBI to Gutierrez. These photographs, as cropped, were displayed to Gutierrez and when he failed to identify any they were returned to CIA. Our representative in Mexico did not retain copies of the cropped photographs and did not send copies of these cropped photographs to the FBI Headquarters. CIA has stated that the photographs shown to Gutierrez were and are classified "Secret." A CIA representative in Mexico has informed our Legal Attache in Mexico that all items relating to this matter have been sent to CIA Headquarters.

The FBI has some uncropped photographs which were furnished by CIA in November, 1963, believed to be copies of the photographs which in cropped form were shown to Gutierrez in February, 1964. It is suggested that you may wish to consult with the General Counsel of CIA before answering the plaintiff. The specific photographs sought by the plaintiff are the property of CIA and a decision as to their release is properly within the purview of that Agency.

It was noted that in the plaintiff's letter to the Acting Attorney General dated April 11, 1972, a copy of which was forwarded to the FBI with your letter of May 18, 1972, the plaintiff stated that he had made inquiry of the General Counsel of CIA regarding the pictures.

Pursuant to the request of Mr. Jeffrey Axelrad of your office to Special Agent John B. Hotis of this Bureau on June 7, 1972, there are enclosed two copies of the plaintiff's letter of March 22, 1972, a copy of which was forwarded to this Bureau by the Acting Attorney General April 20, 1972.

In the event an affidavit is necessary regarding the uncropped photographs in the possession of the FBI and the interest of CIA in those photographs as well as in the cropped photographs shown to Gutierrez, such can be prepared in due course.

In the event further discussions are necessary in this matter, your representative may contact directly Special Agent John B. Hotis, telephone 175-2676 or Special Agent John P. Thomas, telephone 175-2161.

SUBJECT: BERNARD FENSTERWALD, JR. v. DEPARTMENT OF JUSTICE, USDC D.C., CIV. NO. 861-72

This proposes information be requested from Central Intelligence Agency (CIA) for use in responding to request of Civil Division, Department of Justice, regarding captioned civil suit under Freedom of Information Act.

Bernard Fensterwald, Washington, D. C., attorney associated with Committee to Investigate Assassinations, initiated civil action in U. S. District Court for District of Columbia on May 2, 1972, to obtain access to and right to copy three photographs of an unknown individual which were displayed by a Special Agent in Mexico City, Mexico, to one Pedro Gutierrez Valencia in connection with the investigation of the assassination of President Kennedy. Fensterwald involved Bureau in his complaint as a subordinate component of defendant, Department of Justice.

The specific photographs sought were obtained by our Legal Attache, Mexico City, from CIA, Mexico City, on 2/19/64 and then, when Gutierrez failed to identify the individual pictured, the photographs were returned to CIA. We have neither the actual photos displayed nor do we have copies of them in the form (backgrounds cropped out) in which they were shown. We do have copies of some uncropped photographs obtained from CIA in 11/63 in the same investigation which match the descriptions of those sought by Fensterwald. Inasmuch as we do not have those shown to Gutierrez, we cannot positively state that the pictures in our files are or are not identical with those shown to Gutierrez. The CIA pictures were classified "Secret" by CIA and are the property of CIA. We must determine whether CIA has the pictures sought, whether they are still classified and whether CIA would object to their release to Fensterwald.

EX-112 REC-4

Supervisors John B. Hotis, Office of Legal Counsel, and John P. Thomas, Espionage Section, discussed this matter with Mr. Jeffrey Axelrad, Civil Division, on 6/12/72 at his request. Axelrad said he does not want to publicly involve CIA in this

matter inasmuch as CIA is not named in Fensterwald's complaint. He expressed the opinion that if CIA will not release the photographs, he will need an affidavit from an FBI Agent familiar with the Oswald file to the effect that the photographs in FBI files are classified under Executive Order 10501, as amended, and are part of an investigatory file compiled for law enforcement purposes. As such, they would be exempt from production under the Freedom of Information Act.

Subject: BERNARD FENSTERWALD, JR. v. DEPARTMENT OF JUSTICE, USDC D.C., CIV. NO. 801-72

A civil action was instituted against the Department of Justice in United States District Court, District of Columbia, by complaint of Bernard Fensterwald, Jr., dated May 2, 1972. Fensterwald, under the Freedom of Information Act, seeks access to and the right to copy three photographs described in an FBI memorandum dated February 24, 1964, which was submitted to the President's Commission on the Assassination of President Kennedy, generally known as the Warren Commission. The memorandum became Warren Commission Document Number 566. A copy of that memorandum is enclosed. The photographs in question are described on pages 3 and 4 of that memorandum in the paragraphs commencing with "On February 20, 1964..." and concluding with "...occurrence described above."

It may be noted that a copy of the memorandum, classified "Confidential," was previously furnished to your Agency on March 4, 1964. The memorandum was declassified by the Department of Justice on January 14, 1971.

Our Legal Attache, Mexico City, Mexico, advised in February, 1964, that the three photographs shown to Pedro Gutierrez Valencia on February 20, 1964, were among photographs furnished to a representative of his office by your Mexico City station on February 19, 1964, and at that time they were reportedly classified "Secret." On June 5, 1972, our Legal Attache, Mexico City, reported that the three pertinent photographs were not in his possession, were never made a part of his file, were not forwarded to FBI Headquarters

and were apparently returned to your Mexico City station in February, 1964, following Gutierrez' failure to identify the individual pictured therein. The Legal Attache also reported that your field representative had informed him that all pertinent material in this matter had been forwarded to CIA Headquarters.

In order that this Bureau may respond to requirements of the Civil Division of the Department of Justice in this matter, it is requested that your Agency furnish the following information:

1. Are the photographs shown to Gutierrez in the possession of your Agency?

2. Would your Agency object to the release to Fensterwald of those photographs in the form in which they were shown to Gutierrez, that is, with backgrounds cropped out?

3. Were the photographs prepared and furnished by your Mexico City station to our Legal Attache for display to Gutierrez copies made from those photographs which were made available to the Legal Attache by your Mexico City station on November 22 or 23, 1963? It is noted that we are in possession of uncropped copies of the latter. A cropped version of one of those photographs (Odom Exhibit number 1) was displayed to Marguerite Oswald on November 23, 1963, and subsequently became the subject of a November 7, 1964, affidavit of Richard Helms, then Deputy Director for Plans. That affidavit is set out on pages 469 and 470 of Volume XI of the published "Hearings Before the President's Commission on the Assassination of President Kennedy."

4. Would your Agency object to the release to Fensterwald of copies of the uncropped photographs obtained from your Mexico City station on November 22 or 23, 1963?

5. What is the security classification of the aforementioned photographs made available by your Agency on November 22 or 23, 1963, and February 19, 1964?

6. If your Agency would oppose release of any of the photographs mentioned above, can you suggest reasons why, in your opinion, they should not be released? Such reasons should

Director
Central Intelligence Agency

relate as directly as possible to the Freedom of Information Act, as, for example, that the photographs are exempted from disclosure by statute, or come within one or more of the exemptions specified in the Act. Any exemption should be specifically identified and discussed. If appropriate, a statement of facts demonstrating the manner in which production of the photographs requested would prejudice the operations of your Agency should be included.

Preliminary discussions on this matter have been held with the Civil Division of the Department of Justice. At this time it is the tentative opinion of the Civil Division that if your Agency objects to the release of the photographs to Fensterwald, an affidavit of a representative of this Bureau must be prepared stating in effect that the photographs are classified material under Executive Order 10501, as amended, and are part of an investigatory file compiled for law enforcement purposes. No mention of the Central Intelligence Agency in the affidavit is contemplated at this time.

The Civil Division has requested that this matter be handled most expeditiously inasmuch as the Freedom of Information Act provides that actions under it "shall take precedence on the docket over all other causes...and expedited in every way." In addition, a motion for Summary Judgement was filed by Fensterwald on June 8, 1972. Mr. Jeffrey Axelrad, Civil Division, Department of Justice, has stated that he is available for consultation with representatives of your Agency should you desire to contact him prior to responding to this communication.

SUBJECT: BERNARD FENSTERWALD, JR. v. DEPARTMENT OF JUSTICE, USDC D.C., CIV. NO. 861-72

This recommends Office of Legal Counsel expeditiously furnish Department with attached photographs urgently needed by Civil Division in connection with captioned Freedom of Information suit. Lee Harvey Oswald

Bernard Fensterwald, Washington, D. C., attorney associated with Committee to Investigate Assassinations, initiated civil action in U. S. District Court for District of Columbia on 5/2/72, to obtain access to and right to copy three photographs of an unknown individual which were displayed by a Special Agent in Mexico City, Mexico, to one Pedro Gutierrez Valencia in connection with the investigation of the assassination of President Kennedy. Fensterwald involved Bureau in his complaint as a subordinate component of defendant, Department of Justice.

The photographs sought by Fensterwald were obtained by Legal Attache, Mexico City, from Central Intelligence Agency (CIA), Mexico City, on 2/19/64, displayed to Gutierrez and returned to CIA. CIA, Mexico City, later sent them to CIA Headquarters. By letter 6/16/72, we asked CIA if it would object to release to Fensterwald of its photographs in form (background cropped out) in which they were shown to Gutierrez. CIA responded that under no circumstances may the uncropped photographs be released, but it has no objection to release of copies cropped as they were for Gutierrez. CIA furnished us a copy of each photograph showing only the individual in whom Fensterwald is interested, stating that these photographs are not "the actual ones shown to Gutierrez, but the description (in Fensterwald complaint) is sufficiently detailed to conclude that they are either the same photographs or copies thereof." On 6/29/72, Assistant U. S. Attorney Robert M. Werdig, Jr., USDC, Washington, D. C. (WDC), contacted Supervisor John B. Hotis, Office of Legal Counsel, and stated that he is representing the Government in this matter. He asked about availability of the photographs and was referred by Mr. Hotis to Supervisor J. P. Thomas, Domestic Intelligence Division, for assistance. Mr. Werdig said that

Court had directed him to appear in USDC, WDC, on the morning of 7/5/72, to respond to Fensterwald's Motion for Summary Judgment. Jeffrey Axelrad, Civil Division, Department of Justice, has advised that if the photographs are not produced then, there is every indication that the Court will grant the judgment. Mr. Werdig was informed that the photographs have been received. He asked that a copy of each photograph be made available to him no later than Monday morning, 7/3/72. He stated that upon receipt of the copies, he would give them to Fensterwald and have Fensterwald sign a precipe dropping the suit. SA Thomas informed Mr. Werdig that every effort would be made to comply with his request.

It may be noted that Mr. Werdig, who said he is well acquainted with "Bernie" Fensterwald, called SA Thomas later on 6/29/72 to advise that he had told Fensterwald he expected to be able to give him the photographs on 7/3/72. He also said "Bernie" had asked him to ask the Bureau, as a favor, if it would also furnish him with negatives for each photograph, which Fensterwald would pay for. Fensterwald said he wanted the best negatives possible to make copies of the photographs. Mr. Werdig asked if we would do this favor for "Bernie." Werdig was informed that the FBI Laboratory does not do photographic work for private individuals and that there was no reason apparent why an exception should be made for Fensterwald. (Fensterwald's Committee to Investigate Assassinations has persistently requested material relating to the assassination which has not been released to the public. These requests have required a great expenditure of effort on the part of the Bureau to the extent that they might be considered a campaign of harassment of the Government).

ACTION:

With your approval, attached photographs will be expeditiously conveyed by the Office of Legal Counsel to the Department for transmittal to Mr. Werdig on 7/3/72. Office of Legal Counsel will coordinate this matter with Mr. Axelrad, Civil Division, and have arrangements made for a receipt for the photographs to be secured from Fensterwald. It may be appropriate to remind Mr. Axelrad that, as he previously stated, no mention is to be made in the public record of proceedings in this matter of the CI

By memorandum D. J. Dalbey to Mr. Felt dated 7/28/72, captioned as above, it was reported that Legal Counsel had met with Robert Saloschin and John Gallinger of the Department's Office of Legal Counsel concerning proper disposition of the Freedom of Information Act request of Hoch. Our position was that the FBI would oppose releasing any information from our investigative files and that should the Department order us to release such information we would comply, but that we would need guidelines regarding the type of information to be released.

On August 8, 1972, a draft of materials proposed to be used in replying to Hoch was furnished Legal Counsel by Mr. Saloschin who requested that we review them and furnish him our comments. Ms. Herwig advised that she had heard the Department was considering releasing information from the FBI file concerning Lee Harvey Oswald and she requested an opportunity to read the draft of the letter the Department proposed to send Hoch. On August 10, 1972, we furnished a copy of the materials to Ms. Herwig who indicated that she would express her views to the Acting Director in regard to this matter.

In a note attached to the materials we indicated that the statements in the Department material were not entirely correct in that we did not agree to conduct a review of our files. The note further indicated that our position continues to be that we should oppose furnishing any information to Hoch. The Acting Director wrote on the note: "Either FBI files are exempt or they are not. Resist in the strongest possible manner with hard hitting, logical, legal, and practical reasons. If necessary I will take up with AG."

The Acting Director's comments were received at 1:00 p.m. on August 14, 1972. Mr. Saloschin was available for conference at 2:30 p.m. on the same date at which time he was advised that the Acting Director had

expressed the view that we should make the strongest possible resistance to disclosure in this matter and had indicated by this view that an extensive review of our files should not be undertaken. Mr. Saloschin was not advised of the Acting Director's comment that if necessary he would take the matter up with the Attorney General.

Mr. Saloschin was reminded that the conference he had with Mr. Dalbey resulted in an agreement only that the FBI would continue to oppose release of information from our files, but that we would comply with an order from the Department to disclose particularly described information. Mr. Saloschin agreed that that was the understanding resulting from the conference.

Mr. Saloschin said that he still has the opinion that some material should be furnished Mr. Hoch in order to satisfy his insistent demands for information. He said that his opinion was based on the fact that the investigative file involved in this matter concerned an inactive investigation and that it had been his experience in other such cases that the exception for investigative files would not protect the information in the courts. He said that this case is difficult to analyze because it is not known whether Mr. Hoch will or will not sue in an effort to enforce his request for information under the Freedom of Information Act. He said he fully understood the FBI's position resisting disclosure of material in our files, but that he would have to consider the matter further.

While we recognize that there may be decisions interpreting the Freedom of Information Act so that the exception for investigative files would not protect information originally compiled for investigative purposes, we are unaware of any such case relating to the FBI. We perceive a distinct difference between files compiled by regulatory agencies and investigative files compiled by the FBI. We note that among the decided cases interpreting the Freedom of Information Act is Cowles Communications, Inc. v. Department of Justice, 325 F. Supp. 726 (N.D. Calif. 1971). In this case, the plaintiff, anticipating a libel suit, requested certain records from the Immigration and Naturalization Service (INS) under the Freedom of Information Act. The Department of Justice declined to disclose the information and claimed that the INS files were exempt from disclosure under the exception for investigative files. The plaintiff claimed he was entitled to disclosure because no proceedings were pending to which the files related.

CONTINUED - OVER

The analogy between this case and the Hoch request for the files concerning Lee Harvey Oswald is clear. The Oswald file was compiled for investigative purposes, but no proceedings are anticipated. Therefore, the court's opinion in the Cowles case is highly pertinent to our consideration of the Hoch request. Moreover, the Cowles case is significant because it was decided in the Northern District of California, the district in which Mr. Hoch is located.

The court said:

"It protects investigatory files compiled for law enforcement purposes. A file is no less compiled for law enforcement purposes because after the compilation it is decided for some reason there will be no enforcement proceeding. I think no resort to legislative history is needed to clarify what the language of the Act itself makes clear. But if the legislative history is considered, in my opinion it confirms the existence of the privilege. The House Report (U.S. Code Congressional and Administrative News, 89 Cong. 1966, Vol. 2, p. 2418 et seq.) in describing the records which may be exempt from public disclosure says 'others cover materials such as Federal Bureau of Investigation Records which are not now protected by law.' (P. 2419) The Report shows great concern for the right of the public to know how the Government operates (Pp. 2422-2423) and speaks of a balancing of that right as against the need of the Government to keep information in confidence. Congress was concerned with the protection of individuals' privacy (House Report, p. 2425) and this concern finds expression in subsection (b)(5). For at least two reasons, of which Congress was undoubtedly aware, investigation files should be kept secret. The informant may not inform unless he knows that what he says is not available to private persons at their request, but more important in this day of increasing concern over the conflict between the citizen's right of privacy and the need of the Government to investigate it is unthinkable that rights of privacy should be jeopardized further by making investigatory files available to private persons. If these concerns are legitimate concerns, and I have no trouble in concluding that Congress regarded them as such, then at least a part of the purpose of enacting the investigatory file exemption is lost if the file ceases to be confidential as soon as the threat of a law enforcement proceeding disappears. Consequently I hold that 'investigatory files compiled for law enforcement purposes' need not be produced whether proceedings be contemplated or not."

CONTINUED - OVER

It is possible that Mr. Saloschin may continue to press his view that the FBI should release certain items of information from the Oswald investigative file. However, should such a request be forthcoming from the Department, or should the Department issue instructions requiring us to produce information from our files, we should continue to resist such disclosure. We feel that the precedent that would be established would be dangerous because the second request would be more difficult to defend against, and the second and third requests would probably seek information of an increasingly sensitive nature. Mr. Saloschin's concern that by declining to furnish information in a particular case we may be heading for trouble in the courts is an estimate which he has drawn from experience from cases arising in other agencies. We cannot predict the outcome of a lawsuit interpreting the Freedom of Information Act, however, common sense does tell us that the files of the FBI would be regarded as requiring greater protection than those of regulatory agencies.

RECOMMENDATION:

That no further action be taken in regard to the Hoch matter pending receipt of further communications from the Department.

I do not want to release + I will want to discuss with HG.

BERNARD FENSTERWALD, JR. - FREEDOM OF INFORMATION REQUEST

This recommends Deputy Attorney General be informed we have initiated efforts to locate photographs sought by subject under provisions of Freedom of Information Act.

Subject has filed a request under Freedom of Information Act for 20 photographs shown to a Pedro Gutierrez Valencia in Mexico City on 2/20/64 during investigation of assassination of President John F. Kennedy.

Fensterwald is head of "Committee to Investigate Assassinations," which apparently is trying to link in a conspiracy the murders of John and Robert Kennedy and Martin Luther King, Jr., as well as to prove his theory that Lee Harvey Oswald was an FBI informant. Fensterwald has made repeated requests for material not available to the public regarding the Oswald case.

Mexico City Letterhead Memorandum 2/24/64, which was subsequently declassified and made Warren Commission Document 866, states that on 2/20/64 Gutierrez examined 20 photographs of possible white male Americans and stated that none of them was identical with the American previously identified by him as Oswald whom he claimed to have seen in Mexico City on 10/1/63. FBI Headquarters' files indicate the photographs in question were furnished to Legat, Mexico, by Central Intelligence Agency (CIA), Mexico, and were not submitted to FBI Headquarters. We must determine: whether they are in Legat's files and if so, obtain them; if not in Legat's files, what disposition was made of them. It seems obvious that we must ultimately consult with CIA if the photographs can be located regarding release of them to Fensterwald. If photographs are located, Domestic Intelligence Division will confer with Office of Legal Counsel regarding

Dear Mr. Erickson:

Please refer to D.C. Civil No. 861-72, as a result of which the FBI made available three photographs of a man referred to on pp. 3 and 4 of Warren Commission Document 566 of February 24, 1964. A copy of the relevant pages of CD 566 is enclosed herewith.

You will note that at the bottom of page 4 that "Gutierrez, on February 20, 1964, also examined 20 photographs of possible white male Americans who had been in Mexico City", etc. It is my desire to examine these photographs and any records which relate to identification of the persons photographed. It is possible that I will wish copies of some of these records but make no such request at this time.

As it was necessary to file suit to obtain the previously sought photos, I am taking the precaution of enclosing a completed Form D.J. 118 and the fee of $3.00 per Departmental regulation 28 C.F.R. 16.

From: L. Patrick Gray, III, Acting Director

Subject: FREEDOM OF INFORMATION ACT REQUEST -
BERNARD FENSTERWALD, JR.

Bernard Fensterwald, Jr., Washington, D. C., attorney, has made application to the Department of Justice under provisions of the Freedom of Information Act for access to "Twenty (20) photographs of 'white male Americans' referred to at the bottom of page 4 of an FBI Report of February 24, 1964, which was Warren Commission Document 566, which was declassified on Jan. 24, 1971." In a cover letter dated August 28, 1972, to the Deputy Attorney General, transmitting Form DJ-118 regarding the aforementioned photographs, Mr. Fensterwald stated that it is his desire to examine those photographs and any records which relate to identification of the persons photographed.

The "FBI Report" mentioned by Mr. Fensterwald is actually an FBI memorandum, a copy of which was furnished to you as an enclosure to my letter dated June 16, 1972, entitled "Bernard Fensterwald, Jr. v. Department of Justice, USDC D.C., Civ. No. 861-72." The specific photographs involved in Mr. Fensterwald's current requests are those mentioned in the final paragraph on page 4 of that memorandum. Neither the photographs sought nor copies of them were located through a search of FBI Headquarters files. Inquiry was made of our Legal Attache, Mexico City, Mexico, regarding the photographs and he advised that the photographs sought were received by him from your Mexico City Station on February 19, 1964. They were not entered into the files of our Mexico City Office and it appears that, following their display to Pedro Gutierrez Valencia, they were returned to your representatives in Mexico. On September 18, 1972,

your Mexico City Station advised the Legal Attache that the photographs are not available at Mexico City, but may be available at your Headquarters.

In order that this Bureau may respond to the request of the Deputy Attorney General regarding preparation of a response to Mr. Fensterwald's request, would your Agency please furnish the following information:

1. Are the 20 photographs displayed to Gutierrez or copies of them in the possession of your Agency?

2. Are any records relating to identification of the persons photographed currently in possession of your Agency?

3. What is the current security classification of the photographs and of records pertaining to them?

4. If the photographs and/or records pertaining to them are available, would your Agency object to the release to Fensterwald of them?

5. If your Agency would oppose release of any of your aforementioned material, can you suggest reasons why, in your opinion, they should not be released? Such reasons should relate as directly as possible to provisions of the Freedom of Information Act. Any exemption should be specifically identified and discussed. If appropriate, a statement of facts demonstrating the manner in which production of the photographs and/or records requested would prejudice the operations of your Agency should be included.

Inasmuch as Mr. Fensterwald has in the past instituted civil action against the Department of Justice within a relatively short time after having requested access to official records under provisions of the Freedom of Information Act, a prompt response to this inquiry would be appreciated.

1 - The Deputy Attorney General

Director
Central Intelligence Agency

NOTE:

Fensterwald, head of the "Committee to Investigate Assassinations," has made repeated requests for information relating to the assassination of President John F. Kennedy and has sued the Government to obtain such information on at least two occasions. He now seeks 20 photographs, which Legat, Mexico, showed to Gutierrez on 2/20/64 in an attempt to identify an individual Gutierrez claimed was Lee Harvey Oswald and whom Gutierrez claimed to have seen in Mexico City on 10/1/63. Inasmuch as Gutierrez did not recognize the subjects of any of the photographs, they were not retained by Legat, Mexico. By letter dated 9/15/72 we informed the Deputy Attorney General that the photographs were not at FBI Headquarters and that we were attempting to locate them through Legat, Mexico.

FREEDOM OF INFORMATION ACT REQUEST -
BERNARD FENSTERWALD, JR.

Reference is made to my letter dated September 15, 1972, and to my letter to the Director, Central Intelligence Agency, dated September 22, 1972. A copy of the latter communication was directed to you.

As stated in the referenced communications, the photographs sought by Mr. Fensterwald, described in his letter to you dated August 28, 1972, are not in FBI files. The General Counsel of the Central Intelligence Agency informed this Bureau by letter dated October 11, 1972, that there is no way in which the 20 photographs sought can be identified by that Agency. The General Counsel commented that since the pictures had no relevance to the Lee Harvey Oswald case, no identification was made at the time they were displayed to Pedro Gutierrez Valencia in Mexico in 1964, and unless they were otherwise of intelligence interest, they would have been routinely destroyed. The General Counsel requested that we reply to Mr. Fensterwald along these lines without specifically identifying the Central Intelligence Agency.

Accordingly, pursuant to the request in your September 6, 1972, letter, enclosed herewith are the original and one copy for your files of a letter for your signature in response to Mr. Fensterwald, stating the unavailability of the 20 photographs he sought.

Dear Mr. Fensterwald,

With reference to the request contained in your letter of August 28, 1972, for access to 20 photographs displayed to Pedro Gutierrez Valencia on February 20, 1964, which photographs were mentioned in Warren Commission Document 566, a thorough search of pertinent records has been made at my request.

Please be advised that the photographs have not been located and there does not appear to be any way in which they can be identified at this late date. Inasmuch as it was determined at the time they were displayed to Gutierrez that they had no relevance to the Lee Harvey Oswald case, no identification of them was made. Be further advised that unidentified photographs of no relevance are routinely destroyed.

Sincerely,

Deputy Attorney General

A 4" by 5" piece of paper bearing a yellow letterhead with Western Union International Communications Cablegram imprinted thereon in blue lettering and with the following message typed thereon to JACK NELLVILLE, dated 9/20/63 via W. practicing veterinarians using the same office space at [redacted] advised that both [redacted] and [redacted] are known to be liberal right-wingers and that at the local veterinarian meetings these two individuals had requested to bring in speakers who would talk about Communism, law and order, and other topics completely unrelated to the veterinarian field. [redacted] stated he does not know much about these two men and that they no longer attend the local veterinarian meetings.

On 4/5/73, [redacted] Western Union, 15 West 5th, Tulsa, Oklahoma, was shown the Western Union document without revealing its contents and advised that this appeared to him to be a Western Union memo form. [redacted] stated he had been in the Western Union business in Tulsa for 11 years and this form used by customers to write telegrams. However, [redacted] stated that this form became obsolete sometime during 1964 and that it appears this had never been sent, or if it had been sent it may have been phoned into his office since it does not bear the Western Union stamp number and time sent. [redacted] further advised that these forms may have at one time been given out for promotional purposes and also given to large companies who had extensive dealings with Western Union.

A review of Oklahoma City indices regarding [redacted], NELLVILLE, and [redacted] was negative, however, indices disclosed that [redacted] was previously referred to in Oklahoma City file [redacted], and that on 7/13/66 [redacted] (protect identity) advised SA DELMER R. EXON that [redacted] a veterinarian, was a chapter leader for the John Birch Society.

Review of 1962, 1963, and 1964 Tulsa city directory failed to disclose a listing for JACK NELLVILLE.

Document will be forwarded to Bureau for appropriate examination.

Re Oklahoma City airtel to Bureau, 4/6/73, and Bureau nitel to Oklahoma City, Dallas, and Minneapolis, 4/10/73.

Dallas files, both general and specific indices relating to captioned case, contain no identifiable information with JACK NELLVILLE, [redacted] and [redacted]

On 4/13/73, [redacted] Sheraton Hotel, Dallas, Texas, advised SA ROBERT P. GEMBERLING that the Sheraton Hotel was in existence in Dallas, Texas, during 1963. He stated registration cards for the hotel are maintained approximately six years. He stated there would be no registration cards for the Sheraton Hotel in Dallas going back to September, 1963, and there were no hotel records that would establish who occupied Room 567 on 9/21/63, and that even with a name to check there would be no way to determine if such individual had been registered at the Hotel on 9/21/63.

REC-76 105-[illegible]-5670

The attention of the Bureau is called to the report of SA ROBERT P. GEMBERLING dated 12/23/63, at Dallas, Texas, in captioned matter and specifically to Pages 542-561 wherein it is reflected a summary of

residences, schools and employments for LEE HARVEY OSWALD. Information on Pages 550 and 551 reflects information from Mrs. RUTH PAINE, Irving, Texas, with whom MARINA OSWALD was residing at the time of the assassination who furnished information that she drove MARINA OSWALD to New Orleans, Louisiana, on 5/10 and 11/63, to be with LEE HARVEY OSWALD and that she returned from New Orleans with MARINA OSWALD on 9/23/63.

On Page 551 of this report it is reflected that HARVEY CASH, American Consul, Nuevo Laredo, had advised LEE HARVEY OSWALD entered Mexico at Nuevo Laredo on 9/26/63.

Information on Page 550 of this report reflects that Mrs. JESSE JAMES GARNER, 4911 Magazine Street, New Orleans, had substantiated that LEE HARVEY OSWALD resided at 4905 Magazine Street, New Orleans, from 5/9/63 to 9/23/63. On Page 559 of this report it is reflected that LEE HARVEY OSWALD filed claims with the New Orleans Division of Employment Security on both 9/17/63 and 9/24/63, in person.

The above file review indicates LEE HARVEY OSWALD was in New Orleans on 9/21/63, but does not specifically establish he was in that city on 9/21/63.

It is suggested that the Oklahoma City Office include the pertinent information set forth above in its LHM in order that such LHM will be comprehensive. No further investigation is being conducted in this matter by the Dallas Office and Dallas file will be closed upon receipt of information indicating Minneapolis and Oklahoma City have covered outstanding leads.

MARSHALL" as "President", who, in fact, had been President of WUTC, including the International Communications operations, from the late 1940's, and on, until about 1965, when he was succeeded by Mr. RUSSELL W. MC FALL.

As to standard procedures involving possible file copies of actual telegrams and/or cablegrams at that time, ADAMS advised that except for "charged" messages, or other money transactions, such as Money Orders, originating offices, only, both then and since, were required to hold file copies only up to 7 months; or if "charged", thereafter, until paid.

[redacted] contacted by SA [redacted] 5/21/73, reiterated information along above lines, adding that he, himself, had been associated with WUTC's International Communications for several years previous to 10/63, and continued, thereafter, with WUI. While he also agreed such memo pads were generally available and questioned item could have been tendered as the text for an actual telegram, and/or cablegram, he pointed out, however, that the standard 7"x8½" WUTC counter telegram forms were even more readily available and most always used for initiating WUTC messages; whether to be sent simply as domestic telegrams, or relayed on, either via Washington, New York or San Francisco, as cablegrams. He continued that even if questioned item had been so tendered, the addresses of both the sender and the addressee would, of course, been required, one way or another. He added his own opinion, therefore, that the item in question, most likely, was simply a personal message typed, thusly, for some unapparent reason, and probably passed along by some other means, rather than as an actual WUTC telegram or cablegram.

[redacted] also pointed out that all WUTC-International Communications interests in the Southwest were then handled through the Regional Office in Dallas, where [redacted] had served as Manager for several years prior to 1963 and continued, thereafter, under WUI until retiring in 1967. He added that [redacted] is now residing at [redacted], in El Paso, Texas, and that the Southwest Regional Office has since been relocated at 2030 N. Loop West, in Houston, where [redacted] is now serving as Regional Manager. He concluded, in turn, that he was sure that either [redacted] and/or [redacted] would be most willing to assist in any way possible in this matter, but, probably could furnish no information in addition to the above.

Dear Mr. Hoch:

This is in reply to your letter of April 12, 1973, concerning the records of the Warren Commission.

An FBI agent showed Mr. Johnson a copy of the memorandum of September 14, 1964, with 18 attachments mentioned in Commission Exhibit 3146. Mr. Johnson identified the attachments as being duplicates of the pages reproduced in pages 177-208 of Commission Document 1546 except that the attachments did not have the CD 1546 page numbers. The eighteen reports in pages 177-208 were listed in the memorandum. The memorandum, of course, is not in CD 1546. The pages in CD 1546 were shown to the agent.

CE 3148, CE 3147, and the memorandum of September 11, 1964, may be the three memoranda dated September 8, 10, and 11, 1946, mentioned in the same paragraph of CE 3146 as the memorandum of September 14, 1946.

We are not aware of any attachments to CD 1546. The memorandum of September 14, 1946, is not in any relevant file in Mr. Liebeler's office files and has not been located elsewhere. If the FBI will furnish us a copy of the memorandum of September 14, 1964, with or without the attachments, with permission to make it available to the public, we shall be pleased to furnish you a copy.

Sincerely,

LEE HARVEY OSWALD

By letter dated August 28, 1964, the President's Commission requested additional investigation concerning the allegation of Sylvia Odio that she observed Lee Harvey Oswald in the company of two Cuban or Mexican men sometime in late September or early October, 1963.

Odio, in her testimony before the President's Commission, has claimed that three individuals, two possibly Cuban underground members or Mexicans, and Lee Harvey Oswald, visited her apartment in late September, 1963, to solicit her aid in the underground.

Odio is alleged to have told Mrs. C. L. Connell on November 28, 1963, that Oswald had spoken previously to small Cuban exile groups in Dallas and had been well received. Odio is also alleged by Mrs. Connell to have mentioned that a friend of Odio's had called a Cuban friend in New Orleans who warned the Cubans in Dallas to beware of Oswald, as they considered him a possible double-agent trying to infiltrate the Cuban exile groups.

There are attached the results of interviews with the following identified individuals:

Mr. Marion Johnson
Civil Archives Division
National Archives and Records Service
Washington, D.C. 20408

Dear Mr. Johnson:

I have received a letter dated [illegible], 1973 from Acting FBI Director Gray, concerning my request for the FBI memo of September 14, 1964, which was enclosed with Warren Commission Exhibit 3146. Mr. Gray wrote that "Mr. Marion Johnson, who is in charge of the documents concerning the Kennedy assassination at the National Archives and Records Service, has advised that the information you seek is publicly available and is published in Commission Document 1546, pages 177 through 208."

On July 19, 1971, I was told by the Archives that the enclosures to CE 3146 could not be located and that pages 176-214 of CD 1546 "may comprise some of these enclosures." That was a reasonable expectation. However, I now have all of these CD pages, and at least some of the missing enclosures are not there. In particular, neither CE 3148 nor the memo of September 11, 1964 (which I have located in the CA-1-IRS file) is repeated in CD 1546.

My reason for doubting that the memo of September 14, 1964 is in the CD is that it had 18 attachments. The CD pages do not directly refer to any attachments at all, and the table of contents does not mention any. (The List of Basic Source Materials mentions only 3 unrelated FBI exhibits.) If there are any relevant attachments to CD 1546, I would appreciate a list.

If you have any specific reasons for believing that the September 14 memo is included in CD 1546, I would like to know of them. Please tell me whether that memo has now been located in the Archives, and whether the FBI showed you a copy for comparison with CD 1546.

If you have not already done so, please check Mr. Liebeler's office files in Entry 44. The incoming mail log (Entry 3, page 210) indicates that this material was given to him.

I have made formal requests for this memo under the Freedom of Information Act, directed separately to the Archives and to the FBI. The Justice Department said long ago that they would consult with you about replacing the missing Archives copy, but this has not been done. Nobody has ever told me that this memo is withheld, and I have no reason to believe that the contents are sensitive enough to explain my exceptional difficulty in getting a copy. I would, therefore, be grateful for any clarification you could provide.

Sincerely yours,

Paul L. Hoch

Acting Director
Federal Bureau of Investigation

Washington, D.C. 20535

Dear Mr. Gray:

Thank you for your letter of April 3, concerning my request under the Freedom of Information Act for an FBI memorandum submitted to the Warren Commission.

You suggested that I contact the National Archives. I am enclosing my letter to the Archives dated April 12, and Miss Smith's reply of April 23. The attachments to the memo I requested are identical to certain pages of CD 1546, which I already have. Although the memo itself appears to be primarily a cover letter, I would like to have a copy. Since the Warren Commission copy seems to have been lost, I am asking that you send a copy to the Archives also.

Miss Smith's letter suggests that the memo of September 10, 1964 may be identical to CE 3148, which bears that date; however, CE 3148 comes from the pages of CD 1546 which are attachments to the memo of September 14. To clear up this confusing situation, I would also appreciate a copy of the first page of the memo of September 10, 1964.

Sincerely yours,

Paul L. Hoch

Dear Mr. Hoch:

This is in reply to your letter of April 27, 1973, wherein you renewed a request for an FBI memorandum dated September 14, 1964, and made a further request for the first page of another FBI memorandum of September 10, 1964. Both of these memoranda are referred to in the second paragraph of the Commission Exhibit No. 3146 along with two other memoranda dated September 8, 1964, and September 11, 1964.

On May 14, 1973, Mr. Marion Johnson, National Archives and Records Service, advised that the memorandum of September 14, 1964, is not in their files but originally was with the eighteen attachments which were reproduced in pages 177 through 208 of Commission Document No. 1560. Mr. Johnson requested a replacement copy of the memorandum which is simply a cover memorandum transmitting the eighteen enclosures which you already have obtained copies of from the National Archives and Records Service. We will furnish a replacement copy of the memorandum of September 14, 1964, to Mr. Johnson, who will provide a copy to you since the body of records is available to the public.

Your other request for the first page of the memorandum of September 10, 1964, was based on the mistaken premise that "Miss Smith's letter suggests that the memo of September 10, 1964, may be identical to CE 3143, which bears that date . . ." Miss Smith's letter to you dated April 23, 1973, states only that "CE 3143, CE 3147, and the memorandum of September 11, 1964, may be the three memoranda dated September 8, 10, and 11, 1946 (sic), mentioned in the same paragraph of CE 3146 as the memorandum of September 14, 1946 (sic)."

Mr. Paul L. Hoch

You requested the memorandum of September 10, 1964, "to clear up this confusing situation." By reference to CE 3148 you will see that this is the memorandum dated September 8, 1964, which is consistent with the language of Miss Smith's letter. Since CE 3148 does not bear the date of September 10, 1964, as your letter stated and since the stated purpose of requesting the first page of the memorandum of September 10, 1964, was to clear up whether it was identical to CE 3148, we assume that it is not necessary to respond to this request in the form of granting or denying it.

LEE HARVEY OSWALD

On April 5, 1973, a confidential source, who is a professional man and in a position to know, furnished a document which is described as follows:

A 4x5 inch piece of paper bearing a yellow letterhead with Western Union International Communications Cablegram imprinted thereon with the following message to one Jack Nellville dated September 20, 1963, via western Union Cables at Tulsa, Oklahoma.

"Meet me at Sheritan Hotel in Dallas at 4 PM on 9/21, room 567 stop expecting something big stop dash be on time dash signed L. H. Oswald"

Source advised he discovered this document while unloading a 14-volume set of medical books from his pick-up truck. Source was not certain whether this document had fallen from these particular books or had fallen into the truck from other books which he had recently collected. Source stated he has been collecting veterinary books for the past several months in order to establish a veterinary library in Tulsa, Oklahoma, and that these books had all been contributed to him by various veterinarians in the Tulsa, Oklahoma area. Source also advised he had previously received some books from [redacted] and [redacted] both practicing veterinarians [redacted] Tulsa, Oklahoma. Source advised that both [redacted] and [redacted] are known to be "right wingers" and at the local veterinary meetings these two individuals had requested to bring in speakers who would talk about Communism, law and order, and other topics completely unrelated to the veterinary field. Source stated they no longer attend the local veterinary meetings.

On April 5, 1973, [redacted] Western Union, 15 West 5th Street, Tulsa, Oklahoma, was shown the Western Union document without revealing its contents, and he advised that this document appeared to him to be a Western Union memo form. [redacted] stated he has been in the Western

Union organization in Tulsa for 11 years and this form became obsolete sometime during 1964, and it appears it had never been sent, or if it had been sent it may have been phoned into his office since it does not bear the Western Union stamp number or time sent. [redacted] further advised that these forms may have at one time been given out for promotional purposes and also given to large companies who had extensive dealings with Western Union.

An official of Western Union at Minneapolis, Minnesota, advised on April 12, 1973 that Western Union, Minneapolis is the central nationwide repository for Western Union money order records only. He further advised Western Union messages are not filed in any central location, but are maintained at the originating office for a period of 6 months to one year.

On April 13, 1973, [redacted] advised the Sheraton Hotel was in existence in Dallas, Texas during 1963. He further advised registration cards for the hotel are maintained for about 6 years. He stated there would be no registration cards for the Sheraton Hotel in Dallas going back to September, 1963, and there were no hotel records that would establish who occupied room 567 on September 21, 1963.

A summary of residences, schools and employments for subject maintained at FBI Headquarters and the Dallas Division of the FBI, reflects information from Mrs. Ruth Paine, Irving, Texas with whom Marina Oswald, wife of subject, was residing at the time of the assassination, who stated she drove Marina Oswald to New Orleans, Louisiana on May 10 - 11, 1963 to be with subject and she returned from New Orleans with Marina Oswald on September 23, 1963.

Information from above file reflects that Mrs. Jesse James Garner, 4911 Magazine Street, New Orleans, Louisiana, had substantiated that subject Lee Harvey Oswald resided at 4905 Magazine Street, New Orleans from May 9, 1963 through September 23, 1963. It is also reflected that subject filed claims with the New Orleans Division of Employment Security on both September 17, 1963 and September 24, 1963, in person.

The above file indicates Lee Harvey Oswald was in New Orleans on September 21, 1963, but does not specifically establish he was in that city on September 21, 1963.

LEE HARVEY OSWALD

FBI Laboratory letter dated May 4, 1973, indicates typewriting on above noted cablegram most closely resembles a Remington pica style of type used on a Cadet portable machine model 4 B. This style of type dates back to 1938. The age of this document could not be determined. FBI Laboratory letter dated May 8, 1973, noted no latent prints of value developed on submitted specimens.

On May 18, 1973, [redacted] Washington District Office of Western Union Telegram Company (WUTC), 1405 G Street Northwest, Washington, D. C. advised that while above document could conceivably serve as a rough draft for a subsequent telegram and/or cablegram it, basically, is a sheet from a Western Union International Communications promotional type note pad, then (1963) readily available at hotels, Western Union offices, etc. But, only up until about October 23, 1963, when Western Union Telegram Company was legally required to discontinue all cablegram operations, Western Union International, Inc., (WUI) came to be established as a separate company. [redacted] noted originating offices are required to hold file copies only up to 7 months, or if charged, thereafter until paid.

On May 21, 1973, [redacted] WUI Washington operations, 2100 M Street Northwest, Washington D. C. stated he was of the opinion such memo pads were generally available and questioned item could have been tendered as the text for an actual telegram and/or cablegram. He was of the opinion that the item in question, most likely, was simply a personal message typed for some unapparent reason and possibly passed along by some other means, rather than an actual WUTC telegram or cablegram.

On June 5, 1973 a Special Agent for the FBI contacted the following agencies regarding [redacted] Jack Nellville, [redacted] with negative results:

[redacted] Records, Tulsa Police Department;
Records, Tulsa County Sheriff's Office;
[redacted], Records, Tulsa Credit Bureau.

Dear Mr. Sneed:

I am planning to be in Washington for a few days near the end of June. Perhaps it would be useful if I could informally discuss my previous requests under the Freedom of Information Act with you, or with someone else in your office or in the FBI who is familiar with them. If that would be possible, please let me know how to arrange an appointment.

Warren Commission Exhibit 825 consists of 10 affidavits by FBI agents indicating that Lee Harvey Oswald was never an informant for the FBI. There is evidence that some of those agents submitted earlier affidavits on the same subject to FBI headquarters. There may also be an affidavit by SA Warren C. DeBrueys of New Orleans. I would like copies of any such affidavits.

The correspondence between FBI headquarters and the Dallas and New Orleans field offices should enable you to locate any such affidavits easily. The instructions for their preparation probably were sent out in January or early February 1964. If there are cover letters or memos for the affidavits in Commission Exhibit 825, they might refer to the relevant instructions from headquarters. I would also like a copy of those instructions.

Sincerely yours,

Dear Mr. Hoch:

Pursuant to a request from the Department of Justice, I am replying to your letter of June 2, 1973, to Mr. Joseph T. Sneed, Deputy Attorney General, Department of Justice, Washington, D. C.

If you wish an appointment to discuss the status of the appeal you have filed with the Attorney General regarding denial of access to all preassassination FBI files on Lee Harvey Oswald, you should direct your request to the Attorney General, Attention: Office of Legal Counsel, Washington, D. C. 20530.

Your letter states that there is evidence that some of the Special Agents, whose affidavits appear in Warren Commission Exhibit 825, submitted earlier affidavits on the same subject to FBI Headquarters to the effect that Lee Harvey Oswald was never an informant for the FBI. You asked for copies of any such affidavits and of any affidavit by Special Agent Warren C. De Brueys.

I regret to inform you that the information you request is contained in an investigatory file compiled for law enforcement purposes and as such is exempt from public disclosure under the provisions of Title 5, United States Code, Section 552(b) (7).

NOTE: Based on Freedom of Information request for access to any affidavits prior to those in Warren Commission Exhibit 825 from those Agents on the subject of whether or not Lee Harvey Oswald was an FBI informant. The file copy of the cover letter for these affidavits, itself a part of the above-cited Exhibit, is filed at 105-82555-1914 (Vol. 66). That letter makes reference to a letter from the Director to the President's Commission dated 2-6-64 wherein the Director stated categorically that Oswald was never an informant of the FBI. The 2-6-64 letter is filed at 105-82555-1999 along with a copy of the affidavit given by the Director on this subject. On page 2 of the affidavit, the Director stated that FBI Headquarters had obtained affidavits from every Special Agent who was in contact with Oswald as well as their respective SACs, and that these affidavits showed that none of these FBI Agents developed Oswald as an informant.

(NOTE continued on next page)

Mr. Paul L. Hoch
Berkeley, California

NOTE (continued)

Five of the Agents who executed affidavits did prepare earlier sworn statements and/or affidavits which were unacceptable because of form, language, or lack of notarization. None of the changes made in the final form affected the substance of the affidavits. None of the earlier versions were returned for corrections to the field offices involved. New affidavits were furnished instead. In each instance instructions from the Bureau were by telephone inasmuch as the Director had indicated to the Warren Commission on 2-6-64 that such affidavits had been secured.

Correct spelling of SA De Brueys verified through Movement Unit, Administrative Division.

Dear Mr. Rhoads:

Based on a recent review of certain FBI material included among the documents of the Warren Commission which have been withheld from public access under established guidelines, it has been determined the following documents can now be made available for research purposes:

1 - Commission Document No. 557 consisting of a letterhead memorandum dated March 4, 1964, at Dallas along with copies of twenty-seven photographs taken during the autopsy of Lee Harvey Oswald. It is suggested that access to these photographs be limited to qualified medical researchers who have a legitimate interest in reviewing this material.

2 - Commission Document No. 880 which is a letter dated April 30, 1964, to the Honorable J. Lee Rankin, General Counsel of the Warren Commission, which enclosed copies of three letterhead memoranda setting out the results of FBI efforts to locate any safe-deposit boxes used by Oswald. These enclosures were previously made public.

3 - Commission Document No. 1212 which consists of a report dated June 23, 1964, prepared by our New York Office which set out information concerning certain traveler's cheques issued to an individual who had been in contact with Oswald in Mexico.

NOTE: These three items relating to our investigation of Oswald are included among certain Warren Commission documents which were reviewed by a representative of the Intelligence Division in connection with a request for public access by a private researcher. Dallas LHM of 3/4/64 (Item No. 1) reported information concerning examination of Oswald both in hospital and at autopsy. There is no reason this cannot be released although we are suggesting that Archives limit access to photographs of Oswald's body. Bulet to Rankin 4/30/64 (Item No. 2) includes information concerning a $25,000 withdrawal made from a Texas bank by Oswald's widow, which turned up during our inquiries; but release of this information would not jeopardize any current sources or investigation. New York report of 6/23/64 (Item No. 3) sets out identifying information regarding travelers cheques issued by the American Express Company to one Arnold Kessler, who was acquainted with Oswald in Mexico. There is no reason this data cannot be released at this time.

Request from private researcher for access to the various Warren Commission documents is being handled separately.

Dear Mr. Slemmer:

Reference is made to your recent request of the Subcommittee on Foreign Operations and Government Information, U. S. House of Representatives, in seeking access to certain documents of the Warren Commission.

Based on this request and a current review of the documents in question, I have advised the Archivist of the United States that three of the documents can now be made available for research purposes. These are Commission Documents numbered 557, 880 and 1212.

With regard to the other document involved in your request, Commission Document Number 794, it is my decision that this item should continue to be withheld from public disclosure in view of its sensitive nature and since disclosure could result in damage to the national security.

If you desire, you may appeal my decision in this matter by writing to the Chairman, Department Review Committee, Department of Justice, Washington, D. C. 20530.

Honorable Elliot L. Richardson

Washington, D. C.

Dear Mr. Attorney General:

Mr. Edward R. Slemmer of 136 South Fulton Street, Allentown, Pennsylvania, 18102 has requested the Subcommittee's assistance in the declassification of certain documents of the Warren Commission. These particular documents were classified at the request of the Federal Bureau of Investigation. The documents are as follows:

CD 557 3B	- re Oswald's alleged suicide	3/4/64
CD 794 2	- "Lee Harvey Oswald" re Elizabeth Catlett Mora	4/10/64
CD 880 3B	- re Oswald's safe deposit boxes, Laredo, Houston	4/30/64
CD 1212 3B	- Lee Harvey Oswald re checks	6/23/64

Mr. Slemmer said the sources of confidential information could be blocked out if that question causes any problem.

It is my belief that our Government should try to declassify as much information as possible when there is no further need for classification.

I hope that you will be able to comply with Mr. Slemmer's request.

Dear Mr. Kelley,

I recently received your letter dated 21 August, 1973 and want to thank you for taking the time to review four Warren Commission documents. I accept your judgment regarding CD 794, and have no intention to appeal your decision.

I believe I omitted the second "e" in your surname, in my letter of 26 July 1973 regarding the 1963 license number of Agent James Hosty's car. My dad has always had a similar problem with his first name, Winfred. He usually gets an extra "i" added - making him into her. He claims the Navy was the only outfit that ever spelled his name, correctly.

Dear Mr. Kelley:

I refer to my letter of July 26, 1973, addressed to your office. Attached was a copy of page nine, Commission Exhibit 2585, from among the records of the Warren Commission.

The FBI investigation of Claim 26, made by Thomas G. Buchanan, in his book, Who Killed Kennedy, noted, in part: "Marina Oswald has stated that she recorded Special Agent Hosty's license number on an occasion when he was at the Paine residence and gave it to Oswald. → The (1962) license number of the automobile assigned to Special Agent Hosty on November 1, 1963, was MU 8605."

The Texas Highway Department advised, on February 23, 1973, that: "The year for the purpose of registration of motor vehicles shall be April 1st to March 31st of the next succeeding calendar year. The same license number is not automatically issued for the same vehicle from one registration period to the next. It would be by pure accident that a registrant would receive the same license number for 1963 that he had been issued for 1962. The plates are issued on a random selection basis."

Therefore, I sought clarification by asking if it was possible to → provide the (1963) license number of the automobile assigned to Mr. Hosty, on November 1, 1963.

I also asked, if it was possible, to supply the telephone number of the Dallas FBI Office - as existed, on November 1, 1963.

In response to your inquiry regarding the license number of the vehicle assigned to Special Agent Hosty on November 1, 1963, I would like to point out that our vehicles, generally speaking, are not assigned to specific Agents but are obtained by our personnel on a random basis from a pool of cars. The records reflecting assignment of automobiles on specific dates in our field offices are retained for a short period of time and then destroyed. Therefore, it is not possible to furnish the information you desire.

I can advise you, pursuant to your request, that the telephone number of our Dallas Office on November 1, 1963, was Riverside 1-1211.

SAC advised records reflecting automobile assignments in the Dallas Office in 1963 have been destroyed. And it is noted that any vehicle being used by Special Agent Hosty on November 1, 1963, would have been a 1963 registration and not a 1962 registration since the Texas Highway Department informed Slemmer that vehicle registration runs from April 1st to March 31st of the next succeeding calendar year.

We don't go on vacations together any more because I don't like his people. Billy Joe Simmons was killed in Dec. 1968 & my husband was on probation at the time & was in Jacksonville, Fla. at the time.

the assasination. I know
3 of them were in Texas then.
I don't know if the friend
of Larry Taylor was just a
friend or was kin to them.
Larry Taylor, Billy Joe Sinnon
& Larry's uncle were related
to my husband. He laughs
at people saying one of their
relatives may have killed
them all. He wasn't working
every time one of them was
found. I'm not sure about
Larry's friend, but the days
the others died he wasn't in
Rockford all day.

He laughs when I say that a person can't get away with murder. He needs to be shown it isn't funny. He thinks it takes guts to kill anyone. He won't talk that way to most folks.

I wish to God I could get out of this place. They are holding me because I believe this. Maybe I shouldn't have told anyone about it but my nerves were so bad I talked too much. By now you probably know I was raised real strict.

If he's picked up after work he probably won't be armed. His only gun is at home between mattresses on his bed.

We are divorced now. He has the children. The judge said he wouldn't rule on it until I got out of here but my heart is so bad I'm going to something like a convalescency home from here. I guess I'll have to go to court when I get there. The main reason why my kids would rather stay with him than me is because I make them go to church. You folks know he can't a fit person to raise kids.

As far as a reward is concerned seeing my kids raised right would be my reward. I don't want blood money. I just hope there isn't another corpse found in Fla. or Ga. in Dec. when he gets another vacation.

I hope there will be an
end to all this. I can't help
but worry as long as the
kids are with him.

So long for now.

SUBJECT: FREEDOM OF INFORMATION ACT REQUEST - Paul L. I

Enclosed herewith is a request for reconsideration of a request originally made on November 1, 1971 for access to five items from the FBI file on Lee Harvey Oswald. Copies of previous correspondence with the requester pertaining to this request are attached for your information.

Pursuant to 28 CFR § 16.5 which took effect on March 1, 1973, the head of the responsible division shall, within 10 working days, either comply with or deny a request for records unless additional time is required.

In cases where additional time is required the requester should be notified of the reasons for the time extension, which should not exceed 10 additional working days. An extension of time in excess of 10 additional working days requires the approval of the Deputy Attorney General.

If the request is denied, the requester should be informed that the denial may be appealed within 30 days to the Attorney General, and that judicial review will be thereafter available.

Copies of all acknowledgements and responses to the requester should be forwarded to the office of the Deputy Attorney General.

Dear Sir:

In my letter of December 27, 1973 to the Acting Attorney General, I responded to his denial of my request under the Freedom of Information Act for all pre-assassination FBI records relating to Lee Harvey Oswald. I objected to the incomplete and misleading nature of his letter of denial. I also asked for a timely response to my request for five specific FBI records on Oswald. That request was made on November 1, 1971, and a decision had been put off while the broader request was pending. Although more than ten working days have passed, I have not received a response.

A copy of my 1971 letter is enclosed. (I have crossed out the last paragraph, which is not relevant.) I would appreciate a prompt reply, based on your consideration of the nature and contents of each specified item.

Sincerely yours,

Mr. Richard Kleindienst
Deputy Attorney General
Department of Justice
Washington, D.C. 20530

Dear Mr. Kleindienst:

I am hereby requesting access to five items from the FBI headquarters file on Lee Harvey Oswald. The following descriptions are from Warren Commission Exhibit 834, a listing of that file prepared by the FBI:

46. A newspaper clipping of the "Times Picayune," of New Orleans, Louisiana, dated August 13, 1963, which reported that Oswald had been arrested in New Orleans for passing out Fair Play for Cuba Committee (FPCC) literature. [My request is for the specific copy in the FBI file.]

47. A letter from this Bureau to the New Orleans office dated August 21, 1963, instructing the New Orleans and Dallas offices to conduct additional investigation of Lee Harvey Oswald as a result of his distribution of literature in New Orleans on August 9, 1963.

54. An airtel from the New Orleans office to this Bureau dated September 12, 1963, requesting that the New York office furnish an appropriate characterization of Corliss Lamont. It was noted that Oswald, in addition to disseminating material from the FPCC in New Orleans, also passed out booklets entitled "The Crime Against Cuba" by Corliss Lamont.

55. An airtel from the New Orleans office to this Bureau dated September 24, 1963, which enclosed copies of a memorandum dated September 24, 1963, concerning Oswald which set forth data surrounding Oswald's arrest in New Orleans on August 9, 1963. Such data was obtained from the New Orleans Police Department.

62. A cablegram to the Legal Attache, Mexico, from this Bureau dated October 22, 1963, furnishing a brief summary of data in the files of this Bureau concerning Oswald.

These records are, of course, included in my request of April 9, 1971, for access to all pre-assassination FBI records on Oswald. My request for review of the denial in that case is pending (and a reply seems long overdue.) In this request I am asking that you examine these five particular items and release as many of them as possible. I look forward to a prompt response.

Please refer to your letter of July 22, 1970 to me. You wrote that you would check with the National Archives about furnishing them with copies of the enclosures to CE 3146. My letters of July 19 and August 23, 1971 the Archives has advised me that these enclosures are still missing. Therefore, I am asking you to send me directly a copy of the first two pages and the last two pages of the memorandum dated September 14, 1964. (I think I have the information in the other enclosures.)

Sincerely yours,

OFFICE OF LEGAL COUNSEL

Mr. Robert H. Bork
Acting Attorney General
Department of Justice
Washington, D.C. 20530

Dear Mr. Bork:

Thank you for your letter of December 13, affirming the denial of my request under the Freedom of Information Act for the FBI records on Lee Harvey Oswald which existed before the assassination of President Kennedy.

I trust that my previous letters, and my personal meetings with members of the Justice Department, have established that my requests for records have been made as part of a serious study of the assassination of President Kennedy and the subsequent investigation. A number of previously withheld records have been made available to me as a result of such requests, both by the Justice Department and by other agencies, including the CIA and the National Archives. I have tried to present the legal and practical arguments for disclosure carefully and concisely, and I have refrained from taking up your time with critical analysis of your letters, complaints about delays, and suits. However, I can not let the implications of your latest letter pass without comment.

It is correct but incomplete to state that on October 11, 1972, I was told that my appeal was being held open, and that on October 24, 1973, a decision was handed down in the Weisberg case. There are, however, two incorrect implications in your letter: that the October 11 response was timely, and that the indicated court decision was the one for which the appeal was held open.

Specifically, my request for review was submitted on July 2, 1971. In letters dated October 5, November 1, and December 30, 1971, I reminded your Department that no response had been received. On May 8, 1972, I said that unless I received a substantive reply within 30 days, I would have to conclude that my administrative remedies had been exhausted. On June 20, 1972, I was told that the request for review "is in an advance stage of preparation" and that I "should receive a reply from the Attorney General shortly." No such reply was received, perhaps because other matters demanded the attention of the Attorney General at that point in time. On October 11, 1972, I was advised that my appeal was being held open "pending the expected decision of the Court of Appeals" in Weisberg v. Department of Justice. I was told that "Since the Weisberg case was argued in April, 1972, a decision can be expected shortly, and you can expect to hear further from the Department on your request very soon thereafter."

On March 16, 1973, I again wrote the Department, quoting from the decision of February 28, which was favorable to Mr. Weisberg. I was told on April 9 that it was "necessary" to continue to hold open my appeal since the Department was petitioning for a rehearing en banc. On July 6, 1973, I met with Mr. Gallinger of the Office of Legal Counsel. I expressed my curiosity about the continuing delay, since you could easily have issued a denial (which is what I was expecting) some time ago, and I was confident that if I were to file a suit there would be no doubt that I had satisfactorily exhausted my administrative remedies. I was told that the case was being held open partly for my benefit, since if the court set up guidelines for the withholding of FBI material (such as in camera inspection) perhaps some of the requested material would become available to me. I was somewhat skeptical of the reasons given for the delay, but I certainly can not quarrel with your decision to issue a final denial now, even though Weisberg has filed for a rehearing en banc. My objection is to your summary of the history of this request.

5703
JAN 2 1974

As you pointed out, the Weisberg case deals with the FBI investigation of the Kennedy assassination. My request was for pre-assassination files on Oswald. You may believe that the case for coverage by the investigatory file exemption is stronger for the pre-assassination files than for the post-assassination ones. They are, however, different, and raise different issues. I have never been told the original or current law-enforcement purpose of the Oswald files. J. Edgar Hoover told the Warren Commission on April 6, 1964 that Oswald's "activities as known at the time of the assassination did not suggest in any way ... that he was violating any Federal law ...." (Warren Commission Exhibit 833; 17H788)

Finally, you stated that in light of the Weisberg decision, you "must affirm" the denial of my request. As you know, the exemptions in the Freedom of Information Act allow but do not require nondisclosure. 28 C.F.R. 50.8, as modified on July 11, 1973, sets forth guidelines for the release of investigatory records of historical interest which are more than 15 years old. The records I have requested are all from 10 to 14 years old. It certainly would have been within your discretionary power to release them.

According to 28 C.F.R. 16.7(c), a denial of a request on appeal shall set forth "a brief explanation consistent with the purpose of the exemption of how the exemption applies to the records withheld and the reasons for asserting it." In my letter of August 24, 1973, I provided specifications of the requested material and a number of reasons for disclosure; I have received no response to the various questions raised in that letter except for an acknowledgment on September 21. I can understand why you might be reluctant to state that the FBI records on the alleged assassin of President Kennedy must remain secret, and to try to explain why. Nonetheless, I do object to the absence of such an explanation from your letter.

When I submitted my original request, I recognized that it might appear unduly broad; that objection has not been presented to me, however. Therefore, on November 1, 1971, I requested 5 specified items from the FBI Headquarters file on Oswald. I believed that those items were of particular substantive interest and would not raise all the general issues that might preclude granting my original request. I was told on June 20, 1972 that the original decision on this request was being delayed pending the resolution of my appeal on the general request. I would now like to have a decision on the request for those 5 specified items. (If you cannot locate my letter of November 1, 1971, I will provide a copy; the requested items are #46, 47, 54, 55, and 62 in Warren Commission Exhibit 834, a letter from Mr. Hoover to the Commission, dated May 4, 1964, which lists the contents of the file.) I believe that I am entitled to a reply or a notification of delay within ten working days.

Sincerely yours,

Paul L. Hoch

Dear Mr. Hoch:

This is in reply to your letter of February 28, 1974, appealing the denial by the Director of the FBI of your request for access to five specific items from the FBI file on Lee Harvey Oswald. In denying access, Director Kelley noted that you had been previously denied access to all FBI records relating to Oswald, which existed before the date of President Kennedy's assassination, and that this denial had been affirmed by Acting Attorney General Bork. He further explained that this position with respect to those records remains unchanged.

After careful consideration, I have concluded that Director Kelley's assessment of the Department's position is correct, and accordingly have decided to affirm the denial of your request with respect to items 47, 54, 55, and 62 listed in your original letter of November 1, 1971. These records are part of an investigatory file compiled for law enforcement purposes and thus exempt from compulsory disclosure under 5 U.S.C. 552(b)(7). This file consists of information alleging possible criminal activity received from confidential sources, material generated in investigating these leads, and transmittals of information internally within the FBI and also externally to authorized agencies as necessary to carry out the duties imposed on the FBI. Release of the information contained in this file, other than that which the Director has already released, would, therefore, seriously compromise the investigatory functions of the FBI.

Mr. E. Clarence Kelly, Director
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Director:

As a student of the Warren Commission and its Report, I wish to examine and copy the original document in Spanish of which Warren Commission Document No. 776(a) is an English translation, which was declassified by the Department of Justice on August 13, 1965.

The English version is dated March 26, 1964, and is entitled "Signed Statement of Silvia Tirado De Duran." For identification purposes, there is attached a copy of page 1 of the Report. The Spanish version, which is sought, appears to be dated March 24,1964, and was made available by Captain Fernando Gutierrez Barrios of the Mexican Federal Security Police.

I have been informed by the National Archives that the original document in Spanish is not contained in their Warren Commission materials, and that it should be available at FBI headquarters.

When the document is located, would you be kind enough to have someone telephone my office (223-1667) so that I might send down and have it examined and copied.

With appreciation and best regards.

Sincerely,

THE ORIGINAL SWORN STATEMENT OF SILVIA TIRADO DE DURAN Mexico

TAKEN BY CAPTAIN FERNANDO GUTIERREZ BARRIOS, MEXICAN FEDERAL SECURITY POLICE, IS NOT AVAILABLE IN THIS OFFICE AND PRESUMABLY IS IN THE CUSTODY OF THE DIRECCION FEDERAL DE SEGURIDAD (FEDERAL SECURITY POLICE - DFS), MEXICO CITY. A XEROX COPY OF THIS STATEMENT IS AVAILABLE IN THIS OFFICE, FILE 105-3702-1A(80) HOWEVER, ALTHOUGH LEGIBLE, IT IS NOT SHARP AND THE SIGNATURES OF DE DURAN IN THE MARGINS OF THE SEVERAL PAGES ARE BARELY DISCERNIBLE. FURTHER, IT APPEARS THAT THE NUMBER OF PAGES OF THE ORIGINAL STATEMENT IS FOUR WHEREAS THE XEROX COPY CONSISTS OF SEVEN PAGES. THIS IS EVIDENT FROM THE FACT THAT NO NUMBER APPEARS ON EITHER OF THE FIRST TWO XEROX PAGES (PRESUMABLY PAGE ONE); THE NUMBER TWO APPEARS ON XEROX PAGE

REVIEW OF CLASSIFIED
ARCHIVES RECORD

We are in receipt of letter from Office of Legal Counsel of Department requesting our opinion as to the possible declassification of a Warren Commission document.

In connection with suit pending against General Services Administration, Justice Department has been requested to furnish opinion as to whether transcript of 1/27/64 Warren Commission meeting can be declassified in whole or part. It is presently classified "Top Secret." The transcript consists largely of a discussion between Warren Commission Counsel J. Lee Rankin and Commission members relative to the best manner of resolving an allegation that Lee Harvey Oswald had been an FBI informant. During the discussion various alternatives are mentioned, including a direct approach to former FBI Director Hoover (which was finally agreed on), inquiry directed to the Attorney General (which was vetoed) and/or inquiries to determine the source of the allegations (also agreed on).

The source of these allegations was a newspaper reporter in Texas, Alonzo Hudkins. We subsequently interviewed Hudkins and all persons connected with this rumor and determined that they had no basis whatsoever for the rumor. Mr. Hoover subsequently furnished a sworn affidavit to the Warren Commission to the effect that the FBI had never utilized Oswald as an informant in any way. There would be no objection from the Bureau's standpoint to having this material declassified or even having it publicly disclosed.

Dear Mr. Fensterwald:

With reference to the request contained in your letter of August 23, 1972, for access to 20 photographs displayed to Pedro Gutierrez Valencia on February 20, 1964, which photographs were mentioned in Warren Commission Document 586, a thorough search of pertinent records has been made at my request.

Please be advised that the photographs have not been located and there does not appear to be any way in which they can be identified at this late date. Inasmuch as it was determined at the time they were displayed to Gutierrez that they had no relevance to the Lee Harvy Oswald Case, no identification of them was made. Be further advised that unidentified photographs of no relevance are routinely destroyed.

The twenty photographs which he is seeking were [redacted] to be shown to Pedro Gutierrez Valencia in an attempt to identify an individual whom Gutierrez claimed to have seen in Mexico City on 10-1-63 and who he claimed was Lee Harvey Oswald. A confidential source abroad has advised as follows:

On February 17, 1964, a second confidential source abroad, who has furnished reliable information in the past, advised that the records of the Identification Division of the Metropolitan Police of the Federal District, Mexico, D. F., revealed that one PEDRO GUTIERREZ VALENCIA had a driver's license issued to him in 1938 and again in 1942.

According to this source, the records of this police agency further revealed that an individual by this same name was fingerprinted in 1957 in connection with a request to carry a firearm.

On February 20, 1964, this second confidential source abroad advised that he had had the thumb print of PEDRO GUTIERREZ VALENCIA, which had been affixed to this individual's letter dated December 2, 1963, directed to President LYNDON JOHNSON, searched against the fingerprint files of the Identification Division of the Metropolitan Police of the Federal District, Mexico, D. F. This source stated that a fingerprint expert of that police agency had identified the thumb print of GUTIERREZ as being a print of the right thumb of this individual, whose fingerprints are on file at the afore-mentioned police Identification Division.

This second confidential source abroad further advised on February 20, 1964, that the fingerprint records of the Metropolitan Police of the Federal District disclosed that fingerprints of GUTIERREZ VALENCIA were taken on June 1, 1938, in connection with the issuance of a driver's license; were taken on February 27, 1942, in connection with the renewal of a driver's license; were taken again on August 16, 1951, in connection with the issuance of a police good conduct certificate in connection with the issuance of a chauffeur's license to GUTIERREZ, and fingerprints of this individual were taken on October 25, 1957, in connection with a police good conduct certificate issued to GUTIERREZ in connection with a permit allowing him to carry and possess a sporting firearm.

The above source stated that the right thumb print of GUTIERREZ VALENCIA which had appeared on his letter to President JOHNSON, as indicated above, was positively identified by a fingerprint expert of the above-mentioned Mexico City police agency with the various fingerprint cards on file with that agency, as described above.

This second source also stated that the police files at Mexico City do not contain any information of a derogatory nature concerning GUTIERREZ.

On February 20, 1964, a third confidential source abroad, who has furnished reliable information in the past, reported that the following investigation was conducted at Mexico, D. F., concerning the credit investigator, PEDRO GUTIERREZ VALENCIA, a resident of Calle Florida #9, Colonia Napoles, Mexico, D. F.:

It was noted by the source that the building at the above address is a four-story apartment building, the ground floor of which is occupied by various small commercial establishments and a restaurant known as the "Valencia." The caretaker of the building, Mrs. GUADALUPE ALVAREZ, and Mrs. MERCEDES OROCIO, who resides with ALVAREZ, advised the source that PEDRO GUTIERREZ resides in Apartment #12 at that address with his wife and that GUTIERREZ has no sons or daughters.

CONFIDENTIAL

CR 566

residing with him. These individuals described GUTIERREZ and his wife as honorable individuals of good conduct and reputation.

Mrs. ALVAREZ and Mrs. OROCIO stated they have known GUTIERREZ and his wife as neighbors in the building for a period of 12 years.

These two neighbors further stated, according to the above source, that GUTIERREZ is a man who is truthful in what he says and worthy of trust. They described him as a person of moderate financial means who is employed as an investigator for a Mexico City commercial establishment, and these neighbors said that GUTIERREZ always pays his rent very promptly.

These neighbors further informed this third confidential source abroad that GUTIERREZ has never been known to drink excessively; that he has never caused any scandal in the neighborhood, and that they have never known him to have had any problems with law enforcement authorities in the community.

These two neighbors also stated they have never had any bill collectors or other persons to call at the building to collect debts from GUTIERREZ and that, in general, they regard him as a good neighbor.

This third source also reported that he had learned from persons in the "Valencia" restaurant, located on the ground floor of the apartment building at Calle Florida #9, that PEDRO GUTIERREZ is generally regarded in the neighborhood as a person of good reputation and wholesome habits.

On February 20, 1964, PEDRO GUTIERREZ VALENCIA, a Mexico City department store credit investigator who resides at Calle Florida #9, Colonia Napoles, Mexico, D. F., advised as follows:

He examined three photographs of an unidentified possible white male American suspect, which depicted this

CR 566

individual in the following poses:

1. Attired in a white shirt and tan trousers, holding what appears to be a courier-type pouch under his left arm and examining a wallet-type folder which it appears may contain one or two documents resembling passports.

2. Attired in the same dress described above and holding the wallet-type folder in his left hand and inserting this folder into the courier-type pouch held in his right hand.

3. Attired in a dark shirt with white collar buttons and apparently walking along with the thumb of his left hand hooked into the top of his left-hand trouser pocket.

GUTIERREZ stated on February 20, 1964, that he has never, to his knowledge, seen the individual depicted in these three photographs and that this individual is definitely not identical with either the American or the Cuban he claims to have seen on October 1, 1963, exiting the premises of the Cuban Embassy at Mexico, D. F. GUTIERREZ has previously stated that he believes the American observed by him with the Cuban on October 1, 1963, as mentioned above, was LEE HARVEY OSWALD and he based his identification on newspaper photograp of OSWALD observed by him in Mexico City newspapers almost t months after the occurrence described above.

GUTIERREZ, on February 20, 1964, also examined 20 photographs of possible white male Americans who had been in Mexico City during September and October 1963, any one of which could have been the American seen by him at the Cuban Embassy. He studied these photographs carefully and stated that, in his opinion, none of these photographs is [redacted] with the American previously identified by him as [redacted] who he claims was observed by him on October 1, 1963, at the Cu

Embassy in Mexico, D. F.

GUTIERREZ was again shown a photograph of LEE HARVEY OSWALD which had appeared in "Life" magazine and which depicts OSWALD passing out pro-Cuban literature on a street in New Orleans, Louisiana. It is to be noted that this is a profile photograph of OSWALD showing his right arm extended and depicts his torso from the waist up.

GUTIERREZ, on February 20, 1964, stated that the "Life" magazine photograph of OSWALD does not appear familiar to him and that he cannot say that this photograph in any way resembles the American seen by him in the company of a Cuban exiting the premises of the Cuban Embassy in Mexico, D. F., on October 1, 1963. GUTIERREZ was told that this photograph is a photograph of LEE HARVEY OSWALD and he thereupon stated that during his brief encounter with the American and the Cuban on October 1, 1963, he at no time observed the profile view of either the American or the Cuban. He explained that when the Cuban bumped into him in the patio of the Cuban Embassy (the details of which he has previously reported), he had only a brief opportunity to observe these persons from a front view and thereafter he walked behind these individuals and could only observe their backs.

GUTIERREZ agreed that a mistaken identification from newspaper photographs of OSWALD which he saw almost two months later would be very possible. He pointed out, however, that he does not believe he is mistaken in his identification of OSWALD because the image of the American he observed during the occurrence at the Cuban Embassy in Mexico City on October 1, 1963, became firmly fixed in his mind because of the importance he attached to his observance that the Cuban and the American were arguing heatedly and that the Cuban passed some United States currency to the American after these individuals had exited the Cuban Embassy premises and were walking along the sidewalk toward the Cuban's vehicle.

GUTIERREZ stated he is certain that the Cuban's vehicle, described by him as a beige colored late model Dina Renault, was the property of the Cuban because he saw the

CR 5

Cuban unlock the car with a key he had taken from his pocket and he saw the Cuban get in the car on the driver's side of the vehicle. He also said that the American was observed by him to walk around the front end of the vehicle and get in on the passenger side.

Concerning the possible amount of United States currency he claimed he saw the Cuban give to the American, GUTIERREZ stated that, although he could not observe the denominations of the bills, he would estimate that this stack of bills was about one-half inch in thickness and when doubled, would have been about one inch in thickness.

GUTIERREZ claimed that he saw the American take this money from the Cubanand after folding the bills one time, the American inserted this currency into his left-hand trousers pocket, using his left hand to do so.

GUTIERREZ again stated that he is certain the Cuban's Dina Renault automobile bore Mexican 1962-1963 license plates because of the color of these plates and on February 20, 1964, he stated he believes this car might have been a 1962 or 1963 model because it appeared to be a fairly new or very late model. He also pointed out that it is hard to estimate the year make of a Dina Renault automobile because the models are so much alike. He commented that the Cuban's car, accordingly, could have been an older, well-kept model.

GUTIERREZ, on February 20, 1964, provided the following descriptive data concerning the Cuban he claims to have observed on October 1, 1963:

Name:	Sounded like "RAMIR" or some similar name.
Age:	Appeared to be about 33 years of age.

CR 5 6

Build:	Short, perhaps 5' 4" or thereabout. Seemed to be strong, active, athletic type, with broad shoulders.
Hair:	Black and slightly kinky. Described as almost of "Negroid" type kinky hair. Hairline appeared to run straight across forehead. Hair appeared to be close-cropped type. Had a full head of hair, with no noticeable receding hairline either in the center or on the sides. Hair did not appear to have any part in it.
Dress:	Dark gray colored business suit. Coat and pants matched. Wore a colored sportshirt, but color not recalled. Sportshirt was not completely buttoned up at the neck. Dress described as very neat and individual not at all "sloppy" in appearance.
Remarks:	Cuban was not carrying anything in his hands in the way of a pouch or package, although GUTIERREZ claims he did see the Cuban with United States currency in his hands.
Complexion:	Light complexion.

CR5L6

GUTIERREZ stated that he cannot, at this time, recall any other particulars concerning the Cuban's appearance; that he does not remember what kind of shoes he might have had on, but that he definitely did not wear a hat and definitely was not wearing a necktie.

GUTIERREZ, on February 20, 1964, furnished the following descriptive information concerning the American whom he claims he observed in the company of the Cuban on October 1, 1963:

Age:	27 to 30 years. Did not appear to be as young as 23 years of age, which would have been OSWALD's age as of October 1, 1963.
Complexion:	Very light, slightly pallid complexion, as opposed to the usual ruddy complexion of most Americans known to GUTIERREZ.
Height:	Estimated to be 5' 10" to 5' 11".
Build:	Slender.
Weight:	GUTIERREZ claimed unable to estimate weight, but that American was not at all fat or stocky.
Dress:	Wore beige or khaki colored pants with dark colored jacket of the windbreaker type. The color of the jacket recalled as being much darker than the trousers.

CR566

CONFIDENTIAL

GUTIERREZ, on February 20, 1964, stated that he is certain in his own mind that the American seen by him on October 1, 1963, at Mexico, D. F., was at least 27 to 30 years of age and that he does not think he is mistaken in regard to this estimation of age.

GUTIERREZ, on February 20, 1964, was again shown photographs of OSWALD taken on August 9, 1963, by the Police Department at New Orleans, Louisiana, which include a front standing view and front and side bust views. It was pointed out to GUTIERREZ that during a previous interview he had identified these photographs as the American seen by him at the Cuban Embassy on October 1, 1963, and it was pointed out to him that one of the views described above is a profile photograph of OSWALD.

GUTIERREZ, on February 20, 1964, said that he cannot identify the profile view of OSWALD as described above because he did not have a chance to observe the profile of the American he saw on October 1, 1963, at the Cuban Embassy in Mexico, D. F. GUTIERREZ maintained that the front bust and front standing photographs of OSWALD, as described above, are, in his opinion, identical with the person seen by him on October 1, 1963, at the Cuban Embassy in Mexico, D. F., and on February 20, 1964, GUTIERREZ did not admit any possiblity that he may be merely associating these photographs with photographs of OSWALD seen by him in various Mexico City newspapers following the assassination of President JOHN F. KENNEDY.

GUTIERREZ, on February 20, 1964, examined a photograph of former Cuban Consul General in Mexico, RUSERIO AZCUE, and stated he has never, to his knowledge, seen AZCUE and that the Cuban observed by him with the American on October 1, 1963, was definitely not AZCUE.

Concerning efforts to more thoroughly pinpoint the date he was at the Cuban Embassy and observed the occurrence previously described, GUTIERREZ advised as follows:

He said that since he was last interviewed on February 3, 1964, he had telephonically contacted the Cuban

CR 566

Embassy in Mexico, D. F., to see if a former Cuban Embassy Commercial Department employee, MARIA LUISA CALDERON, might still be there, with the thought in mind that she may have been the employee interviewed by him on or about October 1, 1963, in connection with his credit investigation. GUTIERREZ stated that he was informed by an official of the Commercial Department of the Cuban Embassy that CALDERON had returned to Havana, Cuba, during late December 1963 and was no longer assigned to the Cuban Embassy staff in Mexico City.

GUTIERREZ, on February 20, 1964, stated that he will, on pretext of a credit inquiry, visit the Cuban Embassy in person in the near future to see if he can observe the female employee contacted by him on or about October 1, 1963, in an effort to establish her identity and to possibly facilitate fixing the date of his previous visit to that Embassy.

GUTIERREZ stated that during his contemplated visit to the Cuban Embassy, he will be alert for the possibility that the Dina Renault automobile, which he has previously described, may be parked in that area.

GUTIERREZ, on February 20, 1964, also stated that he maintains in his home various pay slips given to him by the accounting department of the department store where he is employed, which show payments to him for various credit investigations. He said that he will review these pay slips in an effort to refresh his memory concerning the date he was at the Cuban Embassy and also in an effort to locate some documentary evidence which may serve to establish the date he was there. GUTIERREZ said he would also examine his household receipts, personal letters, and any other documents he has in his home to see if these papers might provide some data to pinpoint the pertinent date he was at the Cuban Embassy, either by association with other events or by refreshing his memory.

RE: LEE HARVEY OSWALD
INFORMATION CONCERNING

Mr. JAMES W. GALLAHER advised the Seattle Office of the Federal Bureau of Investigation that he was temporarily awaiting shipping orders, as a Merchant Seaman, at New Orleans, Louisiana in October, 1963. He advised that while in New Orleans he resided in a hotel, name not recalled, across the street from the Capitol House Hotel. Mr. GALLAHER stated that on an evening just prior to the assassination of President JOHN F. KENNEDY he went to the Capitol House Hotel for the purpose of eating. Upon entering the hotel, he observed three men standing at the magazine counter, one of whom he stated was LEE HARVEY OSWALD, whom he did not know at the time but subsequently identified through newspaper photographs. While standing near these three individuals, he overheard the following statement made by one of the two unknown individuals to LEE HARVEY OSWALD: "If we can't vote the man into office we want, we will vote him in with a rifle."

Mr. GALLAHER related that he is able to describe only one of the two men talking with OSWALD, that being the individual who made the above statement. He described him as follows: white, male, American, 5'10" tall, 30 years of age, sandy hair, with a large stomach. Mr. GALLAHER stated that he feels sure that he could identify this individual should he ever observe him again.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SUBJECT: James W. Gallaher N/R 1D

Attached are two tape cassettes made by Mr. James W. Gallaher of Anchorage, Alaska wherein he relates a conversation which he says he overheard prior to the assassination of President Kennedy between Clay Shaw and Lee Harvey Oswald and a third unknown individual at the Capitol House Hotel, Baton Rouge, Louisiana. Mr. Gallaher said that he heard Clay Shaw say, "If we cannot elect to office who we want we will vote him out of office with a rifle".

Mr. Gallaher appeared at this office on May 13, 1974 and was interviewed by the reporting Agent. He was depressed and seemed paranoid that certain people were out to get him because he had this information about Shaw and Oswald. He said his story was quite involved and that he would have a hard time collecting his thoughts at the present time to relate to the reporting Agent all that was to be told. It was suggested to him that he make a tape recording of what he wanted to say and then turn the tape over to this Service.

The first tape was received at this office on May 16 and the second on May 28, 1974.

Mr. Gallaher is described as a white; male; DOB July 19, 1921; 5'10"; 185lbs., blue eyes; gray hair; presently employed by P.A.E., Co., Barrow, Alaska. He is not of record with the Alaska Psychiatric Institute or the Alaska State Troopers or Anchorage Police Department. He is not of record with FBI, Alaska.

SUBJECT: James W. Gallaher re: Pres. Kennedy assasination

Reference is made to SA Trombly's office memorandum dated May 28, 1974 regarding two cassette type recordings.

The recordings run for approximately 45 minutes and contain extensive background information on the subject of a biographical nature. He finally gets to a point where he relates overhearing a conversation, between who he identifies as Clay Shaw and "Oswald" and an unknown individual, wherein Shay makes the statement: "If we cannot elect to office who we want we will vote him out of office with a rifle."

Gallagher does not report any other observations of significance nor identifies any other individuals. He spends the rest of the recording describing, in a despressed fashion, his personal family problems.

The subject, who appears to be suffering from paranois, feels persecuted for reporting to the FBI an incident allegedly involving "Clay Shaw", "Oswald", and an "unknown male."

The subject stated that in November, 1963, one week before Armistice Day, he was at the Capitol House Hotel, Baton Rouge, La. and overheard three men he identifies as "Clay Shaw", and an Unknown male" talking. He stated he overheard Shaw say "If we cannot elect to office who we want we will vote him out of office with a rifle."

The remainder of the recording relates biographical data about himself, personal problmes, and allegations of "character assasination" he has experienced. He makes no hostile or derogatory remarks about anyone of interest to this Service.

He advised that he has already reported this incident to the FBI at Seattle and San Francisco in 1968.

He also stated he provided a "William Conroy" of the U. S. Secret Service the same information in Saigon. Conroy is not of record with this Service.

Dear Mr. Attorney General:

We have received a request for a mandatory review under Executive Order 11652, Sections 5(D) and 11, of certain security classified records of the President's Commission on the Assassination of President Kennedy (the Warren Commission) that are now 10 years old. These records consist of pages 23-35 of Commission Document 651 (Report of Special Agent James F. Morrisey, Washington, D.C., March 11, 1964; FBI File No. 105-82555) and a letter addressed to Director J. Edgar Hoover of the Federal Bureau of Investigation by J. Lee Rankin, General Counsel of the Commission, on April 24, 1964.

Enclosed are copies of the guidelines prepared by the Department of Justice in 1965 for the review of the Commission's records and a letter of August 17, 1966, from Assistant Attorney General Rosencraft of the Office of Legal Counsel authorizing the National Archives to conduct reviews of the records created by the Commission. I shall appreciate it if you will review pages 23-35 of Commission Document 651 and the letter from Mr. Rankin to Mr. Hoover, which we will make available to you upon the request of your action officer, in accordance with the terms of E.O. 11652 and inform me of any objection you may have to the declassification of these records or any part of them. If you feel that the records or any part of them should retain a security classification, please inform me of the level of classification required and the relevant basis for the classification listed in Section 5(B) of E.O. 11652. If you think the records should be declassified but withheld from research as a whole or in part under an exemption from mandatory disclosure under the Freedom of Information Act (5 U.S.C. 552) other than subsection (b) (1), please inform me of that exemption and of any relevant guideline.

Sirs:

At the suggestion of Tulsa FBI Agent Joe Pearson, I am writing your office to ask for results of investigation on the enclosed cablegram.

The person who gave this to me said he turned the paper over to an FBI agent some time ago and that it was recently returned to him.

I am a reporter for The Tulsa Tribune and am interested in finding out whether this note, apparently a hotel form provided for guests wanting to send messages, is legitimate or a fake.

I thank you for your attention to my request and await your reply.

Dear Mr. Fox:

Your letter of December 10, 1974, has been received, and I appreciate the interest which prompted you to write.

The Western Union cablegram about which you inquired was brought to our attention in April, 1973, after which the FBI conducted extensive investigation relating to the form and its message.

Our investigation did not develop any evidence which would indicate that the message was authentic.

If you have not already done so, you may wish to contact Western Union officials for any information they may be able to furnish.

investigation by various Field Divisions and examination by the FBI Laboratory fail to establish that the Western Union cablegram was authentic. Western Union officials did state that if the message was actually sent, it would have required the addresses of the sender and addressee. In addition, it would also have required a date stamp and time on the face of the cablegram.

Memorandum

TO : Mr. Jenkins

DATE: 2/21/75

FROM : D. W. Moore, Jr.

SUBJECT: ASSASSINATION OF JOHN F. KENNEDY
FORTHCOMING ARTICLE IN "NEW YORK TIMES"
CONCERNING LEE HARVEY OSWALD
PASSPORT MATTER

SAC Gordon Shanklin, Dallas, stated he had been contacted yesterday by former Agent John W. Fain in connection with an inquiry Fain received from Nick Horrock of the Washington Bureau of the "New York Times." Horrock had contacted Fain concerning a memorandum from Director Hoover in June, 1960, relating to possibly another individual having used the passport of Lee Harvey Oswald. Shanklin pointed out that former SA Fain had interviewed Oswald on two occasions prior to the assassination with respect to Oswald's defection to Russia in 1959 and his subsequent return to this country. Apparently the communication in question dealt with a check of passport records concerning Oswald's trip out of this country, and SA Fain's name was listed as the reporting agent in reports disseminated to the Warren Commission which are now stored in the National Archives. Apparently Horrock was reviewing this material in the Archives in Washington. According to Shanklin, Fain informed Horrock that he would have no comment concerning the results of any investigation he might have conducted for the FBI when he was on its active roles.

Former Assistant to the Director Cartha DeLoach contacted my office late yesterday to advise that he had received a similar inquiry from Horrock. Horrock stated that the was doing some research for another writer for the "Times," Ben Franklin, who was doing a story with respect to the alleged stolen passport of Lee Harvey Oswald which might possibly indicate there were two Oswalds and would raise the question as to whether or not the right one was arrested in connection with the assassination of President Kennedy. Mr. DeLoach stated he advised Horrock that he had no information to give him concerning the story that he was doing but stated that the FBI conducted a most thorough investigation concerning the assassination, the results of which were furnished to the Warren Commission.

Dear Sir:

This is a request for information pursuant to the Freedom of Information Act as amended (5 U.S.C. Sec. 552).

I request access to the following files for purpose of inspection, and if I so choose copying:

1) All data, reports, files, photographs, films, interviews, transcripts, tapes, video tapes, memoranda, computer printouts, drawings, diagrams, and all other information now maintained in the National Archives or elsewhere. under your control or jurisdiction, relative to the work of the President's Commission on the Assassination of President John F. Kennedy including all material prepared for that investigation whether or not it was shown to members of the President's Commission; and all other material arguably relevant to the investigation into the deaths of President Kennedy, Lee Harvey Oswald and police officer J.D. Tippit and the surrounding circumstances.

2) All files, documents and other information made available to any staff member, counsel or member of the President's Commission regarding my own activities.

3) All material relevant to Lee Harvey Oswald maintained in the National Archives or elsewhere, under your control or jurisdiction, in anyway arguably relevant to the study by the President's Commission into Oswald's background including the CIA computer printout consisting, I have been informed, of some twenty-six pages regarding Lee Harvey Oswald.

4) All material relevant to Jack Ruby, a/k/a Jacob Rubenstein, maintained in the National Archives or elsewhere, under your control or jurisdiction, in anyway arguably relevant to the study by the President's Commission into Ruby's background.

As you know, the amended Act provides that if some parts of a file are exempt from release that "reasonably segregable" portions shall be provided. I therefore, request that if you determine that any

ack 3/14/75 HB ms

portion of a requested document is exempt you provide me immediately with access to the remainder of the document. I, of course, specifically reserve my right to appeal any decision on your part which denies to me access to any document or to any portion of any document and an examination of a portion of a document may not be taken by you to be a waiver of my right to examine all portions of all of the requested documents.

If you determine that some of the documents or any portion of any document is exempt from release I request that you specifically advise me as to which exemption you believe to be applicable and the specific reasons therefor regarding any material you refuse to make available.

I believe that since it is likely that all of the requested material may have been collected and maintained by you in one location there should be no fee charged.

If you determine that a fee might be involved since the Act permits you to reduce or waive the fees if that "is in the public interest because furnishing the information can be considered as primarily benefiting the public" and since it is apparent that this request is made in the public interest I request that you waive any such fee. Should there be any question about fees or in any other area, please telephone me at (202) 544-5380.

I expect to receive a reply to this request within ten working days as required by the amended Act.

Dear Mr. Lane:

I am in receipt of your letter dated February 26th and received on February 28th, which requested access to certain information which may be contained in FBI files.

The information you have requested is broad in scope and in some instances will be compiled in files of extensive volume. As you know, the recently amended Freedom of Information Act requires disclosure of material contained in investigatory records of the type maintained by the FBI, but provides for exemption of certain material including that specified in Title 5, United States Code, Section 552 (b)(7). This involves a page-by-page review of our records for a determination of what material is subject to exemption under the Act, and a resolution of what, if any, "reasonably segregable" portion of the record may be made available. We have experienced this is, of necessity, a time consuming task involving determination of many complex legal and factual issues.

MAILED 7
MAR 14 1975

We are aware of the time limitations imposed by the Freedom of Information Act with respect to response to requests and the spirit and intent of this legislation in this regard. I can assure you where material can be readily identified as subject to release under the Freedom of Information Act, this will be done.

We are currently experiencing an extremely heavy volume of requests for information, generated by the recent amendments to the Freedom of Information Act, and have added personnel to our staff for the purpose of processing these requests. In view of this backlog of work I am unable to give you a specific date regarding any release of documents, but wish to advise you the matter is being handled as promptly as possible.

Dear Director Kelly:

As you can see from the attached correspondence, I am requesting a copy of the results of the Atomic Energy Commission's analysis of parafin casts and bullets related to the assassination of President John F. Kennedy.

Perhaps the F.B.I. considers this report to be part of an "investigative file" and thus not available to the general public. However, I would assume that if this report bolstered the conclusions of the Warren Commission - that Lee Harvey Oswald acted alone - it would have been included in the Warren Report.

I am left to speculate why this report is still withheld. Perhaps the conclusions contained in the A.E.C. report are unclear, ambiguous or meaningless because of the condition of the evidence when it was received by the A.E.C. Or some other reason.

I cannot believe that the F.B.I. or the Justice Department would withhold a report that would substantially alter the findings of the Warren Report.

If I cannot see this report, could you summarize the conclusions of the A.E.C. report? I would greatly appreciate your opinion as to the investigative value of this A.E.C. report to the F.B.I. and the reasons why, at this late date, it is still withheld from research. Since this A.E.C. report would not reveal the identity of sensitive informants or contain derogatory information of persons now living, I can see no reason for it being classified.

Sincerely

Fred T. Newcomb

Dear Mr. Newcomb:

This is in response to your letter of January 6, 1975, to Dr. Dixy Lee Ray requesting information relative to the Atomic Energy Commission's role in the chemical analysis of the paraffin casts and bullet fragments obtained from the President Kennedy assassination.

The FBI was in charge of the work, which was carried out at the Holifield National Laboratory, formerly the Oak Ridge National Laboratory. Emission spectroscopic analysis and neutron activation analysis methods were used on the paraffin casts (taken from L. Oswald) and bullet fragments to try to determine, respectively, the source of primer residue as well as the correlation in identification of the bullet fragments. The neutron activation technique is one of the most sensitive modes of trace metal analysis and the Holifield National Laboratory had pioneered in its development prior to the date of the assassination.

For further information or requests for possible reports to the Warren Commission on this subject kindly contact Mr. Clarence M. Kelly, Director, Federal Bureau of Investigation, Washington, D. C. 20535.

For your information, I am enclosing a copy of a booklet entitled "The Atomic Fingerprint: Neutron Activation Analysis" which describes the basic principles underlying neutron activation analysis.

If we can be of further assistance, please do not hesitate to contact us.

Dear Dr. Ray,

A recently declassified transcript of an Executive Session of the President's Commission on the Assassination of President John F. Kennedy (The Warren Commission) held on January 27, 1964 makes mention of the Atomic Energy Commission and some new method the A.E.C. was using to study various bullets submitted by the Warren Commission.

This transcript notes that your agency was examining these bullets during January of 1964 and the Warren Commission's General Council felt that the results of the A.E.C. study would be of "great importance to the investigation." (See enclosed page from the transcript.)

Could you tell me the nature of this study the A.E.C. preformed for the Warren Commission? I would also like to obtain a copy of any reports you may have given the Warren Commission on this matter.

Please inform me in advance of any costs of duplication and I will remit promptly.

Dear Mr. Newcomb:

This is in reply to your letter dated February 28th, with enclosures, which was received in my office on March 3rd.

Enclosed pursuant to your request is one Xerox copy of our results of paraffin cast tests from Lee Harvey Oswald conducted in the investigation of the assassination of former President Kennedy.

As your reply from James L. Liverman, Director, Division of Biomedical and Environmental Research, Energy Research and Development Administration, dated February 13th indicates, our personnel conducted the examination and analysis in question. While the Atomic Energy Commission did provide the necessary equipment for these tests, it did not conduct the examination or produce a report.

The results of the examination and analysis of the bullets you request are the spectrographic tests contained in an FBI report dated November 30, 1963, at Dallas, Texas, and the results of the neutron activation analyses. The spectrographic report has been furnished to the National Archives and is available to the public. Additionally, the results are set forth in the report of the Warren Commission, Volume 5, pages 67, 69, 73 and 74, wherein it is specifically stated that the metal fragments were analyzed spectrographically and were found to be similar in composition.

SUBJECT: FREEDOM OF INFORMATION ACT REQUEST - James B. Rhoads

Enclosed herewith is a request under the Freedom of Information Act, 5 U.S.C. 552, for access to four documents in the Warren Commission records presently restricted from public disclosure in the National Archives.

Pursuant to 28 CFR § 16.5 which took effect on February 19, 1975, the responsible division shall, within ten working days, either comply with or deny a request for records unless unusual circumstances warrant an extension of time.

Her occupation in Cuba was listed as housewife and the reason for not returning to Cuba was listed as being anti-Castro and anticommunist. Her INS Number is A-12-570-365, and her husband was listed as Guillermo Herrera, INS Number A-12-570-366. Her residence in Cuba was listed as Edificio Focsa Apartments 18-C, Vedado, Havana, Cuba. The INS file was transferred from Miami to San Juan on March 13, 1961, at which time she was classified a refugee and granted indefinite status.

This file also contained an alien registration form dated July 21, 1944 indicating that Silvia E. Toro was visiting the United States in 1944 with her mother, Sarah. It is noted at this time that Odio was 7 years of age.

Re: Lee Harvey Oswald

On September 8, 1964, Mr. Minnix also made available the file pertaining to Guillermo Herrera Garcia, INS Number A-12-570-366, who is the husband of Silvia Odio.

A review of this file reflects INS Form I-161 lists Herrera's address as Urbanizacion San Antonio F-35, Ponce, Puerto Rico; his occupation was listed as industrial engineer, and the reason for not returning to Cuba was that he is anti-Castro and anticommunist. He arrived in Miami, Florida, November 17, 1960, via PAWA flight 422. His address in Cuba was listed as being the same as for Silvia Odio.

This file also reflects a change of address card for Herrera, dated April 9, 1964, reflecting a change of address from El Vigia #12, Ponce, Puerto Rico, to Apartment G-35, El Monte Apartments, Hato Rey, Puerto Rico. His employment as of April, 1964, was listed as engineer with Molinos de Puerto Rico in Catano, Puerto Rico.

His file indicates Herrera was born October 27, 1934, Santiago de Cuba, father - Guillermo Herrera, mother - Silvia Garcia. The file reflects his father is deceased, and that his mother resides at 1828 West Flagler, Miami, Florida.

This file further indicates that Herrera attended high school in Staunton, Virginia, 1948 to 1952, and attended Georgia Tech University from 1952 to 1957 where he received a degree in Industrial Engineering.

According to this file, in 1962, Herrera was employed by Western Fher Laboratory, Incorporated, Ponce, Puerto Rico, and was sent to Germany by this corporation for a period of six months to attend a course at the main office of this corporation. The file reflects he departed in May of 1962 and returned to Puerto Rico in November of 1962. His FBI Number, according to this file, is [redacted] and his Identification Record contains only his application for entry into the United States in November, 1960, and in November, 1962, upon his return from Germany.

Re: Lee Harvey Oswald

The files of the following agencies were caused to be checked on September 8, 1964, by the persons indicated for the names Silvia Eugenia Odio del Toro, Silvia Eugenia Odio de Herrera, Guillermo Herrera, and Guillermo Herrera Garcia, with negative results:

Office of Intelligence, Police of Puerto Rico (POPR), by Angelina Medina, Clerk, and by Captain Jose E. Hernandez, Chief, Office of Intelligence, POPR;

Identification Division, POPR, by Luis Febus, Clerk;

Detective Division, POPR, by Lieutenant Antonio Maldonado;

Retail Credit Corporation, Hato Rey, Puerto Rico, by Rosario Avila, Clerk;

United States Secret Service, San Juan, Puerto Rico, by Special Agent Victor Gonzalez.

On September 9, 1964, Manuel Ray, Calle La Rabida #310, Hato Rey, Puerto Rico, advised that he is the head of the organization known as Junta Revolucionaria Cubana (JURE). He was interviewed in the presence of his wife.

Mr. Ray stated that on September 4, 1964, he was interviewed by agents of the FBI in Miami, Florida, just prior to his departure from Miami for Puerto Rico. He stated that he advised the agents at this time that he had never known any individual connected with JURE by the name of Leopoldo. He stated this was a very uncommon name and, as far as he can remember, he does not know any individual by that name.

In regard to Silvia Odio, he stated that he has met this person on five or six occasions, mainly social, and that he originally met her at the home of

Jeronimo Esteve, Jr., in San Juan, Puerto Rico. He indicated she had been active to a certain degree with JURE in Ponce, Puerto Rico in 1962 prior to her departure for Dallas, Texas. He indicated he never had too much faith in Odio in regard to her activities in the organization.

Mrs. Ray stated that she is a good friend of Silvia Odio's mother who is presently a prisoner of the Castro regime in Cuba. Mrs. Ray considers Odio a very fine person but irresponsible and with a tendency toward exaggeration. She stated Odio will invent stories and will say whatever she thinks.

Mrs. Ray further indicated that, after the birth of Odio's last child, she was sick in bed in Ponce for several months, and it was general opinion amongst the individuals in Ponce that she was half out of her mind. She indicated that the reasons for the divorce from her husband was entirely a personal problem between Odio and her husband and that it was occasioned primarily by the departure of Odio's husband from Ponce on a trip to Germany for a period of about six months.

Both Mr. and Mrs. Ray indicated that Jeronimo Esteve could possibly furnish additional information concerning Odio.

On September 9, 1964, Guillermo Herrera Garcia, Apartment G-35, El Monte Apartments, Hato Rey, Puerto Rico, advised that he is the former husband of Silvia Odio del Toro.

Mr. Herrera stated that he married Silvia Odio on October 5, 1957 in Havana, Cuba. After Fidel Castro came to power in Cuba, he, Herrera, left Cuba in November, 1960, went to Miami, Florida, and almost immediately to Ponce, Puerto Rico. After he had located a place to live and a job in Ponce, he sent for his wife, Silvia, and children to join him. She arrived in Ponce about January 1, 1961, and they

resided for approximately one year at Urbanizacion San Antonio F-35, in Ponce. They subsequently moved, for the balance of their stay in Ponce, to El Vigia #12, Ponce.

He advised that his former wife was from a very wealthy family in Cuba and had been the center of attraction not only in the family but in most of the social circles in Havana prior to their marriage. He stated when they arrived in Ponce, he was working as an industrial engineer at Western Fher Laboratory, Incorporated; and that they were on an extremely tight budget and his wife had to do most of the housework by herself. He advised in May, 1962, he was sent by his employer to their home plant in Germany for a six months' course of instruction. During this period, he left his wife and four children in Ponce. He stated he had received information from friends and neighbors in Ponce that she had had a nervous breakdown during this period and that she traveled to Miami for approximately three weeks where she resided with her brother, Cesar Odio. On this trip to Miami, she took one child with her and left the other three children with friends or relatives.

Upon his return to Ponce from Germany in 1962, he stated he received information from various individuals in Ponce that his wife had been associating with another man who was also married. He stated that upon his return, they had several quarrels; and his wife left Ponce and went to Dallas to visit relatives. She returned several months later and instituted a suit for divorce. Herrera stated that, at this time, he filed a countersuit alleging infidelity on the part of Odio, at which time she dropped her suit and did not contest the suit filed by him. He stated that the divorce was granted in Suprior Court, Ponce, on August 29, 1963, and that the custody of the four children was awarded to him.

However, he stated, that it is his belief that the children should be with their mother, and that he has a private agreement, in writing, with Odio that she may retain custody of the children as long as she is willing and capable of raising them.

Herrera further advised that upon his return from Germany, Odio made two abortive attempts to take her own life. He stated that on one occasion, he and the children were out and upon their return, they found Odio in bed attempting to cut her wrists with a very dull knife. Herrera stated that there were many sharper knives in the house. On another occasion, Odio swallowed a bottle of pills, type not recalled at this time, at which time he rushed her to the hospital in Ponce. After treatment and analysis, it was determined that the pills were not harmful.

He further advised that she had been under psychiatric care in Ponce as well as in Dallas and exhibited a letter from a Dr. Lawrence W. Martin, Director of Out Patient Division, University of Dallas, Southwestern Medical School, dated April 1, 1963, in which Dr. Martin advised that Odio does have some emotional problems but that they are not self-induced, and that she mainly suffers from an anxiety neurosis.

Herrera advised that after the granting of the divorce, Odio returned to Dallas and he stated he had received information that sometime in the Fall of 1963, she underwent a hysterectomy operation and convalesced in the home of L. R. Rogers, Dallas, address unknown, but reportedly a wealthy cement plant operator. Rogers' brother is Robert D. Rogers, 3821 Whitehall Drive, Dallas.

Herrera further advised that Odio's parents were arrested by the Castro authorities in the Fall of 1961 while he and his wife were residing in Ponce. He stated this did have an emotional effect on Odio

and could have contributed to some of her nervous disorders. Odio's father was sentenced to 30 years and is presently incarcerated in the prison on the Isle of Pines, and her mother received a 6 year sentence and is confined in Havana, Cuba.

He further stated that during 1962, while he was in Germany, his wife joined JURE and assisted this organization in the collection of funds in the Ponce area stating that she felt this was the manner in which she could best assist her parents.

Herrera described his former wife as being very intelligent, well-educated, but an excellent actress and able to convince anyone of any item if she so desired. He stated she enjoyed being the center of attraction and believes that some of her activities in Ponce were due to this desire to seek attention.

He advised that the only individual he could think of by the name of Leopoldo is an individual by the name of Leopoldo Villoldo, who is a Cuban who recently returned from Dallas, Texas, to Puerto Rico and resides in the Hato Rey area. He advised he believes this individual's first name is Leopoldo but he is not sure. He stated that Leopoldo's wife was a good friend of his former wife.

Herrera stated that even though he described his former wife as being a good actress and convincing, he is of the opinion she would not be able to fabricate a story regarding any connection with Oswald and be able to stick to it through all the various inquiries to which she must have been subjected.

[SJ T-1, who is a former neighbor of Silvia Odio Herrera in Ponce, Puerto Rico, advised on September 9, 1964, that the Herrera family was composed of Silvia, her husband Guillermo, and their four small children. Guillermo Herrera worked for the Fher Laboratory in Ponce, Puerto Rico, while his wife Silvia kept house for their four children.

After moving to El Vigia, Guillermo Herrera went to Germany for about six months to pursue studies there which would advance him in his work at his place of employment.

While Guillermo Herrera was in Germany, his wife, Silvia, became very nervous and agitated. She wanted the whole neighborhood to have pity on her and to look after her, presumably because she was alone with four small children to look after. She would create the impression at times that she was having a mental breakdown, and it was rumored that at one time while her husband was away, she wanted to kill herself.

She was described as a person who was acting all the time, who could cry one moment and smile the next, and who could immediately pass from a very depressed feeling to a very gay attitude.

She herself (Silvia Herrera) made the statement that she never did love her husband, but that he loved her and that she was more or less pressured into marrying him by her family in Cuba.

She was never observed to show affection for her four children and indicated on occasion that she did not want them near her.

Ernestina Garcia, Clerk of Court Office, Superior Court, Ponce, Puerto Rico, on September 9, 1964, produced divorce record Number 63-2000, which reflected Guillermo Herrera Garcia as "plaintiff" and Silvia Odio as "defendant."

Re: Lee Harvey Oswald

The divorce action was initiated on July 16, 1963, by Guillermo Herrera Garcia, a resident of Ponce, Puerto Rico, and the defendant was identified as residing in Dallas, Texas.

The records indicated that Guillermo Herrera Garcia and Silvia Odio were married on October 5, 1957, in Havana, Cuba, after which, they moved to Ponce, Puerto Rico. They have four children, namely, Silvia Alejandra, 4½ years old; Maria Eugenia, 3½ years old; Guillermo, 2½ years old; and Patricia, 1½ years old, and all bore the last name of "Herrera Odio".

The record set forth that:

> "For a long time in a continuous manner, the defendant has been treating the plaintiff, not only cruelly, but also unusually, with words and with actions as well, in public and in private; whose conduct consists moreover in complete abandon of her obligations as a wife and mother, as well as an attitude of indifference and negligence towards the plaintiff, terminating this attitude in that the defendant left her home to go to the city of Dallas."

On August 29, 1964, and before Victor Vargas Negron, Judge, Superior Court, Ponce, Puerto Rico, Guillermo Herrera Garcia was granted divorce from Silvia Odio, at which time he was granted custody of the above-referred children.

[SJ T-2, a psychiatrist practicing in Ponce, Puerto Rico, advised on September 9, 1964, that Silvia Herrera was referred to him by another doctor in Ponce as a possible psychiatric case. She visited his office, but did not want to be treated as a psychiatric case] It was his impression that she came from a very wealthy family in Cuba, and he described her as emotionally unstable and unconventional, and he stated that she gave all the appearances of not being able, either mentally or physically, to take care of her four small children.

When she came to Ponce, she ingratiated herself with wealthy families in the same area, and more or less expected from them all kinds of help and assistance.

He advised that with regard to the records he maintained concerning his official contact with her, he would prefer for his own protection that a court order be produced in order for him to reveal the contents of the records he maintained in his contact with Silvia.

[SJ T-3, a medical doctor practicing in Ponce, Puerto Rico,] furnished the following information regarding Silvia Herrera on September 9, 1964:

When she first came to Ponce, she was known to a well-to-do Cuban family who lived in the same area and who introduced her to other influential families in Ponce.

On one occasion, [he was called out to treat her professionally when it was reported to him that she had had an attack of nerves. After he examined her] it was his determination that she had no such attack; instead, she feigned the attack to get attention from her neighbors in El Vigia, Ponce.

He described her as a very mixed up young lady. She was reported, by unrecalled sources, to have been under psychiatric care in Miami, Florida, and she also had consulted a psychiatrist in Ponce.

She is the mother of several small children, and she has abandoned both her children and husband and is living somewhere in the United States. She apparently comes from a well-to-do family in Cuba, and she does not have the stamina to accept the loss of all that to which she was accustomed in Cuba.

It was rumored in Ponce that, while her husband was away from Ponce, she became emotionally involved

with another married man of Cuban extraction, which involvement caused his separation, for a time, from his own wife. At about the time Silvia Herrera was rumored to be going with another married man, she claimed she had had an attack of amnesia for about a 12 to 24 hour period. [SJ T-4] however, completely discounted her allegation in this respect because he has consulted with a psychiatrist in Ponce concerning her alleged amnesia attack, and the psychiatrist's observation was that there was no reason why she should have had such an attack.

On September 10, 1964, attempts were made to locate Leopoldo Villoldo in Hato Rey, Puerto Rico. It was ascertained that Mr. Alfredo Villoldo resides at 233 Almirante Pinzon, Hato Rey, with friends. On contact at this address, it was ascertained that Mr. Villoldo had recently returned to San Juan from Dallas, Texas, and was acquainted with Guillermo Herrera and his former wife, Silvia Odio; however, it was ascertained that Mr. Villoldo was presently on a business trip throughout the Island of Puerto Rico and was not expected to return until the following week.

On September 10, 1964, Mr. [redacted] Hato Rey, Puerto Rico, advised that he is the second cousin of Silvia Odio. He stated that he was quite close to Odio's family, both in Cuba and with her while she resided in Ponce, Puerto Rico. He advised that Silvia was one of nine children, but the oldest daughter of a very wealthy family in Havana, Cuba, and was the center of attraction of the family and of many social activities in Havana. She was given anything that she wanted and was fawned upon by everyone who knew her. He described her as selfish, egotistical, very attractive, well-educated, and a very convincing speaker but very emotional. He stated that her father was a self-made man and had no scruples when

it came to business. She married Guillermo Herrera in 1957, and he described Herrera as being basically the same type of person as Silvia.

On arrival in Ponce in 1960, in view of the fact that her husband was working as an engineer and they were on a very tight budget financially, Silvia, who was accustomed to the ten servants in her family's home, was forced to do all of her own housework as well as care for her children by herself. He advised she was unable to cope with these problems and continually expressed her dissatisfaction, seeking sympathy and assistance from her friends.

He advised that in 1962, Silvia's husband was sent to Germany by his company which aggravated the situation in Ponce inasmuch as they had to operate on a tighter budget in order that he could finance his trip to Germany. Mr. [redacted] stated that there was considerable split amongst the members of the family in regard to this trip to Germany in that numerous members of the family stated that Herrera should not have made the trip and sympathized with Odio while others stated it was necessary for him to make the trip in order for him to advance professionally. During this period, she suffered a nervous breakdown, and he, [redacted] convinced her she should travel to Miami for a rest and visit some of her relatives. Odio made this trip, taking one child with her and he, [redacted] took care of the other children. While in Miami visiting her brother Cesar, they became involved in a family fight, and she again suffered a breakdown in Miami.

Mr. [redacted] stated that he has heard rumors from other members of the family and from acquaintances in Ponce that she did have an affair with another individual in Ponce, but that he has no personal knowledge of this.

Upon the return of Herrera from Germany, Odio and her husband fought continually for several weeks, at which

time she asked for a divorce, but he refused to grant it. At this time, Odio traveled to Dallas, Texas, to visit relatives where she remained for several months. In the Spring of 1963, she returned, at which time she filed for a divorce and Herrera filed a countersuit. The divorce was finally granted on Herrera's suit, and he was awarded custody of the children. Mr. [redacted] stated that there is some type of private agreement between Odio and her former husband enabling her to maintain custody of the children.

He stated that he has not seen her since she went to Dallas in 1963 but has heard several reports that she has again attempted, on numerous occasions, to become the center of attaction of the social circle in which she travels. He stated that in his opinion, this is one of her main difficulties, that she cannot rationalize herself to the fact that she is no longer the daughter of a wealthy individual who will grant her every request and, she will perform various actions in an attempt to become the center of attraction. He advised that the members of the family are split in their opinion of Odio, some being of the opinion that she is almost crazy, and the others offering their condolences at her troubles and offering her assistance.

Mr. [redacted] stated that her parents were arrested by the Fidel Castro regime in late 1961 while Odio resided in Ponce, and he knows that this was quite an emotional shock for her. He stated that her father received a sentence of 30 years and is presently incarcerated on the Isle of Pines, and her mother received a sentence of six years and is in custody in Havana, Cuba. He advised that, during the period of the divorce, he, himself, was in Europe on a business trip, and suggested that his sister, [redacted] be contacted as she assisted Odio during this period. He further suggested that his

other sister, [redacted], who resides in Miami, Florida, would be able to furnish information regarding her activities in Miami.

Mr. [redacted] stated the name Leopoldo is a very uncommon name, and he knows of no individual by that name who has been a member of any anti-Castro organization. He advised the only Leopoldo he knows is one Leopoldo Pinciro who was a classmate of his at the Havana Business Academy in 1948. He stated he last saw this individual in 1959 in Havana, at which time Pinciro was an official in the Cuban militia. He has heard nothing concerning this individual since.

RE: LEE HARVEY OSWALD
INTERNAL SECURITY - R - CUBA

On September 11, 1964, Cesar Odio, age 28, resident at 1600 Southwest 82nd Place, Miami, Florida, and employed in the office of Maule Industries, Miami, stated he is the brother of Sylvia Odio, presently living in Dallas, Texas.

Mr. Odio said he left Cuba in October, 1960, and Sylvia, age 27, and her husband and their children left Cuba about December, 1960, and took up residence in Ponce, Puerto Rico.

The father and mother of Odio were arrested by the Castro regime in October, 1961, for activities against the government and they have been sentenced to 20 and 9 years imprisonment, respectively.

Mr. Odio said he is the oldest of ten children, all now in the United States.

He said Sylvia divorced her husband in 1962 and moved to Dallas, Texas, with her four children about July, 1963. He did not see her again until August, 1964, when he visited Dallas. He said he had no information concerning the incident wherein Sylvia was visited (about September, 1963) at her apartment in Dallas by three individuals, one of whom she believes was Lee Harvey Oswald, who said they were associated with the anti-Castro organization JURE (Cuban Revolutionary Junta). He said he can only presume Sylvia is correct about what she saw. Mr. Odio said he knows no acquaintance of Sylvia or other individual named Leopoldo, who might be identical with the person of the war-name "Leopoldo" stated by Sylvia to be one of the three persons, including Oswald, who had visited her apartment.

ENCLOSURE 15 K

Mr. Odio stated his sisters, Sylvia and Sara, age 23, who recently married James Mier at Dallas, both hoped to see President Kennedy when he visited Dallas on November 22, 1963. They were waiting at the Trade Mart in Dallas when news was received that President Kennedy had been shot. He said his sisters hoped to ask President Kennedy to obtain release of their parents, or at least their mother, from Cuba. He said Sylvia fainted at the news of the shooting and subsequently had a nervous breakdown from which she is still suffering. He said Sylvia's breakdown may also have been due in part to her divorce and to the imprisonment of her parents.

On September 11, 1964, Mrs. Silvia G. Herrera, 118 Southeast 12th Terrace, Miami, stated she is the mother of Guillermo Herrera, who divorced Sylvia Odio at Ponce, Puerto Rico, in July, 1963. Mrs. Herrera said she had no knowledge of the incident wherein Sylvia Odio believes Lee Harvey Oswald had come to her Dallas apartment with two other men, who said they represented JURE. Mrs. Herrera said she could not think of anyone named Leopoldo who might be identical with the three men who visited Sylvia Odio.

Mrs. Herrera advised that both her son, Guillermo, and Sylvia and their children, then three, left Cuba before the end of 1960, and settled in Ponce, Puerto Rico, where Guillermo Herrera, age 30, an industrial engineer, graduated from Georgia Tech and obtained employment with Western Fher Laboratories, Inc. In April, 1962, Mrs. Herrera visited her son and family in Ponce, at which time a fourth child was born to Sylvia. Then, in June, 1962, Guillermo Herrera was sent by his employer to Germany for training to last approximately six months. It was during this period, after Mrs. Herrera had returned to Miami and Guillermo had gone to Germany, that Mrs. Herrera learned Sylvia Odio was apparently neglecting her four children. Mrs. Herrera explained that her other son, age 20, was staying at the residence of Sylvia in Ponce, working and attending college at the time.

Re: Lee Harvey Oswald

Through her son, Mrs. Herrera learned Sylvia had put the children out with friends and was herself going out nights. When Guillermo Herrera returned to Ponce from Germany in December, 1962, he requested Mrs. Herrera to come to Ponce to help care for the children. In March, 1963, Sylvia left Ponce and went to Dallas, Texas, where she obtained psychiatric treatment from one or possibly two doctors; one of these doctors may have examined Jack Ruby, assassin of Oswald. When Sylvia went to Dallas, she said she intended to write novels for magazines, and took a typewriter with her. She frequently telephoned to Ponce to say she could not see her husband and children for two or three years. Her husband, however, had received a letter from Sylvia's psychiatrist in Dallas, advising that Sylvia could lead a normal life.

In approximately June, 1963, Sylvia appeared in Ponce without notice. She then filed suit for divorce but her husband filed a countersuit, which Sylvia did not contest. The husband was awarded custody of the four children, but gave Sylvia written consent to take the children to Dallas. The husband had lost his job due to the problems of caring for his family.

Mrs. Herrera stated Sylvia Odio is very intelligent and does whatever she sets her mind to. In Mrs. Herrera's opinion, Sylvia is also very conceited and vain of her physical beauty and of her brains. Also, according to Mrs. Herrera, Sylvia is a naturally excellent actress and succeeds in obtaining sympathy of others.

Mrs. Herrera said that she, herself, and her two sons enjoyed considerable wealth in Cuba, and Sylvia and her family were also very wealthy. Sylvia's father was self-made, having built a substantial trucking business in Cuba. Sylvia's parents have been involved in Cuban revolutionary affairs through several regimes.

Re: Lee Harvey Oswald

Mrs. Herrera said she believed Sylvia was unable to adjust to the relative hardships of exile from Cuba. Also the imprisonment of her parents had considerable effect on Sylvia's stability. Mrs. Herrera stated that while she could not judge the accuracy of Sylvia's belief that Oswald and two other men had visited her apartment, she is satisfied that Sylvia could intelligently fabricate an incident if so motivated.

On September 11, 1964, Mrs. Grethel Esteves de Martinez, 9250 Southwest 31st Terrace, Miami, stated she is a second cousin of Sylvia Odio. Sylvia's youngest sister, age 6, resides with Mrs. Martinez. Mrs. Martinez said she last saw Sylvia when Sylvia and her children passed through Miami en route to Dallas, Texas, from Puerto Rico, in the Summer of 1963. Mrs. Martinez said she could not comment on the accuracy of Sylvia's information concerning Lee Harvey Oswald appearing at her apartment with two other men. She said Sylvia has had psychiatric treatment since going to Dallas, but seemed quite normal when she came through Miami in the Summer of 1963. She said she believes Sylvia has decided to change from Catholic to another religion but did not know if Sylvia's emotional state influenced this decision. Mrs. Martinez said she had no idea who Leopoldo, named by Sylvia Odio as a companion of Oswald, might be.

LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

On September 12, 1964, [redacted] Urbanizacion El Cerezal, Rio Piedras, Puerto Rico, advised she is the sister of [redacted] and cousin of SILVIA ODIO.

[redacted] advised that SILVIA ODIO was from an extremely wealthy family in Cuba and was the center of attraction not only in the family but in the social circles of Havana, Cuba. She lived an extremely frivolous life while in Havana. On arrival in Puerto Rico in 1961, there was a very decided change in the economic status of ODIO and her husband, and she was forced to perform all her own work including raising her children. In the opinion of [redacted], ODIO was not capable of performing this housework and always complained, attempting to gain sympathy, not only from family but from friends and neighbors. She also attempted to continue to be the center of affairs but without success due to her economic status.

This change in economic life, the arguments with her husband and the eventual divorce and her inability to adjust brought on a series of partial breakdowns. In late Spring of 1963, ODIO returned to Puerto Rico from Dallas in order to obtain her divorce. At this time, ODIO resided for several weeks in the [redacted] residence in Rio Piedras. During this time, ODIO advised she had been under psychiatric care but that, in her opinion, she had recovered. ODIO claimed that she was working extremely hard in Dallas.

Re: LEE HARVEY OSWALD

Since that time, [redacted] has received several letters from ODIO in which ODIO stated that she was working hard but having a difficult time making ends meet. She indicated she had to leave her children at a nursery while she herself went to work and complained in a majority of the letters about the lack of social life. She indicated in the majority of her letters that she was extremely lonesome and had very few friends in Dallas.

[redacted] advised that it is her opinion that ODIO was never able to cope with the change from her manner of life in Havana to the manner of life in Puerto Rico and Dallas. In view of this, ODIO has continually sought various means to regain her position by eliciting sympathy and attempting to be active in various social activities. [redacted] further stated that the hysterectomy operation undergone by ODIO in Dallas had a great effect on her emotional well-being. She further stated that ODIO has an excellent imagination, writes stories, and reportedly has had some published under a pseudonym. She is a very convincing person to talk to, a good actress, and possesses a tendency toward exhibitionism.

Dallas, Texas
July 14, 1964

LEE HARVEY OSWALD

By letter dated July 3, 1964, the President's Commission advised that the Attorney General of the United States had received a letter from Mrs. RITA MC CARTY, 2308 Foothill Boulevard, Oakland, California. MC CARTY's letter was of such a nature that she was interested in seeing the Attorney General run for President, and furnished laudatory remarks for the Attorney General and former President KENNEDY. She stated she recently returned from Dallas, Texas, where she had been residing with an individual whose identity she did not furnish but who was allegedly a photographer at the hospital where President KENNEDY was taken following the assassination. MC CARTY indicated this individual had two snapshots of two pieces of skull found on the street following the President's assassination.

On July 9, 1964, RITA MC CARTY was interviewed, at which time she stated she recently accompanied her brother-in-law and sister-in-law to Dallas, Texas, where they stayed briefly with one PAULETTE (last name unknown), a friend of her sister-in-law, who was a photographer at the hospital where President KENNEDY was taken following the assassination. RITA MC CARTY stated she did not observe any photographs taken by this individual, but overheard PAULETTE tell her sister-in-law, Mrs. EVA MC CARTY, that she had seen photographs of pieces of skull found on the street following the President's assassination which were brought to the hospital and photographed.

On July 9, 1964, Mrs. EVA MC CARTY was interviewed at Hayward, California, at which time she identified her friend with whom she resided in Dallas as PAULETTE CARUTHERS (phonetic) and stated she is employed as a photographer at the above-mentioned Dallas hospital.

Re: LEE HARVEY OSWALD

On July 10, 1964, a search of the 1964 Dallas City Directory reflected a Mrs. PAULETTE CAROTHERS, 5200 Willis, Dallas, Texas, employed as a Photograph Processor at the Methodist Hospital of Dallas.

On July 10, 1964, THETFORD BOLTON BOONE, D.D., Administrator, Methodist Hospital of Dallas, 301 West Colorado Boulevard, Dallas, Texas, advised that he knew nothing of any bone specimen, allegedly coming from the skull of President KENNEDY, being examined or photographed at the Methodist Hospital of Dallas. He said if this bone specimen was examined at Methodist Hospital of Dallas, it probably would have been examined by A. B. CAIRNS, M.D., Chief Pathologist at Methodist Hospital of Dallas.

He said if this particular bone specimen was photographed at Methodist Hospital of Dallas, it would have been done by one of the two employees in the Medical Photography Department, and they would be M. WAYNE BOLLETER, Chief Medical Photographer, or Mrs. PAULETTE CAROTHERS, Processor in the Medical Photography Department.

On July 10, 1964, M. WAYNE BOLLETER, Chief Medical Photographer, Methodist Hospital of Dallas, 301 West Colorado Boulevard, Dallas, Texas, advised he resides at 4041 Sunvalley Drive, Dallas, Texas, and has home telephone number FR 4-7313.

BOLLETER advised that on Monday, November 25, 1963, Dr. JACK C. HARPER and Dr. A. B. CAIRNS, the Chief Pathologist at Methodist Hospital of Dallas, came to the Medical Photography Department and requested that he take some pictures of a bone specimen.

During the course of taking these pictures, BOLLETER stated Dr. HARPER related that this piece of bone was found by his nephew, BILLY A. HARPER, about twenty-five feet south of the location where President JOHN KENNEDY was assassinated. BOLLETER said, as he recalls it, he took two 35 millimeter color slides of this bone specimen, one slide showing the convex view, and the other slide showing the concave view.

Re: LEE HARVEY OSWALD

BOLLETER stated he was commissioned by Dr. HARPER to take these color slides, and when they were returned from processing he gave the color slides to Dr. HARPER.

In addition to these color slides, BOLLETER said he took ten black and white 35 millimeter pictures of this bone specimen. He said he took these as a matter of record and no prints have been made of these black and white pictures. He said that Dr. HARPER has not seen these black and white pictures.

Later, on November 25, 1963, after he had taken the photographs for Dr. HARPER, BOLLETER stated Dr. HARPER again stopped by the Medical Photography Department and told him that he should keep the information about the above-mentioned bone specimen in strictest confidence and he should not tell anyone. BOLLETER said he has not related the above incident to anyone, other than possibly Mrs. PAULETTE CAROTHERS, who is the other medical photographer employed in the Medical Photography Department.

BOLLETER furnished the above-mentioned black and white 35 millimeter film which contains the ten photographs taken of the bone specimen.

BOLLETER requested, on the instructions of THEFFORD BOLTON BOONE, D.D., Administrator, Methodist Hospital of Dallas, that this film be returned to Dr. BOONE.

On July 10, 1964, Mrs. PAULETTE CAROTHERS advised she has been employed as a Processor in the Medical Photography Department of Methodist Hospital of Dallas, 301 West Colorado, Dallas, Texas, for over five years. She said she resides at 5200 Willis Avenue, Dallas, Texas.

Mrs. CAROTHERS said that sometime in, she believes, December 1963, she learned that a piece of skull bone had been brought to the Methodist Hospital of Dallas and was examined by JACK C. HARPER, M.D., and A. B. CAIRNS, M.D., the Chief Pathologist at the Methodist Hospital of Dallas. Mrs.

Re: LEE HARVEY OSWALD

CAROTHERS said this piece of skull bone was found near the site where President KENNEDY was assassinated, and was allegedly a piece of bone from President KENNEDY's skull. Mrs. CAROTHERS stated she learned of this, she believes, from WAYNE BOLLETER, the Chief Medical Photographer at Methodist Hospital of Dallas, who had taken two 35 millimeter color slides of this bone specimen.

Mrs. CAROTHERS said she did not see this bone specimen but saw the two 35 millimeter color slides which were taken by WAYNE BOLLETER.

Mrs. CAROTHERS advised she did not see any hospital photographs of President KENNEDY, and, other than the above two slides, saw only photographs of President KENNEDY that were available to the general public.

Regarding the above-mentioned two 35 millimeter color slides, Mrs. CAROTHERS said she made mention of this to only one person and that was to Mrs. EVA MC CARTY, Hayward, California, who was visiting her in the early part of June 1964. She said that she told Mrs. MC CARTY that she saw a picture of a bone which someone said supposedly came from the skull of President KENNEDY and which piece of bone was found near the assassination site.

Mrs. CAROTHERS advised that Mrs. MC CARTY's sister-in-law, Mrs. RITA MC CARTY, was also visiting her at the same time, and may possibly have overheard her mention the color slides to EVA MC CARTY. Mrs. CAROTHERS said she has not mentioned this to any other person.

On July 10, 1964, A. B. CAIRNS, M.D., 5027 Lehoma, Dallas, Texas, telephone number LA 8-3256, advised he is the Chief Pathologist at Methodist Hospital of Dallas, 301 West Colorado Boulevard, Dallas, Texas.

Dr. CAIRNS advised that on November 25, 1963, he received a telephone call from Dr. JACK C. HARPER, who asked if he would take a look at a piece of bone. Dr. CAIRNS

stated that Dr. HARPER had informed him that this piece of bone was found by his nephew, BILLY A. HARPER, near the site where President KENNEDY was assassinated.

Dr. CAIRNS advised that he and Dr. HARPER examined the bone at Methodist Hospital of Dallas. Dr. CAIRNS stated the bone specimen looked like it came from the occipital region of the skull. He said he performed no tests on this piece of bone and evaluated it purely from its gross appearance.

Dr. CAIRNS said that after he examined the bone, he went about his own business, after suggesting to Dr. HARPER that he report the matter to the Federal Bureau of Investigation.

Dr. CAIRNS advised that he does not know if any pictures were taken of this bone specimen, but believes that a week or so after he and Dr. HARPER had examined the bone, Dr. HARPER may have shown him a color slide of the bone specimen.

On July 10, 1964, JACK C. HARPER, M.D., with offices located at 526 East Jefferson, Dallas, Texas, telephone number WH 1-0323, advised he resides at 534 Monssen Drive, Dallas, Texas, telephone number WH 2-2878.

He advised he had been interviewed previously by a representative of the Federal Bureau of Investigation. During the course of this interview, Dr. HARPER stated he advised that his nephew, BILLY A. HARPER, 2378 East Ledbetter, Dallas, Texas, who at that time was a pre-medical student at Texas Christian University, Fort Worth, Texas, had been taking photographs in the area where President KENNEDY was assassinated, and had found a piece of human bone. Dr. HARPER stated his nephew indicated he had found this piece of bone at approximately 5:30 P.M. on November 23, 1963, in the area approximately twenty-five feet south of the site where President KENNEDY was assassinated.

Re: LEE HARVEY OSWALD

Dr. HARPER stated his nephew immediately brought the bone to him and he and the Chief Pathologist at Methodist Hospital of Dallas, Dr. A. B. CAIRNS, had examined the piece of bone and both definitely felt that it was a piece of human skull.

Dr. HARPER advised that he felt in view of the proximity of the place where the piece of bone was located, it might possibly be a part of President KENNEDY's skull.

Dr. HARPER advised that after he and Dr. CAIRNS had examined the above piece of bone, he had M. WAYNE BOLLETER, Chief Medical Photographer, Medical Photography Department, Methodist Hospital of Dallas, make two 35 millimeter color slides of this piece of bone, one slide being a photograph of the concave side and the other slide being a photograph of the convex side.

Dr. HARPER stated he would make available these slides to the Federal Bureau of Investigation, but requested that they be returned to him. He said they were then located at his residence and he would telephone his wife and request that she turn the slides over to the Federal Bureau of Investigation.

On July 10, 1964, Mrs. JACK C. HARPER, 534 Monssen Drive, Dallas, Texas, advised that shortly before the interview, she had received a telephone call from her husband, Dr. JACK C. HARPER, who instructed her to furnish two 35 millimeter color slides to a representative of the Federal Bureau of Investigation.

She said these color slides allegedly depict a concave photograph and a convex photograph of a piece of bone allegedly from the skull of President KENNEDY. She said this piece of bone was found by her nephew, BILLY A. HARPER, near the site where President KENNEDY was assassinated.

Mrs. HARPER furnished these two slides for the use of the Federal Bureau of Investigation and stated her husband requested they be returned to him.

Previous investigation concerning the foregoing mentioned piece of human bone is reflected on pages 150, 150A and 151 of the report of Special Agent ROBERT P. GEMBERLING dated November 30, 1963, at Dallas, Texas, in instant matter.

LEE HARVEY OSWALD WAS INNOCENT
BY GEORGE O'TOOLE

Penthouse presents the first scientific evidence from CBS tapes that the alleged assassin of President Kennedy was telling the truth when he said, "I didn't shoot anybody."

LEE HARVEY OSWALD WAS INNOCENT

By George O'Toole

The assassination of Napoleon Bonaparte was a perfect crime: it went undiscovered for 140 years. There had been rumors and suspicions, of course. Napoleon himself wrote, just three weeks before his death, "My death is premature. I have been assassinated by the English oligarchy." But the official autopsy report stated that Napoleon died from natural causes, and there the matter rested for nearly a century and a half.

In 1961 two Swedish researchers decided to investigate the death of Napoleon through the use of one of the newest weapons in the arsenal of forensic science, a technique known as neutron activation analysis. They obtained some strands of hair taken from the head of the exiled emperor immediately after his death. With the help of a scientist at the University of Glasgow, the Swedes placed these hairs in a nuclear reactor at Britain's Harwell atomic-research laboratory and subjected them to a beam of neutrons. After twenty-four hours the specimens were sent to Glasgow for analysis.

The irradiated hairs yielded up their secret. They contained over ten times the normal amount of arsenic. Additional samples of Napoleon's hair were then obtained, and the experiment was repeated. This time the hair was cut into segments, each corresponding to two weeks' growth. The distribution of arsenic in the segments showed that the exile of St. Helena had received regular doses of the poison during the last year of his life. The Swedish and Scots researchers were convinced: Napoleon Bonaparte had been slowly poisoned to death by his jailers.

There is, of course, no doubt that the death of President John F. Kennedy in Dallas was an assassination; yet, like the death of Napoleon, the event has been obscured by questions and doubts. During the ten years since the assassination, the facts have been sifted again and again, first by the Warren Commission and then by a host of independent investigators. Few of the latter have been able to agree with the official conclusions of the commission, but none has offered a satisfactory account of what really happened on that November after-

noon in Dallas. With the passage of time, details of the controversy have dimmed our minds, leaving a dull residue of do[illegible] and a despair of ever learning the truth. And yet we may hope that, as with the assassination of Napoleon Bonaparte, new scientific discoveries will perhaps someday shed some light on the murder of John Kennedy. It was just this hope that I began to cherish when I first heard of a remarkable device called the Psychological Stress Evaluator.

There is no simple way of stating accurately in lay terms what the Psychological Stress Evaluator (or PSE) is or what it does. But if the precision of scientific language can be abandoned for a moment, it can be said that the PSE is a new type of lie detector that works through the medium of the voice.

I first heard of the Psychological Stress Evaluator in 1972, when I met two of its inventors, Allan D. Bell, Jr. and Charles R. McQuiston. Bell and McQuiston, both former lieutenant colonels, retired from army intelligence several years ago to form a company called Dektor Counterintelligence and Security, Inc. It was a logical second career for the two men. Both are experts in the technology of espionage and either one could pick the lock on your front door in less time than it takes you to find your key. Colonel Bell wears a Black Belt in karate, is an accomplished swordsman and small-arms expert, and has a dozen inventions to his credit, from antibugging devices to a miniaturized microdot camera. McQuiston is one of the foremost polygraph experts in the U.S., a specialist in radio and audio surveillance, and a qualified locksmith.

The PSE grew from an effort to improve the polygraph. Standard polygraphs measure four variables: pulse, blood pressure, respiration, and perspiration. Some also measure additional physiological variables. The more variables measured, the more reliable the polygraph.

Bell and McQuiston discovered that the frequencies composing the human voice are not fixed; they shift very slightly from eight to fourteen times every second. But when the speaker is under stress, this normal frequency modulation disappears. What remains are the pure component frequencies of the voice. And a strong indication that the speaker is lying.

The two men developed a device to detect this phenomenon and planned to use it as an additional "channel" on the polygraph. Then they discovered that the new variable was so reliable and accurate a measure of psychological stress there was really no need to measure the other polygraph variables.

Freed from the necessity of strapping the subject into a chair, stretching a pneumographic tube across his chest, gluing electrodes to his palms, and clamping his arm with a blood-pressure cuff, Bell and McQuiston found the PSE to be much more versatile than the polygraph. Because it can work from a telephone or tape recorder, the PSE can be used without the knowledge or [illegible]en the physical presence of the subject. Sound-recording technology is almost a century old (Edison invented the phonograph in 1877), and an enormous amount of history is stored away in the sound archives of the world. There are scores of mysteries from the past hundred years that could be cleared up once and for all if the related interviews, public pronouncements, and press conferences could be retrieved from the archives and subjected to the scrutiny of the PSE. But none of these mysteries can compare in terms of sinister murkiness, frustrating paradox, or sheer historical impact to the question of what really happened in Dealey Plaza at 12:30 P.M., central standard time, November 22, 1963.

Throughout the long afternoon and evening of that November 22, the reporters poured into Dallas. Nearly every major newspaper, wire service, and television network was represented. In the homicide and robbery bureau on the third floor of Dallas police headquarters, a police captain and agents of the FBI and Secret Service were questioning Lee Harvey Oswald. Outside in the corridor, television cameramen were setting up their equipment and newsmen were beginning to assemble. As the evening wore on, more than one hundred reporters jammed into the narrow third-floor hallway.

Inside the homicide and robbery bureau—according to reports by the Dallas police, the FBI, and the Secret Service—Oswald was advised of his rights to legal representation and to remain silent, and that any statement he made could be used against him in a court of law. Sometime during that night, Oswald was asked about the shootings, and he emphatically denied killing either President Kennedy or Dallas police officer J. D. Tippit. He refused to discuss the assassination with the FBI agents until he was represented by an attorney. When he was asked to submit to a polygraph examination, he refused to do so until he had had an opportunity to consult a lawyer.

Several times during the evening, Oswald was taken under guard from the third-floor office to appear in lineups and to be arraigned for the murder of Officer Tippit. At midnight he was taken to the basement for a brief and confused "press conference." Whenever Oswald was brought out of the third-floor office, the reporters elbowed forward, vying with each other to get a statement from the prisoner. In answer to their shouted questions, Oswald expressed bewilderment at his situation and protested that he had not been allowed legal representation. When asked if he had killed the president, Oswald replied that he had not. Although nothing he said in the police interrogation room was recorded, the newsmen's microphones captured Oswald's statements in the corridor and at the press conference. At least two of his claims to innocence were recorded on tape.

[illegible] couldn't have known it at the time, but [illegible] Oswald spoke those words, he was [illegible]ing a test. Seven years would pass before [illegible]e lie detector would be invented that could actually test for the subtle and inaudible vocal clues that are evidence of truth or deception. Another three years would elapse before anyone used the Psychological Stress Evaluator to test Oswald's denials that he killed President Kennedy. In 1973, I obtained copies of those recordings and processed them with the PSE.

The CBS tapes contained this brief exchange between Oswald and the newsmen, recorded at the midnight press conference in the basement of police headquarters:

> Oswald: I positively know nothing about this situation here. I would like to have legal representation.
>
> Reporter: [unintelligible]
>
> Oswald: Well, I was questioned by a judge. However, I protested at that time that I was not allowed legal representation during that very short and sweet hearing. I really don't know what this situation is about. Nobody has told me anything, except that I'm accused of murdering a policeman. I know nothing more than that. I do request someone to come forward to give me legal assistance.
>
> Reporter: Did you kill the president?
>
> Oswald: No. I have not been charged with that. In fact, nobody has said that to me yet. The first thing I heard about it was when the newspaper reporters in the hall asked me that question.

The press conference was held under circumstances very unfavorable for stress-deception analysis. Oswald was shackled between two policemen. He had been brought into the basement lineup room to face a battery of television lights and cameras and a surging mob of newsmen. Each reporter was trying to outshout his fellows in the competition for a statement. I expected to find a uniform level of hard stress in both relevant and irrelevant statements, but I discovered that this was not the case.

The first statement, "I positively know nothing about this situation here," showed good-to-hard stress. The stress was moderate-to-good in, "I would like to have legal representation." It remained at that level until he said, "I protested at that time," when it went back up to hard. The stress dropped back to good, then moderate-to-good in the phrase, "I really don't know what this situation is about." It continued good until he said, "I know nothing more than that," at which time it turned hard again. "I do request someone to come forward to give me legal assistance" was moderate-to-good except for the word "someone," which was hard.

The statement, "No, I have not been charged with that" showed an unusual range of stress. It began with almost no stress, but there was hard stress on the word "that." On listening repeatedly to the recording, I noticed that Oswald ran the words "no" and "I" together, producing the same phonetic effect as "know why." Electronically, it was a single, two-syllable word, and it produced a single waveform on the PSE chart. The waveform began with almost no stress but ended with good stress. Obviously, it was important to discover how much of the stress had been present during the "no" part of the utterance.

I played the tape several times at a reduced speed until I was able to identify the point at which the *o* vowel ended and the *i* sound began. I made a small visible mark on the tape at this point, then switched the recorder to the even slower speed required by the PSE. I backed up the tape, switched on the PSE, and played the statement again. When the mark on the tape reached the recorder's playback head, I switched off the machine. The PSE stylus dropped back to the zero line. I looked at the waveform.

The stress was none-to-moderate.

I asked Mike Kradz, Dektor's director of training, to look at the charts. I told him that the speaker was a young man accused of murdering a policeman and an executive, who had been interviewed by reporters under chaotic conditions in a police station. I showed Kradz the transcript of the tape, but I had altered the question, "Did you kill the president?" to read, "Did you kill him?" As Kradz inspected the charts, he had no way of knowing that the speaker was Lee Harvey Oswald or that the murdered executive was John Kennedy.

Kradz studied the charts carefully and said it seemed the speaker was telling the truth when he denied the murder. While he was impressed with the low level of stress in the "no," which I had separated electronically from the rest of the statement, he felt that even considering the increased stress that appears later in the sentence there was a strong indication that the young man wasn't lying. Kradz pointed out that the stress, although considerable, was not equal to the consistently hard stress shown in the phrases, "I positively know nothing about this situation here," and "I know nothing more than that." The young man may have been lying when he made these statements, or there may have been some other reason for the stress. But whatever the case, Kradz pointed out, that subject seemed to mean a great deal more to the speaker than the matter of murdering the executive. The indication was that he didn't do it.

After he announced his conclusion, I told Kradz that the speaker was Lee Harvey Oswald and the murdered executive President Kennedy. The ex-cop stared at me for a moment, then picked up the charts again and examined them minutely. Finally he put them down and shook his head in disbelief. "I wonder who he thought he killed," he said.

Kradz's incredulity was only natural; the charge that Lee Harvey Oswald killed President Kennedy has gained widespread acceptance, even in the face of public doubts about the Warren Report. During the first few years after the assassination, Oswald was described in the press as "the alleged assassin," an implicit reference to the fact that he had not lived to be convicted of the crime in a court of law. But, as propagandists have often demonstrated, repetition of a charge gradually leads to its public acceptance. Ten years after the event, even most skeptics doubted no more than that "Oswald acted alone."

I was too familiar with the weaknesses in the case against Oswald and I had seen too many indications of deception in the recorded statements of the witnesses against him to be very surprised at this new discovery. I remembered the words of ex-FBI agent William Turner in his book, *Invisible Witness*: "While in police custody Oswald's demeanor was not that of a wanton assassin. He steadfastly denied the crime and some newsmen were struck by the appearance of genuine shock when he was told he was accused of the assassination."

But Mike Kradz's skepticism led him to think further about the chart and transcript I had shown him, and he finally raised a point which, I was forced to agree, made the PSE results less than 100 percent conclusive—this is that it's not completely clear what Oswald meant when he responded to the question, "Did you kill the president?" The Warren Report contains the following transcription of his reply: "No. I have not been charged with that." If the statement is read as two distinct sentences, Oswald seems to be denying his guilt and then adding that he has not been charged with the crime (which, at the time of the midnight press conference, was the case). But, as I knew from listening to the tape, Oswald sounded as though he were saying, "No, I have not been charged with that," in one sentence, not two. Was "no" a specific denial of guilt, or merely a rejection of the question, a way of saying, in effect, "Don't ask me that; even the police haven't accused me of that"?

Of course, if Oswald had been the man who killed the president only hours earlier, he might be expected to show hard stress while making any reference to the shooting, no matter how oblique; and it certainly should have been a more stressful subject than what he knew about the circumstances of his arrest. But Oswald's denial seemed ambiguous, and the PSE results, however interesting, could not be called absolutely conclusive. It seemed likely, however, that Oswald was asked the crucial question by newsmen again during the night of November 22, and his answer was probably recorded on tape somewhere. So I set out to find a recording of a categorical denial, and several weeks later I succeeded.

Ironically, my search ended in Dallas. I was visiting Al Chapman, one of the hundreds of private citizens who do not believe the Warren Report and continue to investigate the case. Chapman has compiled a small library of materials relating to the assassination, including some sound recordings. Among these I found a long-playing record called *Probe*, which was released several years ago by Columbia Records. *Probe* is an audio documentary on the assassination (and one of the bitterest attacks on the critics of the Warren Report), and it contains many excerpts from news recordings that were made during the weekend of the assassination.

Oswald speaks only once on the record, apparently while being led along the crowded third-floor corridor of the police station:

> Oswald: These people have given me a hearing without legal representation or anything.
>
> Reporter: Did you shoot the president?
>
> Oswald: I didn't shoot anybody, no sir.

I transferred the statement to tape. Later, I processed the recording with the PSE.

Oswald's protest that he has been given a hearing without legal representation shows good-to-hard stress. His categorical denial that he shot anyone contains almost no stress at all. Stress is a necessary, but not sufficient, condition of lying; it must be interpreted, and therein lies the margin of error. But the absence of stress is a sufficient condition of truthfulness. If someone is talking about a matter of real importance to himself and shows absolutely no stress, then he must be telling the truth.

Oswald denied shooting *anybody*—the president, the policeman, anybody. The psychological stress evaluator said he was telling the truth.

But, despite the many other indications that Oswald was innocent, the almost complete absence of stress in his voice is still remarkable, in view of the circumstances of his conversation with the press. The recording sounded clear and was of excellent technical quality, and hard stress was apparent in Oswald's voice when he protested that he had been denied legal representation. Still, I wondered if some yet unknown recording phenomenon had managed to eradicate the stress in his statement of innocence. This didn't seem very likely, but I was uncomfortable with the fact that the tape had been made from a phonograph record which, in turn, had been cut from another recording. None of my other results had come from phonograph records. Did some

thing about this medium sometimes eras[illegible] stress? I decided that I would have to ob[illegible] another tape of the statement, one that wa[illegible] not the result of a re-recording chain involv[illegible] ing a phonograph record. Otherwise, [illegible] couldn't be certain.

The John F. Kennedy Library in Waltham Massachusetts, has a stack of audio tapes that had been recorded from the television network coverage of the events of November 22–25, 1963. After two days of listening, I found what I was looking for. This copy sounded the same as the recording I had found in Dallas—with one exception. On the Dallas recording Oswald says, "I didn't shoot anybody, no sir." On the Waltham recording he can be heard to say, "No, I didn't shoot anybody, no sir." The two recordings were probably made from two different microphones, and indeed many photographs of Oswald in custody show several newsmen holding up microphones in front of him. The reporter who asked him, "Did you shoot the president?" was probably at Oswald's side, and Oswald may have been turning to face the man as he answered. Thus, some of the microphones would have been likely to miss the "no."

I ran the Waltham recording on the PSE. The initial "no" showed moderate stress. The PSE waveforms for the rest of Oswald's statements were virtually identical to the ones I made from the Dallas tape. There was good-to-hard stress on, "These people have given me a hearing without legal representation or anything," and almost no stress on, "I didn't shoot anybody, no sir." There was no longer any question of distortion from the phonograph record. The evidence that the Waltham tape had been recorded from a different microphone from the Dallas tape established that the two tapes were the end points of two completely separate transmission and recording chains. And both tapes yielded identical PSE results. It was not some strange sound-recording fluke: quite clearly Lee Harvey Oswald was telling the truth.

I returned from Waltham and visited Mike Kradz at Deklor. I showed him the second set of transcripts and charts. No prolonged examination was necessary: the utter lack of stress in Oswald's statement was immediately obvious. It was hard to accept, but Kradz had run too many criminal cases on the PSE to have any doubts about the meaning of the PSE charts I showed him. There was no other possible explanation than that Oswald was telling the truth.

Kradz asked me if I would object to his showing the charts to someone else. I said that I wouldn't, and he stepped out of his office and returned in a few minutes with a wiry, middle-aged man whom he introduced as Rusty Hitchcock.

L. H. "Rusty" Hitchcock is a former army intelligence agent and one of the most experienced polygraph examiners in the country. Since he graduated from the army's polygraph school at Fort Gordon in 1954, lie detection has been his specialty. Besides conducting thousands of polygraph investigations, he has also carried out basic research in lie detection and is an expert on the phenomenon of the galvanic skin response and the effect of hypnosis on polygraph results. He is the author of many training manuals and procedural guides used by army polygraph examiners. Hitchcock is, of course, well-known in professional polygraph circles and, although he now embraces the heretical Psychological Stress Evaluator, he is still held in high regard by most of his fellow members of the American Polygraph Association. He is retired and spends most of his time raising cattle on his Georgia ranch, but he occasionally serves as a consultant to law-enforcement agencies and private security firms.

Rusty Hitchcock was incredulous when Kradz showed him the PSE charts I had run on Oswald. He questioned me closely to assure himself that I had not made some procedural mistake in operating the PSE equipment. Convinced that I had not, he speculated that there might be a defect in the equipment I was using, and he also pointed out that I had run Oswald in only one of the PSE modes and at only one tape speed (varying the speed of the tape recorder or chart drive mechanism can sometimes reveal low-level stress which would otherwise go unnoticed). This was true, but the combination of mode and tape speed I had used was the one most often used in criminal cases, since it is completely sensitive to the levels of stress likely to be produced in such matters. Oswald had shown hard stress on the irrelevant issue and almost none on his claim of innocence.

I was certain the PSE and recorder I had used were working properly, and I was confident I would get the same results no matter what equipment, PSE mode, or tape speed I used. I offered Hitchcock a copy of the recording and suggested he check my findings with his own instruments. He replied by inviting me to his ranch, suggesting that we review the tape together. Several weeks later, I accepted his invitation.

We spent most of a morning and a roll of chart paper on the test. I watched over his shoulder as Rusty tried each combination of PSE mode and recorder speed in turn. The answer was always the same. In the end he too was convinced. Rusty is no student of assassinations, but he is a specialist in the natural history of lying. Perhaps better than anyone, Rusty could read the message written over and over again that day by the stylus of his PSE. He had the courage of his convictions, and he gave me his findings in the form of a signed statement. It reads as follows:

Mr. O'Toole:

As you requested, I have analyzed with the Psychological Stress Evaluator the tape recordings you provided of the voice of Lee Harvey Oswald. Oswald's comments regarding the circumstances of his arrest and his statements that he had been denied legal representation show considerable situation stress. When he is asked, "Did you kill the president?" his reply, "No, I have not been charged with that," shows no harder stress than that found in his earlier comments. In replying to the question, "Did you shoot the president?" his reply, "No, I didn't shoot anybody, no sir," contains much less stress than I found in his earlier statement regarding legal representation, made only moments before this.

My PSE analysis of these recordings indicates very clearly that Oswald believed he was telling the truth when he denied killing the president. Assuming that he was not suffering from a psychopathological condition that made him ignorant of his own actions, I can state, beyond reasonable doubt that Lee Harvey Oswald did not kill President Kennedy and did not shoot anyone else.

(signed)
Lloyd H. Hitchcock

Was Oswald a madman? The Warren Commission reported that it could reach no definite conclusion regarding Oswald's sanity in the legal sense of the word. The commission included in its report a lengthy and detailed biography of Oswald, and the report of a psychiatrist who examined Oswald when he was arrested for truancy as a thirteen-year-old. The psychiatrist found Oswald to be withdrawn and insecure, but not psychotic. Nothing in the commission's detailed record of Oswald's childhood and adult life suggests that he was, in any sense, insane.

Rusty Hitchcock explained that he was not concerned about the possibility that Oswald was a pathological liar; the hard stress evident in some of his statements shows that he was responding normally to the situation in which he found himself. Rusty was allowing for the possibility that, for some reason such as temporary amnesia, Oswald was unaware of his recent actions. However, there is absolutely nothing in the official accounts of Oswald's statements while in custody that suggests he ever said that he couldn't remember what he had been doing on the afternoon of November 22. There is no other plausible interpretation of the Oswald PSE charts than the

explanation that Oswald was simply telling the truth.

But after ten years of repetition in books, magazines, newspapers, and the broadcast media, it is difficult to abandon the official doctrine that Lee Harvey Oswald was an assassin. Even the serious student of the Warren Report who is completely familiar with the defects in the commission's case against Oswald may be unable to resist the cumulative effect of a "well-known fact." The problems raised by skeptics with the testimony and evidence against Oswald tend to focus on the negative, to argue that the commission failed to prove its case. In debating the ballistic, photographic, and medical evidence, one has a tendency to ignore the substantial positive arguments in favor of Oswald's innocence.

One of the strongest of these arguments is the fact, established by the Warren Commission, that no more than ninety seconds after the president was shot, Lee Harvey Oswald was calmly standing in the lunchroom on the second floor of the book depository. Dallas motorcycle policeman M. L. Baker was riding in the presidential motorcade when the shots were fired. He got off his motorcycle and rushed into the lobby of the book depository, where he encountered Roy Truly, the depository manager. Baker and Truly ran up the stairs. On the second floor Baker saw someone going into the lunchroom. With his revolver in his hand, Baker followed. As he reached the lunchroom entrance, he saw that the room was empty except for one man, who was walking away from him. Baker called to the man, who turned around and walked over to the policeman. At this point, Truly entered the lunchroom and identified the man as Oswald. The Warren Report describes the encounter:

> Baker stated later that the man did not seem to be out of breath, he seemed calm. "He never did say a word or nothing. In fact, he didn't change his expression one bit." Truly said of Oswald: "He didn't seem to be excited or overly afraid or anything. He might have been a bit startled, like I might have been if somebody confronted me. But I cannot recall any change in expression of any kind on his face." Truly thought that the officer's gun at that time appeared to be almost touching the middle portion of Oswald's body.

The commission had Baker reenact his movements—getting off the motorcycle, meeting Truly in the lobby, and climbing the stairs to the second floor. Baker ran through the whole sequence twice and was timed by stopwatch. The first time he did it in one minute and thirty seconds, the second time in one minute and fifteen seconds.

A Secret Service agent (and later several other people, including Chief Justice Warren) reenacted Oswald's supposed movements after firing the final shot—carrying a rifle from the southeast window to the northwest corner of the sixth floor, placing the weapon on the floor where it was allegedly discovered, descending the stairs to the second floor, and entering the lunchroom. Two trials were timed: the first, at a "normal walking pace," required one minute and eighteen seconds; the second, at a "fast walk," took one minute and fourteen seconds, only slightly less.

There is no indication that the agent, in reenacting Oswald's supposed actions, stopped to wipe the rifle completely clear of fingerprints. (The FBI laboratory reported that there were no fingerprints on the rifle; the Dallas police claim to have found a palmprint, but on a portion of the rifle which could only be touched when the weapon was disassembled.) This might have added a few seconds to the test, although it is conceivable that the assassin could have wiped off the rifle as he walked across the sixth floor to the place where he secreted it.

Thus, the Warren Commission was able to establish that it was just barely possible for Oswald to have gotten from the southeast corner of the sixth floor to the lunchroom on the second floor between the time the final shot was fired and the moment at which Patrolman Baker and Roy Truly saw Oswald in the lunchroom. But while the commission was able to prove the physical possibility of its theory, it didn't even attempt to explain away the psychological problems of this version.

The absence of fingerprints on the rifle does not necessarily mean that someone wiped them off; contrary to popular opinion, weapons often do not "take" fingerprints, perhaps not even from the sweaty hands of a man waiting to murder the president of the United States. In fact, there would have been little point in Oswald's wiping his prints from the rifle, since the weapon could easily be traced to him through the post-office box he had rented in his own name. But the question that the commission failed to answer, or even to ask, is *why* Oswald bothered to hide the rifle at all. He must have known that even if he had taken more pains than merely concealing the gun behind some cartons of books, a thorough police search of the book depository would have found it. Short of removing the rifle from the building, there was really no way that Oswald could have hoped to keep the weapon out of the hands of the police.

> There is no plausible interpretation of Oswald's PSE charts except that he was telling the truth.

If Oswald had been the assassin, then his supposed rush from the sixth-floor window to the second-floor lunchroom would have to have been for the purposes of establishing an alibi and facilitating his escape from the book depository. Time, then, would have been critical, and stopping to hide the rifle would have taken time. To carry a weapon across the sixth floor was to prolong the risk of being observed with it by anyone who chanced to come upon the scene. If Oswald's plan was to avoid discovery and establish himself in the lunchroom as soon as possible, then the rifle should have been found near the southeast window, not hidden behind cartons in the northwest corner of the sixth floor.

Truly and Baker reported that when they saw Oswald in the lunchroom he seemed calm, although a bit startled at being confronted by a policeman holding a gun. He was not, according to their account, out of breath, frightened, or excited. This would have been an extraordinary feat of self-control for a man who, ninety seconds before, pumped two bullets into the president, concealed his rifle, and hurried down four flights of stairs. If Oswald had been the assassin, if he had fled to the lunchroom to avoid detection, then confrontation by a uniformed policeman with a drawn gun should have at least suggested to him that the game might be over. But Oswald was not pale and shaken, merely startled. When his salvation arrived in the form of Roy Truly, who identified him to Baker as a depository employee, did he breathe a sigh of relief? None was reported. When Baker and Truly turned away to continue their search elsewhere, did Oswald hurry down that last flight of stairs and flee the building? He did not. According to the commission's reconstruction of events, Oswald walked over to the soft-drink machine in the lunchroom and bought a Coca-Cola.

Sylvia Meagher, who conducted one of the most exhaustive analyses of the Warren Commission, cites some evidence that Oswald had, in fact, been drinking the Coke even before the confrontation with Baker, evidence which would support Oswald's claim that he was having lunch at the time of the shooting. There is no question, however, that Oswald was drinking the Coke when he was seen, a few moments after meeting Baker, strolling through one of the offices on the second floor. Mrs. Robert Reid, a clerical supervisor at the book depository, saw him enter the office and told the commission, "I had no thoughts . . . of him having any connection with it all because he was very calm. He had gotten a Coke and was holding it in his hands and I guess the reason it impressed me seeing him in there, I thought it was a little strange that one of the

warehouse boys would be up in the office at that time, not that he had done anything wrong." Oswald's casual presence in the second-floor office may have seemed strange to Mrs. Reid, but in view of the Warren Commission's charge that he was the assassin fleeing the scene of the crime, his pause for some leisurely refreshment seems downright incredible.

Yet another problem with the commission's reconstruction of Oswald's alleged dash from the sixth to the second floor is the testimony of an eyewitness who, during the critical seconds immediately after the shooting, happened to be on the same staircase Oswald was supposed to have used. Victoria Adams, who worked on the fourth floor of the book depository, told the commission that, within a minute of the last shot, she ran down the stairs from the fourth floor to the first floor. She said she neither saw nor heard anyone else on the stairs. The commission concluded that she must have been wrong, that she really used the stairs several minutes after Oswald had already descended them.

Shortly after he was seen by Mrs. Reid, Oswald left the book depository. Instead of continuing down the stairs in the northwest corner of the building adjacent to the area where he met Baker, Truly, and Reid and departing through the secluded back exit, Oswald strolled across the second floor and walked down the front staircase to the main entrance on Dealey Plaza. He left the building not as a murderer on the run, but like someone who had missed the excitement and was going outside to see what was happening.

Oswald never returned to the book depository; he went to his furnished room in the Oak Cliff section of Dallas, and from there to a nearby movie theater. According to the reports of his interrogation, he claimed he felt that, under the circumstances, the book depository would close for the rest of the day; so, without waiting to be notified, he took the afternoon off, went home, and then went on to the movies. This story seems implausible, but there is nothing in the commission's reconstruction of Oswald's trip from Dealey Plaza to his room that suggests flight. Traffic in the vicinity of the book depository had come to a standstill, and Oswald walked several blocks from the tie-up and boarded a bus. The bus traveled for several blocks and then became stuck in the spreading traffic jam. Oswald got out and walked to the Greyhound Bus Station, where he got in a taxicab. The driver's account of what happened next gives us a dramatic insight into Oswald's state of mind only minutes after the shooting:

> And about that time an old lady, I think she was an old lady, I don't remember nothing but her sticking her head down past him in the door and said, "Driver, will you call me a cab down here?"
>
> She had seen him [Oswald] get this cab and she wanted one, too, and he opened the door a little bit like he was going to get out and he said, "I will let you have this one," and she says, "No, the driver will call me one."

If Oswald was an assassin fleeing the scene of his crime, then he was certainly an assassin of remarkable chivalry.

Oswald took the taxi to Oak Cliff, went to his furnished room, changed his clothes, and then went out again. Oswald's landlady, Mrs. Earlene Roberts, testified that Oswald spent only a few minutes in his room. After he left, Mrs. Roberts looked out the window and saw Oswald waiting at a bus stop in front of the rooming house. Once again, Oswald is seen less than an hour after the assassination under circumstances suggesting neither furtiveness nor haste. There is, in fact, nothing in the commission's reconstruction of Oswald's movements during the ninety minutes between the assassination and Oswald's arrest in the Texas Theatre—apart from some very shaky evidence that he killed Officer Tippit—to suggest that Lee Harvey Oswald had just committed the crime of the century.

The PSE evidence that Oswald was telling the truth, that he was not the assassin, is not my personal property. Anyone sufficiently interested is free to obtain the same recordings and subject them to the same electronic analysis. As the Psychological Stress Evaluator is used more widely not as an investigative aid but as an instrument of historical research, I expect others to do so, and they will obtain the same results. Indeed, one noted researcher in the field of lie detection, Dr. Gordon Barland, has already done it.

Dr. Barland, who conducts lie-detection research in the department of psychology of the University of Utah, is well known and respected among professional polygraph examiners. His work appears often in the *Journal of the American Polygraph Association* and related journals. Barland has conducted validation studies of both the polygraph and the PSE, and his work with the PSE was the first objective, scientific study to establish the effectiveness of that instrument. Barland's experience in lie detection is not limited to academic studies, however; he was a polygraph examiner in army intelligence and served with the Department of Defense Joint Working Group on Lie Detection. He is a licensed polygraph examiner in the state of Utah and is frequently called upon to aid in the investigation of criminal cases. Barland is nationally recognized as a lie-detection expert, is often asked to give expert testimony on polygraph evidence in court, and serves as a consultant to the federal government in the field of polygraph research.

Dr. Barland heard of my work on the Kennedy assassination through his interest in the PSE, and he generously offered to review my results. I shipped a set of tapes to him in Utah and asked him to pay special attention to the Oswald denials. Then, after spending a considerable amount of time analyzing the tapes with his own tape and PSE equipment, he called to report his own results.

He confirmed my findings of a complete lack of stress in Oswald's statement that he had not shot anyone and the presence of hard stress in the "irrelevant" statements regarding legal representation. He said that, based on the PSE charts he ran, Oswald appeared to be telling the truth when he proclaimed his innocence. Because Barland's experience with the PSE has been largely confined to controlled, polygraph-like examinations, he does not feel that he can make an absolutely conclusive judgment about any such uncontrolled interview as the exchange between Oswald and the reporter. Barland said that he thought it probably was impossible for someone to lie about such a matter, even in an uncontrolled situation, and show no stress. But, he added, he had not studied stress in uncontrolled interviews sufficiently to be categorical about it. In the interest of scientific accuracy, he felt that he must use the word "probably." I asked him if he would be willing to make a numerical estimate of the probability, as he saw it, that Oswald was telling the truth. He promptly replied that he would certainly be willing to put the figure at 75 percent at the very least.

Except for my initial request of Mike Kradz that he look at the Oswald charts, I have not actively sought expert endorsement of my findings on Oswald. The Psychological Stress Evaluator remains a controversial subject among polygraph professionals, and only a few have had the courage to admit that the new instrument works and thus incur the wrath of their colleagues. I have not asked these few to go even further out on the limb and publicly support the thesis that Lee Harvey Oswald was not the assassin of President Kennedy. However, some of them have confidentially inquired about my work and, in every case, I have offered them my charts and tapes. Some have run the tapes on their own equipment. All who have seen the Oswald charts agree that—either certainly or very probably—Oswald was innocent. None has offered a contradictory interpretation, but only Mike Kradz, Rusty Hitchcock, and Gordon Barland have volunteered to be quoted. Yet in a court of law, any one of those three would be (and often is) accepted as an expert witness in the field of lie detection.

On Monday, November 25, 1963, John F. Kennedy was buried in Arlington National Cemetery. Presidents and kings escorted

the flag-draped coffin to the grave. A squadron of jet fighters roared overhead, and a military guard fired a final salute. The bugler played taps.

And in another cemetery near Fort Worth, Texas, there was another funeral. Lee Harvey Oswald's wife and mother, his brother, and his two small daughters were there, as well as a number of newsmen and Secret Service agents. All of the clergymen Marguerite Oswald had approached refused to permit her son's body to be brought into their churches. None would even agree to conduct a graveside ceremony. A brief service was held by an official from a local church group. When he arrived, he left his Bible in his car. Reporters and Secret Service agents served as pallbearers. Later the grave was desecrated and the tombstone stolen.

Oswald is one of the most hated figures in American history, and his guilt has been largely unquestioned. While critics of the Warren Commission sometimes find receptive and sympathetic audiences to hear their arguments, one proclaims Oswald innocent at his own peril. To offer a professional opinion in support of this thesis takes great courage. Those who have done so have earned my gratitude and admiration.

But there is more than a professional reputation to be risked in considering the PSE evidence of Oswald's innocence. There is one's peace of mind, and all who have dared to look over my shoulder have lost it. I remember vividly the emotions I felt during the afternoon and evening of November 22, as the reports came in from Dallas. During those tragic hours there was some small consolation in knowing that the murderer had been captured. But whatever comfort there was in that belief, it is now gone. The president was killed by a person or persons unknown. Until the murderers are found, until the truth is known, until justice is done, there can be no rest and no peace. None for John Kennedy, none for Lee Oswald, and none for the rest of us.

Memorandum recommends attached letter be furnished to Deputy Attorney General Harold R. Tyler in response to his request for information in our files pertaining to allegations concerning an alleged group to which Lee Harvey Oswald belonged in 1961 - 1962. A memorandum is attached to that letter for the Commission on CIA Activities within the United States.

On 5/16/75 at 6:30 p.m. Deputy Attorney General Tyler advised Inspector John B. Hotis and SA Paul V. Daly that he had received information from Roderic Hills, Assistant Counsel to the President, that the Commission on CIA Activities was making an inquiry into a facet of the investigation of Lee Harvey Oswald, assassin of President Kennedy, and he requested that the FBI review its files to determine if any factual basis existed for these allegations. Mr. Tyler stated that one of these allegations received was that former Congresswoman Clare Boothe Luce had been financing a fishing boat to transport Cuban citizens from Cuba to Miami, Florida. This was in the period of 1960-1961 and Mr. Tyler later stated the time frame was 1961 to 1962. The Captain of the ship allegedly advised Mrs. Luce that Lee Harvey Oswald and others were involved in the infiltration of a communist cell group in that area and had discussed assassination plans with no assassination target identified. Mrs. Luce instructed the Captain to notify the FBI and he later told her that he had done so and was leaving the country. The other allegation was that this same group plotted to use dart guns which fired darts containing fluid intended to cause an individual to [illegible] dose dart

were to be used against American tourists in France to create the impression it was caused by a strange French malady, thus discouraging tourism and upsetting the international balance of payments. The possibility of using the dart against former French President Charles de Gaulle was discussed.

Based on the information furnished by Deputy Attorney General Tyler, no information was located in Bureau files to show that the Captain of a fishing ship financed by Clare Boothe Luce had reported any information to the Bureau concerning the involvement of Lee Harvey Oswald in any such group as mentioned. By teletype dated 5/17/75 the Dallas, New Orleans, and Miami Offices were instructed to review files and advise if any information was contained therein pertaining to these matters. Miami and Dallas Offices advised no information was contained in their files. New Orleans Office reported it had located an LHM dated 6/19/67 which reported information received from a source, who in turn had received information from another source, that Jose Antonio Lanusa, leader of the Delegation of the Cuban Student Directorate in 1963 had been accused by one of the investigators for James Garrison, Orleans Parish District Attorney, of having known about Oswald's activities prior to the assassination and that this information had been furnished by Clare Boothe Luce. Lanusa denied this. New Orleans Office reported this information, and New Orleans Office has no indication that any interview of Mrs. Luce was ever conducted.

With regard to the poison darts, a representative of the FBI Laboratory advised that it would be theoretically possible to utilize a dart with some type of a bacteriological element on it which might cause some type of an infection; however, the FBI Laboratory has never heard of this being used and has never had any submissions along this line.

REC-100 105-82555-5132

REQUEST FROM DEPUTY ATTORNEY GENERAL HAROLD R. TYLER FOR BUREAU DOCUMENTS

Reference is made to your oral request of May 16, 1975.

You requested information from Bureau files concerning the financing of a fishing boat by former Congresswoman Clare Boothe Luce to transport Cuban citizens from Cuba to Miami, Florida. The Captain of that ship allegedly advised Mrs. Luce that Lee Harvey Oswald and others were involved in infiltration of a communist cell group in that area and had discussed assassination plans. The Captain allegedly informed the FBI and left the country. The allegation was also made that this same group plotted to use dart guns to fire darts containing a fluid intended to cause an individual to act in a peculiar manner. The darts were to be used against American tourists in France to create the impression that it was caused by some strange French malady and thus discourage tourism and upset the international balance of payments. A dart of this nature was possibly to be used against former French President Charles de Gaulle.

In view of the fact that you advised that the Commission on CIA Activities in the United States was making an inquiry into this matter, there is attached a memorandum captioned "Commission on CIA Activities within the United States" which encloses a document in the possession of this Bureau which does contain a reference to Clare Boothe Luce and Cuban refugees. A copy of this memorandum and its enclosure are attached for your information.

The Deputy Attorney General

Based on the information furnished, nothing could be located in the files of the FBI to show that the Captain of a fishing ship financed by Mrs. Clare Boothe Luce had reported any information to this Bureau concerning the fact that Lee Harvey Oswald and others were involved in infiltrating a communist cell group and had discussed assassination plans without identifying the target. Further, there is no information in the files of the FBI concerning the utilization of poison darts by any such group. The FBI Laboratory has reported that it would be theoretically possible to utilize a dart with some type of a bacteriological element on it which might cause an infection of some type; however, the FBI Laboratory has never heard of this being used and has never had any submission along these lines.

This confirms information orally furnished to Deputy Assistant Attorney General K. William O'Connor and Associate Deputy Attorney General Robert McDermott by Special Agent Paul V. Daly of this Bureau on May 19, 1975.

COMMISSION ON CIA ACTIVITIES
WITHIN THE UNITED STATES

Reference is made to the request for information in the possession of this Bureau relating to an allegation that former Congresswoman Clare Boothe Luce had received a report from the Captain of a fishing vessel that Lee Harvey Oswald and others were involved in the infiltration of a communist cell group and had discussed assassination plans. In addition, this group had allegedly plotted to use dart guns firing darts containing fluid intended to cause an individual to act in a peculiar manner. The darts were to be used against American tourists in France and possibly against former President Charles de Gaulle.

A review of this Bureau's files reveals a memorandum dated June 19, 1967, at New Orleans, Louisiana, captioned "Assassination of President John Fitzgerald Kennedy, Dallas, Texas, November 22, 1963." A copy of that memorandum is attached. A search of the files of this Bureau based on the information furnished fails to show any information that the Captain of a fishing ship allegedly financed by Clare Boothe Luce had reported any information to this Bureau concerning the activities of Lee Harvey Oswald and others being involved in a communist cell group and had discussed assassination plans.

A search of the files of this Bureau fails to reveal any information concerning a group which plotted to use dart guns which would fire darts containing a fluid intended to cause an individual to act in a peculiar manner.

ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
DALLAS, TEXAS, NOVEMBER 22, 1963

On June 18, 1967, Carlos Quiroga, Cuban exile, 3134 Derby Place, New Orleans, Louisiana appeared at the New Orleans Office of the Federal Bureau of Investigation (FBI) and volunteered the following information:

During the past week, Carlos Bringuier, New Orleans Cuban exile leader and key figure in the assassination probe of Orleans Parish District Attorney James Garrison was in Miami, Florida. While there, he met with Jose Antonio Lanusa, who was leader of the Delegation of the Cuban Student Directorate in 1963. Lanusa advised Bringuier that he had received a telephone call from Alberto Fowler, Cuban exile and investigator for Garrison, during which Fowler stated that Garrison will prove that President Kennedy was assassinated by Cuban exiles and that Carlos Bringuier was aware of Oswald's purported affiliation with the Central Intelligence Agency. Fowler also stated that Bringuier and Lee Harvey Oswald had staged their confrontation on Canal Street, New Orleans in August, 1963.

Lanusa also advised that he had been previously contacted (date not indicated) by Mr. Alcock, an investigator of Garrison. Alcock accused Lanusa of having known about Oswald's activities prior to the assassination of President Kennedy. Alcock stated that this information had been furnished by Claire Booth Luce. Lanusa denied this and stated that all he knew about Oswald prior to the assassination had been furnished to him by Carlos Bringuier.

ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
DALLAS, TEXAS, 11/22/63

On Thursday, June 15, 1967, Carlos Bringuier happened to meet Alberto Fowler on Canal Street, New Orleans. At this time Fowler stated that the investigation was becoming complicated because Garrison had information that an identical double of Lee Harvey Oswald existed and this individual was a "double agent" of the FBI.

Fowler also stated that Garrison will attempt to make the trial last over a year's period so that further investigation can be conducted and additional evidence entered.

Dear Director Kelley: Lee Harvey Oswald

First, I would like to thank you for your letter of March 20, 1975 and the enclosure, which, contributed much to my understanding of the FBI investigation into this matter.

I have a document from the Warren Commission's files (document enclosed) that lends itself to several interpretations - one which could reflect badly on the FBI. In a November 22, 1963 report of transmittal of ballistics evidence from the autopsy at Bethesda Naval Hospital to the FBI Laboratory, agent Francis X. O'Neill, Jr., lists a "missle" recovered by the autopsy doctors.

I realize FBI agents Sibert and O'Neill transmitted several tiny bullet fragments to the FBI Lab (CE 843) for examination. Are they referring to these fragments or are they reporting the recovery of a bullet?

Sincerely,

Fred T. Newcomb

Letter of RICHARD C. NAGELL, dated 7/16/75.

Enclosed 7/16/75 letter is addressed to the Assistant Director in Charge of the Los Angeles Office by RICHARD C. NAGELL. In the letter, NAGELL makes reference to the two referenced reports of the El Paso Office, dated 12/20/63 and 1/30/64 (enclosed) wherein NAGELL is mentioned and which apparently had been obtained from the FBI by Professor RICHARD H. POPKIN, Department of Philosophy, University of California at San Diego, La Jolla, California.

In his 7/16/75 letter, NAGELL complained that he had "never authorized the FBI to release any information about me . to any private individual or non-official organization."

In addition, NAGELL complained these two El Paso reports in question contained incorrect information about him. He closed his letter by stating "I trust that this will clear up any question concerning the matter that conceivably might be raised in the future".

The writer of instant letter, now assigned to the Los Angeles Office, prepared the El Paso reports in question and well remembers encounters with NAGELL in El Paso, Texas.

The synopsis of referenced report, dated 2/4/64, reads as follows:

LA 105-15823

Background: Subject entered U.S. Army 8/5/48 and honorably discharged as Captain 10/29/59. Received many campaign awards during Korean conflict. Sole survivor airplane crash 11/28/54, suffered facial disfigurement and given psychiatric examination. Subject claimed he was released from employment by State Beverage Department, Los Angeles, California, 6/8/62, having been accused of taking $20,000 bribe. Subject refused furnish police details of his shooting by unidentified assailant on 7/16/62 and subsequently filed Civil Rights complaint against police. In September, 1962, subject advised U.S. Embassy, Mexico City, he had been approached for recruiting in Mexico City, refused to elaborate, did not desire to return to U.S., was "bitter, disgusted, disillusioned and disaffected." Said if he did go to some other country it would cost U.S. millions, was "through being a good citizen" and thought he had gotten a "dirty deal all around." Advised FBI in New York City on 11/16/62 he wanted to expose Department of Alcoholic Beverage Control in California. Advised FBI in Jacksonville, Florida on 12/15/62 he had been approached shortly before in Washington, D.C., by individual believed to be working for Soviets; contacted CIA in Virginia for instructions, was sent to Miami, Florida, by his Soviet contact and said he believed he was actually working for Soviets. Subject's condition diagnosed at Veterans Administration Hospital, Bay Pines, Florida, in January, 1963, as "chronic brain syndrome associated with brain trauma with behavioral reaction characterized by passive, aggressive and paranoid features." Asked FBI in Miami on 1/24/63 if his Cuban or Russian sources gave him a pistol and microfilm would he be permitted to return same to his contact so he could be of further use to U.S. Government. Claimed to be constantly under surveillance. Advised FBI in Los Angeles on 4/19/63 he had taken former wife to court on same date for failure to comply with court order giving subject visitation rights with children. Subject's condition diagnosed by Veterans Administration, Los Angeles, on 6/4/63 as "depression, tearful, nervous, rigid. Would only utter words 'Got to see my kids.'

LA 105-15823

Attempted Bank Robbery: Subject arrested 9/20/63 in El Paso, Texas, on charge of attempting to rob State National Bank, El Paso, same date in violation Section 2113, Title 18, U.S. Code. Slashed wrist night of 9/20/63, felt he needed psychiatric treatment, highly emotional when interviewed, given to spells of crying, stated unable to get on feet since discharge from U.S. Army. Cell mate said subject apparently became member Communist Party during confused period after discharge, decided everything was against him in Los Angeles and made arrangements with Communist Party in Los Angeles to pick up visa and passport from contact in El Paso and eventually end up in Czechoslovakia. Subject reportedly attempted suicide three times enroute to El Paso but lost nerve. Advised FBI in El Paso on 1/6/64 he was instructed by agent of foreign government in September, 1963, to comply with agreement made in May, 1963, to participate in criminal offense against United States or be exposed to FBI, which caused subject to act as he did on 9/20/63. Subject ordered sent to Medical Center for Federal Prisoners, Springfield, Missouri, on 1/24/64, by U.S. District Court, El Paso, for 30-day period to undergo psychiatric examination. Alleged Connection with LEE HARVEY OSWALD: Subsequent to President's assassination, subject claimed acquaintance with OSWALD and wife. On 1/18/64, MARINA OSWALD disclaimed any knowledge of subject. Description and Identification Record: Set out. SUBJECT HAS ATTEMPTED SUICIDE.

Referenced report dated 6/7/64 contains information obtained from his military record, beginning on page 49. Information is set out therein regarding his health status.

In view of the information set out above, it would seem that NAGELL's appearance before the Church Committee, as suggested in the POPKIN letter, dated 6/18/75, could prove to be embarrassing for that Committee.

No further action is being taken in this matter by the Los Angeles Office.

RE TELECOPIER MESSAGE TO DEPUTY ASSOCIATE DIRECTOR JAMES B. ADAMS AT 5:15 P.M., SEPTEMBER 4, 1975; AND DALLAS LD CALL FROM SAC TED L. GUNDERSON, SEPTEMBER 8, 1975.

ON SEPTEMBER 8, 1975, PATROLMAN JAMES M. CHANEY, DALLAS POLICE DEPARTMENT, DALLAS, TEXAS WAS INTERVIEWED BY BUREAU AGENTS AT WHICH TIME THE FOLLOWING INFORMATION WAS OBTAINED:

CHANEY, ON NOVEMBER 22, 1963, WAS ONE OF FOUR OFFICERS ASSIGNED TO RIDE BESIDE THE AUTOMOBILE BEARING FORMER PRESIDENT JOHN FITZGERALD KENNEDY. CHANEY AND MOTORCYCLE OFFICER D. L. JACKSON WERE ASSIGNED TO RIDE ON THE PRESIDENT'S RIGHT AT APPROXIMATELY THE LOCATION OF THE REAR WHEEL ON THE CAR. MOTORCYCLE OFFICERS B. [illegible] MARTIN AND BOBBY HARGIS WERE ASSIGNED TO RIDE ON THE LEFT SIDE OF THE CAR AT APPROXIMATELY THE LEFT REAR WHEEL. EIGHT OFFICERS WERE ASSIGNED TO LEAD THE MOTORCADE IN FRONT OF A CAR OCCUPIED BY CHIEF OF POLICE JESSE CURRY, SHERIFF BILL DECKER,

AND SECRET SERVICE AGENT IN CHARGE, FORREST SORRELS.

CHANEY ADVISED AS THE MOTORCADE TURNED OFF HOUSTON STREET ONTO ELM STREET AND PROCEEDED WEST ON ELM STREET, HE (CHANEY) WAS APPROXIMATELY FOUR TO SIX FEET FROM THE PRESIDENT'S RIGHT SHOULDER. OFFICER D. L. JACKSON WAS ON CHANEY'S RIGHT AND PARALLEL WITH HIM. AS THE PRESIDENT'S CAR PASSED THE TEXAS SCHOOLBOOK DEPOSITORY, CHANEY HEARD A NOISE AS THOUGH A MOTORCYCLE HAD BACKFIRED AND CHANEY LOOKED TO HIS LEFT AT THE TWO OFFICERS RIDING ON THE OPPOSITE SIDE OF THE PRESIDENT'S CAR. WITHIN A MATTER OF A FEW SECONDS, CHANEY HEARD ANOTHER NOISE AND HE LOOKED TO THE RIGHT IN AN EFFORT TO DETERMINE WHAT THE NOISE WAS AND WHERE IT WAS COMING FROM. CHANEY SAID THE NOISE SOUNDED LIKE A MOTORCYCLE BACKFIRED OR THE NOISE FROM A FIRECRACKER.. CHANEY SAID WHEN HE HEARD THE SECOND NOISE FROM BEHIND HIM, HE WAS SURE IT WAS NOT ONE OF THE OTHER MOTORCYCLES AS THE NOISE DID NOT COME FROM THEIR IMMEDIATE

AREA. AT THIS POINT, CHANEY AGAIN FACED TOWARD THE FRONT SO HE WOULD NOT COLLIDE WITH THE PRESIDENT'S VEHICLE AND HE LOOKED AT THE PRESIDENT JUST AS A THIRD NOISE WAS HEARD AT WHICH TIME HE SAW THE PRESIDENT'S HEAD "EXPLODE." CHANEY SAID AT THIS TIME HE REALIZED THESE WERE GUNSHOTS AND HE WAS POSITIVE ALL NOISES HE HEARD WERE COMING FROM BEHIND HIM. HE WAS POSITIVE NONE OF THE NOISES HE HEARD HAD COME FROM THE SIDE OF THE MOTORCADE OR FROM IN FRONT OF THE MOTORCADE. HE SAID THE NOISES FROM THE SHOTS WERE PRETTY EVENLY SPACED, COMING MOMENTS APART.

WHEN THE THIRD SHOT HIT THE PRESIDENT'S HEAD, THE MOTORCADE HESITATED MOMENTARILY AND DURING THIS TIME ONE OF THE SECRET SERVICE AGENTS JUMPED FROM THE SECRET SERVICE CAR FOLLOWING THE PRESIDENT AND JUMPED ON THE BACK OF THE PRESIDENT'S CAR.

CHANEY SAID HE IMMEDIATELY RODE UP TO THE CAR OCCUPIED BY CHIEF CURRY AND SOMEONE IN THE CAR ASKED HIM HOW BAD IT WAS AND CHANEY SAID "BAD." SOMEONE IN THE CAR GAVE ORDERS TO PROCEED TO PARKLAND HOSPITAL IMMEDIATELY.

CHANEY SAID HE THEN SPED HIS MOTORCYCLE THROUGH THE

OFFICERS WHO WERE LEADING THE MOTORCADE WHO WERE APPROXIMATELY ONE HUNDRED FEET AHEAD OF THE MOTORCADE TELLING THOSE OFFICERS TO CLEAR THE WAY FOR THE PRESIDENT'S CAR. CHANEY SAID HE THEN LED THE PRESIDENT'S CAR TO PARKLAND HOSPITAL WHERE HE WAS THE FIRST ONE TO ARRIVE. CHANEY JUMPED FROM HIS MOTORCYCLE, RAN INTO THE HOSPITAL, AND ORDERED ONE STRETCHER TO BE BOUGHT OUT, NOT KNOWING GOVERNOR CONNALLY HAD ALSO BEEN INJURED. SHORTLY THEREAFTER THE PRESIDENT'S CAR ARRIVED AT THE HOSPITAL AND THE WOUNDED WERE REMOVED FROM THE CAR BY HOSPITAL PERSONNEL.

CHANEY ADVISED AS THE MOTORCADE APPROACHED THE TEXAS SCHOOLBOOK DEPOSITORY, HE NOTED NOTHING OF A SUSPICIOUS NATURE IN CONNECTION WITH THE OCCUPANTS OF THE BUILDING, NOR THE APPEARANCE OF THE BUILDING. CHANEY SAID WHEN THE FIRST NOISE WAS HEARD, THERE WAS A-LITTLE WONDERING ON HIS PART AS TO THE LOCATION OF THE NOISE, BUT HE SAID THE NOISE DEFINITELY DID NOT COME FROM IN FRONT OF THE MOTORCADE. HE STATED THAT WAS THE REASON HE GLANCED TO HIS LEFT AT THE OTHER TWO OFFICERS THINKING POSSIBLY IT WAS FROM A BACKFIRE FROM ONE OF THE MOTORCYCLES ON THE OTHER SIDE OF THE CAR.

LEADING THE PRESIDENTIAL MOTORCADE ON NOVEMBER 22, 1963, WERE DALLAS MOTORCYCLE OFFICERS SERGEANT S.Q. BELLAH, J.B. GARRICK, G.C. MC BRIDE, SGT. STAVIS ELLIS, L.E. GRAY, E.D. BREWER, W.G. LUMPKIN, AND M.R. FREEMAN.

DALLAS FILES AND THE WARRANT COMMISSION REPORT FAILED TO INDICATE THAT ANY OF THESE OFFICERS, WITH THE EXCEPTION OF E.D. BREWER, HAVE BEEN INTERVIEWED AS WITNESSES IN THE ASSASSINATION.

OFFICER E.D. BREWER WAS NOT INTERVIEWED BY BUAGENTS, BUT WAS INTERVIEWED BY THE WARREN COMMISSION AT DALLAS ON APRIL 9, 1964.

OF THOSE OFFICERS ADJACENT TO THE PRESIDENT'S CAR AT THE TIME OF THE ASSASSINATION, OFFICER HARGIS HAS NOT BEEN INTERVIEWED BY AGENTS OF THE DALLAS OFFICE AS AN ASSASSINATION WITNESS, BUT HE WAS INTERVIEWED BY THE WARREN COMMISSION AT DALLAS ON APRIL 8, 1964. OFFICER B.J. MARTIN HAS NOT BEEN INTERVIEWED BY BUAGENTS AS A WITNESS TO THE ASSASSINATION, BUT HE WAS INTERVIEWED BY THE WARREN COMMISSION AT DALLAS ON APRIL 8, 1964.

CHANEY ADVISED THAT MOTORCYCLE OFFICER D.L. JACKSON HAS

NEVER BEEN INTERVIEWED REGARDING HIS OBSERVATIONS AT THE TIME OF THE ASSASSINATION. DALLAS FILES AND THE WARREN COMMISSION REPORT FAIL TO INDICATE THAT JACKSON HAS EVER BEEN INTERVIEWED AS WITNESS BY BUAGENTS OR BY WARREN COMMISSION. CHANEY STATED THAT JACKSON HAS RETAINED NOTES MADE BY HIM FOLLOWING THE ASSASSINATION AS TO HIS OBSERVATIONS.

FOLLOWING BEHIND THE PRESIDENT'S CAR WERE MOTORCYCLE OFFICERS SERGEANT ROBERT SMART, B.J. DALE, H.B. MC LAIN, J.W. COURSON, CLYDE A. HAYGOOD AND M.L. BAKER.

DALLAS FILES AND THE WARREN COMMISSION REPORT FAIL TO INDICATE THAT OFFICERS SMART, DALE, MC LAIN, AND COURSON HAVE BEEN INTERVIEWED BY BUAGENTS OR BY REPRESENTATIVES OF THE WARREN COMMISSION AS WITNESSES.

OFFICER M.L. BAKER WAS INTERVIEWED BY BUAGENTS AT DALLAS FOLLOWING THE ASSASSINATION, MAINLY BECAUSE HE OBSERVED OSVALD IN THE SCHOOLBOOK DEPOSITORY IMMEDIATELY FOLLOWING THE ASSASSINATION. IN AN AFFIDAVIT FURNISHED TO THE REPRESENTATIVE OF THE DALLAS COUNTY SO IMMEDIATELY FOLLOWING THE ASSASSINATION, BAKER TOLD OF HEARING THE SHOTS AND ENTERING THE SCHOOLBOOK DEPOSITORY TO CONDUCT INVESTIGATION. BAKER TESTIFIED BEFORE WARREN COMMISSION IN WASHINGTON ON MARCH 26, 1964.

145

OFFICER CLYDE A. HAYGOOD WAS NOT INTERVIEWED BY BUAGENTS, BUT HE WAS INTERVIEWED BY THE WARREN COMMISSION AT DALLAS ON APRIL 9, 1964.

CHANEY STATED HE HIMSELF DID NOT COME FORWARD AS A WITNESS FOLLOWING THE ASSASSINATION BECAUSE HE FELT HE WOULD BE TELLING THE "CHIEF" (REFERRING TO CHIEF CURRY) HOW TO RUN HIS BUSINESS. CHANEY STATED THIS IS THE FIRST TIME HE HAS BEEN INTERVIEWED OFFICIALLY BY ANYONE REGARDING HIS ASSASSINATION OBSERVATIONS.

IN VIEW OF THE PERTINENT LOCATION OF MOTORCYCLE OFFICER D.L. JACKSON, WHO WAS LOCATED AT PRESIDENT KENNEDY'S RIGHT IN THE MOTORCADE, AND IN VIEW OF THE FACT JACKSON HAS RETAINED DETAILED NOTES REGARDING HIS OBSERVATIONS DURING THE ASSASSINATION, IT IS RECOMMENDED OFFICER JACKSON BE INTERVIEWED IMMEDIATELY AS A WITNESS TO THE ASSASSINATION. AS INDICATED ABOVE, DALLAS FILES AND THE WARREN COMMISSION REPORT FAILED TO INDICATE THAT JACKSON HAS EVER BEEN INTERVIEWED AS A WITNESS TO THE ASSASSINATION. JACKSON IS PRESENTLY EMPLOYED BY THE DALLAS POLICE DEPARTMENT.(F)

FBI Covered Up Knowing Oswald Could Kill JFK

BY MARTIN BALDONSKY
Chronicle Staff
© 1975 Houston Chronicle

The FBI in Dallas and the Dallas Police Department suppressed for at least four months a written statement which quoted an FBI agent as saying the FBI had advance information that Lee Harvey Oswald was capable of assassinating President Kennedy.

After Dallas Police Chief Jesse Curry finally told of his role in the cover-up in a registered, confidential letter to Chief Justice Earl Warren on May 23, 1964, the Warren Commission dropped the matter without investigating further.

The written statement, which was kept locked in a desk at the Dallas Police Department, was made by Dallas Police Lt. Jack Revill, who said an FBI agent James Hosty told him a few hours after Kennedy was killed in Dallas on Nov. 22, 1963, that the FBI had advance information that Oswald was capable of committing the crime.

Police Chief Curry said in his letter to Justice Warren that he instructed Revill to keep his statement confidential after he was asked to by J. Gordon Shanklin, special agent in charge of the Dallas FBI office at the time.

Revill stood by his statement. Hosty denied that the FBI had information that Oswald was capable of killing the President. The Warren Commission dismissed it as a disagreement between the two men "about the conversations which took place between them."

Curry, now, recalling the Revill statement, said:

"There's no doubt in my mind that his (Shanklin's) agent told my agent (Revill) what he did."

After Oswald was captured, Curry said, FBI agent Hosty was quoted as saying: "Lee Harvey Oswald. That son-of-a-bitch. We knew him. We got him in our files. We've been talking to him."

Curry said that if the FBI had told him about Oswald at the time, "I'd have had somebody sitting on him."

The documents of the Revill statement and the FBI attempt coverup are among the papers of the Texas Court of Inquiry, which existed from Nov. 25, 1963, to Oct. 6, 1964, and are now in the Texas State Archives in Austin.

The Court of Inquiry was established by President Lyndon Johnson to find why Kennedy was killed and if unlawful conspiracy played a role in the assassination. Johnson appointed Texas Attorney General Waggoner Carr to head the court, which included attorneys Leon Jaworski of Houston and Robert Storey of Dallas.

According to papers in the archives, which include copies of the correspondence among Curry, Warren and Warren's chief counsel, J. Lee Rankin, the cover-up of the FBI's advance knowledge that Oswald was a threat to Kennedy began a few hours after Kennedy was assassinated and Oswald was arrested by police inside a Dallas movie theater.

The papers reveal the following sequence of events:

At 7:30 p.m., less than 7½ hours after Kennedy was shot, Revill met Hosty, the FBI agent, in the basement of the Dallas City Hall. Hosty told Revill that the FBI was aware of Oswald being in Dallas and the bureau had information that Oswald was capable of assassinating the President of the United States.

Revill immediately reported Hosty's remarks to his superior, Capt. W. P. Gannaway, who ordered Revill to get what Hosty had said down on paper. Revill did, handing the statement to a police stenographer, who made two copies of it.

One of the copies was immediately sent to Curry. In his letter to Warren 22 months later, Curry wrote: "After I

[redacted]

fied the gravity and seriousness of the information it contained. Before proceeding, I stated that I had received information that the FBI knew of Oswald's presence in Dallas and that the Dallas Police Department had no information on Oswald in its files. This statement was based on the report of Lt. Revill."

Within minutes after Curry delivered his statement, Shanklin was on the phone to Curry. In Curry's letter to Warren, he wrote: "I received a telephone call from Mr. Gordon Shanklin in which Mr. Shanklin stated that the Bureau was extremely desirous that I retract my statement to the press."

Curry did, stating in his letter to Warren: "I then appeared before the press again and retracted my statement to this extent: I stated that of my own personal knowledge I did not know that the FBI knew of Oswald's presence in Dallas."

At neither of Curry's press briefings, however, did he reveal the other half of Revill's statement — that Agent Hosty told Revill the FBI had information that Oswald was capable of assassinating the President.

After making his retraction, Curry, according to his letter to Warren, then instructed Revill to keep his statement confidential. Curry wrote to Warren explaining that Revill, in compliance with his instructions, locked his copy of the statement in his desk drawer and kept it there for the next five months.

Revill, in an interview with the Chronicle last week, said he had not personally kept the statement in his desk, but that he turned it over to a police captain and never saw it again. He said he had forgotten about it until Curry delivered it to the Warren Commission.

The Revill statement was revealed first when Curry personally delivered it to the Warren Commission on April 22, 1964.

A month later, on May 21, 1964, Francis Lee, the commission counsel, wrote a confidential letter to Curry and asked him why it took so long for the statement to reach the Warren Commission.

Curry acknowledged Revill's and wrote his registered, confidential letter directly to Warren, dated May 27, 1964, in which he explained that he had suppressed the statement at the request of Shanklin of the FBI.

There is no record in the archives that Warren, Rankin or anyone else from the Warren Commission answered Curry's letter.

Today, 11 years later, Curry says the Warren Commission "probably forgot about it."

Hosty, the FBI agent quoted in the Revill statement as saying the bureau had information that Oswald was a potential assassin, is still with the bureau and based in Kansas City. He refused to discuss any aspect of the Kennedy assassination in a recent interview with the Chronicle and referred all questions to FBI headquarters in Washington.

Hosty said, "I'm still with the bureau. I like my job. I can't say anything about anything."

But in his testimony before the Warren Commission on May 6, 1964, the following exchange took place between Hosty and John McCloy, a member of the commission:

McCloy: "Don't you think the combination of the fact that you knew he (Oswald) was lying and that he was a defector and that he had this record with the Fair Play for Cuba, that he might be involved in some business that would be ill and necessarily violent, he was a dangerous security risk?"

Hosty: "He was a security risk of a sort, but not the type of person who would engage in violence. That would be the antithesis."

Shanklin, now an attorney in Dallas, having retired from the FBI recently, said:

"I don't know what he's (Curry) talking about. Why would I have called him? Gosh, no, so many things happened in that day. I may have called Curry about one thing or another, but I don't remember calling him to tell him to suppress anything. I don't know what he's talking about.

"I'm gonna have to call Washington on this ..."

Revill, now in the tactical division of the Dallas Police Department, said he stands by his statement to this day.

"You bet, I do. It happened. I know it happened, and Hosty knows it happened. Hosty is a friend of mine or at least he was. I happened to be in at the time, while it was being said, because I knew Hosty would get excited. It's tough the way he was attacked by the bureau."

Curry, now a storekeeper in charge of security at a Dallas bank, recalled in an interview with the Chronicle his conversations with Shanklin nearly 11 years ago.

"His words were, 'Jesse, you got to retract that damn thing or I'm sunk,' or words to that effect, you know. That if he couldn't get me to retract the statement that they'd (the FBI) take some action against him.

"I no more than made the statement to the media in the hall of the city hall ... probably, I'd say, 250 feet from my office, and I walked on down the hall and by the time I got to my office, Deputy Chief J. Edgar Hoover, FBI (Clyde) had already been on the telephone from Washington and talked to Shanklin and Shanklin was waiting to talk to me, telling me, you know, that I was gonna have to retract that statement."

When asked if he would have released the full text of Revill's statement, if he had it to do over again today, he answered:

ENCLOSURE 115-82555-533

"I probably would have even though I'd known it would make the FBI mad as hell because I had confidence in my statement that gave me the information and it was checked out and found to be true so there was enough evidence there to carry out the fact the FBI did know something about Harvey Oswald."

Curry said, "We had about a dozen and a half people under surveillance that day. We thought they would do something to embarrass him (Kennedy). Throw things at him or something. I didn't think anybody would try to kill him.

"Had they told me at that time there was a guy named Lee Harvey Oswald, who'd been raising a little hell down here in New Orleans, and somebody ought to keep an eye on him, I'd a had somebody sitting on him.

"I'd a found out more about him and I'd a had somebody sitting up on the third floor with him, or I'd a kept him out of the building. But not knowing anything about him why, we didn't do anything. All those we were the least bit suspicious about, we had somebody with them that day."

Warren Commission counsel Rankin now an attorney in New York City was unavailable.

Following is a reproduction of then Dallas police chief Jesse Curry's letter to Chief Justice Earl Warren explaining Curry's role in the coverup of Lt. Jack Revill's statement that FBI agent James Hosty told him the FBI had information that Lee Harvey Oswald was capable of assassinating President John F. Kennedy.

May 28, 1964

REGISTERED

CONFIDENTIAL

The Honorable Earl Warren, Chairman
President's Commission on the
Assassination of President Kennedy
200 Maryland Avenue, N.E.
Washington, D. C. 20002

Dear Sir:

In a letter to me dated May 21, 1964, Mr. J. Lee Rankin, General Counsel of the President's Commission on the Assassination of President Kennedy, raised several points concerning Lieutenant Jack Revill's report of November 22, 1963, on his conversation with FBI Agent Jack Hosty on that date.

The first question posed by Mr. Rankin was why Lieutenant Revill's report was not made known to the Commission prior to my appearance before that group. When I received the report on November 22, 1963, I immediately realized the gravity and seriousness of the information it contained. On that date, before newsmen, I stated that I had received information that the FBI knew of Oswald's presence in Dallas and that the Dallas Police Department had no information on Oswald in its files. This statement was based on the report of Lieutenant Revill.

Within a few minutes of my statement to the press, I received a telephone call from Mr. Gordon Shanklin, Special Agent in charge of the Dallas Office of the FBI, in which Mr. Shanklin stated that the Bureau was extremely desirous that I retract my statement to the press. I then appeared before the press again, and retracted my statement to this extent: I stated that "of my own personal knowledge" I did not know that the FBI knew of Oswald's presence in Dallas, and that if they did they were under no obligation to the Dallas Police Department to pass on the information.

ENCLOSURE 100-10461-5737

After the appointment of the Warren Commission, I was reasonably sure I would appear before that body, so I decided to present the report personally, at the time of my appearance. I felt that the Commission would probably like for the statement to be notarized, so I had this done on April 7, 1964.

Mr. Rankin's next question concerned the date that the report was placed in the Intelligence Unit's files. I instructed Lieutenant Revill to keep this report confidential. He said that after his copy was returned to him, he kept it locked in his dark drawer until after I returned from Washington where I delivered the report to the Commission. He then placed his report in the files.

Mr. Rankin further asked if I knew of any additional information in the possession of the Dallas Police Department that had not been made available to the Commission. I know of no such information.

Very truly yours,

J. E. Curry

HOUSE SUBCOMMITTEE ON CIVIL AND CONSTITUTIONAL RIGHTS OF THE COMMITTEE ON THE JUDICIARY

We were recently advised by Alan Parker, Chief Counsel for the House Subcommittee on Civil and Constitutional Rights, that the Subcommittee will hold hearings at the earliest opportunity on matters relating to the assassination of President Kennedy.

Among the matters to be considered by the Subcommittee are allegations that the Bureau's Office in Dallas was alerted to the possibility of an assassination attempt several days prior to the assassination and a threatening note received by that Office from Lee Harvey Oswald was destroyed. Since these charges are presently being investigated by this Bureau and may be referred to the Department for a prosecutive opinion, we think it is inappropriate to discuss them before the Subcommittee at this time. In the alternative, it is suggested that we brief Chairman Edwards in a general manner on this subject.

Chairman Edwards said he intends to hold hearings as soon as we are prepared to testify. Accordingly, an early expression of your views on this matter will be appreciated.

NOTE: See Legal Counsel to Mr. Adams memorandum dated 9-17-75, captioned "House Subcommittee on Civil and Constitutional Rights of the Committee on the Judiciary."

SUBJECT: HOUSE SUBCOMMITTEE ON CIVIL AND CONSTITUTIONAL RIGHTS OF THE COMMITTEE ON THE JUDICIARY

On 9-16-75 Alan Parker, Chief Counsel for the House Subcommittee on Civil and Constitutional Rights, advised Inspector Hotis that the Subcommittee will hold hearings at the earliest opportunity on matters relating to the assassination of President Kennedy.

Parker said that Chairman Edwards does not want to reopen the assassination inquiry, but he feels that the Committee must address certain questions that have been raised concerning the alleged destruction of a threatening note received by the Dallas Office from Lee Harvey Oswald in November, 1963, and the Bureau's relationship with Jack Ruby. Among the matters to be examined by the Committee are allegations that the Bureau's Office in Dallas was alerted to the possibility of an assassination attempt at least five to ten days prior to the assassination. In addition, the Bureau reportedly told the Warren Commission that we had no knowledge of Jack Ruby prior to the assassination, nor did we have any information indicating that he was connected with organized crime. And yet, it is alleged that the Bureau had contacted Ruby on nine different occasions in an attempt to recruit him as an informant. Parker said it was his understanding that these contacts were discontinued when Ruby failed to provide any useful information to the Bureau. It is also claimed that Ruby, who was then known as Jack Rubenstein, was involved in a union killing in 1939. Parker said that these charges raise serious questions about Ruby's relationship with the Bureau and with elements in organized crime. Finally, Parker said that if a threatening note was, in fact, received from Oswald, the Committee wants to know what the note contained and why it was destroyed. He said this seems to contradict the testimony by Mr. Kelley before the Subcommittee earlier this year in which he stated that the Bureau does not destroy investigative information.

Parker said the Chairman plans to hold hearings on these matters as soon as possible and would like us to advise him when we would be prepared to testify.

It should be noted that the House Select Committee on Intelligence Activities recently requested files, reports, and materials dealing with a "threatening note" received by the Dallas Office from Lee Harvey Oswald in November, 1963, and asked that staff members be allowed to interview SA James P. Hosty, Jr. As you know this matter is currently under investigation by the Bureau and is being referred to the Department for a determination of whether any prosecutive action is warranted. As a consequence we are advising Chairman Pike that it will not be possible for us to furnish the information requested, nor can we make Agent Hosty available for interview at this time. As an alternative we are offering to brief the Chairman in a general manner as to the nature of the Bureau's investigation in these matters.

It is recommended that we adopt the same position with respect to Chairman Edwards' request. Attached is a memo to the Deputy Attorney General advising him of the Chairman's request and recommending that we decline to testify on any matters which are under investigation by this Bureau or which may be referred to the Department for possible prosecutive action.

With regard to the hearings by the Subcommittee scheduled for the 24th of this month, Parker said that the most critical issue concerns the access and verification procedures which the Committee attempted to establish for the GAO investigation. He pointed out that Mr. Edwards had not received a reply to his letter of 6-25-75 to the Attorney General asking that he reconsider the matter. He stated that Chairmen Edwards and Rodino felt that this compromise proprosal was a fair one and they are prepared to go to court on this issue.

RECOMMENDATION:

That the attached memo be sent to the Deputy Attorney General.

ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

On 9-30-75 Deputy Associate Director - Assistant to the Director James B. Adams met with Chairman Peter Rodino, House Committee on the Judiciary, and Chairman Don Edwards, House Subcommittee on Civil and Constitutional Rights, to brief the Chairmen on certain allegations that have been made regarding the Bureau's investigation of the assassination of President John F. Kennedy. Also present at the meeting were: Inspector John B. Hotis, Earl C. Dudley, Jr., Chief Counsel, House Judiciary Committee, and Alan Parker, Chief Counsel, House Subcommittee on Civil and Constitutional Rights.

Mr. Adams reviewed the allegations concerning the alleged destruction of a note left by Lee Harvey Oswald with a receptionist of the Dallas FBI Office prior to the assassination of President Kennedy. He said the Bureau has conducted a thorough investigation in this matter and has interviewed all of the alleged participants. Mrs. Nan Fenner, who was the receptionist at the time, said she was given a letter by Oswald which was to be delivered to SA James P. Hosty, Jr. Oswald had been the subject of a security investigation by the Bureau and the case was assigned to Mr. Hosty. Mrs. Fenner said the envelope was not sealed and she noted the contents of the letter. She said it contained a threat to blow up the FBI and Dallas police departments "if you don't stop bothering my wife." SA Hosty denies the letter contained a threat saying it stated only if he (Hosty) did not stop bothering Oswald's wife he would take action and report the matter to the proper authorities. Kenneth C. Howe, who was Hosty's immediate supervisor at the time,

said that he found the note from Oswald in Hosty's workbox some-time after the assassination and immediately referred it to J. Gordon Shanklin, who was SAC of the Dallas Office. Mr. Shanklin has stated under oath he has no knowledge of such note.

Mr. Adams said the Bureau has completed its investigation in this matter and a report will be submitted shortly to the Department of Justice for prosecutive opinion. (This report was submitted to the Attorney General by letter dated 10-1-75.) Until that determination is made, Mr. Adams said, he thinks it would be inappropriate for Congress to hold public hearings on the matter. Chairman Rodino agreed, saying he would give the Department a reasonable period of time to make its decision. He said it is essential, however, that the allegations be resolved and that hearings will be held by the full Judiciary Committee or by Mr. Edwards Subcommittee on Civil and Constitutional Rights.

Mr. Adams also discussed the allegations made by William S. Walter, former clerical employee of the Bureau, who claims that a teletype was sent to all FBI Field Offices alerting them to the possibility an attempt would be made to assassinate President Kennedy on 11-22-63. Mr. Adams pointed out that this allegation was thoroughly investigated by the Bureau in 1968 and no evidence was developed to support it. A comprehensive review has been made of all FBI files and there is no record of any such teletype. He said that when Mr. Walter was first interviewed in this matter by the SAC of the Jacksonville Office, he denied having made this statement or having seen such a teletype. He later changed his story and told other officials he had seen such a teletype and had probably notified his Special Agent in Charge. Mr. Adams said that a polygraph examination of Mr. Walter was inconclusive although one examiner stated that there was some indications of deception. He said it is not possible at this time to determine whether this is a hoax or whether Mr. Walter sincerely believes that such a teletype exists. He said Mr. Walter may have in mind a teletype that was sent to all Field Offices after the assassination requesting that all logical sources be contacted in this matter and the Bureau be promptly advised. Mr. Adams also pointed out that the supposed text of the teletype was not consistent with the terminology normally employed in such Bureau communications. He said, for example, that the terms

CIs and PCIs were used instead of the normal wording "all logical informants and sources." He also said that no mention would have been made of FD-302s or letterhead memorandum and the Bureau would have instructed that any information substantiating this threat would be provided the Bureau telephonically and with appropriate dissemination made.

With regard to the charge that Mr. Hoover lied under oath to the Commission when he stated that Jack Ruby was not an FBI informant, Mr. Adams pointed out that three letters were sent by the Director to the Warren Commission in this matter. The letters indicated that Ruby was contacted on nine occasions by Agents of the Dallas Office to determine whether he was willing to furnish information to the Bureau regarding criminal matters. These contacts were discontinued when Ruby failed to provide any useful information. As to Ruby's alleged involvement in the union killing in 1939, Mr. Adams said that these allegations were made a matter of record in the Warren Commission Report. He showed an exhibit in the Commission Report to Mr. Parker which is an FBI investigative insert containing information that a review of the records of the Chicago Police Department did not reflect any reference to Jack Ruby or Jack Rubenstein or to the murder of Leon Cook. The Commission exhibit also contains the results of a check of the records of the newspaper morgue of the Chicago Tribune by the FBI in 1963. The article states that much of the information about this matter came from Jack Rubenstein on 12-9-39.

At the close of the meeting, Chairman Rodino expressed concern over the Department's failure to respond to his letter of June 25th to the Attorney General concerning the verification and access procedures used by GAO in its study of the Bureau's domestic intelligence activities. The Chairman said it is essential the matter be resolved and in the absence of any word from the Department his Committee may issue subpoenaes for the necessary documents.

Prior to the briefing, Inspector Hotis contacted Doug Marvin, Special Assistant to the Attorney General, to determine whether

I previously advised of the briefing given Chairmen Rodino and Edwards on the Oswald matter and that Chairman Rodino requested that the Department be advised that any criminal liability aspects should be resolved at the earliest opportunity in order that further consideration could be given to public hearings on the matter.

I advised Assistant Attorney General Uhlmann, Office of Legislative Affairs, on 10/2/75 of this request by Rodino and I advised Deputy Attorney General Tyler on 10/3/75 of the request. I informed both that our report on the matter had been delivered to the Department and it would be most desirable to get this matter resolved at the earliest possible time. Both are also aware that Mrs. Abzug has requested hearings on the same subject.

Oswald first came to the Bureau's attention on October 31, 1959, when a news clipping indicated he had held a press conference in Moscow during which he advised he had applied to renounce his American citizenship and become a Soviet citizen. A check was initiated with the Office of Naval Intelligence which showed that he had enlisted in the Marine Corps on October 24, 1956, and was released to inactive duty on September 11, 1959. Subsequently, in May, 1962, State Department advised that Oswald was still an American citizen, was married to a Soviet citizen and both had exit permits to leave the USSR.

On May 31, 1962, the Bureau instructed that Dallas interview Oswald in detail upon his arrival. He returned to Fort Worth, Texas, on June 14, 1962, and was interviewed by Bureau Agents on June 26, 1962. He declined to answer the question as to why he had made his trip to Russia; he denied that he had ever been a member of the Communist Party; he claimed that he was not recruited at any time by Soviet intelligence; and had made no deals with the Soviets to obtain permission to return to the United States.

Oswald was reinterviewed on August 16, 1962, and he advised that he had made contact with the Soviet Embassy in Washington, D. C., to advise them of his wife's current address. He declined to answer questions as to why he went to the Soviet Union stating he considered this "nobody's business."

Following the assassination of President Kennedy, the Bureau initiated an exhaustive investigation into the background and activities of Oswald during his life. The purpose for this investigation was to uncover his motive in the assassination and to resolve whether he acted as part of a conspiracy. The investigation developed detailed information concerning Oswald's early life, his trip to the Soviet Union, his marriage with Marina Oswald, his return to the United States, his subsequent activities in New Orleans, his trip to Mexico, and his associations in the Dallas, Texas, area. During the investigation the Bureau attempted to account for the day-to-day activities of Oswald. The investigation failed to show that Oswald was a part of a conspiracy when he assassinated President Kennedy.

The Bureau has a main file on Marina Oswald. The initial serials in this file predate the assassination of President Kennedy and all are stamped NOT RECORDED dated July 24, 1964. On a memorandum from W. C. Sullivan to Mr. Belmont dated November 29, 1963, there is a notation "Open 105 new on Marina Oswald." This bears the Records Division stamp of December 4, 1963. At the time of the assassination then, it does not appear that we had a main file on Marina Oswald.

SUBJECT: CBS FILMED INTERVIEW OF SAC WARREN C. DEBRUEYS REGARDING LEE HARVEY OSWALD INVESTIGATION NEW ORLEANS, LOUISIANA, PRIOR TO ASSASSINATION OF PRESIDENT JOHN F. KENNEDY PUBLIC RELATIONS MATTER

By airtel 12-8-75, SAC deBrueys, San Juan, requested that the Director personally consider his request to testify before the appropriate Congressional committee to dispel persistent but false allegations that Lee Harvey Oswald was an FBI informant under the direction (implied) of deBrueys. DeBrueys enclosed a letter directed to him from free-lance writer Greg Roberts, who alleges that various Federal officials interviewed in captioned CBS documentary were lying as probably was deBrueys concerning Oswald and the assassination investigation. DeBrueys noted that various allegations concerning him stem from assertions of New Orleans barkeeper Orestes Pena, who claims he once saw deBrueys with Oswald, and the assertion of long-time FBI-John F. Kennedy assassination critic Mark Lane, that when Oswald moved from Dallas to New Orleans so did deBrueys. The SAC believes these allegations can be easily refuted through Bureau and Warren Commission records, as well as interrogation, under oath, of Pena by a Congressional committee.

SAC deBrueys states in his airtel: "For the sake of the Bureau's reputation as my own, and to insure the public is made aware of the gross perversions of the truth, I would urge that I be permitted to testify under path before an appropriate Congressional Committee."

SAC deBrueys also suggested that CBS be requested to provide "as promised by their representative Bruce Hull," a full copy of the transcript of Hull's interview of deBrueys for the CBS documentary. DeBrueys said he would like to have a copy for his "personal records."

62-107116

SAC deBrueys requested that Director Kelley give personnal consideration to his requests.

RE: INTERVIEW OF FBI SPECIAL AGENT (SA) BY SSC

SA Pearce furnished information concerning various duties and positions held during his career from June, 1953, to date. He specifically furnished information concerning his duties as Complaint Clerk in the Dallas FBI Office at the time of the assassination.

The circumstances leading to the initial interview by FBI officials on July 22, 1975, and the manner in which the interview was conducted were covered, such as where it was conducted, those present, and any comments made by the interviewing officials. The primary concentration of the interview pertained to SA Pearce's statement that he had heard that Oswald was an informant or source of SA James P. Hosty. SA Pearce stated he could not recall specifically where he had obtained this belief.

The interview by FBI officials and subsequent affidavit of September 5, 1975, were discussed and no additional information was furnished.

The interview lasted approximately 1 hour and 20 minutes.

After the interview was concluded, Mr. Wallach advised SA Pearce that the primary reason for the interview was to attempt to determine the source of the belief of SA Pearce that Oswald was a source or informant of the Dallas Office.

NOTE:

SA Pearce gave a handwritten statement concerning the SSC interview, the results of which are set out in the LHM.

Director Kelley,

On the reverse side of the Armed Forces fingerprint card for Lee Harvey Oswald, card number 327 925 U, are stamped several dates: November 16, 1959, March 1, 1960, December 17, 1961, February 25, 1962 and August 15, 1963. Two dates are hand-written: October 31, 1959 and November 5, 1959. What is the significance of these dates? Why are dates stamped and written on the back of his Marine fingerprint card?

Just to the right of these dates are three digit numbers. For example, after the date August 15, 1963 are the three digits 962. What do these numbers represent?

This fingerprint card I am referring to has been designated Commission Exhibit 635 and is on page 209 of the 17th volume of the Volumes and Exhibits published in connection with the Warren Report.

It has been suggested that I go through Freedom of Information for the answers to these questions. However, I feel a letter sent directly to you will prove sufficient.

Thank you for your time.

Dear Mr. Meek:

Reference is made to your letter of December 31, 1975, requesting an explanation of certain numbers and dates on the reverse side of the Armed Forces fingerprint card for Lee Harvey Oswald.

For your information, the dates and numbers referred to in your letter are internal processing markings of the FBI Identification Division. The stamped dates are the dates this fingerprint card was filed. The numbers following the date stamps identify the employees who filed the fingerprint card on the particular dates. The October 31, 1959, date indicates the date the fingerprint card was reviewed for background information for a member of our Headquarters staff. The November 6, 1959, date indicates the date the fingerprint classification formula, as it appears on the front side of the fingerprint card, was rechecked for correctness.

RE: JAY EPSTEIN;
PAM BUTLER;
READER'S DIGEST

EPSTEIN and BUTLER came to Albuquerque, New Mexico, on April 29, 1976, to meet with me.

EPSTEIN advised he is collecting material for a book on LEE HARVEY OSWALD. He and BUTLER are traveling throughout the country interviewing various individuals. EPSTEIN advised that because of my past assignment in the Bureau, I might be able to answer some questions. Throughout, he did not express any animosity towards the Bureau or the intelligence community as such. He did not ask any questions concerning government personalities. He gave every indication that he has talked to JAMES ANGLETON, former CIA official; DEKE DE LOACH; and other CIA officials not identified. He advised he would be contacting Director KELLEY and CIA Director BUSH. He has also talked to TOM FOX, former DIA official and now with the Drug Enforcement Administration (DEA). He indicated that he might endeavor to interview A. J. BELMONT, and I strongly recommended that he not do so. I emphasized that BELMONT was very ill and that any attempt to interview him could be prejudicial to the man's health. I did get the impression that EPSTEIN was sympathetic to my recommendation and that he did not plan to seek out BELMONT. He did comment that he might give consideration to interviewing W. C. SULLIVAN but did specifically state that he did not think it would be wise to do so.

He has interviewed [redacted] apparently on several occasions, and he did imply that he would be talking to [redacted] again. EPSTEIN plans to travel to Russia and interview people who might be made available to him by the Soviet government. He is currently waiting for his visa. During the course of the conversation, he indicated he was trying to locate a CIA employee named [redacted] who apparently was a CIA employee assigned in Dallas at the time of the JFK assassination.

EPSTEIN asked several questions, to which I replied negatively because I had no direct knowledge of the particular subject; and if I did, I was not going to comment on any of my past assignments. I had explained this to him in the beginning. He brought up the subject of bona fides of defectors, and I commented that this has been a subject which has received

105-82555-5711

ENCLOSURE

JAY EPSTEIN;
PAM BUTLER;
READER'S DIGEST

considerable attention over the years. He referred to the bona fides of [redacted] and I told him that I could not speak on that subject with any authority. He asked if I had any knowledge concerning OSWALD's association with Cubans, and I referred him to what has appeared in the press--pointing out that I had never been involved in any investigation on that particular subject.

EPSTEIN is very much interested in OSWALD's activities during the time he was in Mexico City. He apparently has conducted some investigation at the hotel where OSWALD stayed. He is trying to identify individuals who may have been in the hotel at the same time. He has been in contact with Cuban officials.

He asked for my comments on allegations that OSWALD may have been either a CIA or FBI informant. I told him that in my opinion he was spinning his wheels on this particular subject.

He plans to interview MANN who was U. S. Ambassador to Mexico at the time of the JFK assassination. He was also seeking somebody in Santa Fe, New Mexico, but never volunteered the identity of the person.

On or about April 28, 1976, he did interview the mother of LEE HARVEY OSWALD, MARINA OSWALD, and MARINA's current husband. EPSTEIN commented that he received little or no information of value and the aforementioned were only interested in furnishing information if they could be substantially remunerated. Mrs. OSWALD spent most of her time trying to sell souvenirs, pamphlets, etc.

He brought up the matter of the report produced by Senator CHURCH's committee, and I stated that in my opinion it was most destructive to the intelligence capabilities of the country. He did not differ with me on this subject.

With regard to his desire to talk to Mr. KELLEY and Mr. BUSH, I got the impression that he is looking for access to other Agents or officers and possibly reports which could be made available to him. At one point he indicated he wants to make certain that he has a complete list of all of the aliases that were utilized by OSWALD.

Memorandum

TO : Mr. Moore

DATE: 2-27-76

FROM : J. H. Campbell

SUBJECT: BOOK REGARDING ASSASSINATION OF PRESIDENT KENNEDY BEING WRITTEN FOR "READER'S DIGEST" BY EDWARD JAY EPSTEIN

BACKGROUND:

By memorandum dated February 3, 1976, I advised you that Edward Jay Epstein had visited the Bureau to discuss his plans to write a book about the assassination of President Kennedy and that Epstein stated his book would be devoted primarily to Lee Harvey Oswald. My memorandum of February 3rd pointed out that Epstein had asked questions concerning former SAC Guy Banister, civilian employments Oswald had held which might have required "clearances," and the identities of other Americans who defected to the Soviet Union about the same time (1959-62) as Oswald.

ACTION TAKEN:

In response to Epstein's requests, he has been advised that former SAC Banister entered on duty in November, 1934, and retired in December, 1954 -- at which time he was SAC at Chicago. Epstein has been told that Banister was Assistant Superintendent of Police in New Orleans from 1955 to 1957 and that he subsequently operated Guy Banister Associates, Inc., in New Orleans until he died in June, 1964. Epstein plans to visit New Orleans, and it has been pointed out to him that the morgues of New Orleans-area newspapers should contain a large number of clippings regarding Banister's activities in that city from 1955 to 1964.

With regard to Epstein's request for the identities of other defectors to the Soviet Union, he was told that extensive publicity has been given to the defection to Russia and subsequent return to America of Robert Edward Webster of Ohio, Nicholas Petrulli of New York, and Libero Riccardolli of Massachusetts -- in the 1959-62 period.

RE: BOOK REGARDING ASSASSINATION
OF PRESIDENT KENNEDY

In response to his inquiry concerning civilian employments which Oswald held, it was pointed out to Epstein that Oswald did not hold any type of position which would have resulted in his being the subject of an applicant-type investigation of the FBI -- nor did it appear that another Federal agency would have conducted an applicant-type investigation of him. Whereas Epstein thought a "clearance" might have been required for the job which Oswald held for a period in 1962-63 at a company in Dallas (Jaggars-Chiles-Stovall) which had contracts with the Army, testimony on page 191 of Volume X of the Warren Commission Report shows that the department in which Oswald was employed had no contact or connection with the Army contract work -- and this testimony has been brought to Epstein's attention.

RECOMMENDATION:

For information and record purposes. As Epstein's work on this book continues, more inquiries and requests for assistance undoubtedly will be received from him.

SUBJECT: HOUSE SUBCOMMITTEE ON CIVIL AND CONSTITUTIONAL RIGHTS OF THE COMMITTEE ON THE JUDICIARY

PURPOSE:

The purpose of this memorandum is to advise of an inquiry made by Mr. Thomas Breen, staff member of captioned Committee, regarding Lee Harvey Oswald.

DETAILS:

On 6-29-76, Mr. Thomas Breen, staff member of captioned Committee, telephonically contacted SA Danny O. Coulson of the Office of Congressional Affairs, and advised that Committee member, Christopher J. Dodd, had inquired of him the nature of the Bureau's response to a letter from Chairman Don Edwards of captioned Committee to the Attorney General on 10-29-75. This letter made nine requests for information from FBI files, the third request being the "Oswald file of some 69 documents which existed at the time of deliberations of the Warren Commission designating which documents were reviewed by the Commission and which were not so reviewed." Mr. Adams indicated that he would submit a statement for the records.

Mr. Breen advised that the Bureau's response to the request of 11-26-75 did not describe with specificity the 69 documents furnished to the Warren Commission. He further inquired as to which of these 69 documents were actually reviewed by the Commission.

A female Mexican national employed in the Consular Office of the Cuban Embassy in Mexico City identified Oswald as an individual who had called at the Cuban establishment in late September or early October, 1963, seeking a visa to Cuba in transit to the Soviet Union. The employee referred Oswald to the Soviet Embassy in Mexico City, advising him that a Soviet visa was necessary before issuance of permission to travel to Cuba. The employee of the Cuban establishment furnished Oswald her name and the telephone number of the Cuban Consular Office for future reference. Her name and the above telephone number were found in an address book among Oswald's personal possessions after his arrest on November 22, 1963. (U)

Nothing was developed which would support in any way the information furnished by Mr. Felt's unidentified source. (U)

BOOK REGARDING LEE HARVEY OSWALD
AND ASSASSINATION OF PRESIDENT KENNEDY
BEING WRITTEN BY EDWARD JAY EPSTEIN
RESEARCH (MATERIAL AFFAIRS)

Edward Jay Epstein, who has written about the findings of the Warren Commission in the past, is writing a book for the "Reader's Digest" bearing upon the assassination of President John F. Kennedy. The book will be devoted primarily to Lee Harvey Oswald and will attempt to trace all phases of his life.

Epstein visited FBIHQ early this year to discuss his plans to write this book. He was accompanied by Miss Pam Butler, who for the "Reader's Digest" has assigned to assist him on this project. Since that time, FBIHQ has received several requests from Epstein primarily involving public source-type information.

Miss Butler telephoned FBIHQ last week to advise that Epstein hopes to interview former Sic Clark D. Anderson in connection with this book. Through a source unknown to FBIHQ, Epstein is aware that Anderson was Legat at Mexico City at the time of the Kennedy Assassination. Anderson's last known address reflected in FBIHQ records is [redacted] Please contact him and advise him (a) that Epstein has been advised by a source unknown to the FBI that he was Legat in Mexico City at the time of the Kennedy Assassination;

(2) that Epstein has advised he hopes to interview Anderson in connection with the book he is writing about Oswald and the Kennedy Assassination; (3) that the FBI has not furnished Anderson's address to Epstein; and (4) that the decision of whether or not he should see Epstein is strictly one for Anderson himself to make. In connection with the last point, he should most tactfully be reminded of his pledge of confidentiality regarding data which came to his attention as a result of his official duties.

Epstein has also requested a list of the names and last-known whereabouts of the other Agents who were assigned in Mexico City during the Fall of 1963 and the early months of 1964. In the interest of protecting the privacy of the employees--past and present--involved, this information has not been given him. He has, however, been told that those Agents involved whose whereabouts are known to us would be informed of Epstein's interest in talking to them.

In addition to Anderson, 11 other such Agents are believed to be still alive. [redacted] of Mexico City is the only such Agent who is currently on the rolls. The others, together with their last known addresses, are the former Agents listed below:

RE: BOOK REGARDING LEE HARVEY OSWALD

[redacted]

With the exception of Mexico City, each Office receiving a copy of this communication should contact those former Agents identified above whose last-known address is in its Field Office territory. These former Agents should be told that Epstein has contacted FBIHQ in connection with the book about Oswald and the Kennedy Assassination which he is writing for "Reader's Digest." It should be pointed out to them that Epstein has requested--and, in the interest of protecting the privacy of those involved, has been refused--a list of the names and last-known whereabouts of Agents who were assigned in Mexico City in the Fall of 1963 and the early months of 1964. They should be advised that Epstein can be contacted through Miss Pat Butler of the "Reader's Digest," 200 Park Avenue, New York, New York 10017--telephone (212) 972-6175. Each of these former Agents should be told that the decision as to whether he desires to contact and/or be interviewed by Epstein is strictly his own to make; however, the FBI hopes that the pledge of confidentiality which he made while an employee will continue to guide his actions and any responses he may make to questions involving official investigations.

If any of these individuals has moved from the address listed for him above, no investigation or other action should be launched to locate him. Furthermore, FBIHQ need not be notified of the results of your efforts to contact these former Agents.

Enclosed for Miami and Los Angeles are two copies of FD-302 reporting interview of Wally Weston at Dallas, Texas, on 11/24/63.

Recent news stories have identified convicted Watergate burglar Frank Sturgis as the former CIA Agent who told reporters in Miami that Jack Ruby met with Fidel Castro in Havana during the summer of 1963, and discussed the possibility of assassinating President Kennedy. Sturgis is also alleged to have told the same story to the Senate Intelligence Committee. Sturgis' story was allegedly corroborated by Wally Weston, a former master of ceremonies (MC) at Ruby's nightclub in Dallas. Weston was interviewed recently by Miami TV newsman Glenn Pinker and allegedly told Pinker he could establish that Ruby and Lee Harvey Oswald knew each other before the assassination and that Ruby Ray, a former stripper at the Carousel Club, could corroborate his story.

Dallas advised that Frank Anthony Sturgis, also known as Frank Fiorini was interviewed in Miami on 11/27/63, 1/14/64, and 4/7/64, regarding his knowledge of Lee Harvey Oswald (Dallas 100-32555, FBI File 105-82427). These interviews

and additional information regarding Fiorini are found in Miami reports of SA James J. O'Connor dated 12/3/63, 1/25/64, 4/4/64, and 5/11/64. Although there is no indication that Fiorini was questioned regarding Jack Ruby in these interviews, there was certainly ample opportunity for Sturgis to furnish the information regarding Ruby to the FBI at that time if he, indeed, had such information.

It should be noted that the interview of Sturgis, aka Fiorini, on 11/27/63, resulted from a newspaper article quoting him as saying that Oswald had telephone conversations with the Cuban Government, G-2 intelligence during November, 1962. Fiorini, according to the article, claimed that Oswald contacted Miami-based supporters of Fidel Castro and that Oswald had connections with the Cuban Government in Mexico and New Orleans. The article further stated that Fiorini claimed that Oswald handed out pro-Castro literature in Miami in November, 1962, tried to infiltrate Cuban anti-Castro organizations in Miami and was known to have a bad temper.

When confronted with the above information on 11/27/63, Fiorini advised he had made some offhand comments to James Buchanan, author of the article, on the previous day. He admitted his comments were guesses, speculation and rumor based on information about Oswald which was carried in the press. He said he was passing on this speculative material and had no idea if it was true or false. The 1/14/64 interview also resulted from a newspaper article in which Fiorini was quoted as saying Oswald attempted to infiltrate several organizations in Miami including the Anti-Communist International Brigade (AIB) which was founded by Fiorini. When interviewed regarding this information, Fiorini said this information also was false. He further admitted he had no evidence that Oswald was ever in Miami.

Regarding Wally Weston, Miami will note from the enclosed FD-302 that Weston, when interviewed at Dallas on 11/24/63, said he had never known Ruby to have any particular interest in politics, he had never heard Ruby express any un-American sentiment and he had no reason to

Airtel to SACs, Dallas, Miami, Los Angeles
RE: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

believe Ruby was not a loyal American in every respect. Weston said it was his personal opinion that Ruby murdered Lee Harvey Oswald for two reasons. He felt one reason could have been Ruby's strong desire for national publicity which would result from his act, or Ruby, because of his violent temper, could have become angered at the murderer of a member of the Dallas Police Department, whom he felt were his friends. Weston said he did not believe Oswald's murder was connected in any way with Ruby's political beliefs or because of Ruby's sympathy for some foreign government.

Weston also stated during the interview that he doubted a statement by Bill Foster, another entertainer at the Carousel Club that he, Foster, had seen Oswald at the club and attributed the claim to Foster's desire for publicity.

In the recent newspaper interview, Weston said Ruby and Oswald were acquainted before the assassination. He relates an incident that occurred approximately three weeks before the assassination when a man approached him on stage and accused him of being Communist. Weston claims he jumped off the stage and hit the man who fell backward into Ruby's arms. Ruby then cursed the man and told him he had previously been told to never come to the club and threw him down the stairs. Weston now claims he later recognized newspaper photographs of Oswald as the man he punched. He stated his opinion was confirmed by Kathy Kay, a stripper at the Carousel Club. Kay allegedly told Weston that Oswald was the man Weston punched and she had danced with Oswald.

Bureau indices indicate Kathy Kay, aka Kathy Coleman nee Harvey, Kay Helen Colen, and Mrs. Harry Colen, was a stripper at Ruby's Carousel Club and a friend of Ruby. She was interviewed by the Oklahoma City Office following the assassination and denied any knowledge of the assassination or the incidents that followed. On 8/6/64, as Mrs. Harry Colen of 315 Chiapo, Long Beach, California, she gave a deposition to the Warren Commission at Los Angeles, California. She testified under oath that she had never seen Oswald at the Carousel Club and had never seen him or heard of him prior to 11/22/63. She was asked if Ruby knew Oswald and she said she did not think so.

RE: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

For the further information of Miami, the 5/22/75 edition of the Dallas 'Times Herald' carried an article entitled 'FBI Lyes on Ruby Strippers in John F. Kennedy Case.' The article, written by staff writer Lill Sloane alleges that Shari Angel, a former stripper at Jack Ruby's Carousel Club, and the ex-wife of Wally Weston, had been quizzed by the FBI on 5/19/75 regarding allegations that Oswald visited the club on two occasions shortly before the assassination. The article alleged the FBI was looking for Kathy Kay. A 5/23/75 follow-up article entitled 'Stripper Complained to Ex-spouse about FBI,' says that Shari Angel reported that her former husband was present during the FBI interviews and was also questioned. The 'Times Herald,' however, located Weston in Florida and he denied being present at the interview and advised he had not seen Miss Angel since shortly after they were divorced in 1964. He said he had spoken to her on the phone 'three or four times' during that period. Dallas, Los Angeles and FBIHQ found no record of any attempt to interview Angel, Weston, or Kay since immediately after the assassination and SAC, Dallas, so advised the 'Times Herald' in Dallas.

The following investigation should be conducted by mature, experienced Agents with thorough background in this matter. Aggressively pursue questioning to obtain specific details that can be verified or refuted. If considered appropriate at the end of interviews, furnish interviewee polygraph consent form and schedule polygraph examination to verify story. Telephonically obtain Bureau approval before conducting polygraph examination.

Miami thoroughly review your files regarding Frank Anthony Sturgis, aka Frank Fiorini, with emphasis on information he furnished in previous interviews in the Kennedy Assassination Case. Locate and interview Sturgis regarding information he alleges he now has regarding Jack Ruby meeting with Castro. Determine in detail the source of this information and why it was not furnished previously.

Locate and interview Wally Weston, former MC at Carousel Club, Dallas, Texas. Determine what information he has to confirm Sturgis' statement regarding Ruby and Castro. Further determine the basis for his belated identification of a patron at the Carousel Club in 1963 as Oswald. Note that Weston was interviewed two days after

the assassination and did not recall the incident at that time even though he was willing to question an allegation by another entertainer, Bill Power, that Oswald had been seen in the club. Determine the date and place of Kathy Kay's alleged corroboration of Weston's identification of Oswald.

Los Angeles conduct logical investigation to locate Mrs. Harry Colen (formerly Kathy Kay). Determine if she ever told Wally Weston that Oswald was the man Weston punched at the Carousel Club and that she had danced with Oswald at the club.

Dallas review your files for any recent information to assist Miami and Los Angeles in locating Sturgis, Weston, and Kay.

Miami and Los Angeles submit results of investigation in form suitable for dissemination.

NOTE: New York "Daily News," Dallas "Times Herald," UPI and other news outlets have carried recent stories quoting a former "CIA Agent" as saying that Jack Ruby once discussed the assassination of President Kennedy with Fidel Castro. Later stories identified the "CIA Agent" as Frank Sturgis, a "contract operative, that is not a regular payroll employee," who worked for the CIA in Cuba. The story also stated that Sturgis, who became well known as one of the Watergate burglars, recently testified before the Senate Intelligence Committee. Other news articles report that Wally Weston, former MC at Ruby's Carousel Club, could corroborate Sturgis' story and establish that Ruby knew Oswald before the assassination. This furnishes background data to Miami and Los Angeles and instructs those offices to conduct aggressive interviews to either verify or refute the information furnished by Sturgis and Weston. The proposed interview of Sturgis was coordinated with Mr. Theisen of the Special Accounting Matters Unit who advised there are no Watergate related charges outstanding against Frank Sturgis.

WALLY WESTON was interviewed at the Ecstra Lounge, 1326 Jackson Street, Dallas, Texas. He advised at the present time he is filling an entertainment contract at the Kings Club in Oklahoma City, Oklahoma and he is visiting in Dallas only temporarily. He maintains an apartment in Dallas at 4617 Samuels Boulevard, Apartment 131. WESTON stated he and his wife SHARI ANGEL WESTON, who is an exotic dancer known as SHARI ANGEL, are both acquainted with JACK RUBY, owner of the Carousel Club on Commerce Street in Dallas. WESTON continued he has known RUBY intimately for three or four years and worked for RUBY at the Carousel Club for fourteen months as master of ceremonies. He said he presumed that his continued friendship with RUBY has come about as a result of his respect for RUBY'S eccentricities and temper. He said over his period of acquaintance with RUBY, he has known when to discontinue an argument with RUBY before RUBY had an opportunity to become violent. He has known RUBY to become so infuriated at a person in an argument, RUBY would strike the person with whom he was arguing. He stated RUBY was a very impulsive person who would make a statement at a time of one of his temper tantrums and later he would have completely forgotten the incident which provoked such a remark. On one occasion he became extremely angry at a drummer in his orchestra and threw him down a flight of stairs and two days later he asked the drummer why he hadn't reported for duty, having completely forgotten that he told the drummer, "you can't quit because I fired you", at the time he threw him down the stairs. WESTON stated this was typical of RUBY'S impulsiveness. WESTON said he has never known RUBY to have any particular interest in politics nor has he been a member of any organizations that WESTON could recall. WESTON said he has never heard RUBY express any Un-American sentiment and he had no reason to believe RUBY is not a loyal American citizen in every respect. He advised RUBY has always had a strong desire to be somebody and he is a "publicity hound". WESTON pointed out when the United States was swept by the 50-mile hike craze, he and RUBY conceived a plan for WESTON to make a 50-mile hike for publicity purposes for the Carousel Club. RUBY was to contact the news media in Dallas and create as much publicity on WESTON'S hike as possible; however, RUBY failed on the publicity part and the hike did not receive the publicity they both anticipated.

on 11/24/63 at Dallas, Texas File # DL 44-1639

by Special Agent ARTHUR E. CARTER & CHARLES T. BROWN, JR./cjr Date dictated 11/25/63

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to

WESTON said RUBY is continuously seeking to promote business for himself at the Carousel Club and because of this, he is friendly and tried to be friendly with persons he thinks will be good for his business. RUBY has spent much time around the Police Department in Dallas, the Sheriff's Office and other public places handing out business cards entitling the person receiving same to admittance to the Carousel Club and free drinks as a guest. WESTON said he knew RUBY had many friends at the Dallas Police Department as a result of promotional activities. He stated it was his personal opinion and belief that RUBY possibly murdered LEE HARVEY OSWALD for two reasons. He felt one reason could have been RUBY'S strong desire for national publicity which would result from his act or RUBY, because of his violent temper, could have become angered at the murderer of a member of the Dallas Police Department, whom he felt were his friends. WESTON said he did not believe OSWALD'S murder was connected in any way with RUBY'S political beliefs or because of RUBY'S sympathy for some foreign Government. He added he has never heard RUBY criticize the American form of Government, the leaders of this country, nor has he ever expressed any radical ideas. WESTON recalled RUBY was extremely sensitive about his being of Jewish extraction and for that reason WESTON had received specific instructions from RUBY that in his job as master of ceremonies he was to stay completely away from any jokes or comments of a racial or political nature.

WESTON said he knew RUBY did have a gun in his possession based on the following instances. About eight months ago there was an attempted burglary at the Carousel Club, which was discovered by RUBY upon his entrance into the club. RUBY ran down the back stairs of the club to his automobile, which was parked on a nearby street, secured a gun from the automobile and returned to the club, thinking the burglars still might be in the club. About six months ago two customers arriving at the club were approached by one of the club employees to pay their $2.00 fee for entrance into the club. These customers reported they had paid $2.00 to two young men who were standing at the downstairs entrance to the club as they entered. RUBY ran down the stairs just in time to see the two young boys running up the street. RUBY ran to his automobile which was nearby, got his pistol out of the trunk of the car, put it in his shirt, and began looking around for the boys. Shortly thereafter the two boys were apprehended by officers of the Dallas Police Department, at which time they were returned to the Carousel Club. When the officers took the boys to RUBY to inquire whether he wanted to file charges against the boys, RUBY hesitated and then instructed the officers to forget the whole matter because there was so little money involved.

RUBY instructed the police to admonish the boys for their actions and then to release them.

WESTON concluded by advising because of RUBY'S peculiar personality and violent temper, RUBY has no close personal friends. WESTON stated he felt he was possibly closer to RUBY than anyone else he knew, because over the period of three or four years, he has learned how to get along with RUBY. He added with regard to the incident when entertainer BILL DE MAR who is presently appearing at the Carousel Club reported he had seen LEE HARVEY OSWALD at the club, WESTON did not feel DE MAR could have recognized OSWALD because of the difficulty experienced in recognizing persons in the audience from the stage. WESTON pointed out a performer has a spotlight shining in his face while he is on stage and it would be very difficult for the performer to recognize anyone looking into the audience from the stage. He felt DE MAR had made the claim he saw OSWALD in the audience because of DE MAR'S desire for publicity.

Mr. WESTON said he has not seen RUBY since the President's assassination on November 22, 1963 and he is unable to account for his whereabouts since that time.

SENSTUDY 75

PURPOSE:

To advise of report that Ron Kessler of the "Washington Post" intends to write an article on the Oswald case, alleging there was an FBI/CIA cover-up of a Cuban involvement in the assassination of the late President Kennedy.

DETAILS:

On the afternoon of 8/31/76 Nathan L. Ferris (former Legal Mexico; retired and now residing in Washington, D. C.) telephoned writer and advised as follows.

He was contacted by Ron Kessler of the "Washington Post" who said he was planning to write an article on the Oswald case and specifically covering an alleged cover-up by the FBI and CIA of the Cuban involvement in the assassination of the late President Kennedy. Ferris suspects that Kessler got his name from the Senate Select Committee on Intelligence Activities, which at one time tried to interview Ferris. (Ferris would not submit to a voluntary interview and was never subpoenaed.) Ferris told Kessler that he did not give any press interviews. Kessler then wanted to know who else was at the Legal Mexico Office during the pertinent time, and Ferris told him he did not know. Kessler asked specifically whether Clark Anderson (also a former Legal Mexico) was there during some of the pertinent time. Ferris acknowledged that he was, but in response to Kessler's inquiry as to Anderson's current whereabouts, Ferris reported that he did not know.

ACCORDING TO EPSTEIN, DE MOHRENSCHILD LEFT WITH AN UNNAMED LAWYER IN DALLAS, TEXAS, A PHOTOGRAPH OF OSWALD HOLDING A RIFLE. THIS IS NOT BELIEVED TO BE A NEW PHOTOGRAPH, BUT ONE WHICH IT IS BELIEVED FBI HAS SEEN BEFORE. HOWEVER, ACCORDING TO DE MOHRENSCHILD, THE PHOTO HE LEFT WITH THE LAWYER WAS INSCRIBED BY MARINA OSWALD WITH THE FOLLOWING: "LONG LIVE THE ASSASSINS." BOCCA HAS LONG BEEN OF THE OPINION THAT THE KENNEDY ASSASSINATION WAS AN INTERNATIONAL ESPIONAGE CASE IN THAT OSWALD WAS USED BY THE SOVIETS. BOCCA ALSO RAISES THE QUESTION COULD THIS BE DE MOHRENSCHILD DEATH BE THE WORK OF THE SOVIETS RATHER THAN SUICIDE.

EDWARD J. EPSTEIN IS STAYING AT THE BREAKERS, KEY WEST, FLORIDA, TELEPHONE NUMBER (305) 655-6611, EXTENSION 4179.

MIAMI SHOULD IMMEDIATELY INTERVIEW EPSTEIN REGARDING REVELATIONS MADE TO HIM BY DE MOHRENSCHILD. MIAMI SHOULD USE WILLIAM O. GREAR'S NAME AND EPSTEIN'S TELEPHONE CONTACT WITH RAY BOCCA TO SUBSTANTIATE BONA FIDES FOR INTERVIEW. SINCE PROBABLY NO ONE IN THE MIAMI OFFICE IS COMPLETELY FAMILIAR WITH OSWALD CASE, TELL EPSTEIN THAT, BUT THAT YOU WOULD LIKE TO HAVE ALL THE INFORMATION DE MOHRENSCHILD FURNISHED EPSTEIN WHICH WOULD CONSTITUTE NEW REVELATIONS OR SUBSTANTIATE INFORMATIO

MIAMI SHOULD INTERVIEW EPPSTEIN, GET ALL THE INFORMATION HE HAS BEEN ABLE TO OBTAIN FROM DE ROTHSCHILD, SEND IMMEDIATE TELETYPE TO FBIHQ, AND FBIHQ WILL EVALUATE TO DECIDE WHAT LEADS SHOULD BE SET OUT FOR OTHER OFFICES INVOLVED.

BECAUSE OF THE POSSIBLE SIGNIFICANCE OF NEW REVELATIONS, EPPSTEIN SHOULD BE ENCOURAGED TO REFRAIN FROM FURNISHING THESE REVELATIONS TO ANY OTHER POLICE AGENCY OR NEWS MEDIA UNTIL SUCH TIME AS THE NEW REVELATIONS CAN BE EITHER SUBSTANTIATED OR PROVEN FALSE.

IN ADDITION, MIAMI TAKE STEPS TO DETERMINE WHETHER THERE IS ANY PROBABILITY OR POSSIBILITY THAT DE ROTHSCHILD'S DEATH COULD HAVE BEEN OTHER THAN SUICIDE.

IMMEDIATE TELETYPE TO FBIHQ CONCERNING EPPSTEIN'S INTERVIEW SHOULD NOT BE DELAYED TO GATHER ADDITIONAL FACTS REGARDING DE ROTHSCHILD'S DEATH.

REBUTELCALL TO MIAMI MARCH 29, 1977.

AT 7:10 P.M., MARCH 29, 1977, MR. RAY ROCCA, FORMER CIA INTELLIGENCE OFFICER, TELEPHONICALLY CONTACTED WILLIAM O. CREGAR, DEPUTY ASSISTANT DIRECTOR, INTELLIGENCE DIVISION, FBIHQ, AND ADVISED THAT MR. EDWARD J. EPPSTEIN (PH.), WHO IS AN OUTSTANDING INVESTIGATIVE REPORTER DOING RESEARCH UNDER A CONTRACT WITH READER'S DIGEST LOOKING INTO THE KENNEDY ASSASSINATION, TELEPHONICALLY CONTACTED ROCCA EARLIER IN THE EVENING. EPPSTEIN ADVISED THAT HE HAD BEEN INTERVIEWING ONE (FNU) DE MOHRENSCHILD. DE MOHRENSCHILD HAD BEEN DEPOSED BY THE WARREN COMMISSION. ROCCA BELIEVED THAT DE MOHRENSCHILD'S DEPOSITION WAS INCOMPLETE, INADEQUATE AND PROBABLY DID NOT REPRESENT DE MOHRENSCHILD'S COMPLETE KNOWLEDGE OF THE MATTER. EPPSTEIN DEBRIEFED DE MOHRENSCHILD AND ON THE FIRST DEBRIEFING OBTAINED "EXTRAORDINARY REVELATIONS." FOLLOWING AN EARLY MORNING DEBRIEFING
